Presentation to City of San Diego Redistricting Commission

June 25, 2011

Seeking Input

- Have met with individuals from neighborhoods throughout San Diego
- SDCTA has developed options for consideration that reflects feedback received
- Options amend Districts 1,2, 5,6 within San Diego Neighborhood Plan

San Diego County Taxpayers Association

Keeping La Jolla Whole

- Spoken with Community Leaders
- Important to Keep La Jolla Whole
- Currently District 2 has a piece of La Jolla

Option 1 – District 1(La Jolla Whole)

- Current population = 144,312 or -312 from target
- Add Bird Rock area in Southern La Jolla to D1 (+4,000)
- New D1 population = 148,312 or +4,000 from target
- New D2 population 140,617
- Tradeoff: Larger Deviation and not using natural mountain boundaries

San Diego County Taxpayers Association

Option 2– District 5

- Community Input; important to keep Mira Mesa Whole
- Current population = 144,367 or -257 from target
- Cut on the 805 ,add the entirety of Sorrento Valley from D6 to D5

- New D5 population = 149,334 or +4,710 from target
- New D6 population =140,545
- Puts Sorrento Valley together with Mira Mesa

- Tradeoff: Larger Population Deviation

San Diego County Taxpayers Association

Conclusion

- Option 1 will increase the Neighborhood Map's population deviation from 1.1% to 5.32%
  - La Jolla Community is kept whole
  - District cut follows no natural boundary
- Option 2 will increase the Neighborhood Map's population deviation from 1.1% to 6.07%
  - Sorrento Valley added with Mira Mesa
  - Cut along Natural 805 boundary
  - Increases population deviation significantly
- Keep in mind the complexities of Redistricting, important to keep communities together, but must also consider population deviation
