1. DGS ROW. Minor	$2,190.90
2. Increment Rate (for 2 sidewalk	$1,190.90
3. Increment Rate (for sheet over 3)	$1,190

4. Grading Permit and/or Right of Way
1. The Table DGS below lists the plan check fees for Grading and Right of Way Permits (other than minor)
2. Table DGS, Increment Rate, Sheet Over 3 ..... $ 1,190.90
3. Plan check fees are due at the time of project submittal and are calculated based on the requested approval type (s)
4. The fees are verified during plan review and updated as appropriate
5. Project changes made during staff review may result in additional plan check fees that must be paid prior to subsequent reviews or approval of plans.

An additional hourly fee will be assessed for projects when corrections have not been completely addressed by the third review cycle.

III. Inspection Fees/Deposits

Inspection of Public Right-of-Way Permits and Grading Permits are inspected by the Transport and Utility Division (TUD). Field Inspection Team (FIT), inspection fees/deposits are collected during permit issuance.

1. Inspection Fees
An inspection fee may be charged instead of an inspection deposit for standard public improvements constructed by the Regional Standard Drawings (RSD) and Standard Plans (SP). Fees are based on the type of improvement, such as: Sewer, Storm Drain, Water, Street Lighting, Street Trees and grade, curb ramps, sidewalk underdrains, curb ramps, excavation of underground utilities, and street paving restoration. Fees also include the pre-construction meeting, mark out, international coordination, construction stormwater Best Management Practices (BMP) inspection, and the final inspection. Refer to the Fee Schedule for the Inspection Fees for Public Improvements and Services conducted by Engineering and Capital Projects (E&CP) on regular inspection and overtime basis in Other Fees Section 1.

DGS ROW. Minor (I)

1. Linear projects (0-300 LF).....	$2,190.90 total
2. Linear projects (301 to 750 LF).....	$4,190.90 total
3. Linear projects (751 LF and above).....	$6,190.90 total
W. Wet utility (p).....	$1,190.90

B. Excavation

1. Voluntary removal and replacement = $2,190.20	
2. Television linear projects (Including sewer television testing) = $2,190.90	
3. Television linear projects (Sewer TV (included) sewer restoration testing) = $4,190.90	
4. Television linear projects (Sewer TV (included) sewer restoration testing) = $1,100 = $4,500.90	
5. Television linear projects (Sewer TV(included) sewer restoration testing) = $3,690.90 = $1,100 = $5,100 = $6,690.90	
6. Single family residential sewer laterals (Sewer TV, sewer, cleanout, trenchless sewer, sewer lateral, sewer cleanout, including sewer restoration) = $2,190.90 = $1,100 = $3,190.90 = $1,100 = $4,290.90	
7. Wood curb, curb mitigation, sidewalk underdrains, curb ramps, gutter, sidewalk, driveways, curb outlet, ADA curb ramps, 3 water laterals, 3 sewer laterals, 1 storm drain lateral, 1 gas service, including street restoration = $3,690.90 = $1,170.52 (wc utilities) = $4,860.90	

Larger square projects may need to be converted to being submitted as a deposit account (See A. Inspection Deposits below).

A. Inspection Deposits
Table DGS - Inspection Deposits, Minimum Deposit required at permit issuance. The inspection deposit is established from the approved construction cost estimates of the public right-of-way improvement work, grading, landscape and irrigation and drainage improvements. The deposit is based on the type of improvement, such as: Sewer, Storm Drain, Water, Street Lighting, Street Trees. Refer to Section that contains the Construction Cost Estimates Templates to prepare the estimate for your project.

Inspection deposits are based on a minimum or a fixed amount, or a percentage of the cost of the inspection of your project. The Financially Responsible Party (as identified on the Deposit Account Financially Responsible Party form, PS-1246) will receive a monthly deposit account statement. Deposits are due within 30 days of the invoice date. Failure to make timely payments may result in suspension of work. Unused deposits and balances will be refunded. Deposits are non-refundable if work is completed or cancelled 24 hours advance notice when requesting an after hours inspection. The city will request to all requests within 24 hours or sooner.

Fees are non-refundable once inspection has been performed. Fees are required. If needed, inspections may occur before 7 a.m. or after 6 p.m., Monday through Friday, and, in some instances, during the weekends. An approved Traffic Control Permit will provide the dates and times authorized for the work. Inspections performed outside of the 24 hours advance notice when requesting an after hours inspection. The city will request to all requests within 24 hours or sooner.

- **As-Graded Geotechnical Report**
  The following fee is charged upon submittal of an As-Graded Geotechnical Report on Grading or Grading/Right of Way Permit.
  - Site Area of Grading/Right of Way Permit Fee Table of $140,865..... $601.80

IV. Administrative Fees

The following fees are paid at the time of project submittal or permit issuance, as indicated below. These fees are in addition to the fees in deposits required for the plan review and inspection of the project.

1. Revised Plan Review
This fee is charged at project submittal for all projects that include a Right-of-Way Permit. The General Plan Maintenance Fee provides for the maintenance of the City's General Plan and Zoning Code. The fee is calculated based on the Planning Department. It is non-refundable and collected once per project. Projects that do not require plan review are not subject to the fee.

General Plan Maintenance	$157

2. Mapping Fee
This fee is charged at project submittal when plans, drawings, maps, or other geological documents are utilized for project review.

Mapping Fee.....	$10.10

3. Fee Collection – Other Agencies/Departments
This fee is charged at permit issuance for fees collected by the DSI for other departments/agencies (e.g., Planning Department General Plan Maintenance Fee, Engineering & Capital Projects Administrative Fee).

Fee Collection – Other Agency/Department.....	$14.20

4. Revision Fee for Mapping/Subdivision
This fee is charged upon submitting final mapping documents for recordation with the County Recorder.

Recordation Fee for Mapping/Subdivision	$586.40

5. County Recording Fees
This fee is charged at permit issuance to cover the cost charged by the County of the Recorder, the Recorder/County Clerk Fee Schedule.

6. Long Term Monitoring Fee
This fee is charged at permit issuance for grading permit projects with a cost estimate of $100,000 or greater to monitor project compliance with stormwater, environmental mitigation, slope revegetation, and other permit conditions on an ongoing basis after projects have been completed and a final inspection has occurred.

- Cost Estimate $100,000 to $500,000..... $2,172.00
- Cost Estimate Over $500,000..... $5,565.90

7. Express Plan Check
When available, a reduced review period can be accomplished by paying an Express Plan Check Administrative Fee of 50% of plan check fees. The regular plan check fee is still due in addition to the express fee.

8. Street Damage Fee
This fee is charged and may be assessed in partially recover the increased repaving and reconstruction costs incurred by the City attributed to the wear and tear on the public right of way. This fee is calculated based on the Pavement Impact Factor (Average Cost-ACIM / ACI-ACIM) and is calculated by the reviewer during the project review. The fees are calculated considering the limits of the proposed excavation as shown on the plans, the pavement condition, the type of street, the proposed pavement repairs and are dependent on the impacts and methods proposed in the project design. These fees are collected at permit issuance.

- **Running on Remaining of Public Streets or Other Public Rights of Way**
  Approval from the City Engineer is required if an applicant is seeking to remove public streets and other rights of way, which includes private streets, private driveways, non-dedicated roads for City property and alleys. A separate fee will be assessed for this service. *Approval from the City Engineer is required if an applicant is seeking to remove public streets and other Public ROW and will require City Council approval and shall be authorized as an alternative open meeting or planned agenda item.*

    - Private S..... $1,172.80
    - Private D..... $1,172.80

9. Deviations from Standard
During the course of standard reviews, if it is determined that the proposed improvements cannot meet standards, a Deviation from Standards is approved shall be obtained. This may be requested by completing the Deviations from Standard form and paying the non-refundable fee as per permit type.

Deviations from Standard (per form).....	$1,393.20

V. Other Fees

1. Application Extension of Time Request
Applications for Grading/Right of Way Permits or Process Mapping actions expire two years from the date the application is deemed complete. Applicants may request an extension of time to complete the project prior to the expiration date. Fees are required for submittal of a request for an extension. Refer to the Application Extension Request for Grading/Right of Way and Mapping Projects.

Extension of Time Application.....	$140.60

2. Permit Extension Fee Request
A non-refundable fee is collected when applicants request an extension of time on an issued Grading and/or Right of Way Permit. To request an extension of time, complete an Application for an Extension of Time for Grading/Right of Way Permits (Form PS-1246).

Permit Extension.....	$1,393.20

3. Retaining Wall Permit
This non-refundable fee is collected when applicants are requesting a partial bond release.

Retaining Wall Permit.....	$586.40

4. Construction Change Fees
An hourly plan check fee (deposit) will be assessed and invoiced before the construction change is placed into review. Additional plan check fees will be assessed at the time of permit issuance.

Stormwater Pollution Control Measures (SPCM) Significant (ASBI) Inspection Fee
The Regional Water Quality Control Board requires inspections of construction sites for compliance with the Stormwater Pollution Control Measures (SPCM) on a regular basis. During plan review, all projects are classified as ASBI, High, Medium, or Low Priority according to their potential threat to water quality and assigned inspection frequencies based on the priority. Inspections are performed at a frequency commensurate with the priority. This fee covers the first two (2) Stormwater Inspections performed beyond normal inspections. If more than two (2) additional Stormwater Inspections are required, additional Stormwater Inspection Fees will be assessed by Inspection Unit.

Traffic Signal, Simple*	per intersection	$879.60
Traffic Signal, Standard*	per intersection	$2,786.30
Traffic Signal, Complex*	per intersection	$5,132.90

At the time of initial project submittal, projects that include only modifications to existing traffic signals will be charged the "simple" fee. Installation of new traffic signal will be charged the "standard" fee. Modification to traffic signal equipment, Continuation of the definition of simple, standard or complex below will be made during review, and the fees will be adjusted accordingly.

- *Simple traffic signal plan check means modifications to an existing traffic signal such as replacing signal heads (white or pedestrian), adding or removing signal heads, adding or removing pedestrian push buttons, adding or removing pedestrian countdown timers, adding or removing vehicle, no changes to traffic signal phasing or changes to the existing phasing, and minor modifications to existing conflict, conflict or contrasts as determined by the reviewer. Following initial review may determine traffic signal review requires standard or complex review.*
- *Standard traffic signal plan check means the installation of a new traffic signal or modification to an existing traffic signal where the modification involves changes to the existing phasing, or the addition of a new phase, or modifications to existing conflict, conflict or contrasts that the reviewer deems as not requiring complex review. Following initial review may determine traffic signal review requires complex review.*
- *A complex traffic signal plan check means coordination with other jurisdictions such as Caltrans, MTS, Airport Authority, neighboring cities, or other agencies, or involves complex phasing, or involves modifications to existing conflict, conflict or contrasts that the reviewer deems as complex, involves business, or involves unusual or non-conventional construction, changes to grade numbering, replacement or relocation of controller, or involves drain inlet conflicts at curb ramps, requires assessments of private driveways or projects to relocate existing traffic signal facilities from private property to public right-of-way, or involves a traffic signal that is part of a larger project, or involves a traffic signal that is part of a project that will require right-of-way acquisition, traffic signal facilities conflict with existing or proposed utilities or structures, conflicts or concerns as determined by the reviewer. Following initial review not covered within this description.*
