ACTION ITEMS In following the procedures of the city, if any non-member has a comment on any agenda items, they will be afforded the opportunity to make a comment prior to each voting item. Comments will be limited to 3 minutes and are non-debatable.

101. Fiscal Year 28 Draft Budget: Discussion included concerns the CRG will not have funds after FY 2029. Field maintenance was the main concern. The CRG agreed we (CRG) need to meet with representatives from from the user groups and strongly encourage them to consider donations for the field maintenance. This would be by explaining how much is needed and how much we have to maintain the fields. Members also voiced concern that most of the field damage has been due to the CIP project and the CRG wants staff to make sure the contractor addresses the damages prior to the contractor being paid for the project. It will cost approximately $90,000 to get all the fields back in great shape. We need to consider re-allocating funds from events such as the winter event towards field maintenance as the fields are used by a great population than an annual three hour event. Discussion on discontinuing the movies in the park due to much lower turnout over the years. Laurie Madsen, resident in the audience, confirmed the turn out is much less than years past. Since we have this activity in other parts of the community, CRG can work directly with staff on a new, fun, community-based activity in lieu of a movie. Motion made Trevor Christensen/Dani Antique to reject staff's proposed FY-28 budget and have them present a revised version at our November meeting, incorporating our suggestions. Motion passed unanimously.
