SAN DIEGO, CALIFORNIA

FACTS ABOUT THE CITY

Prepared by the Publicity and Research Departments of San Diego Chamber of Commerce

San Diego, today one of the fastest growing cities of the West, is the oldest city on the Pacific Coast. San Diego Bay, declared to be one of the three best natural harbors on the Pacific Coast, was discovered in 1542 by Juan Rodriguez Cabrillo, a Portuguese navigator in the service of Spain. In 1602 Sebastien Viscaino, a Spanish explorer visited the beautiful bay and named it San Diego, popularly supposed to mean Saint James, but more recently interpreted as Saint Didacus.

The first white settlement on the Pacific Coast was established at San Diego in 1769 with the founding of the Mission San Diego de Alcala, the first of the long chain of California missions, by Father Junipero Serra. The Pueblo of San Diego was organized in 1834, and in 1846 John C. Fremont raised the American flag at San Diego for the first time in California. Significant also is the establishment of the first irrigation system in America at San Diego, and the introduction of olive trees.

During the past seven years the community has more than doubled its population, and today its population is conservatively estimated at 150,709. Bank debits for 1926 amounted to $740,691,951, bank deposits $78,000,000.00. These figures are at least double what they were in 1920, and the building permit record is nearly five times as great.

San Diego is exceptionally situated with respect to land, air and water transportation. The first American port of call on the Pacific Coast above the Panama Canal, the city is becoming a busy seaport as the deep, sheltered harbor is developed. Regular steamship lines serving San Diego have increased from 4 to 24 in the last seven years.

Two transcontinental railroads terminate at San Diego. It is the western terminus of the Lee or Bankhead highway, the Borderland highway, the Victory highway, the National Old Trail, and the Old Spanish Trail, the last named stretching from St. Augustine to San Diego, and designated as the official border highway for the War Department. By air, rail and water San Diego is closer than any other Pacific Coast port to every point south of Chicago and east of the Mississippi.

The city is situated on an eminence overlooking the broad bay and the Pacific Ocean, banked by picturesque mountains. Practically every climatic condition existing within the United States can be duplicated in San Diego County, an area nearly equal to the State of Connecticut. From the tropical avocado and orange groves to the northern apple and wheat fields; from 30 inches of rainfall in some sections to desert conditions in other quarters, is the remarkable variation that can be experienced in a day's ride throughout San Diego County.

The City of San Diego, however, is noted for its equable climate, varying only 10 degrees between the mean winter temperature of 58 degrees and

mean summer temperature of 68 degrees. Although popular with tourists as both a cool summer resort, and warm winter resort, the city is coming to be an important distribution center for the Pacific Southwest. Arizona and Imperial Valley is its rich back country, and San Diego is the logical outlet for this territory.

San Diego county is second in variety of minerals among California counties. Among those minerals worked at present are: Gold, gems, feldspar, bentonite, lithia, granite, crushed stone, silica, clays and limestone. Included in the county's principal agricultural products are: Alfalfa, almonds, apples, apricots, avocados, barley, beans, cherries, corn, figs, grapes, grapefruit, hay, honey, kaffir corn and milo maize, lemons, olives, oranges, peaches, plums, prunes, potatoes, tomatoes and walnuts.

Capitol of the 11th Naval District which is the second largest Naval district in America, the army and navy operations are one of San Diego's biggest industries. Rockwell Field, the army flying field; Camp Hearne, the cavalry unit; Fort Rosecrans, the coast defense; the Naval Air Station, the Destroyer Base, the Naval Training Station, the U. S. Marine Base, the Naval hospital, the Naval storehouse, and the Chollas Heights radio station are among the larger military units located in San Diego, representing a $35,000,000 investment.

The city of San Diego has many attractions, among them Balboa Park, third largest city park in America, situated in the very heart of this metropolis. Among the features of Balboa Park, which covers 1400 acres, are the famous zoological gardens of international reputation, the fine arts center including the massive Spreckels' outdoor pipe organ, the art gallery, the art institute, the scientific library and museums of natural history, Indian Mexican and Oriental civilizations, archeology, anthropology and miscellaneous collections. This cultural center was the scene of the Panama-Pacific exposition in 1915-16. Located in this park also is the Boy Scout Indian Village, Girl Scout camp, the municipal golf course, and other recreational features.

There are numerous points of historical interest such as Ramona's marriage place, and the three missions: San Diego de Alcala, Pala and San Luis Rey. On Point Loma, described by the Encyclopedia Americana as one of the three finest views in the world, is located the International Theosophical headquarters.

In the back country is a chain of beautiful mountain lakes forming the city and county's water supply.

Few places in the world offer the diversification of industry, agriculture, recreation and living conditions as does San Diego and its environs.

POPULATION

There are in this directory, issued by the San Diego Directory Co., publishers of the San Diego Directory for the past twenty-four years, 74,130 names in the alphabetical section. Using the multiple of 2¼, as has been the custom in previous years, to allow for the names of wives, which, although appearing in parenthesis following the name of the husband, are not included in the count, and the names of the children under age living at home with their parents, which are not included, gives San Diego a population of 166,792, an increase of 7,708 since the last directory published by the San Diego Directory Co. issued in 1927.

But the growth of the city or its advancement is not to be indicated by mere figures. The pages of this volume present evidence of general civic, social and commercial advancement, new business blocks, new dwelling houses and new factories, which with the quality and calibre of the people, means a progress even more important to a municipality than mere number of inhabitants.

DIRECTORY LIBRARIES

Copies of the latest editions of Directories of other cities throughout the United States and Canada are on file in the Directory Libraries maintained at the Merchants Association, 608 Electric Building, and at the Chamber of Commerce, Broadway and 2d, where they are accessible to the general public for single free reference.

MUNICIPAL PUBLICITY

Advertising San Diego

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site and as an educational center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country the publishers place copies of this issue of the Directory in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of San Diego, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves and their friends for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

SAN DIEGO DIRECTORY CO.,
Compilers and Publishers.

MISCELLANEOUS INFORMATION

Information pertaining to City, County, State and Federal Government, Churches, Consuls, Parks, Public Schools, Secret and Fraternal Societies, State Societies, Trade and Labor Organizations, Etc., will be found in Alphabetical Section, or under proper heading in Classified Section.

In line with the economic trend to standarize all generally used products, THE ASSOCIATION OF NORTH AMERICA DIRECTORY PUBLISHERS has decided to make, and is now making, all city directories published by Association members conform to certain standards in regard to make-up, compilation and classified business headings which will simplify and facilitate their use.

CEMETERIES

GLEN ABBEY GATEWAY

Glen Abbey Memorial Park

SAN DIEGO'S MODERN CEMETERY

This beautiful Memorial Park is a full realization of the most modern conception of a fitting tribute and permanent memorial to our departed.

ALL UNDER PERPETUAL CARE

Readily accessible, yet happily isolated from the turmoil of the city and forever protected from undesirable encroachment. Two miles east of Chula Vista on concrete highway leading to Bonita.

CHIROPRACTORS

A NEW DISCOVERY

I tell you what ails you
without asking a question.

HOW?

Every organ of the body has its corresponding area in the iris of the eye. By certain signs and markings in the iris, I can tell you not only the diseases with which you are afflicted, but also the operations you have undergone and the drugs and serums you have taken. This discovery is called IRIDIAGNOSIS or diagnosis from the eye. Let me prove this by coming to my office to get a FREE iridiagnosis.

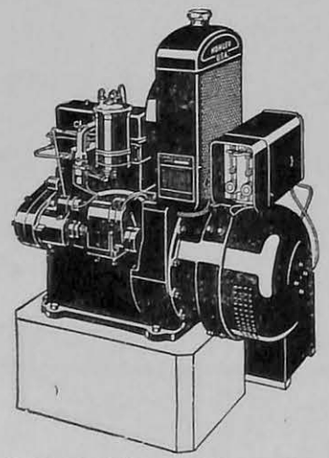
ELECTRICAL



KOHLER OF KOHLER
Automatic Electric Plants
110 *Volt D.C.* *No Storage Batteries*

Lots of Good, Live Electricity

That's the plain American of what you want in a power and light plant. And that's what the Kohler Automatic gives you.

Plenty of power for all sorts of uses. Plenty of light. 110 volt current (city standard): carries long distances—all over your place. Automatic operation. No storage battery (except small starting battery). Economy. Safety. Dependability.

BUILT IN 800, 1500, 2000, 5000 and 10,000 WATT SIZES.

Convenient payments.

ENGRAVING

SCRIBNER BROS.

MANUFACTURING JEWELERS

JEWELRY MADE TO ORDER

Corner Eighth and Broadway—Entrance 725 Broadway

San Diego, Calif. Main 2535

TO OUR FRIENDS AND PATRONS:

We would like to take care of your jewelry for you, make it over when necessary, supply new stones for your mountings when lost, or new mountings for your diamonds and other stones to bring them up to date.

We will take care of your watch also, at a money-saving price for the best of work.

We guarantee all our work, use nothing but 18-k in our White Gold special order work and finish it up in a clean and smart manner that brings our customers back once they have been here. If you like our work we are pleased and if you feel that we have given you better work for less, we are still more pleased.

We make a specialty of covering wedding rings, and engraving or chasing them. We do not plate them but cut them down and lay on a heavy piece of 18-k White Gold or Platinum that will wear many years.

Hoping to be of service to you in the near future, SCRIBNER BROS.

MOUNTAIN LILY GEM MINE

The Sparkling Spot of San Diego County

Here are produced the beautiful Precious Blue Topaz—Emeralite—Golden Beryl and Blue and Green Tourmaline.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.
