DEPARTMENT OF PARKS
225 CITY HALL
LOS ANGELES, - - CALIFORNIA

April 20, 1937.

City Council,
San Diego,
California.

Honorable Members:

Park Administrators including Commissioners and Executives in charge of municipal parks in the State of California have formed a permanent organization.

This organization will pay particular attention and interest themselves in a program of park improvements and public service. Our foremost objective is to effect all possible economies and to have closer contacts with individuals and groups thru our public relations committee. Furthermore we propose to make a careful survey and study regarding park legislation. Every effort will be made for the conservation of our scenic attractions and for the upbuilding of civic beautification. We hope to have a closer identity with the work of the Planning Commissions; the Conservation Groups including wild life and flora and also with many organizations sponsoring park recreation. Forestry and Street Tree planting and maintenance will be given special attention.

The personnel in this important branch of public service must possess integrity and be progressive thinkers.

Our park areas and structural facilities essentially are related to the cultural arts and the health of the community.

It is the wish of this organization that your Honorable Body instruct your Commissioners and Executive Staff to work with our organization and have representation at our meetings.

Your cooperation in this matter we feel will enable us all to reflect credit upon your administration.

Respectfully submitted,

G. L. Skutt

Dear Sir:

Your circular letter to the city council under date of 20 April was presented to that body. While the city officials will be ready to furnish any data desired to those interested it is not seen at the present time that there is necessity for joining another organization. The communication was ordered filed.

Very truly yours,

Allen H.Wright,City Clerk.
