Ocean Monitoring Program Staff iv

Executive Summary 1

Chapter 1. General Introduction 5
Introduction 5
Background 5
Receiving Waters Monitoring 6
Literature Cited 7

Chapter 2. Oceanographic Conditions 9
Introduction 9
Materials and Methods 9
Results and Discussion 10
Summary and Conclusions 15
Literature Cited 16

Chapter 3. Microbiology 19
Introduction 19
Materials and Methods 19
Results and Discussion 21
Summary and Conclusions 27
Literature Cited 28

Chapter 4. Sediment Characteristics 31
Introduction 31
Materials and Methods 31
Results and Discussion 33
Summary and Conclusions 38
Literature Cited 39

Chapter 5. Macrobenthic Communities 43
Introduction 43
Materials and Methods 43
Results and Discussion 45
Summary and Conclusions 53
Literature Cited 55

Chapter 6. Demersal Fishes and Megabenthic Invertebrates 59
Introduction 59
Materials and Methods 59
Results 61
Summary and Conclusions 65
Literature Cited 67

Chapter 7. Bioaccumulation of Contaminants in Fish Tissues 69
Introduction 69
Materials and Methods 69
Results 70
Summary and Conclusions 75
Literature Cited 76

Glossary 79

Appendices
Appendix A: Supporting Data — Microbiology
Appendix B: Supporting Data — Sediment Characteristics
Appendix C: Supporting Data — Demersal Fishes and Megabenthic Invertebrates
Appendix D: Supporting Data — Bioaccumulation of Contaminants in Fish Tissues

Executive Summary
Dean Pasko Tim Stebbins

Chapter 1. General Introduction
Dean Pasko

Chapter 2. Oceanographic Conditions
Dan Ituarte Dean Pasko

Chapter 3. Microbiology
Dean Pasko Dan Ituarte

Chapter 4. Sediment Characteristics
Daniel Ituarte

Chapter 5. Macrobenthic Communities
Nick Haring

Chapter 6. Demersal Fishes & Megabenthic Invertebrates
Ami Groce Robin Gartman

Chapter 7. Bioaccumulation of Contaminants in Fish Tissues
Ami Groce

Acknowledgments: We are grateful to the personnel of the City's Marine Biology Laboratory for their assistance in the collection and processing of all samples and for discussions of the results. The completion of this report would not have been possible without their continued efforts and contributions. We would also like to acknowledge the City's Microbiology and Chemistry laboratories for providing the bacteriological and chemistry data analyzed herein. Reviews of the various chapters were provided by R. Gartman, A. Groce, N. Haring, D. Ituarte, D. O'Donohue, D. Olson, L. Othman, T. Stebbins, and R. Velarde.
