March 20, 2012

Dear Ms. Bronwyn,

We are students from Cherokee Point Elementary School. We are youth leaders from a program called Wellness Restorative Practice Partnership (WRPP). In this program we plan solutions to help other people including the homeless, animal rights, immigration, bullying, and discrimination against people with disabilities. Today we are writing you about our concerns about the homeless people of City Heights. Currently, there is no homeless shelter in City Heights to help people who do not have a place to live.

We all see homeless people in our community and it makes us feel depressed. For example, one day a man started kicking and hitting a homeless man who sat down in front of his house. This made us feel mad and guilty because we couldn't do anything. It makes us feel mad when we see homeless people because we cannot help them enough to fix the problem.

To fix this problem we suggest the city builds a homeless shelter in City Hieghts. Every day we see homeless people trying to find shelter, but there is no where to go. A homeless shelter will provide food, clothes, somewhere to sleep, toilettries, showers, and an education to homeless children.
