"To the Board of Delegates.

The Harbor and Wharf Committee to whom was referred the Communication of Col. M. H. H. Benyaurd relative to the contemplated work of the Board of Engineer Officers of the United States Engineer Corps, appointed by the Secretary of War for the purpose of fixing the proper wharf lines of San Diego Bay; respectfully report recommending the adoption by the Council of the following resolution.

Resolution.

Whereas, the Common Council are aware that there must be certain limits beyond which it would be prejudicial to the public interests and detrimental to the harbor of San Diego to construct wharves, or build sea walls, or encroach by solid filling upon the tidal area of the bay, and that these lines being governed by natural laws, can only be determined by competent engineers after a thorough survey of the Bay, and an intelligent study of the action of its tidal currents and

Whereas, the Common Council recognizes the fact that franchises have been granted for the construction of wharves in ignorance of the effect which they may have upon the future navigability of the harbor, and that the wharves already constructed have been built without regard to any uniformity of design, or direction, or length, some of them possibly being too long and improperly placed with reference to the channel and the effect they may have upon the bay, and

Whereas, the present sewer outfall in the heart of the water front of San Diego may be exercising a detrimental effect upon the bay in promoting shoaling around the wharves. and

Whereas, certain excavations which have been and are being made on the point of Coronado peninsula near the harbor entrance for ballast material are believed to be exercising a detrimental effect upon the currents at the mouth of the bay, permitting a spreading of the ebb tide and diminishing the scouring action upon the bar, thereby tending to divide the channel, and lessen the depth of water on the bar, and

Whereas, It has been proposed to build a bulkhead or seawall along a portion of the water front at a uniform depth of 2½ feet of water a low tide regardless

of the shape of the water front, or the extent of filling or encroachment upon the tidal area which would follow the construction of such bulkhead or sea wall, and

Whereas, all these questions are of vital importance to the commercial interests of the City, therefore

Resolved, that the Common Council regards with great satisfaction the action of the Secretary of War in appointing the Board of Engineers charged with the important duty of determining the proper harbor lines in San Diego Bay.

Resolved, that the Board of Public Works and the City Engineer be, and they are requested to confer with the Board of Engineers on their arrival, and give them all the facilities in their power in promoting their work, furnishing such maps and other data as may be in their possession, and lending such other assistance as is meet and proper.

Resolved, that the attention of the Board of Engineers be especially directed to the Sewer Outlet and the ballast dredging at the harbor mouth, and an expression of opinion be solicited from them as to their effect upon the Bay.

G. M. Wetherbee
John H. Marshall"

Whereas, the City of San Diego, under the provision of its Charter, proceeded to advertise for bids for doing the City printing including the printing & publishing of the delinquent list for the term of two years from the first day of January, 1890. and

Whereas, the contract for such work was awarded to the publishers of the Sun newspaper, under their bid to do said work at the price of $1.35 per 1000 ems, and

Whereas, it has come to the knowledge of this Board that said Contractors, the publishers of the Sun newspaper, for purposes hereinafter set forth, did commence the publication of said delinquent list, in an alleged unlawful manner, to wit: on the 31st day of December 1889. whereby the publication of two certain delinquent lists were made within the fiscal year 1889. thereby jeopardizing the legality of the publication of the delinquent list within and for the fiscal year 1890, which said list is required to be published within each fiscal year as provided in Art. VI, Chap I. Sec V. Dept. of Finance, to wit: that "for taxation, assessment, and all purposes, the fiscal year shall begin on the first day of January." and

Whereas, the legality of the publication of the delinquent list has been further jeopardized by the premature publication of the delinquent taxes upon mortgages, which delinquency was not fully completed until 12 o'clock, noon, of the first day of January, as provided in Art. VI. Chap I. Sec. VII, which

requires that "the Assessor must make the abstract of Mortgages, etc. which stand of record unsatisfied at 12 o'clock, noon, on the first day of January." And Whereas, said unlawful publication was commenced by the publishers of the Sun newspaper on the afternoon of the 31st day of December, 1889, nearly one day before the fiscal year 1889 had expired, and therefore before the final and actual delinquency immediately preceding the necessary and legal publication thereof could be made, and for the sole and express purpose, as is alleged, of claiming payment therefor under their old Contract with the City, made and entered into for the fiscal year 1889 which said contract stipulated the payment for this class of work at the rate of $2.50 per 1000 ems, or more than double the contract price for the fiscal year 1890, making a difference in, & the estimated extra expense to the City of nearly $15.00, an unjust & an unlawful loss to tax payers; therefore be it Resolved, that it is the sense of this Board that the Auditing Committee be & they are hereby instructed to withold payment of any sum claimed to be due, or to become due, to the Sun Publishing Company for publishing the delinquent tax list during the month of December, 1889, or January, 1890, (except such payment be claimed & made in accordance with the contract for City printing for the fiscal year 1890,) until such time as a thorough investigation of the question at issue and of certain circumstances connected therewith can be made by this Board. And be it further resolved, that Delegates Marshall, Hewitt and Switzer and the City Attorney, be and they are hereby appointed a Special Committee for the purpose of making the necessary investigation."

Mayors Office.

San Diego Cal. January 20th 1890.

To the Board of Delegates,

I have the honor to return herewith, without my approval Ordinance No. "fixing the Compensation of the Secretary of the Board of Fire Commissioners."

The Board of Fire Commissioners appointed a Secretary and recommended that he be allowed the sum of Fifteen Dollars per month for his services. By this Ordinance the sum of One Dollar per month is fixed payable from the 16th day of May 1889.

Sec. 3. Chap. 2. Art. IX of the Charter provides that the Board of Fire Commissioners may appoint as Secretary an employee of the fire Department to receive such additional Salary as the Board may recommend and the Common Council approve. It is to be presumed that the Board of Fire Commissioners actually required the services of a Secretary in the transaction of the business of their department; That they were governed by reasonable considerations of economy in fixing the Amount proper to be paid for such services; And that their recommendation to the Common Council was made in good faith.

If, upon investigation of the subject it was found by the Common Council that the services of a Secretary were not necessary to the Board and that their recommendation should therefore be disapproved no Ordinance was required.

Respectfully.

Douglas Gunn.

Mayor.

Thereupon the Board adjourned until Monday January 27th 1890 at 7.30 O'clock P.M.

In the matter of the publication of the Delinquent Tax List;

The Special Committee appointed to investigate the publication of the Delinquent Tax List reported as follows; to wit;

"Your Special Committee to whom was referred the matter of Investigating the publication of the Delinquent Tax List beg leave to report as follows: We find that the City was during the year 1889, doing its printing and publishing under a supposed contract by which and under which the cost of publishing the Delinquent Tax List would be $2.80 per 1000 ems.

We find that on Dec. 28th 1889 the Sun Publishing Co. entered into a contract to publish all City printing for the year 1890; under which contract the cost of the publication of the Delinquent List would cost the City $1.35 per 1000 ems.

We find that the Tax Collector of the City under provisions of the City Charter had the option and it was in his power to cause the Delinquent List to be published before Jan. 1st 1890 or after Jan. 1st 1890, and up to Jan 6th 1890; in other words, the City Tax Collector could under the law have the tax list published under the supposed contract of 1889 at a cost of $2.80 per 1000 ems, or have the same published under the new contract of 1890 at $1.35 per 1000 ems.

We find that the City Tax Collector with a full knowledge of the state of facts, saw fit to and did publish said list on Dec. 31st 1889, and at a cost to the City of $2.80 per 1000 ems; when if he had caused

the said list to be published two days later, the cost to the City would have been $1.35 per 1000 ems. We find that under this state of facts it was the plain duty of the Tax Collector to cause the publication of said list to be made after Jan 1st 1890, thereby saving the City a large sum of money and possibly a lawsuit. And when said Tax Collector caused said list to be published on Dec. 31st 1889, he flagrantly violated the duties of his office, and went out of his way to unnecessarily spend the City's money.

Your Committee is of the opinion that such acts of any officer of the City demands a thorough and rigid investigation; and your special committee recommends that this whole matter be referred to the Finance Committee of this Board, which committee has the power to administer oaths and take sworn testimony, and that said committee among other things, investigate as to whether or not there existed any collusion between any officer of this City and the publishers of said tax list so that the same was caused to be published on Dec. 31st 1889, and some seven days prior to the time it might have been published, and for the purpose of costing the City double price, and that said Finance Committee report to this Board at its earliest opportunity.

Your Committee further recommends that the President of this Board as a member of the Auditing Committee, inform said Auditing Committee of the proceedings of this Board in this matter; that our President is instructed to oppose the auditing and approval of any bill for the publication of the said tax list until this investigation be made and acted upon.

John H. Marshall
D. H. Hewitt
S. W. Switzer."

and on motion of Delegate Julian said report was adopted.

Delegate Heath offered the following Joint Resolution which was adopted and reads as follows to-wit:

Joint Resolution No. (Not concurred in)

Resolved, that the Finance Committee authorized by this Council to investigate the question of the validity of the publication of the delinquent Tax List, and of the claim of the Sun Publishing Company for the printing and publication thereof be and they are hereby further authorized to employ legal advice as they may deem necessary and as provided for in Sec. 2 of Chap. 5 of Art. 3 and in Sec. 40 of Chap. 2 of Art. 2 of the City Charter.

The City Clerk presented a copy of the Delinquent Tax List

of the City of San Diego, California, for the year 1889, as published in the San Diego Daily Sun and on motion said list was referred to the Finance Committee.
