LIST OF UPDATES	INTRODUCTION
-----------------	--------------

--

The Unfunded Park Improvements List is a compendium of proposed improvements for properties maintained and operated by the City of San Diego's Parks and Recreation Department. Parks listed in this document include population based parks (neighborhood and community parks), developed regional parks such as Balboa Park and Mission Bay Park, Open space parks such as Mission Trails and Tecolote Canyon, and parks maintained by maintenance assessment districts.

The listings in this document were gathered from Parks and Recreation advisory bodies (community recreation groups, area committees, citizen advisory committees, community planning groups), and Parks and Recreation Department staff to identify desired or needed improvements in the City's park system. This document is intended to be a general guideline to identify potential projects as funding becomes available through various sources. It is not intended to be a comprehensive listing of park needs.
