The Technical Advisory Ad Hoc Committee's (TAC) purpose is to advise on improvements to the development review process using communication, technology and best business practices to reduce processing times and better serve the customers and citizens of San Diego. TAC meetings support #DigitalDSD, a Development Services Department (DSD) initiative to modernize its workplace systems and cost-effectively leverage technology to increase productivity and improve service delivery. This ad hoc committee meets through December 2020 and serves to provide feedback on this process. Users of DSD's permitting systems are welcome to participate and provide comments on this effort.
