## Preamble

Pursuant to the provisions of the "San Diego Maintenance Assessment District Procedural Ordinance" (being Division 2, Article 5, Chapter VI of the San Diego Municipal Code), applicable provisions of "Proposition 218" (being Article XIII D of the California Constitution), and provisions of the "Proposition 218 Omnibus Implementation Act" (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "Assessment Law"), and in accordance with the Resolution of Intention, being Resolution No. \_\_\_\_\_, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, in connection with the proceedings for the CAMINO SANTE FE MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as "District"), EFS ENGINEERING, INC., as Assessment Engineer to the City of San Diego for these proceedings, submits herewith this report for the District as required by Assessment Law.

PRELIMINARY APPROVAL BY THE CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, CALIFORNIA, ON THE \_\_\_\_\_ DAY OF \_\_\_\_\_, 2016.

---

Elizabeth Maland, CITY CLERK  
CITY OF SAN DIEGO  
STATE OF CALIFORNIA

FINAL APPROVAL BY THE CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, CALIFORNIA, ON THE \_\_\_\_\_ DAY OF \_\_\_\_\_, 2016.

---

Elizabeth Maland, CITY CLERK  
CITY OF SAN DIEGO  
STATE OF CALIFORNIA

## Executive Summary

**Project:** Camino Santa Fe  
Maintenance Assessment District

**Apportionment Method:** Equivalent Benefit Unit (EBU)

	<b>FY 2016</b>	<b>FY 2017 <sup>(1)</sup></b>	<b>Maximum <sup>(2)</sup> Authorized</b>
<b>Total Parcels Assessed:</b>	280	280	--
<b>Total Estimated Assessment:</b>	\$110,610	\$36,869	--
<b>Total Number of EBUs:</b>	1,474.81	1,474.81	--
<i>Zone 1</i>	957.89	957.89	--
<i>Zone 2</i>	516.92	516.92	--
<b>Assessment per EBU: <sup>(3)</sup></b>			
<i>Zone 1</i>	\$75.00	\$25.00	\$468.40 <sup>(4)</sup>
<i>Zone 2</i>	\$75.00	\$25.00	\$468.40 <sup>(4)</sup>

<sup>(1)</sup> FY 2017 is the City's Fiscal Year 2017, which begins July 1, 2016 and ends June 30, 2017. Total Parcels Assessed, Total Estimated Assessment, and Total Number of EBUs may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

<sup>(2)</sup> Maximum authorized annual amounts subject to cost-indexing provisions as set forth in this Assessment Engineer's Report.

<sup>(3)</sup> Although the Unit Assessment per EBU is the same for Zones 1 and 2, the difference in the Location Factor for each zone results in a tenfold difference in total assessment for equivalent parcels in Zone 1 versus Zone 2.

<sup>(4)</sup> Prior fiscal year's maximum authorized annual assessment increased by cost-indexing factor of 5.45%.

**Annual Cost-Indexing:** The maximum authorized assessment rate has been increased based on the approved annual cost-indexing provisions.

**Bonds:** No bonds will be issued in connection with this District.

---

## Background

The Camino Santa Fe Maintenance Assessment District (District) is generally located along Camino Santa Fe and future Carroll Canyon Road. The District improvements were installed by the H.G. Fenton Company when the Camino Santa Fe extension was completed between Miramar Road and Mira Mesa Boulevard in 2004. To ensure long-term maintenance of these improvements above City standards, the developer funded the formation of a Maintenance Assessment District. The general purpose of the District is to fund defined improvements and activities within the District.

---

## District Proceedings for Fiscal Year 2017

This District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter VI of the San Diego Municipal Code), applicable provisions of “Proposition 218” (being Article XIII D of the California Constitution), and provisions of the “Proposition 218 Omnibus Implementation Act” (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as “Assessment Law”). This report has been prepared in compliance with Assessment Law.

The purpose of the proposed proceedings and this Assessment Engineer’s Report is to update the District budget and assessments for Fiscal Year 2017, and authorize the continued levy of assessments for the life of the District. The Fiscal Year 2017 assessments proposed within this Assessment Engineer’s Report are equal to or less than the maximum authorized assessment. Therefore, the vote requirements of Section 4 of Article XIII D do not apply to these proceedings.

A public hearing will be scheduled where public testimony will be heard by the Council, and the Council may, at its discretion, adopt a resolution ordering the levy of assessments for the life of the District, and collection of the Fiscal Year 2017 proposed assessments.

## Bond Declaration

No bonds will be issued in connection with this District.

---

## District Boundary

The District is generally located along Camino Santa Fe and Carroll Canyon Road, bounded by the Mira Mesa Maintenance Assessment District to the north, El Camino Cemetery to the west, Miramar Road to the south, and Carroll Canyon to the east. The District includes

those parcels that receive access from the improved stretches of Camino Santa Fe and future Carroll Canyon Road.

The Boundary Map and Assessment Diagram for the District are on file in the Maintenance Assessment Districts section of the Park and Recreation Department of the City of San Diego and by reference are made a part of this report. The Boundary Map and Assessment Diagram for the District are available for public inspection during normal business hours. A reduced copy of the Boundary Map is included as **Exhibit A**.

---

## Project Description

The proposed assessments will be used to fund defined improvements and activities within the District. The activities include maintenance and servicing of landscaped and hardscaped improvements and streetscape features including, but not limited to medians, sidewalks, curb and gutter, slopes adjacent to rights-of-way, and brow ditches. Assessment funds may also be used for minor capital improvements consistent with the current apportionment methodology.

Activities may include but are not limited to irrigation, weed control, litter control, tree trimming, pruning, edging, pest control, fertilizing, other maintenance necessary for plant health and appearance; hardscape and streetscape cleaning; maintenance of irrigation system components; incidental traffic control; and security.

The improvement areas are generally adjacent to Camino Santa Fe. These areas include landscaped medians, hardscaped medians, landscaped rights-of-way, and slopes adjacent to rights-of-way. The engineering drawings and specifications for the areas to be maintained by the District are on file at the City's Development Services Center Records Counter and are incorporated herein by reference.

Future development is planned that will extend Carroll Canyon Road through the District. Future improvements along Carroll Canyon Road will be included within this District.

The improvements and activities provided by the District will be maintained in accordance with specifications and contracts on file with the Park and Recreation Department. These documents are available for public inspection during normal business hours.

---

## Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. Some of these benefits are "special benefits," benefits that are above and beyond the City's standard level

of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. Under Assessment Law, only “special benefits” are assessable. As such, isolation and quantification of the “special benefits” associated with the improvements and activities are paramount, and illustrated in the following equations:

$$\text{Special Benefits} = \text{Total Benefits} - \text{General Benefits}$$

$$\text{General Benefits} = \text{City Standard} + \text{External Benefits}$$

$$\text{Special Benefits} = \text{Total Benefits} - [\text{City Standard} + \text{External Benefits}]$$

In these equations, “Total Benefits” refers to the cost of providing the total benefits of the improvements and activities; “City Standard” represents the cost of providing the City’s standard level of service; and “External Benefits” refers to the cost of those additional benefits accruing to the public at large or properties located outside the District. In order to isolate the “Special Benefits,” it is necessary to quantify the amount of “General Benefits” associated with the improvements and activities.

### **City Standard**

As a “general benefit” (not funded by assessments), the District will continue to receive the standard level of service provided to the public at large under City-funded and administered programs for maintenance and servicing of public facilities and improvements (e.g., medians, open space, street lights, street trees, sidewalks, parks, etc.), including street sweeping and graffiti removal on public property. Consistent with City policy for the public at large, the City will provide the District with standard service levels and annual contributions from the Gas Tax Fund for median maintenance (28.67¢ per square foot of landscaped median and 6.59¢ per square foot of hardscaped median). These levels of service and cost allocations, reviewed and adjusted annually by the City, are “general benefits” administered by the District.

### **External Benefits**

Assessment Law prohibits levying assessments to pay for “general benefits” conferred to the public at large or properties located outside the District. Based on a review of the spatial limits of the District and the improvements and activities, it has been determined that the

improvements and activities have the potential to confer benefits to others outside the District.

It is estimated as much as 14.2% of the total benefit (in excess of the City standard) may accrue to the public at large or properties located outside the District (with an estimated 0.0% accruing directly to properties located outside the District, and the remaining 14.2% accruing to the general public as indirect/incidental beneficiaries passing through the District or utilizing District-provided amenities). The estimated costs associated with these “general benefits” have been quantified and will not be funded by assessments.

---

## Cost Estimate

### Estimated Costs

Estimated Fiscal Year 2017 annual expenses, revenues, reserves, and assessments (provided by the City) are included as **Exhibit B** hereto.

### Annual Cost-Indexing

With the passage of Proposition 218, any proposed increase in assessments must be placed for approval before the property owners by a mail ballot and a public hearing process, similar to these proceedings. A majority of ballots received must be affirmative for the City Council to confirm and levy the increased assessments. For small assessment districts or districts with relatively low dollar assessments, the cost of an engineer’s report, balloting, and the public hearing process can potentially exceed the total cost of the increase. These incidental costs of the proceedings can be added to the assessments, resulting in even higher assessments.

Indexing assessments annually to the San Diego Consumer Price Index for Urban Consumers (SDCPI-U) plus 3%, as approved by the District property owners in Fiscal Year 2007, allows for minor increases for normal maintenance and operating cost escalation without incurring the costs of the Proposition 218 ballot proceedings. Any significant change in the assessment initiated by an increase in service provided or other significant changes to the District would still require the Proposition 218 proceedings and property owner approval.

The maximum authorized assessment established in the Fiscal Year 2007 proceedings are authorized to be indexed (increased or decreased) annually by the factor published in the SDCPI-U plus 3%. The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see [www.bls.gov](http://www.bls.gov)), for the prior year

period was from 265.039 to 271.526 (a 2.45% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rates contained within this Assessment Engineer's Report have been increased by 5.45%.

---

## Method of Apportionment

### Estimated Benefit of the Improvements

The District improvements and activities are primarily located along the major north-south arterial transportation corridor in the area. The Transportation Element and the Carroll Canyon Master Plan Element of the Mira Mesa Community Plan, and the general policy recommendations found in the City's General Plan establish several goals and guidelines for the planned development of the community. The District improvements and activities are consistent with these goals.

The major and arterial streets within the District are the backbone of the street network within the community. These streets serve as the primary access routes for inter-community and intra-community trips and thus serve all parcels within the District. All parcels within the District benefit from the enhanced Camino Santa Fe transit corridor through increased community aesthetics and greater public safety.

As indicated on **Exhibit A**, the District has been divided into two zones for benefit apportionment purposes. The two zones are generally described as follows:

- ◆ **Zone 1** includes that portion of the District immediately adjacent to the recently improved section of Camino Santa Fe as well as those parcels along Miratech Drive and Summers Ridge Road.
- ◆ **Zone 2** includes all of the remaining parcels within the District boundaries.

### Apportionment Methodology

The total cost associated with District improvement and activities will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all the parcels in the District.

EBUs for each parcel have been determined as a function of three factors – a Land Use Factor, a Benefit Factor and a Location Factor – related as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Each of these factors is discussed below. Parcels determined to receive no benefit from the District improvements and activities have been assigned zero EBUs.

### **Land Use Factor**

Since the proposed District improvements and activities are primarily associated with the Transportation Element of the General and Community Plans, trip generation rates for various land use categories (as previously established by the City’s Transportation Planning Section) have been used as the primary basis for the development of Land Use Factors. While these trip generation rates address vehicular trips, they are also considered to approximately reflect relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

Trip generation rates provide the required nexus and basis for assigning relative proportionality of potential benefit to the various land use/zoning classifications (as defined by the City’s Municipal Code) within the District. Land use/zoning classifications have been grouped with averaged trip generation rates assigned to establish the Land Use Factors as shown in **Table 1**.

**TABLE 1: Land Use Factors**

<b>Land Use/Zoning</b>	<b>Code</b>	<b>Land Use Factor <sup>(1)</sup></b>
Commercial – Office & Retail	COM	45.0 per acre
Mining	MIN	7.5 per acre
Open Space (designated)	OSP	0 per acre
Small Commercial	SCOM	30.0 per acre
Vacant	VAC	0 per acre

<sup>(1)</sup> Proportional to trip generation rates contained in the City of San Diego *Trip Generation Manual* dated May 2003.

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is often permitted, these activities are allowed only to the extent they are consistent with the primary purpose of natural preservation. Since this land is essentially “unused” in the customary terms of land use (which relate to human use and development), the trip generation rate is zero. Therefore, the designated Open Space itself receives no benefit from the District

improvements and activities and has been assigned a Land Use Factor of zero.

**Benefit Factor**

The Land Use Factor described above establishes a proportionality of relative intensity of use (or potential use) for the various parcels of land within the District. It does not address the relationship of this use to the specific District improvements and activities. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the subcomponents of the benefits of District improvements and activities may include some or all of the following: public safety, view corridors and aesthetics, enhancement of commercial identity, drainage corridors, and recreational potential. The components used for this District are public safety and aesthetics.

As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific District improvements and activities, Benefit Factors will generally vary from one district to another, based on the specific character and nature of the applicable land uses and District improvements and activities.

For a given land use, the overall Benefit Factor is equal to the sum of the subcomponent values. If a land use category receives no benefit from a subcomponent, then a value of zero is assigned to that subcomponent. A composite Benefit Factor of 1.0 indicates that full benefit is received. A value less than 1.0 indicates that less than full benefit is received.

The applicable benefit subcomponents and resultant composite Benefit Factors determined for the various Land Use/Zoning categories within this District are as shown in **Table 2**.

**TABLE 2: Benefit Factors by Land Use**

<b>Land Use/Zoning</b>	<b>Public Safety (Max. 0.3)</b>	<b>Aesthetics (Max. 0.7)</b>	<b>Benefit Factor (Max. 1.0)</b>
Commercial – Office & Retail	0.3	0.3	0.6
Mining	0.3	0	0.3
Open Space (designated)	0.3	0	0.3
Small Commercial	0.3	0.3	0.6
Vacant	0.3	0	0.3

**Public Safety.** All land uses are considered to receive the maximum available benefit from the public safety aspect of the District improvements and activities. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

**Aesthetics.** The degree of benefit received from the aesthetic qualities of landscaped and hardscaped roadway medians, rights-of-ways, vegetated sloped, and open space maintained by the District varies among land use categories. Generally, by nature of their use, residential lands receives the greatest benefit from the reduced traffic congestion, reduced noise levels, greater separation from traffic and generally more tranquil environment provided by landscaped and hardscaped roadway medians and rights-of-way. Commercial and institutional uses, on the other hand, often thrive on higher densities, greater traffic access, and a higher level of activity within the vicinity of their enterprises. These uses, accordingly, receive a lesser degree of benefit from the general insulation and separation provided by the aesthetic elements of District improvements and activities.

Lands in the Open Space, Vacant, and Mining categories are considered to receive no significant benefit from the aesthetic elements of District improvements and activities, as enhanced aesthetic quality of other lands in their vicinity does not affect their function, use, or value.

**Location Factor**

The Location Factor accounts for the fact that not all parcels within the District receive the same benefit due to the location of the improvements and activities. Location Factors may vary between zero (no benefit) and one (full benefit) as shown in **Table 3**.

**TABLE 3: Location Factor by Zone**

Land Use/Zoning	Location Factor
Zone 1	1.0
Zone 2	0.1

Zone 1 is established as the base zone and is assigned a Location Factor of 1.0. Zone 2 parcels receive a lesser degree of benefit in proportion to the parcels in Zone 1. Accordingly, Zone 2 has been assigned a Location Factor of 0.1.

## Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Shown below are sample EBU calculations for several common land uses found in the District.

- **10-acre Mining Property in Zone 1**

$$\text{EBUs} = 10.00 \text{ acres} \times 7.50 \times 0.30 \times 1.00 = 22.50 \text{ EBUs}$$

- **5-acre Commercial Property in Zone 2**

$$\text{EBUs} = 5.00 \text{ acres} \times 45.00 \times 0.60 \times 0.10 = 13.50 \text{ EBUs}$$

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$$

Based on the above formula, the EBUs calculated for each property, can be found in the Assessment Roll (**Exhibit C**).

---

## Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the costs of the improvements and activities provided by the District is included as **Exhibit B** to this report.

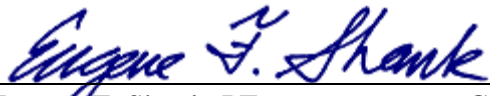

The assessment methodology utilized is as described in the text of this report. Based on this methodology, the EBUs and Fiscal Year 2017 District assessment for each parcel were calculated and are shown in the Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number on the Assessment Roll and the Boundary Map and Assessment Diagram referenced herein. The net assessment for each parcel for Fiscal Year 2017 can be found on the Assessment Roll.
