Pursuant to §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code), and in accordance with Resolution No. _____, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, in connection with the annual proceedings for LA JOLLA MAINTENANCE ASSESSMENT DISTRICT, Koppel & Gruber Public Finance, as District Administrator to the City of San Diego, submits herewith this annual report for the District.

DATE OF FINAL PASSAGE OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE _____ DAY OF _____, 2023.

Diana Fuentes, City Clerk
City of San Diego
State of California

SECTION I. EXECUTIVE SUMMARY

Project: La Jolla Maintenance Assessment District (“District” or “LJMAD”)

Apportionment Method: Lot Square Footage (“LSF”)
Equivalent Benefit Unit (“EBU”)

TABLE 1
SUMMARY INFORMATION – ZONE 1

	FY 2023	FY 2024⁽¹⁾	Maximum Authorized
Parcels Subject to Assessment:	331	331	
Total Estimated Assessment:	\$262,789.17	\$270,577.00	\$298,969.02
Total Lot Square Footage:			
Commercial, Recreational and Multi-family Residential	2,420,667.00	2,420,667.00	2,420,667.00
Tax Exempt	80,084.00	80,084.00	80,084.00
Total Equivalent Benefit Units (EBU):	76	76	76
Unit Assessment Rates⁽²⁾			
Commercial, Recreational and Multi-family Residential	\$0.1046	\$0.1077	\$0.1190
Tax Exempt	\$0.0348	\$0.0358	\$0.0396
Single Family Residential Rate Per EBU	\$89.4800	\$92.1600	\$101.8200

1. FY 2024 is the City’s Fiscal Year 2023, which begins July 1, 2023 and ends June 30, 2024.
2. Classifications are further described in Section V.B. of this Annual Report.

TABLE 2
SUMMARY INFORMATION – ZONE 2

	FY 2023	FY 2024⁽¹⁾	Maximum Authorized
Parcels Subject to Assessment:	1,051	1,051	
Total Estimated Assessment:	\$254,267.53	\$261,985.99	\$289,212.65

Unit Assessment Rates⁽²⁾			
Commercial, Recreational and Multi-family Residential	\$0.0871	\$0.0897	\$0.0991
Tax Exempt	\$0.0290	\$0.0299	\$0.0330
Single Family Residential Rate Per EBU	\$89.4800	\$92.1600	\$101.8200

1. FY 2024 is the City’s Fiscal Year 2024, which begins July 1, 2023 and ends June 30, 2024.
2. Classifications are further described in Section V.B. of this Annual Report.

ANNUAL COST INDEXING: The assessments are authorized to increase by the annual change in the San Diego Area Consumer Price Index – All Urban Consumers not to exceed 3%.

SECTION II. BACKGROUND

A. INTRODUCTION

The La Jolla Maintenance Assessment District was established in 2016 as a self-managed District. An assessment ballot proceeding was conducted and a weighted majority of property owners, based on assessment amount, were in support of the continuation of the assessments, annual indexing provisions and services and improvements the assessments fund. The District was formed to pay for certain improvements and activities including but not limited to, ongoing maintenance, operation and servicing of landscaping, sidewalk power washing, trash collection removal and trash can liner replacement, graffiti removal and other improvements or appurtenant facilities located within the public rights-of-ways and dedicated easements located within the District. The improvements and activities are designed to beautify the area and to help generate additional commerce within the District.

On November 28, 2016, the City of San Diego passed R-310802 authorizing the annual budget and assessments for Fiscal Year 2018, and the continued levy of the assessments for the life of the District.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code). This annual report has been prepared pursuant to the requirements of §65.0220 of the “*San Diego Maintenance Assessment District Procedural Ordinance*”.

SECTION III. PLANS AND SPECIFICATION

A. GENERAL DESCRIPTION OF THE DISTRICT

The District is located within the Village Area of La Jolla and consists of all lots, parcels and subdivisions of land as shown on the Boundary Diagram titled “Map of Proposed Boundaries of the City of San Diego La Jolla Maintenance Assessment District” contained within Exhibit A of this report.

The LJMAD is generally bordered by the Pacific Ocean to the north, Pearl Street to the south, La Jolla Boulevard to the west and Coast Walk and Prospect Place to the east. The properties within the LJMAD include single-family residential, multi-family residential, commercial, recreational, public (park) and tax exempt parcels. Each parcel has been categorized into one of two zones based upon the frequency of improvements and activities needed.

- Zone 1 is generally the most heavily trafficked business area of the LJMAD and will require more frequent and intensive improvements and activities. Zone 1 generally located between Pearl Street and Coast South Boulevard and between Bishops Lane and Herschel Avenue.
- Zone 2 is generally the residential areas with some commerce located to the west and east of Zone 1.

B. DESCRIPTION OF IMPROVEMENTS TO BE MAINTAINED AND SERVICES

The LJMAD, through the levy of special assessments, provides funding for the following improvements and activities including but not limited to, ongoing maintenance, operation and servicing of landscaping, sidewalk power washing, trash collection removal and trash can liner replacement, graffiti removal and other improvements or appurtenant facilities located within the public rights-of-ways and dedicated easements located within the LJMAD. The improvements and activities are designed to beautify the area and to help generate additional commerce within the LJMAD. The improvements (“Improvements”) maintained and Activities (“Activities”) provided by the District are generally described as follows:

Landscape Improvements and Activities

- Shrub and groundcover maintenance including trimming and edging monthly and fertilizing;
- Manual watering of pots once per week;
- Weed abatement;
- Power washing; and
- Tree maintenance including trimming up to 12 feet to clear trees for vehicle and pedestrian traffic and fertilizing twice per year.

Sidewalk Improvements and Activities

- Sidewalk steam cleaning annually for Zone 1 properties and less frequently for Zone 2 properties;
- Graffiti Clean Up; and
- Tree trimming for 12 foot clearance.

Trash Collection Improvements and Activities

- Trash collection twice per week;
- Trashcan liner replacement twice per week; and
- Litter/Pet Waste Pick Up.

Program Management/Incidentals/Administration/Contingency Reserves

- Staff, administration and Insurance costs;
- Office related expenses including rent and telephone;
- Financial reporting, accounting and legal costs;
- Project and Contingency Reserves; and
- City and County Administration Costs.

Plans and specifications for these improvements to be maintained by the District are on file with the City Engineer's office and by reference are made part of this Report. These documents are on file with the City Clerk and the City Planning and Community Investment Department and are available for public inspection during normal business hours.

SECTION IV. ESTIMATE OF COSTS

Estimated Fiscal Year 2024 annual expenses, revenues, reserves and assessments are included in Exhibit B.

SECTION V. METHOD OF APPORTIONMENT

A. SPECIAL BENEFIT ANALYSIS

Proper maintenance and servicing of landscaping, sidewalk sweeping and washing, trash collection and removal and graffiti abatement provide special benefit to adjacent properties by providing community character, safety, vitality and an enhanced village lifestyle. In addition, the Improvements and Activities will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development. These special benefits are benefits that are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. Under applicable law, only “special benefits” are assessable. As such, separation and quantification of the “special benefits” associated with the improvements/services are illustrated in the following equations:

$$\text{Special Benefits} = \text{Total Benefits} - \text{General Benefits}$$

$$\text{General Benefits} = \text{City Standard} + \text{External Benefits}$$

$$\text{Special Benefits} = \text{Total Benefits} - [\text{City Standard} + \text{External Benefits}]$$

In these equations, “Total Benefits” refers to the cost of providing the total benefits of the improvements/services; “City Standard” represents the cost of providing the City’s standard level of service; and “External Benefits” refers to the cost of those additional benefits accruing to the public at large or properties located outside the District. In order to isolate the “Special Benefits,” it is necessary to quantify the amount of “General Benefits” associated with the improvements/services.

CITY STANDARD

The District will continue to receive the standard level of service provided to the public at large under City-funded and administered programs. These cost and service allocations, reviewed and adjusted annually by the City, are representative of the City’s standard level of service for maintenance and servicing of public facilities and improvements (e.g., medians, open space, street lights, street trees, sidewalks, parks, etc.), including street sweeping and graffiti removal on public property. With or without the proposed assessment District, the area will continue to receive the City’s standard level of services, a “general benefit” that is not funded by assessments.

EXTERNAL BENEFITS

Applicable law prohibits levying assessments to pay for “general benefits” conferred to the public at large or properties located outside the District.

The benefit to the public at large and parcels located beyond the outskirts of the District (most of which are currently located within other existing or proposed maintenance districts) is difficult to substantiate or calculate. An argument can be made that since the proposed Improvements and Activities and corresponding assessment is to specifically improve the

appearance and identity for the La Jolla Downtown community there is very little, if any general benefit to the public at large. However in order to recognize general benefit to the public at large and to quantify the benefit to persons traveling through the District, a traffic study was completed by Chen Ryan Associates in March 2016 to isolate the estimated “pass-through” traffic along each main road segment. Pass-through traffic is traffic that has neither an origin nor destination within the defined area, which provides a reasonable means of quantifying benefits not accrued to property within the District. Based on this analysis it is estimated that as much as 8.65% of the total benefit (in excess of the City standard) may accrue to the properties located outside the District and to the public at large as indirect/incidental beneficiaries of passing through the District or utilizing District-provided amenities. The estimated costs associated with these “general benefits” have been quantified and will not be funded by the assessments.

Combining both the general benefit identified as the City Standard (3.49%) and the general benefit to the properties located outside the District and the public at large (5.16%) results in total general benefit of 8.65%. Upon a final ruling on the lawsuit against the formation and levy of assessment for the District the budget presented in Table 3 will reflect an 8.65% General Benefit that will not be part of the assessment.

SPECIAL BENEFIT

Parcels within the District receive a special benefit resulting from the Improvements and Activities provided with the assessments. Specifically the special benefits are summarized as follows:

- Improved cleanliness and maintenance of sidewalks used to access property in the District.
- Enhanced cleanliness and desirability of the area, including removal of litter and debris from sidewalks, trash cans and other public facilities for the direct advantage of property in the District.
- Protection and improvement of views, scenery and other permanent public facility resources in the District and preservation of public assets maintained by the District.
- Enhanced safety of property in the District and reduced liability risk.
- Improved access to property in the District due to cleaner and safer sidewalks.
- Increase of property values specifically to assessed parcels resulting directly from the provided services.
- Improved traffic flow and commerce to properties within the area.

In addition, only parcels that front the streets and sidewalks on which services are provided are included in the District. Therefore, property within the boundaries of the District enjoy a unique and valuable proximity and access to the Improvements and Activities which provides a direct and special benefit to the properties that are not enjoyed by the public at large or property outside of the District.

B. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual lots and parcels within the District a formula that spreads the costs of the maintenance based on the special benefit must be established. The Improvements and Activities have been reviewed and a formula has been established to apportion the maintenance costs based on benefit.

Due to the nature of the Improvements and Activities, four factors, as further described below, are used to calculate each parcel's assessment:

Land Use Factor

The properties within the LJMAD include commercial, recreational, public, tax exempt and residential parcels. As stated above, the landscaping, sidewalk washing and trash collection and removal provide special benefit to properties by providing community character, safety and vitality. Because of this, profit making commercial, multi-family residential and recreational properties benefit the most from the Improvements and Activities as they are intended to attract additional commerce and visitors to the Village Area. However, single-family residential, public park land and tax exempt land uses still receive special benefit from the Improvements and Activities but not to the same degree as other properties.

Commercial, Recreational and Multi-family Residential - includes office buildings, stores, restaurants, parking lots, hotels, gyms, apartment buildings and other multi-family type properties. Due to their use, these parcels tend to have more workers/residents than other land uses who directly benefit from the Improvements and Activities. For these parcels a lot square footage factor is used to calculate their assessment.

Public Property (Park). Pursuant to Article XIII D of the California Constitution, "parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit." Public parcels such as parks will benefit in that the sidewalks and streets adjacent to them will be cleaner, more attractive and inviting to visitors. Thus, public parks will be assessed at the standard assessment rate for each Zone. Public parcels will receive all district Improvements and Activities, which are supplemental to those provided by the City of San Diego Park and Recreation Department. The non-profit company, Enhance La Jolla, which will be formed to administer the District will coordinate with the La Jolla Parks and Beaches, Inc., La Jolla Parks and Recreation, Inc. and the City of San Diego Park and Recreation Department to ensure the area around the park is serviced efficiently.

Tax Exempt Parcels - include institutional type properties such as church, cemetery, mausoleum, mortuary, school, libraries and hospital land uses that specially benefit from the Improvements and Activities but to a lesser degree than commercial, recreational and multi-family residential properties. Tax Exempt Parcels will draw people to them at various times due to their unique land uses and since they are tax exempt are not necessarily seeking to increase the number of patrons and therefore do

not benefit to the same degree from the proposed Improvements and Activities. These special use/service type properties will not require the same intensity of Improvements and Activities than the commercial, recreational and multi-family properties. Therefore, for these property types, lot size is used to calculate the assessment multiplied by 33% factor of the rate for commercial, recreational and multi-family residential land uses.

Single Family Residential - Single-family residential parcels are those that are occupied by one or two separate building and condominium units (“SF Residential”) owned by individuals for residential purposes. These parcels differ from multi-family parcels in that there are separate buildings, or in the case of condominiums, separate units for sale, each designed for single-family purposes – rather than one building with multiple units. The SF Residential Improvements and Activities are specifically targeted to the needs of residential properties. This includes maintenance and litter removal related to pets living within the residences. Unlike the other Improvements and Activities, the residential services will be provided in a uniform manner throughout the District, regardless of zone. Therefore, the most equitable apportionment of the assessment was on an equivalent benefit or per unit basis rather than lot size which results in a level assessment across the entire District for the SF Residential parcels. A single-family residential parcel with one building and each condominium unit will be assessed \$86.87 per year. A single-family parcel with two buildings will be assessed \$173.74 per year.

Mixed Use – Mixed-use parcels are those with residential condominiums and other uses such as office condominiums in a single building. The lot square footage for each commercial parcel in a mixed-use building is based its individual built square footage divided by the total built square footage for all the units times the total lot square footage as determined by county assessor information or other sources. Residential condominiums in a mixed-use building are treated as a SF Residential as discussed above.

Lot Square Footage Factor

The Lot Square Footage (“LSF”) is a measure of a parcel’s proportionate area of ownership or stakeholder commerce/interest relative to the total area of the LJMAD, which is receiving enhanced and increased maintenance, beautification, and other property related Improvements and Activities provided by the District. This is used to allocate the Improvements and Activities to commercial and private tax-exempt parcels.

Equivalent Benefit Unit

Each parcel of SF Residential land is assigned an Equivalent Benefit Unit which equates to the estimated special benefit the parcel receives relative to other parcels within the District. The SF Residential property has been assigned one Equivalent Benefit Unit (“EBU”) per unit.

Zone Factor

The District was divided into two zones based on the proximity of parcels in location to the Improvements and Activities and thus the intensity of services that the parcels require. Properties located adjacent to City owned trash cans will get a greater special benefit as compared to those parcels that are farther away. In order to calculate this into the assessment a factor is applied to each parcel according to the following Zone location.

Zone 1 Properties – This Zone is defined as properties located adjacent to or nearby City owned trash cans that will be maintained more frequently. Additionally, Zone 1 is the most heavily trafficked business area and will require more frequent and/or intensive provisions of Improvements and Activities.

Zone 2 Properties – This Zone is defined as properties located close to the City owned trash cans but not adjacent or as close by as properties defined as Zone 1 Properties. Parcels in Zone 2 are predominately SF Residential and will not require as intensive Improvements and Activities as Zone 1 properties. Non-SF Residential parcels located in this Zone use the lot square footage rates derived above then multiplied by a proximity factor of 83.3% of the Zone 1 rate.

Note that SF Residential Parcels located throughout the boundaries of the LJMAD all receive the same level of special benefit from the Improvements and Activities and the Zone Factor does not apply to them.

If the ownership, parcel size or type of parcel changes during the term of the District, the assessment calculation may be modified accordingly as described above.

SAMPLE CALCULATIONS

As described above, assessments have been calculated for each parcel based on the LSF and Zone Factor or EBU (for SF Residential) of the property.

LSF = Lot Square Footage
Zone Rate = The LSF is multiplied by the Zone Factor to determine the Zone Rate
Land Use Multiplier= Zone Rate multiplied by Land Use Factor
EBU = Equivalent Benefit Unit

Shown below are calculations for various sample parcels.

- **Retail Property on .10 acres located in Zone 2**
LSF= .10*43,560 LSF*\$0.101540*.833
- **Tax Exempt Parcel on 2.0 acres located in Zone 1**
LSF= 2.00*43,560 LSF*\$0.101540*1*.333

- **Tax Exempt Parcel on .50 acres located in Zone 2**
 $LSF = .50 * 43,560$ $LSF * \$0.101540 * .833 * .333$
- **Single Family Residential Property .08 acres located in Zone 1 or Zone 2**
 $EBU = 1 EBU * \$86.87$

The total assessment for each parcel in the LJMAD is based on the calculated LSF or EBU for the parcel and the applicable unit assessment rate:

$$\text{Total Assessment for non SF Residential} = \text{Total LSF} \times \text{Land Use Zone Rate}$$

$$\text{Total Assessment for SF Residential} = \frac{\text{Total SF Residential Budget}}{\text{Total Number of EBUs}}$$

C. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring the District to go through the requirements of Proposition 218 in order to get a small increase. This Assessment Range Formula was approved by the property owners at the time the District was formed. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting.

The maximum authorized assessment established in the FY 2018 formation are authorized to be indexed (increased or decreased) annually, starting in FY 2019, by the Annual factor published in the San Diego Consumer Price Index – All Urban Consumers (“SDCPI-U”) not to exceed 3%. In the event that the annual change in SDCPI-U exceeds 3%, a percentage change in excess of 3% can be cumulatively reserved and can be added to the annual change in the SDCPI-U for years in which the SDCPI-U is less than 3%.

The annual change in second half SDCPI-U values, as compiled by the U.S. Bureau of Labor Statistics (see www.bls.gov), for the prior year period was from 325.241 to 348.945 (a 7.29% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rates contained within this Annual Report have been increased by 3.00%.

The Maximum Assessment is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

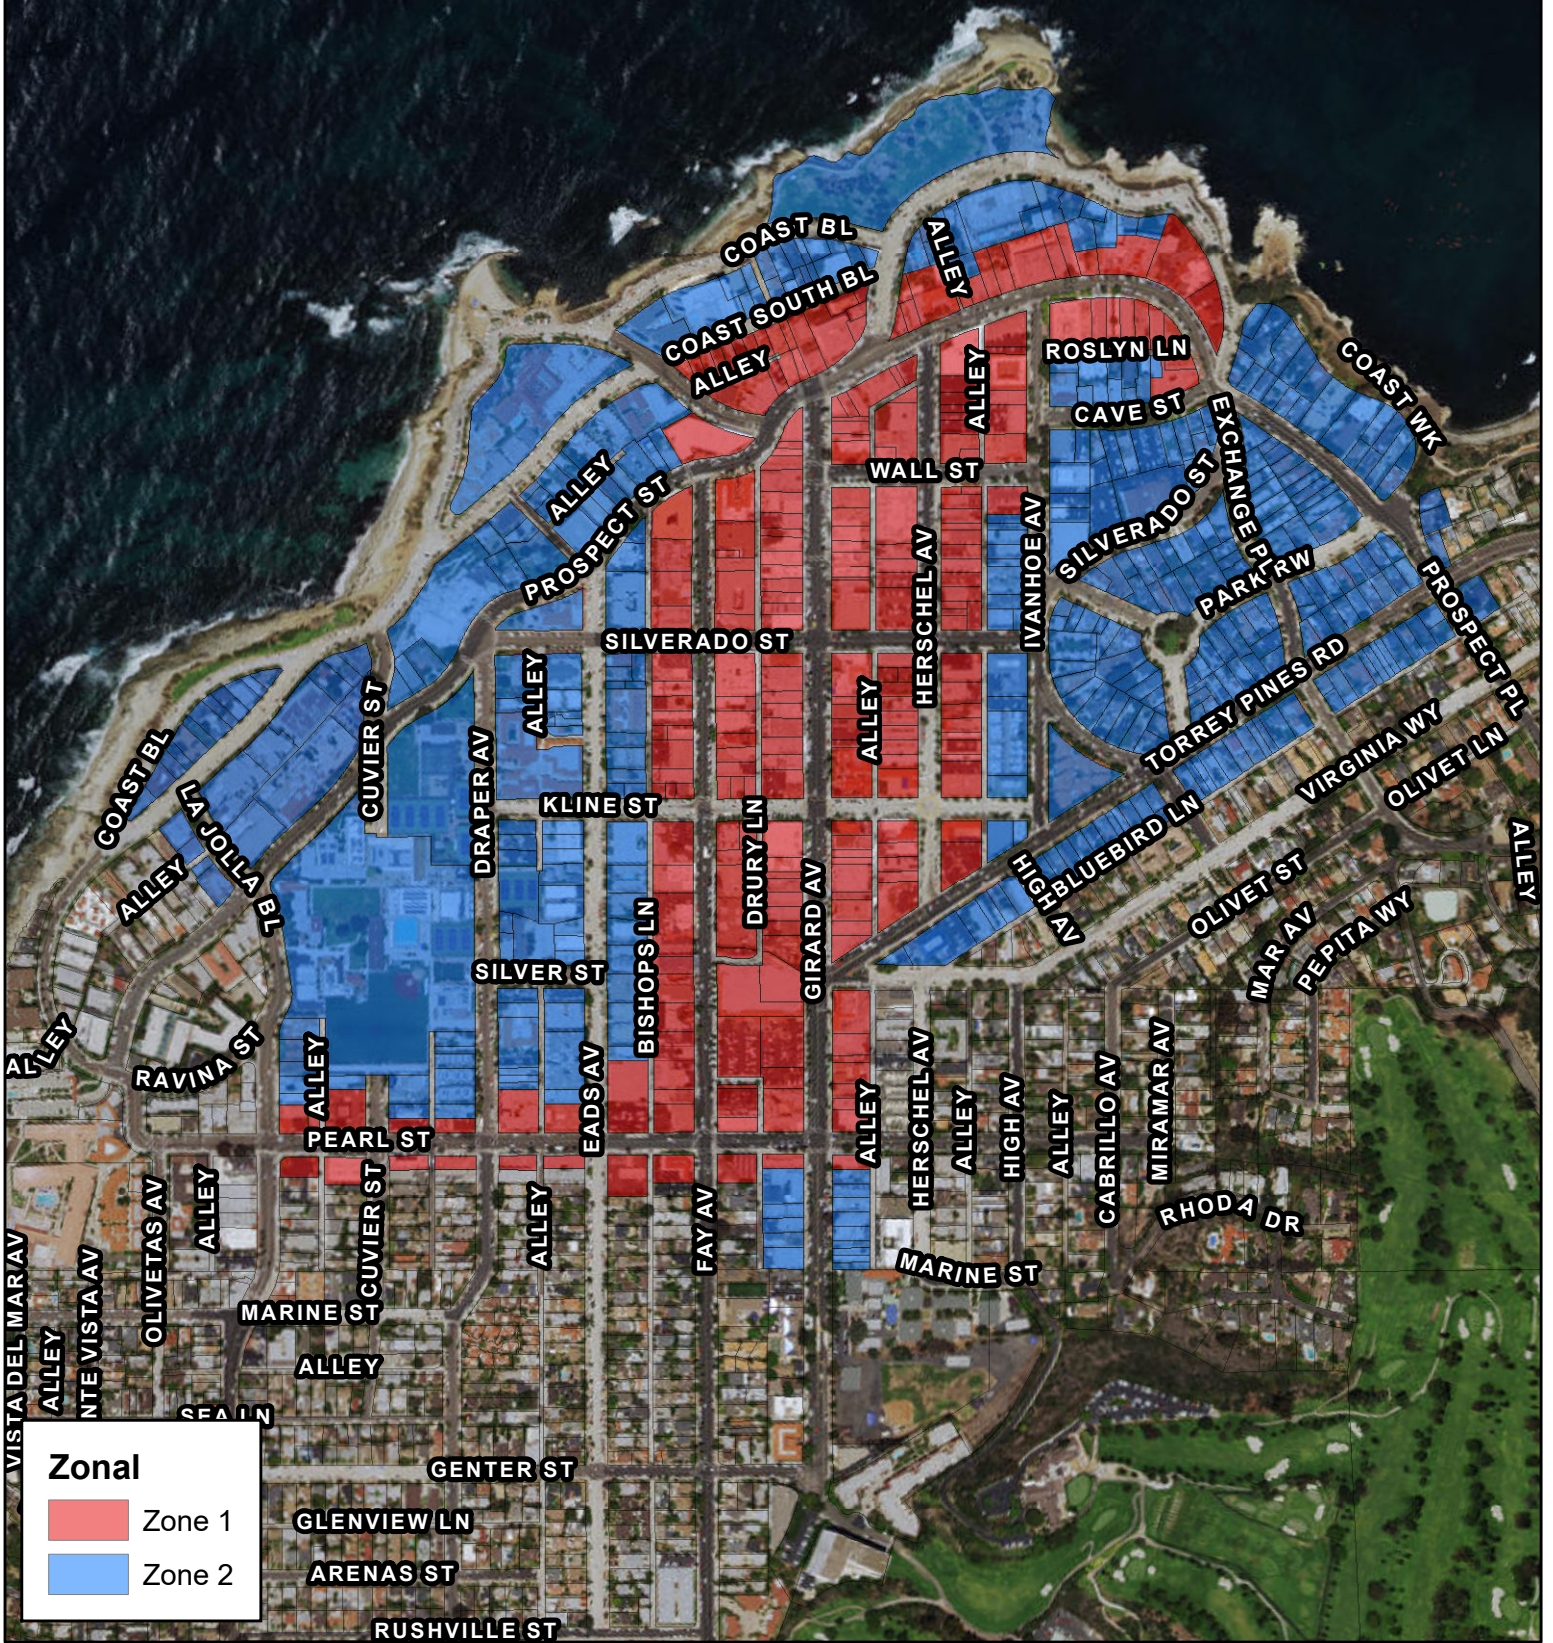

EXHIBIT A- DISTRICT BOUNDARY

The parcels within the La Jolla Maintenance Assessment District consist of all lots, parcels depicted within the boundaries of the District. The District diagram reflecting the exterior boundaries of the District and the Zones of benefit is on file with the City Clerk.
