Consolidated Annual Performance and Evaluation Report (**CAPER**) Measuring Performance Outcomes

Revised 1/22/15

OMB Number 2506-0133 (Expiration Date: 12/31/2017)

The CAPER report for HOPWA formula grantees provides annual information on program accomplishments that supports program evaluation and the ability to measure program beneficiary outcomes as related to: maintain housing stability; prevent homelessness; and improve access to care and support. This information is also covered under the Consolidated Plan Management Process (CPMP) report and includes Narrative Responses and Performance Charts required under the Consolidated Planning regulations. The public reporting burden for the collection of information is estimated to average 42 hours per manual response, or less if an automated data collection and retrieval system is in use, along with 60 hours for record keeping, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Grantees are required to report on the activities undertaken only, thus there may be components of these reporting requirements that may not be applicable. This agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless that collection displays a valid OMB control number.

Overview. The Consolidated Annual Performance and Evaluation Report (CAPER) provides annual performance reporting on client outputs and outcomes that enables an assessment of grantee performance in achieving the housing stability outcome measure. The CAPER, in conjunction with the Integrated Disbursement Information System (IDIS), fulfills statutory and regulatory program reporting requirements and provides the grantee and HUD with the necessary information to assess the overall program performance and accomplishments against planned goals and objectives.

HOPWA formula grantees are required to submit a CAPER, and complete annual performance information for all activities undertaken during each program year in the IDIS, demonstrating coordination with other Consolidated Plan resources. HUD uses the CAPER and IDIS data to obtain essential information on grant activities, project sponsors, Subrecipient organizations, housing sites, units and households, and beneficiaries (which includes racial and ethnic data on program participants). The Consolidated Plan Management Process tool (CPMP) provides an optional tool to integrate the reporting of HOPWA specific activities with other planning and reporting on Consolidated Plan activities.

Live-In Aides (see definition for Live-In Aide) and non-beneficiaries (e.g. a shared housing arrangement with a roommate) who resided in the unit are not reported on in the CAPER.

Housing Stability: The degree to which the HOPWA project assisted beneficiaries to remain in stable housing during the operating year. See *Part 5: Determining Housing Stability Outcomes* for definitions of stable and unstable housing situations.

In-kind Leveraged Resources: These involve additional types of support provided to assist HOPWA beneficiaries such as volunteer services, materials, use of equipment and building space. The actual value of the support can be the contribution of professional services, based on customary rates for this specialized support, or actual costs contributed from other leveraged resources. In determining a rate for the contribution of volunteer time and services, use the rate established in HUD notices, such as the rate of ten dollars per hour. The value of any donated material, equipment, building, or lease should be based on the fair market value at time of donation. Related documentation can be from recent bills of sales, advertised prices, appraisals, or other information for comparable property similarly situated.

Leveraged Funds: The amount of funds expended during the operating year from non-HOPWA federal, state, local, and private sources by grantees or sponsors in dedicating assistance to this client population. Leveraged funds or other assistance are used directly in or in support of HOPWA program delivery.

Live-In Aide: A person who resides with the HOPWA Eligible Individual and who meets the following criteria: (1) is essential to the care and well-being of the person; (2) is not obligated for the support of the person; and (3) would not be living in the unit except to provide the necessary supportive services. See the *Code of Federal Regulations Title 24, Part 5.403 and the HOPWA Grantee Oversight Resource Guide* for additional reference.

Master Leasing: Applies to a nonprofit or public agency that leases units of housing (scattered-sites or entire buildings) from a landlord, and subleases the units to homeless or low-income tenants. By assuming the tenancy burden, the agency facilitates housing of clients who may not be able to maintain a lease on their own due to poor credit, evictions, or lack of sufficient income.

Operating Costs: Applies to facility-based housing only, for facilities that are currently open. Operating costs can include day-to-day housing

function and operation costs like utilities, maintenance, equipment, insurance, security, furnishings, supplies and salary for staff costs directly related to the housing project but not staff costs for delivering services.

Outcome: The degree to which the HOPWA assisted household has been enabled to establish or maintain a stable living environment in housing that is safe, decent, and sanitary, (per the regulations at 24 CFR 574.310(b)) and to reduce the risks of homelessness, and improve access to HIV treatment and other health care and support.

Output: The number of units of housing or households that receive HOPWA assistance during the operating year.

Permanent Housing Placement: A supportive housing service that helps establish the household in the housing unit, including but not limited to reasonable costs for security deposits not to exceed two months of rent costs.

Program Income: Gross income directly generated from the use of HOPWA funds, including repayments. See grant administration requirements on program income for state and local governments at 24 CFR 85.25, or for non-profits at 24 CFR 84.24.

Project-Based Rental Assistance (PBRA): A rental subsidy program that is tied to specific facilities or units owned or controlled by a project sponsor or Subrecipient. Assistance is tied directly to the properties and is not portable or transferable.

Project Sponsor Organizations: Any nonprofit organization or governmental housing agency that receives funds under a contract with the grantee to provide eligible housing and other support services or administrative services as defined in 24 CFR 574.300. Project Sponsor organizations are required to provide performance data on households served and funds expended. Funding flows to a project sponsor as follows:

HUD Funding → Grantee → Project Sponsor

Short-Term Rent, Mortgage, and Utility (STRMU) Assistance: A time-limited, housing subsidy assistance designed to prevent homelessness and increase housing stability. Grantees may provide assistance for up to 21 weeks in any 52 week period. The amount of assistance varies per client depending on funds available, tenant need and program guidelines.

Stewardship Units: Units developed with HOPWA, where HOPWA funds were used for acquisition, new construction and rehabilitation that no longer receive operating subsidies from HOPWA. Report information for the units is subject to the three-year use agreement if rehabilitation is non-substantial and to the ten-year use agreement if rehabilitation is substantial.

Subrecipient Organization: Any organization that receives funds from a project sponsor to provide eligible housing and other support services and/or administrative services as defined in 24 CFR 574.300. If a subrecipient organization provides housing and/or other supportive services directly to clients, the subrecipient organization must provide performance data on household served and funds expended. Funding flows to subrecipients as follows:

HUD Funding → Grantee → Project Sponsor → Subrecipient

Tenant-Based Rental Assistance (TBRA): TBRA is a rental subsidy program similar to the Housing Choice Voucher program that grantees can provide to help low-income households access affordable housing. The TBRA voucher is not tied to a specific unit, so tenants may move to a different unit without losing their assistance, subject to individual program rules. The subsidy amount is determined in part based on household income and rental costs associated with the tenant's lease.

Transgender: Transgender is defined as a person who identifies with, or presents as, a gender that is different from his/her gender at birth.

Veteran: A veteran is someone who has served on active duty in the Armed Forces of the United States. This does not include inactive military reserves or the National Guard unless the person was called up to active duty.

Provide a one to three page narrative summarizing major achievements and highlights that were proposed and completed during the program year. Include a brief description of the grant organization, area of service, the name(s) of the program contact(s), and an overview of the range/type of housing activities provided. This overview may be used for public information, including posting on HUD's website. *Note: Text fields are expandable.*

The City of San Diego remains the HOPWA Program Grantee. Through a contract agreement with the County of San Diego Department of Housing and Community Development (HCD), the County has assumed all administrative responsibilities for the HOPWA formula grant program. In addition to the countywide HOPWA program, HCD operates housing programs in the unincorporated areas and in 15 of the 18 cities that exist in the County of San Diego. HCD provides housing assistance and community improvements through programs that benefit low and moderate-income persons.

The County of San Diego administered HUD's HOPWA PY14 allocation of \$2,837,844 to fund activities in FY 2014-15. In addition, prior year funds were used to supplement PY14 allocation for activities in FY 2014-15. These funds were expended in direct service contracts with agencies and non-profit organizations providing direct services to low income persons with HIV/AIDS. HOPWA funds are distributed throughout the County of San Diego to implement the following eligible activities:

- Tenant Based Rental Assistance
- Administration
- Housing Information and Referral Services
- Resource Identification
- Housing Operating Cost
- Short-term Supportive Facilities (Hotel/Motel Vouchers)

b. Annual Performance under the Action Plan

Provide a narrative addressing each of the following four items:

1. Outputs Reported. Describe significant accomplishments or challenges in achieving the number of housing units supported and the number households assisted with HOPWA funds during this operating year compared to plans for this assistance, as

approved in the Consolidated Plan/Action Plan. Describe how HOPWA funds were distributed during your program year among different categories of housing and geographic areas to address needs throughout the grant service area, consistent with approved plans.

2. Outcomes Assessed. Assess your program's success in enabling HOPWA beneficiaries to establish and/or better maintain a stable living environment in housing that is safe, decent, and sanitary, and improve access to care. Compare current year results to baseline results for clients. Describe how program activities/projects contributed to meeting stated goals. If program did not achieve expected targets, please describe how your program plans to address challenges in program implementation and the steps currently being taken to achieve goals in next operating year. If your program exceeded program targets, please describe strategies the program utilized and how those contributed to program successes.

3. Coordination. Report on program coordination with other mainstream housing and supportive services resources, including the use of committed leveraging from other public and private sources that helped to address needs for eligible persons identified in the Consolidated Plan/Strategic Plan.

4. Technical Assistance. Describe any program technical assistance needs and how they would benefit program beneficiaries.

The County of San Diego on behalf of the City of San Diego has worked closely with the Regional Continuum of Care Council (RCCC) that includes over 50 community based organizations, government agencies and developers to establish adequate housing and support services for people living with HIV/AIDS. Program staff maintains a permanent seat on the San Diego County's HIV Health Services Planning Council in addition to convening the Joint City/County HIV Housing Committee that addresses special needs concerns for those suffering that are homeless and not homeless but require supportive housing. The HIV Housing committee includes members of other HIV planning groups, affordable housing developers, service providers and consumers. It provides meaningful citizen and community participation in the planning process associated with affordable housing and related support services for person living with HIV/AIDS. The HIV Housing Committee serves as an advisory body to the Director of the County of San Diego, Department of Housing and Community Development regarding priorities and needs of the community affected by HIV/AIDS and housing.

The HOPWA program leverages an array of funding from public and private resources that help address the needs of persons with HIV/AIDS. During FY 2014-15, volunteers provided a substantial amount of service hours at many HOPWA-funded agencies. Volunteers are typically recruited from volunteer fairs or may be participants of HOPWA-funded programs, the United States Navy, local church congregations, St. Village de Paul Village Volunteer Services, Josue Homes alumni, community-based pharmacies, local HIV service organizations, and pharmaceutical companies. Volunteers come with the desire to contribute to the program and clientele. Volunteers for specific tasks, like grounds cleanup or orientation groups, were recruited through the St. Vincent de Paul Village Volunteer Services program. One HOPWA provider reported that in 2014, over 850 volunteers provided services valued over \$1,000,000 of in kind support preparing, packaging and delivering meals as well as helping with our food pantry and fund raising events. Two major fundraising events enjoyed record return with Mama's Day in May and Pie in the Sky in November netting over \$261,000. Other HOPWA providers reported they utilize contributions from company donations, non-profit collaborations and event sponsorships such as Sprouts market, which donates milk, eggs, and bread once a month, Cal State San Marcos, Community Action Partnership and AIDS Walk San Diego.

Ongoing collaboration with hundreds of case managers and health care providers who refer eligible clients and recertify their continued eligibility semiannually allow us to focus resources on nutritional support. Another HOPWA provider reported that they have been able to utilize contributions from company donations, such as Sprouts market that donate milk, eggs, and bread once a month. Additionally, agency participates in Adopt-A-Family event, in which donors purchase gifts for the families during the Holiday season.

Many agencies also received in-kind contributions and cash donations. HOPWA-funded agencies also took a proactive approach to increasing program income and implemented annual fundraising plans to increase income received from private donations, foundations, and grants. HOPWA-funded agencies also partnered with non-HOPWA funded agencies to offer a broader scope of services. HOPWA-funded agencies collaborate with a variety of health care providers and case management agencies to identify eligible clients including, but not limited to, Christie's Place, San Ysidro Health Center, Kaiser Permanente, Owen Clinic, and Sharp Rees-Stealy Medical Group. A total of 2,458,291 in committed leveraged funds from other public and private resources helped address the needs identified in the plan.

Table below summarizes objectives and accomplishments for Annual Plan Performance Measures, July 1, 2014 to June 30,2015:

c. Barriers and Trends Overview

Provide a narrative addressing items 1 through 3. Explain how barriers and trends affected your program’s ability to achieve the objectives and outcomes discussed in the previous section.

- Describe any barriers (including regulatory and non-regulatory) encountered in the administration or implementation of the HOPWA program, how they affected your program’s ability to achieve the objectives and outcomes discussed, and actions taken in response to barriers, and recommendations for program improvement. Provide an explanation for each barrier selected.

- Describe any trends in the community that may affect the way in which the needs of persons living with HIV/AIDS are being addressed, and provide any other information important to the future provision of services to this population.

- Identify any evaluations, studies, or other assessments of the HOPWA program that are available to the public.

In FY 2014, service providers continued encountering several barriers to providing HOPWA-funded services in the San Diego region. Providers reported a negative impact to their agencies and the services that they provide due to cuts to state and federal budgets. Reductions in the federally funded Ryan White CARE Act and similar state of California budget cuts resulted in staff reductions and reduced the service capacity of certain providers. Health issues seem to be a common barrier that disables individuals from working and finding permanent housing. Actions have consisted of clients maintaining continual preventative health check-ups. Many clients care undocumented or have no social security number to begin accessing certain services. Action has been to educate clients of their rights and even seeking legal status. Trends that the community will continue to face is the language barrier as many of our clients' native language is Spanish, especially because our proximity to the Mexican border. Homelessness also continues to be a major issue across San Diego and that is no exception to persons with HIV/AIDS. Our greatest challenge is ongoing funding for our mission. A diversified fundraising strategy including government contracts is our approach to meeting this challenge. As people respond to better medications, nutrition will remain a critical component in their enjoyment of a healthy quality of life. More housing opportunities for families with HIV/AIDS are needed. Traditionally, providers have had a long waitlist for applicants to supportive housing programs.

Lack of transportation continues to be a major issue for Josue Homes residents. While Josue Homes was able to provide a limited number of day trippers for limited reasons, (i.e. medical appointments) the cost to supply each resident with zero income with a bus pass is cost prohibitive. Providers must identify support services, employment opportunities, and affordable housing resources for clients. Specifically, providers must identify resources not funded by the usual HIV funding streams (e.g., RWTEA, HOPWA). With the implementation of the Affordable Care Act, providers and consumers must share information and strategies for obtaining and maintaining appropriate and effective medical care for HIV and co-occurring disorders. Barriers such as lack of stable housing, low income, and poor nutrition have been identified as gaps within the National HIV/AIDS Strategy (NAS) model. It is anticipated that mental health issues, such as untreated mental illness, cumulative trauma, and substance abuse, will need to enter into the discussion of major barriers impacting the HIV epidemic. Funding is the ongoing challenge in providing services. In addition, as the HIV/AIDS community ages, it anticipated that there will be more people requiring services as ancillary medical conditions arise. Finally, high housing costs in San Diego County continue to impact the ability of HOPWA providers to move program participants from HOPWA-funded housing into the private rental market. It is very difficult for clients to obtain a security deposit, provide the first month's rent, and qualify for a market-rate unit without some form of rental subsidy. Many clients reported that they were homeless or virtually homeless for lack of affordable housing.

Historically, the HOPWA program has received entitlement funds in an amount generally in line with the budget of activities proposed. Program staff has worked diligently with community-based organizations, government agencies, and developers to establish adequate housing and support services for people living with HIV/AIDS. In a collaborative effort, HOPWA staff continues to participate and maintain a permanent seat in the San Diego HIV Health Services Planning Council. HOPWA staff facilitates in establishing a subcommittee as needed of the Joint City/County HIV Housing Committee to help determine funding priorities for upcoming years

d. Unmet Housing Needs: An Assessment of Unmet Housing Needs

In Chart 1, provide an assessment of the number of HOPWA-eligible households that require HOPWA housing subsidy assistance but are not currently served by any HOPWA-funded housing subsidy assistance in this service area.

In Row 1, report the total unmet need of the geographical service area, as reported in *Unmet Needs for Persons with HIV/AIDS*, Chart 1B of the Consolidated or Annual Plan(s), or as reported under HOPWA worksheet in the Needs Workbook of the Consolidated Planning Management Process (CPMP) tool.

Note: Report most current data available, through Consolidated or Annual Plan(s), and account for local housing issues, or changes in HIV/AIDS cases, by using combination of one or more of the sources in Chart 2.

If data is collected on the type of housing that is needed in Rows a. through c., enter the number of HOPWA-eligible households by type of housing subsidy assistance needed. For an approximate breakdown of overall unmet need by type of housing subsidy assistance refer to the Consolidated or Annual Plan (s), CPMP tool or local distribution of funds. Do not include clients who are already receiving HOPWA-funded housing subsidy assistance.

Refer to Chart 2, and check all sources consulted to calculate unmet need. Reference any data from neighboring states' or municipalities' Consolidated Plan or other planning efforts that informed the assessment of Unmet Need in your service area.

Note: In order to ensure that the unmet need assessment for the region is comprehensive, HOPWA formula grantees should include those unmet needs assessed by HOPWA competitive grantees operating within the service area.

- 3 = Private Housing in the private rental or home ownership market (without known subsidy, including permanent placement with families or other self-sufficient arrangements) with reasonable expectation that additional support is not needed.
- 4 = Other HOPWA-funded housing subsidy assistance (not STRMU), e.g. TBRA or Facility-Based Assistance.

- 8 = Disconnected or disappeared from project support, unknown destination or no assessments of housing needs were undertaken.

Life Event

Temporarily Stable, with Reduced Risk of Homelessness is the sum of the number of households that accessed assistance for some portion of the permitted 21-week period or left their current housing arrangement for a transitional facility or other temporary/non-permanent housing arrangement and there is reasonable expectation additional support will be needed to maintain housing arrangements in the next year, as reported under housing status: Likely to maintain current housing arrangements, with additional STRMU assistance; Transitional Facilities/Short-term; and Temporary/Non-Permanent Housing arrangements.
