REPORT TO BUDGET AND FINANCE COMMITTEE

APPLICATION OF PUBLIC RECORDS ACT TO CONTRACTORS

INTRODUCTION

On July 28, 2008, the City Council considered Item Number 151, amendments to the City's Managed Competition Ordinance, sections 22.3701 et seq. of the San Diego Municipal Code, and related items. In considering those items, the City Council considered and passed a motion directing the Office of the City Attorney to come back with recommendations about the appropriate disclosure requirements for private interests that obtain contracts. This report summarizes the recommendations of the City Attorney's Office in response to the Council's request. Our recommendation is to apply the proposed ordinance to all contracts by private contractors.

DISCUSSION

The attached Ordinance would add a section at the end of Chapter 2, Article 2, Division 30 of the Municipal Code, which provides general definitions and provisions applicable to all types of City contracts. The new section would make City contractors subject to the same document disclosure requirements that would apply if they were City agencies. This would apply to public works contracts under Division 31 and contracts for "personal services, goods, and consultants" under Division 32, and expressly includes future contracts procured through Managed Competition.

Contractors' disclosure requirements pursuant to this Ordinance would be the same as those applicable to a "local agency" as that term is defined in the California Public Records Act, Cal. Gov't Code sections 6250 et seq. The same exemptions that apply to government agencies, as set forth in the Public Records Act and in case law thereunder, would apply to City contractors subject to this Ordinance. The Ordinance would explicitly state that it would reach only documents related to the performance of the contract, and not internal documents related only to the contractor's efforts to procure the contract. However, if the contractor later sought an amendment to the contract, which most typically involves a request to authorize additional funds, then the public would be allowed to view contractor documents related to the amendment and the justifications for it, potentially including documents related to the original procurement, if they later became relevant to the amendment.

City contracts would be required to include a standard clause, drafted by the Office of the City Attorney, under which the contractor would accept the obligations imposed by the new Ordinance. In addition, the contractor would agree to allow the City access to its internal records to the extent reasonably necessary to ensure compliance, and would agree to indemnify and hold harmless the City in any suits seeking documents under this Ordinance. The Ordinance would apply to all contracts executed, awarded, or amended on or after January 1, 2009.

CONCLUSION

The Office of the City Attorney stands ready to provide any further assistance that the Council may need in this matter.

Respectfully submitted,

MCHAEL J. AGUIRRE

City Attorney
