

STRUCTURAL BUDGET DEFICIT ELIMINATION
GUIDING PRINCIPLES
AS ADOPTED BY THE CITY COUNCIL (2/22/2010)
Resolution R-305615

1. Eliminate the General Fund structural budget deficit through a balanced approach of ongoing expenditure reductions and revenue generation, including identifying new revenue sources.
2. Until the City achieves its targeted General Fund reserve level of 8%, the City should not consider using reserve balances to balance any budget shortfall and should ensure that it does not drop below the current level of 7%.
3. Actively pursue alternative service delivery methods, including managed competition, efficiency improvements and elimination of service duplications.
4. Prepare a 5-year Outlook each year and provide numeric values for alternative budget balancing options based on input from City Council, Mayor, and IBA; be prepared each year to discuss alternative budget balancing options with the Budget Committee or City Council should the Outlook suggest an ongoing structural deficit.
5. One-time resources should be matched to one-time expenditures.
6. Achieve 100% cost recovery for programs and services that are intended to be fully cost recoverable through fees.
7. Reduce pension and retiree health care liability and annual City costs through the meet and confer process.
8. When deciding to construct new facilities or establish new programs, the City must take into consideration ongoing operation expenses and should identify ongoing funding to cover these expenses unless necessary to meet high priority needs.
9. Prioritize City services expenditures based on the City Charter requirements, Citizen Survey and other means of public input, benchmarking studies and departmental goals and performance data.
10. Maintain funding of the full annual required contributions (ARC) for the City's pension obligations in a manner compliant with City Charter and develop a plan to fully fund the Retiree Health Care ARC.
11. Develop a plan to fund deferred capital infrastructure and maintenance needs to reduce the current backlog, identify the level of funding necessary to prevent the problem from growing larger, and to reduce the potential of increasing costs to identify the level of funding. Discuss at Budget and Finance Committee a policy to calculate and identify the level of funding for deferred maintenance budget needs.
