### Maintenance Assessment District

---

#### Preamble

Pursuant to §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the *San Diego Municipal Code*) and City of San Diego Council Resolution No. R-310618 passed on July 22, 2016, authorizing the continued levy of assessments for the life of the CALLE CRISTOBAL MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as “District”), and in accordance with applicable provisions of “Proposition 218” (being Article XIID of the California Constitution), and provisions of the “Proposition 218 Omnibus Implementation Act” (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as “applicable law”), and in accordance with Resolution No. \_\_\_\_\_, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, and in connection with the annual proceedings for the District, EFS Engineering, Inc., as Assessment Engineer to the City of San Diego, submits herewith this annual report for the District as required by §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

DATE OF FINAL PASSAGE BY THE CITY OF SAN DIEGO,  
COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE  
\_\_\_\_\_ DAY OF \_\_\_\_\_, 2022.

---

Elizabeth Maland, CITY CLERK  
CITY OF SAN DIEGO  
STATE OF CALIFORNIA

## Executive Summary

**Project:** Calle Cristobal  
Maintenance Assessment District

**Apportionment Method:** Equivalent Benefit Unit (EBU)

	<b>FY 2022</b>	<b>FY 2023 <sup>(1)</sup></b>	<b>Maximum <sup>(2)</sup> Authorized</b>
<b>Total Parcels Assessed:</b>	2,491	2,491	--
<b>Total Estimated Assessment:</b>	\$252,409	\$268,447	--
<i>Zone 1</i>	\$161,737	\$172,003	--
<i>Zone 2</i>	\$68,818	\$73,196	--
<i>Zone 3</i>	\$21,854	\$23,248	--
<b>Total Number of EBUs:</b>	1,573.92	1,573.92	--
<i>Zone 1</i>	1,008.47	1,008.47	--
<i>Zone 2</i>	429.15	429.15	--
<i>Zone 3</i>	136.30	136.30	--
<b>Assessment per EBU: <sup>(3)</sup></b>	\$160.38	\$170.56	\$170.57 <sup>(4)</sup>

- <sup>(1)</sup> FY 2023 is the City's Fiscal Year 2023, which begins July 1, 2022 and ends June 30, 2023. Total Parcels Assessed, Total Estimated Assessment, and assessment apportionment factors may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.
- <sup>(2)</sup> Maximum authorized assessment rate subject to cost-indexing as approved by property owners at the time of District formation.
- <sup>(3)</sup> The Location Factor applied to parcels located in Zones 2 and 3 (included in the EBU calculation), effectively results in a 50% reduction in the Assessment Rate applicable to such parcels.
- <sup>(4)</sup> Prior fiscal year's maximum authorized annual assessment rate increased by cost-indexing factor of 6.35%.

**Annual Cost-Indexing:** The maximum authorized assessment rates are cost-indexed and will increase (or decrease) annually based on the annual change in the *San Diego Consumer Price Index for Urban Consumers* (SDCPI-U).

---

## Background

The Calle Cristobal Maintenance Assessment District (District), originally known as the “Calle Cristobal Landscape Maintenance District,” was established by the City of San Diego (City) on May 19, 1987 by City Council Resolution R-268363. The District was subsequently re-formed on December 9, 1997 by City Council Resolution R-289554, primarily for purposes of compliance with Proposition 218 and to permit future cost-indexing. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.

In conformity with §65.0221 of the “San Diego Maintenance Assessment District Procedural Ordinance,” the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer’s Reports (Engineer’s Reports). The Engineer’s Reports are on file with the City Clerk, and incorporated herein by reference.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance.” This annual report has been prepared pursuant to the requirements of §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

---

## District Boundary

The District boundary is generally depicted in **Exhibit A**. The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.

---

## Project Description

The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of maintenance and servicing of street trees and shrubs, landscaped medians, landscaped public rights-of-way, sound barrier vegetation, median and roadside gutter sweeping, and decorative concrete median maintenance in the District. The approximate location of the improvements is generally shown in **Figure 1**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer's Reports and other associated documents on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City. These documents, collectively, are incorporated herein by reference and made part of this annual report.

---

## Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are "special benefits" to the extent that they are above and beyond the City's standard level of service, and exclusive of those "general benefits" provided to the public at large or properties located outside the District. By law, only "special benefits" are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide "special benefits" in accordance with the Engineer's Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer's Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

---

## Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The "Other Contributions (Non Assessment Source)" revenue contained in the budget includes the value of improvements and activities determined to provide "general benefits." The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

**Calle Cristobal  
Maintenance Assessment District**

**FIGURE 1**

## Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer's Reports is permitted to increase annually based on the published change in the "San Diego Consumer Price Index for Urban Consumers" (SDCPI-U). The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see [www.bls.gov](http://www.bls.gov)), for the prior year period was from 305.823 to 325.241 (a 6.35% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rate has been increased by 6.35%.

---

## Method of Apportionment

### Estimated Benefit of the Improvements

The improvements and activities provided by this District are associated with the maintenance of street rights-of-way and street medians. The District improvements and activities provide many benefits including enhanced visual aesthetics of the main entrance corridor into the community, increased land values, clean and litter-free streets, reduced graffiti by sound barrier vegetation, and a sense of community identity and pride.

Calle Cristobal/Sorrento Valley Boulevard, Camino Ruiz, and Camino Santa Fe are the backbone of the street network within the community. They serve as the primary access routes in and out of the community and for cross-community trips, and thus serve all parcels within the community. All parcels benefit from the enhancement of these streets and the enhanced community image provided by the District improvements and activities.

The Transportation Element of the City's General Plan and the General Policy Recommendations found in the Mira Mesa Community Plan (which includes the Calle Cristobal community) establish several goals for the community's streets. The District improvements and activities are consistent with the Plans' goals for safety and pleasing aesthetics. The installation of these improvements is often funded by developers as conditions of development. The maintenance for these enhanced assets (above the City's minimum standard), since installation, has been funded through the District. The General Plan also supports the establishment of community landscape improvement and maintenance districts, such as this District, to fund enhanced improvements and activities.

## Apportionment Methodology

The total cost associated with District improvement and activities will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all the parcels in the District. Parcels determined to receive no benefit from District improvements and activities will be assigned zero (0) EBUs.

EBUs for each parcel have been determined as a function of three factors, a Land Use Factor, a Benefit Factor, and a Location Factor, related as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Each of these factors is discussed below.

### Land Use Factor

Since the District improvements and activities are primarily associated with the Transportation Element of the General and Community Plans, trip generation rates for various land use categories (as previously established by the City's Transportation Planning Section) have been used as the primary basis for the development of Land Use Factors. While these trip generation rates strictly address only vehicular trips, they are also considered to approximately reflect relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

The special benefits of landscape improvements and activities are linked to trip generation primarily by the public safety and aesthetic enhancement enjoyed by travelers through the community. Thus, trip generation rates provide the required nexus and basis for assigning ratios of maximum potential benefit to the various land use/zoning classifications as defined by the City's Municipal Code.

Land use/zoning classifications have been grouped with averaged trip generation rates assigned to establish the Land Use Factors. Land Use Factors are summarized as shown in **Table 1**.

**TABLE 1: Land Use Factors**

<b>Land Use/Zoning</b>	<b>Code</b>	<b>Land Use Factor</b>
Residential – Single Family (detached)	SFD	1.0 per dwelling unit
Residential – Condominium	CND	0.7 per dwelling unit
Agricultural	AGR	0.02 per acre
Open Space (designated)	OSP	0.0 per acre
Park – Developed	PKD	5.0 per acre
Park – Undeveloped	PKU	0.5 per acre
Recreational Facility	REC	3.0 per acre
Street/Roadway	STR	0.0 per acre

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is sometimes permitted, these activities are usually allowed only to the limited extent consistent with the primary purpose of natural preservation. Since this land is essentially “unused” in the customary terms of land use (which relate to human use, not use by nature), the trip generation rate is zero. Therefore, the designated Open Space receives no benefit from the Transportation Element and has been assigned a Land Use Factor of zero.

The Recreational Facility category includes those which consist primarily of concentrated facilities, such as swimming pools, gymnasiums, racquetball clubs, etc. Generally for a facility of this nature, the area of significant human use is small in comparison with the overall size of the facility. Therefore, a land use factor of 3.0 per acre has been assigned.

Recreational facilities of a more dispersed nature, such as undeveloped and developed parks, are categorized separately. A significant portion of most parks is primarily designated for human use. Land use factors of 5.0 and 0.5 per acre have been assigned to the developed parks and undeveloped parks, respectively.

While people traveling the streets and roadways enjoy the District improvements and activities during their travel, the actual benefit of this enjoyment accrues to the lands at the origins and destinations of their trips, not to the lands of the streets and roadways, themselves. Streets and roadways themselves generate no trips. Accordingly, streets and roadways receive no benefit and have been assigned a Land Use Factor of zero.

## Benefit Factor

The Land Use Factor described above reflects the relative intensity of use (or potential use) of the various parcels of land to be assessed. It does not address the relationship of this use to the specific District improvements and activities. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the sub-components of the benefits of District improvements and activities considered may include some or all of the following: public safety, view corridors and aesthetics, and enhancement of community identity. As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific improvements maintained by the district, Benefit Factors will generally vary from one district to another, based on the specific details of the applicable land uses and improvements provided.

The components and resultant Benefit Factors for the various Land Use/Zoning categories are summarized as shown in **Table 2**.

**TABLE 2: Benefit Factors by Land Use**

<b>Land Use/Zoning</b>	<b>Public Safety (max. 0.3)</b>	<b>Aesthetics (max. 0.7)</b>	<b>Composite Benefit Factor (max. 1.0)</b>
Residential – All	0.3	0.7	1.0
Agricultural	0.3	0.0	0.3
Open Space (designated)	0.3	0.0	0.3
Park – Developed	0.3	0.0	0.3
Park – Undeveloped	0.3	0.0	0.3
Recreational Facility	0.3	0.2	0.5
Street/Roadway	0.3	0.0	0.3

**Public Safety.** All land uses are considered to receive the maximum available benefit from the public safety element of District improvements and activities. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

*Aesthetics.* The degree of benefit received from the aesthetic qualities of landscaped roadway medians and rights-of-way maintained or provided by the District varies among land use categories. Generally, by nature of their use, residential lands receive the greatest benefit from the reduced traffic congestion, reduced noise levels, greater separation from traffic and generally more tranquil environment provided by landscaped roadway medians and rights-of-way.

Lands in the Open Space, and Street/Roadway, categories are considered to receive no significant benefit from the aesthetic elements of District improvements and activities, as enhanced aesthetic quality of other lands in their vicinity does not affect their function, use, or value. Lands in the Park category are in themselves an aesthetic benefit to the community and receive no significant benefit from the aesthetic elements of District improvements and activities.

## Location Factor

The District is divided into three zones as shown in **Exhibit A**. The three zones account for the different level of services provided in each zone. Each zone has been assigned a unique Location Factor to apportion the costs associated with the benefit that each zone uniquely receives. Following is a detailed description of the benefits each zone receives.

All parcels in Zones 1, 2, and 3 receive the common benefit of maintenance of enhanced landscape and hardscape medians and median gutter sweeping. Although there is varying types of median improvements at various reaches of the major streets all parcels are judged to enjoy the enhancements in common as all parcels receive access through traversing these major streets. The costs associated with median maintenance have been apportioned to all parcels within the boundaries of Zones 1, 2, and 3 through a base Location Factor of 0.5.

**Zone 1:** In addition to the base enhanced median maintenance, the right-of-way parkways in Zone 1 are maintained by the District. The cost per EBU for maintenance of the parkways in Zone 1 (Zone 1 parkway maintenance costs divided by number of EBUs in Zone 1) is approximately equal to the cost per EBU of the base median maintenance (base median maintenance costs for all three zones divided by number of EBUs in all three zones). Summing the cost per EBU for base median maintenance and the cost per EBU for parkway

maintenance in Zone 1 results in a Location Factor of 1.0 for Zone 1 (2 x 0.5 base Location Factor for medians only).

**Zone 2:** A Location Factor of 0.5 (the full base Location Factor) has accordingly been applied for Fiscal Year 2023. In addition to the base median maintenance, Zone 2 will in the future receive the additional benefit of maintenance of a Tot-Lot Park. The cost per EBU in Zone 2 of this additional Tot-Lot Park maintenance is approximately 0.2 times the cost per EBU of the base median maintenance among all zones. Accordingly, a Location Factor of 0.6 (1.2 x 0.5 base Location Factor for medians only) is assigned to Zone 2 for Buildout Conditions, when the Tot-Lot Park maintenance will be provided by the District.

**Zone 3:** Zone 3 receives only the benefit of the base median maintenance and, therefore, receives a Location Factor of 0.5 (1.0 x 0.5 base Location Factor).

**Table 3** summarizes the Location Factors for Fiscal Year 2023 and at Ultimate Buildout (when the Tot-Lot Park will be maintained by the District).

**TABLE 3: Location Factors by Fiscal Year**

Zone	Fiscal Year 2023 (max. 1.0)	Ultimate Buildout (max. 1.0)
Zone 1	1.0	1.0
Zone 2	0.5	0.6
Zone 3	0.5	0.5

## Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Shown below are sample EBU calculations for several common land uses found in the District.

- **1 Single-Family Residence in Zone 1**

$$\text{EBUs} = 1 \text{ unit} \times 1.00 \times 1.00 \times 1.00 = 1.00 \text{ EBUs}$$

- **1 Condominium in Zone 2**

$$\text{EBUs} = 1 \text{ unit} \times 0.70 \times 1.00 \times 0.50 = 0.35 \text{ EBUs}$$

- **5-acre Park without Recreation Center in Zone 3**

$$\text{EBUs} = 5.00 \text{ acres} \times 0.50 \times 0.30 \times 0.50 = 0.38 \text{ EBUs}$$

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$$

Based on the above formula, the EBUs calculated for each property, can be found in the Assessment Roll (**Exhibit C**).

---

## Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.

This annual report has been prepared and respectfully submitted by:
