## Background

The Liberty Station/NTC Maintenance Assessment District (District), originally known as the “Liberty Station Maintenance Assessment District,” was established by the City of San Diego (City) on July 22, 2003 by City Council Resolution R-298224. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.

In conformity with §65.0221 of the “San Diego Maintenance Assessment District Procedural Ordinance,” the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer’s Reports (Engineer’s Reports). The Engineer’s Reports are on file with the City Clerk, and incorporated herein by reference.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance.” This annual report has been prepared pursuant to the requirements of §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

---

## District Boundary

The District boundary is generally depicted in **Exhibit A**. The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.

---

## Project Description

The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of maintenance and servicing of specified lighting facilities in the District. The approximate location of the improvements is generally shown on **Exhibit A**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer’s Reports and other associated documents on file with the

Maintenance Assessment Districts section of the Parks and Recreation Department of the City. These documents, collectively, are incorporated herein by reference and made part of this annual report.

---

## Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are “special benefits” to the extent that they are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. By law, only “special benefits” are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide “special benefits” in accordance with the Engineer’s Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer’s Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

---

## Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The “Other Contributions (Non Assessment Source)” revenue contained in the budget includes the value of improvements and activities determined to provide “general benefits.” The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

### Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer’s Reports is permitted to increase annually based on the published change in the “San Diego Consumer Price Index for Urban Consumers” (SDCPI-U). The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see [www.bls.gov](http://www.bls.gov)), for the prior year period was from 305.823 to 325.241 (a 6.35% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rate has been increased by 6.35%.

---

## Method of Apportionment

### Benefit Zones

For benefit apportionment purposes, the District was divided into seven (7) separate benefit zones in order to differentiate between the different types of service parcels receive. The benefit zones are shown in **Exhibit A**, and generally described in the Engineer's Reports as follows:

**Zone A:** This Zone is single family residential and has a higher concentration of streetlights than the other areas. This Zone is bounded by Rosecrans Street, Laning Road, Cushing Road and Faragut Road.

**Zone B:** This Zone is primarily multi-family residential and has a higher concentration of streetlights than the other areas except for Zone A. This Zone is bounded by Cushing Road, Porter Road, and the Promenade.

**Zone C:** This Zone is a mixed use area of commercial, educational and museum uses including a golf course. It also includes the park adjacent to Cushing Road and the US Navy Medical Center. This zone is bounded by Rosecrans Street, Lytton Street and the Boat Channel.

**Zone D:** This Zone is comprised of the hotel, conference center and the USS Recruit on the west side of the Boat Channel.

**Zone E:** This Zone is comprised of the hotel on the east side of the Boat Channel, North Harbor Drive, a Private Driveway, and Kincaid Street.

**Zone F:** This Zone is a mixed use area on the east side of the Boat Channel. This Zone is bounded by a Private Driveway, North Harbor Drive, McCain Road and the Boat Channel, as shown on the Assessment Diagram.

**Zone G:** This Zone is comprised of Zones A, B and C and benefits from the arterial lighting along Rosecrans Street and Lytton Street, along the perimeter of the development. These lights were a condition of development for the Liberty Station/NTC development and therefore all properties within this main development area receive benefit from these lights.

### Apportionment Methodology

The total cost associated with District improvement and activities have been apportioned to the parcels in the District based on each parcel's estimated equivalent dwelling units. The single-family residential

parcel was selected as the basic unit for calculation of assessments. A single-family residential parcel was defined as one equivalent dwelling unit (EDU). All other land uses were equated to the single-family residential land use based on relative trip generation rates. Average daily trip (ADT) generation rates provide a means to compare the different land uses to each other by virtue of the level of activity that is associated with each land use type.

EDUs for each parcel have been determined based on an EDU Rate applicable to the subject land use, as shown in the following equation:

EDUs = (Acres or Units) x EDU Rate
------------------------------------

Applicable ADT and EDU rates by land use are shown in **Table 3**.

**TABLE 3: ADT & EDU Rates by Land Use**

Land Use	ADT Rate	EDU Rate
Single Family Residential	8.00 / DU	1.00 / DU
Multi-Family Residential	6.00 / DU	0.75 / DU

Notes: The NTC Foundation properties is assigned ADT based on a weighted average of the ADT's of the various land uses anticipated to be on these properties: Retail, Restaurant, Office, Museum, Education and Performance Space.

The MWWD/SDSU Laboratories use is assigned ADT the same as a science research and development facility.

The Public Safety Training Institute (PSTI) use is assigned ADT the same as a junior college.

The USS Recruit use is assigned ADT the same as Education/Museum.

The School Gym use is assigned ADT the same as Education/Museum.

The Conference Center is assigned ADT the same as single tenant office.

## Unit Assessment Rate

The total assessment for a given parcel is equal to the parcel's total EDUs multiplied by the unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EDUs} \times \text{Unit Assessment Rate}$$

The Unit Assessment Rate (also referred to as the "Assessment per EBU") for each zone is presented in the Executive Summary section of this annual report.

## Sample Calculations

As described above, the number of Equivalent Dwelling Units (EDUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EDUs} = (\text{Acres, Units, or Bldg SF}) \times \text{EDU Rate}$$

Shown below are sample EDU calculations for several common land uses found in the District.

- **1 Single-Family Residence**  
EDUs = 1 unit x 1.00 = 1.00 EDUs
- **1 Condominium**  
EDUs = 1 unit x 0.75 = 0.75 EDUs
- **5,000-square foot Commercial Office Space**  
EDUs = 5 kilo square feet x 2.295 = 11.48 EDUs
- **2,000-square foot Retail Commercial Space**  
EDUs = 2 kilo square feet x 5.000 = 10.00 EDUs

The total assessment for each parcel in the District is based on the calculated EDUs for the parcel and the applicable unit assessment rate for the zone in which the parcel is located, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EDUs} \times \text{Unit Assessment Rate}$$

Based on the above methodology, the apportionment factors, EDUs, unit assessment rates, and total assessment calculated for each parcel can be found in the Assessment Roll (**Exhibit C**).

---

## Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.
