Annual Report for Fiscal Year 2023 Otay International Center Maintenance Assessment District

Preamble

Pursuant to §65.0220 of the "San Diego Maintenance Assessment District Procedural Ordinance" (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code) and City of San Diego Council Resolution No. R-310618 passed on July 22, 2016, authorizing the continued levy of assessments for the life of the OTAY INTERNATIONAL CENTER MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as "District"), and in accordance with applicable provisions of "Proposition 218" (being Article XIIID of the California Constitution), and provisions of the "Proposition 218 Omnibus Implementation Act" (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "applicable law"), and in accordance with Resolution No. , adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, and in connection with the annual proceedings for the District, EFS Engineering, Inc., as Assessment Engineer to the City of San Diego, submits herewith this annual report for the District as required by §65.0220 of the "San Diego Maintenance Assessment District Procedural Ordinance."

DATE OF FINAL PASSAGE BY THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE _____ DAY OF _____, 2022.

> Elizabeth Maland, CITY CLERK CITY OF SAN DIEGO STATE OF CALIFORNIA

SAN DIEGO Annual Report for Fiscal Year 2023

Executive Summary

Otay International Center Maintenance Assessment District

Apportionment Method:

Equivalent Benefit Unit (EBU)

	FY 2022	FY 2023 (1)	Maximum ⁽²⁾ Authorized
Total Parcels Assessed:	258	258	
Total Estimated Assessment:	\$242,106	\$250,176	
Total Number of EBUs:	4,035.11	4,035.11	
Assessment per EBU:	\$60.00	\$62.00	\$116.77 ⁽³⁾

⁽¹⁾ FY 2023 is the City's Fiscal Year 2023, which begins July 1, 2022 and ends June 30, 2023. Total Parcels Assessed, Total Estimated Assessment, and assessment apportionment factors may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

(2) Maximum authorized assessment rate subject to cost-indexing as approved by property owners at the time of District formation.

⁽³⁾ Prior fiscal year's maximum authorized annual assessment rate increased by cost-indexing factor of 6.35%.

Annual Cost-Indexing:

The maximum authorized assessment rates are cost-indexed and will increase (or decrease) annually based on the annual change in the *San Diego Consumer Price Index for Urban Consumers* (SDCPI-U).

Background

	The Otay International Center Maintenance Assessment District (District), originally known as the "Otay International Center Landscape Maintenance District," was established by the City of San Diego (City) on July 12, 1994 by City Council Resolution R-284276. The District was subsequently re-formed on July 17, 2000 by City Council Resolution R-293462 primarily for purposes of compliance with Proposition 218 and to permit future cost-indexing. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.
	In conformity with §65.0221 of the "San Diego Maintenance Assessment District Procedural Ordinance," the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer's Reports (Engineer's Reports). The Engineer's Reports are on file with the City Clerk, and incorporated herein by reference.
	The District is authorized and administered under the provisions of the "San Diego Maintenance Assessment District Procedural Ordinance." This annual report has been prepared pursuant to the requirements of §65.0220 of the "San Diego Maintenance Assessment District Procedural Ordinance."
District Boundary	
-	The District boundary is generally depicted in Exhibit A . The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.
Project Description	
	The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of maintenance and servicing of streetscapes and landscaped center medians along major arterial streets and the corridors within the District, parkway landscaping along Paseo Internacional (State Route 905) from the U.S. Customs Station to Airway Road, and landscaped and hardscaped medians along Siempre Viva Road from Harvest Road to Enrico Fermi

Drive. The approximate location of the improvements is generally shown on **Exhibit A**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer's Reports and other associated documents on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City. These documents, collectively, are incorporated herein by reference and made part of this annual report.

Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are "special benefits" to the extent that they are above and beyond the City's standard level of service, and exclusive of those "general benefits" provided to the public at large or properties located outside the District. By law, only "special benefits" are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide "special benefits" in accordance with the Engineer's Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer's Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The "Other Contributions (Non Assessment Source)" revenue contained in the budget includes the value of improvements and activities determined to provide "general benefits." The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer's Reports is permitted to increase annually based on the published change in the "San Diego Consumer Price Index for Urban Consumers" (SDCPI-U). The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see www.bls.gov), for the prior year period was from 305.823 to 325.241

The City of SAN DIEGO Parks and Recreation Department (a 6.35% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rate has been increased by 6.35%.

Method of Apportionment

Estimated Benefit of Improvements

The Transportation Element of the City's General Plan and the general policy recommendations found in the local Community Plan establish several goals for the community's transportation system and urban design features. The District improvements and activities and services are consistent with the plans' goals for safety and pleasing aesthetics.

Apportionment Methodology

The total cost associated with District improvements and activities and activities will be assessed proportionally to the parcels in the District based on Equivalent Benefit Units (EBUs). The assessment for a given parcel is equal to the parcel's total equivalent benefit units (EBUs) multiplied by the unit assessment rate, as shown in the following equation:

Total Assessment = Total EBUs x Unit Assessment Rate

EBUs for each parcel have been determined as a function of two factors, a Land Use Factor and a Benefit Factor, related as shown in the following equation:

EBUs = (Acres or Units) x Land Use Factor x Benefit Factor

Each of these factors is discussed below.

Land Use Factor

Since the District improvements and activities and activities are primarily associated with the Transportation Element of the City's General Plan and local Community Plan, trip generation rates for various land use categories (as previously established by the City's Transportation Planning Section) have been used as the primary basis for the development of Land Use Factors. While these trip generation rates strictly address only vehicular trips, they are also considered to approximately reflect relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

The City of SAN DIEGO The special benefits of the District improvements and activities and activities are linked to trip generation primarily by the public safety and aesthetic enhancement enjoyed by travelers through the community. Trip generation rates provide the required nexus and basis for assigning ratios of maximum potential benefit to the various land use/zoning classifications as defined by the City's Municipal Code.

Land use/zoning classifications have been grouped with average trip generation rates assigned to establish the Land Use Factors as shown in **Table 1**.

		-
Land Use/Zoning	Code	Land Use Factor
Commercial	COM	45.0 per acre
Hotel	HTL	15.0 per acre
Industrial	IND	15.0 per acre
Open Space (designated)	OSP	0.0 per acre
Street/Roadway	STR	0.0 per acre
Utility Facility	UTL	3.0 per acre

 TABLE 1: Land Use Factors

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is sometimes permitted, these activities are usually allowed only to the limited extent consistent with the primary purpose of natural preservation. Since this land is essentially "unused" in the customary terms of land use (which relate to human use, not use by nature), the trip generation rate is zero. Therefore, the designated Open Space receives no benefit from the Transportation Element and has been assigned a Land Use Factor of zero.

Benefit Factor

The Land Use Factor described above reflects the relative intensity of use (or potential use) of the various parcels of land to be assessed. It does not address the relationship of this use to the specific District improvements and activities and activities. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the subcomponents of the benefits of District improvements and activities considered may include some or all of the following: public safety, view corridors and aesthetics, enhancement of community identity, and recreational potential. As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific District improvements and activities, Benefit Factors will generally vary from one district to another, based on the specific character and nature of the applicable land uses and improvements and activities.

The applicable benefit subcomponents and resultant composite Benefit Factors determined for the various land use/zoning categories within this District are as shown in **Table 2**.

Land Use/Zoning	Public Safety (max. 0.4)	Aesthetics (max. 0.6)	Composite Benefit Factor (max. 1.0)
Commercial	0.4	0.3	0.7
Hotel	0.4	0.3	0.7
Industrial	0.4	0.3	0.7
Open Space (designated)	0.4	0.0	0.4
Street/Roadway	0.4	0.0	0.4
Utility Facility	0.4	0.0	0.4

TABLE 2: Benefit Factors by Land Use

Public Safety. All land uses are considered to receive the maximum available benefit from the public safety element of District improvements and activities. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

Aesthetics. The degree of benefit received from the aesthetic qualities of landscaped medians and streetscapes maintained by the District varies among land use categories. Lands in the Open Space and Utility Facility categories are considered to receive no significant benefit from the aesthetic elements of District improvements and activities, as enhanced aesthetic quality of other lands in the vicinity does not affect their function, use, or value.

Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

EBUs = (Acres or Units) x Land Use Factor x Benefit Factor

Shown below are sample EBU calculations for several common land uses found in the District.

- ¹/₂-acre Commercial Property EBUs = 0.50 acres x 45.00 x 0.70 = 15.75 EBUs
- 1-acre Industrial Property EBUs = 1.00 acres x 15.00 x 0.70 = 10.50 EBUs
- 1-acre Hotel Property EBUs = 1.00 acres x 15.00 x 0.70 = 10.50 EBUs

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

Total Assessment = Total EBUs x Unit Assessment Rate

Based on the above methodology, the apportionment factors, EBUs, unit assessment rates, and total assessment calculated for each parcel can be found in the Assessment Roll (**Exhibit C**).

Summary Results

The District Boundary is presented in Exhibit A.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.
