<sup>(1)</sup> FY 2023 is the City's Fiscal Year 2023, which begins July 1, 2022 and ends June 30, 2023. Total Parcels Assessed, Total Estimated Assessment, and assessment apportionment factors may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

<sup>(2)</sup> Maximum authorized assessment rate subject to cost-indexing as approved by property owners at the time of District formation.

<sup>(3)</sup> Prior fiscal year's maximum authorized annual assessment rate increased by cost-indexing factor of 9.35%.

**Annual Cost-Indexing:**

The maximum authorized assessment rates are cost-indexed and will increase (or decrease) annually based on the annual change in the *San Diego Consumer Price Index for Urban Consumers* (SDCPI-U) plus 3%.

## Background

The Pacific Highlands Ranch Maintenance Assessment District (District) was established by the City of San Diego (City) on February 3, 2006 by City Council Resolution R-301215. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.

In conformity with §65.0221 of the “San Diego Maintenance Assessment District Procedural Ordinance,” the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer’s Reports (Engineer’s Reports). The Engineer’s Reports are on file with the City Clerk, and incorporated herein by reference.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance.” This annual report has been prepared pursuant to the requirements of §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

---

## District Boundary

The District boundary is generally depicted in **Exhibit A**. The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.

---

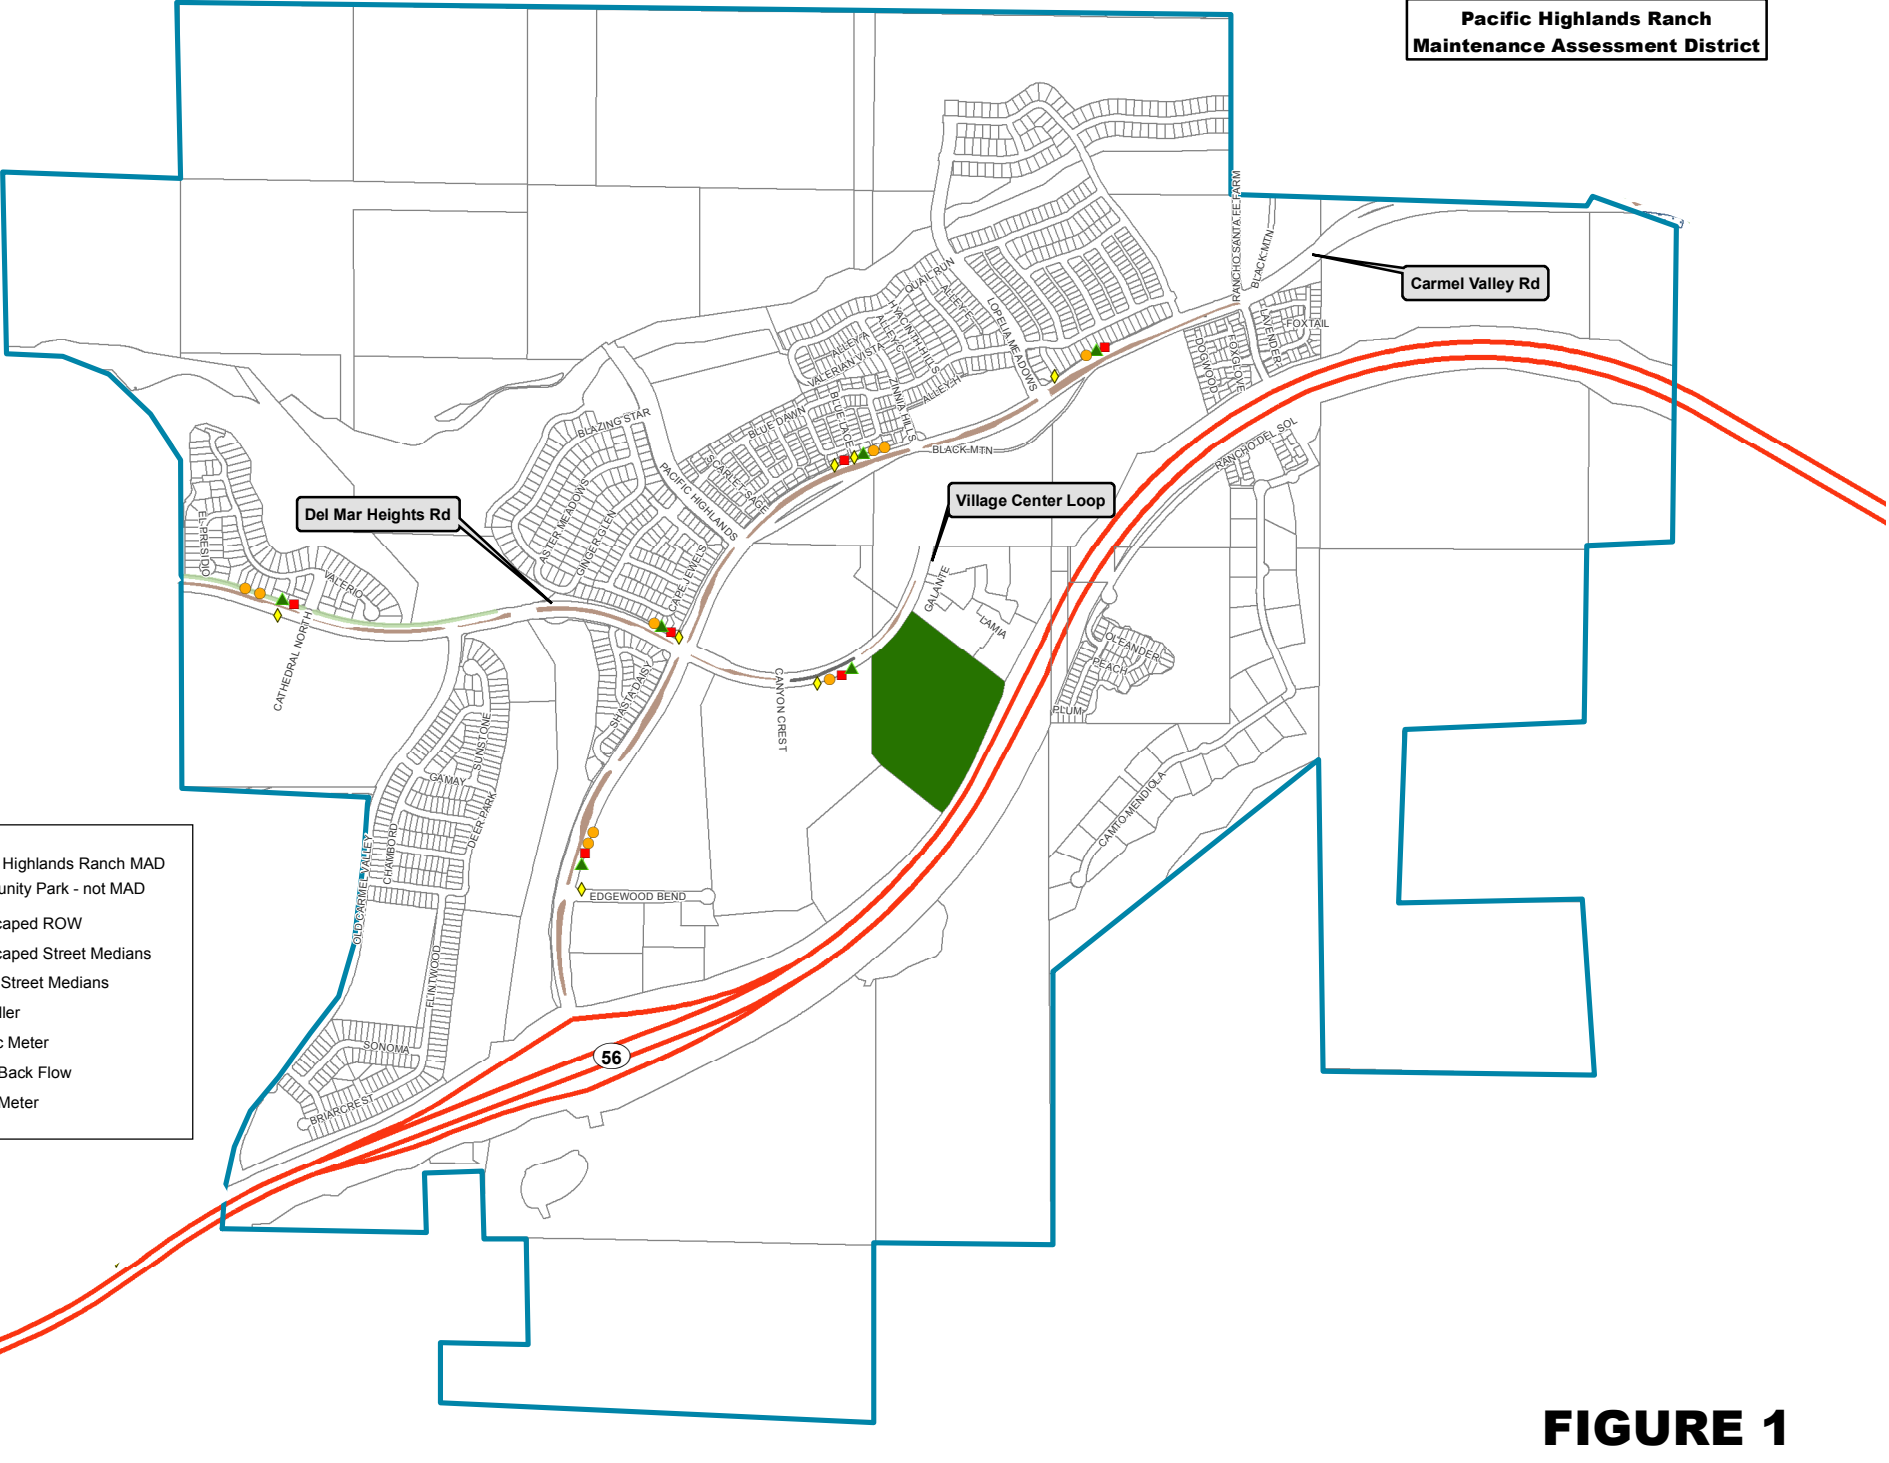

## Project Description

The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of maintenance and servicing of landscaping improvements, specified lighting and other appurtenant facilities in the District. The approximate location of the improvements is generally shown in **Figure 1**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer’s Reports and other associated documents on file with the Maintenance Assessment Districts section of the Parks and Recreation

## Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are “special benefits” to the extent that they are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. By law, only “special benefits” are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide “special benefits” in accordance with the Engineer’s Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer’s Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

---

## Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The “Other Contributions (Non Assessment Source)” revenue contained in the budget includes the value of improvements and activities determined to provide “general benefits.” The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

### Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer’s Reports is permitted to increase annually based on the published change in the “San Diego Consumer Price Index for Urban Consumers” (SDCPI-U) plus 3%. The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see [www.bls.gov](http://www.bls.gov)), for the prior year period was from 305.823 to 325.241 (a 6.35% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rate has been increased by 9.35%.

---

## Method of Apportionment

The Engineer’s Reports describe the benefit of District improvements activities as follows:

**Street Lighting.** Proper maintenance and operation of the decorative streetlights benefit all properties within the District by adding to the community character and aesthetics. All development areas taking direct access off of the roadways with decorative cobra-head streetlights receive special benefit from the improved aesthetics of the community within the boundaries of the District.

Properties taking direct access off of local public roadways with decorative acorn light fixtures receive an additional special benefit.

City of San Diego's *Council Policy 200-18, Street Lighting*, specifies the standard level of street lighting that will be provided by the City. This standard level of street lighting is considered the general benefit portion of the street lighting, as this is available to all properties within the City that have street lighting. Higher levels of street lighting, additional to this standard level, and ornamental streetlights are considered special benefits.

Cobra-head streetlights are the City standard for roadways, therefore on the arterial roads and Village Loop Road only the additional cost of maintaining the decorative poles is assessed as special benefit and all other maintenance is considered general benefit and is not assessed to the District. With the decorative acorn streetlights in some of the local public roadways, only the energy costs for the standard level of lighting is being paid for by the City as their general benefit contribution.

**Street Landscaping.** Trees, landscaping, hardscaping and appurtenant facilities, if well maintained, provide beautification, shade and enhancement of the desirability of the surroundings, and therefore increase property value.

All development areas taking direct access off of the arterial roadways (Carmel Valley Road and Del Mar Heights Road) special benefit from the improved aesthetics of the community within the boundaries of the District. Properties taking direct access off of Village Loop Road receive an additional special benefit.

Landscaping along the major thoroughfares provides only incidental benefits to motorists traveling to, from or through the District, which are nominal, intangible and are not quantifiable. However, consistent with City policy for the public at large, the City will provide the District with an annual contribution from the Gas Tax Fund for median maintenance. This contribution varies from year to year and will be applied during the annual assessment setting proceedings.

## Apportionment Methodology

The total cost associated with District improvement and activities will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all the parcels in the District. The

single-family residential parcel has been selected as the basic unit for calculation of assessments; therefore, the single-family residential parcel is defined as one EBU.

A methodology has been developed to relate all other land uses to the single-family residential land use based on trip generation rates. Trip generation rates provide a means to compare the different land uses to each other by virtue of the level of activity that is associated with each land use type. Trip generation is represented by the Average Daily Trips (ADT) associated with the various land uses within the District. The ADT have been based on the *City of San Diego Trip Generation Manual* (dated May 2003). **Table 1** shows the various land uses within this District and the associated EBU Rates.

**TABLE 1: EBU Rates by Land Use Factors**

Land Use	Code	Trip Factor*
Residential - Single Family Detached	SFD	1.0 per Dwelling Unit
Residential - Condominium	CND	0.7 per Dwelling Unit
Residential - Multi-Family & Apartment	MFR	0.7 per Dwelling Unit
Commercial - Office & Retail	COM	45.0 per Acre
Educational - Primary & Secondary	EPS	5.0 per Acre
Fire / Police Station	FPS	15.0 per Acre
Golf Course	GLF	0.8 per Acre
Hotel	HTL	15.0 per Acre
House of Worship	CRH	2.8 per Acre
Industrial	IND	15.0 per Acre
Library	LIB	40.0 per Acre
Park - Developed	PKD	5.0 per Acre
Park - Undeveloped	PKV	0.5 per Acre
Recreational Facility	REC	3.0 per Acre
Open Space	OSP	0.0 per Acre
Vacant	VAC	0.0 per Acre

Excluded from the assessment are public streets, public avenues, public lanes, public roads, public drives, public courts, public alleys, public easements and rights-of-ways, public greenbelts, and parkways. These types of parcels are designated as EXE in the assessment roll. The District has been divided into four (4) zones for benefit apportionment purposes (see **Figure 2**).

EBUs for each parcel have been determined based on an EBU Rate applicable to the subject land use, as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{EBU Rate}$$

The total assessment for a given parcel is equal to the parcel's total EBUs multiplied by the Unit Assessment Rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$$

**Pacific Highlands Ranch Maintenance Assessment District  
Benefit Zones**

**FIGURE 2**

The Unit Assessment Rate (also referred to as the “Assessment per EBU”) for each zone is presented in the Executive Summary section of this annual report.

### Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel’s land use and the identified apportionment factors, as shown in the following equation:

$\text{EBUs} = (\text{Acres or Units}) \times \text{EBU Rate}$
--

Shown below are sample EBU calculations for several common land uses found in the District.

- **1 Single-Family Residence**  
EBUs = 1 unit x 1.00 = 1.00 EBUs
- **1 Condominium**  
EBUs = 1 unit x 0.70 = 0.70 EBUs
- **10-unit Apartment Complex**  
EBUs = 10 units x 0.70 = 7.00 EBUs
- **½-acre Commercial Property**  
EBUs = 0.50 acres x 45.00 = 22.50 EBUs

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate for the zone in which the parcel is located, as shown in the following equation:

$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$
--

Based on the above formula, the EBUs (and corresponding assessment) calculated for each property, can be found in the Assessment Roll (**Exhibit C**).

---

## Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.
