

How-To Make Resin Letter Keychains

by Katherine Woods, owner of Katillac Jewelry

Materials:

1. Gloves
2. Epoxy resin
3. Mask (if you have upper respiratory problems)
4. Paper towels
5. Silicone letter molds (14.2" x 7.5" preferred)
6. Popsicle sticks
7. Silicone measuring cups
8. Dried flowers or whatever you would like to put in letter mold
9. Droplets
10. Eye pins
11. Hand Drill
12. Jump rings
13. Keychain ring and lobster claw
14. Sand paper or a drill with sanding attachment

****CAUTION** PLEASE BE IN A VENTILATED AREA**

Instruction:

- Measure your resin part A & part B in the Silicone cups (example 10 ml each to equal 20 ml)

- Using your popsicle sticks, stir the resin until well incorporated
- Pour a little amount in each letter mold
- Place the flowers of chose into each letter mold and let it sit until the resin get tacky (about 3-4min.)
- Fill the letters up to the top and let it dry (this might take 24 hour)
- Once your letters dry take them out of the mold
- Use the sand paper or sander to smooth the edges down
- Drill a small hole at the top of your letter to place your eye pin
- Once you have your edges smooth and the hole at the top of your letters, wash and dry your letters to remove all residue
- Place your eye pins into your hole and use a little bit of glue in the hole to secure it in place.
- Once you have your eye pins secure put a jump ring on the eye pin and to the chain.
- Now at the top of the chain add a jump ring to attach your keychain ring and lobster claw and now you're down!!

ENJOY!!
