## ACKNOWLEDGEMENTS

### Mayor

Kevin L. Faulconer

### City Council

Council President Sherri Lightner, Council District 1  
Lorie Zapf, Council District 2  
Todd Gloria, Council District 3  
Myrtle Cole, Council District 4  
Mark Kersey, Council District 5  
Chris Cate, Council District 6  
Scott Sherman, Council District 7  
David Alvarez, Council District 8  
Council President Pro Tem Marti Emerald, Council District 9

### City Attorney

Jan Goldsmith, City Attorney  
Keely Halsey, Deputy City Attorney

### Planning Department

Jeff Murphy, Planning Director  
Tom Tomlinson, Assistant Planning Director  
Marco Camacho, Program Manager  
Scott Mercer, Supervising Management Analyst  
Frank January, Senior Management Analyst  
Solomon Kumbi, Principal Engineering Aide  
Elena Molina, Administrative Aide

### Uptown Planners

Leo Wilson, Chair  
Michael Brennan, Secretary  
Gary Bonner  
Bill Ellig  
Amis Hayes  
Soheil Nakshab  
Jennifer Pesqueira  
Ken Tablang  
Mat Wahlstrom

Tom Mullaney, Vice Chair  
Roy Dahl, Treasurer

## Purpose and Scope of the Impact Fee Study

The purpose of the *Impact Fee Study (IFS)* is to provide a list of facilities that are needed to implement the goals of the community plan, and to develop applicable Development Impact Fees (DIFs) pursuant to the [California Government Code](#) through which new development will pay no more than its proportional fair-share of the cost of those facilities based on a clear nexus. The IFS functions as an implementation document of the City of San Diego's General Plan (General Plan) and the Uptown Community Plan as described below:

### General Plan

The [General Plan](#) is the City of San Diego's constitution for development. It is comprised of 10 elements that provide a comprehensive slate of citywide policies and further the City of Villages smart growth strategy for growth and development. The General Plan was comprehensively updated by unanimous vote of the City Council in 2008. The General Plan update did not include community plan-level land use designation or zoning changes as those issues are addressed in the community plans, zoning ordinances that apply to particular properties, and in the City of San Diego's [Land Development Code](#), which is a part of its [Municipal Code](#).

### Community Plan

Community plans are part of, and work together with the General Plan to provide location-based policies and recommendations in the City's community planning areas. Community plans are written to refine the General Plan's citywide policies; designate land uses and housing densities; and include additional site-specific recommendations as needed. The [Uptown Community Plan](#) is a comprehensive policy guide for the physical development of Uptown.

### Impact Fee Study

Policy PF-A.3 of the General Plan ([Public Facilities, Services and Safety Element](#)) describes the City's policy to maintain an effective facilities financing program to ensure that the impact by new development on the need for public facilities is mitigated through appropriate fees. DIFs are evaluated and updated periodically, especially when community plans are updated, to ensure the IFS is representative of current facility needs and project costs.

The IFS includes a variety of facilities to effectively and efficiently meet the needs of diverse communities including, but not limited to: police, fire-rescue, library, parks and recreation, and mobility. It identifies a baseline of existing public facilities as well as those that are needed as the community continues to develop. The IFS identifies the extent to which facilities are eligible for DIF funding. Some public facilities may be recognized locally as serving the needs of the community and benefiting the public, but may not be identified as eligible for DIF funding due to policy or legal limitation. Wherever possible, the IFS promotes the joint-use of facilities, including schools, parks, recreational centers, and libraries.

Community-level priority preferences, overall and by category, are included in the IFS after consultation with community planning groups and may incorporate community-specific criteria to define and locate needed facilities while giving consideration to management, operation, and maintenance requirements.

The Fiscal Year 2017 Uptown Impact Fee Study (Study) replaces the Fiscal Year 2003 Uptown Public Facilities Financing Plan (adopted by Resolution No. R-297159). This Study is an update that reflects changes in the amount of anticipated development and to the DIF contributions to Capital Improvement Projects (CIPs).

## Community Profile

Uptown consists of approximately 2,700 acres (4.2 square miles) and is located north of Downtown San Diego. The area is generally bounded to the north by the steep hillsides of Mission Valley, to the east by Balboa Park and Park Boulevard, and to the west and south by Old Town San Diego and Interstate 5.

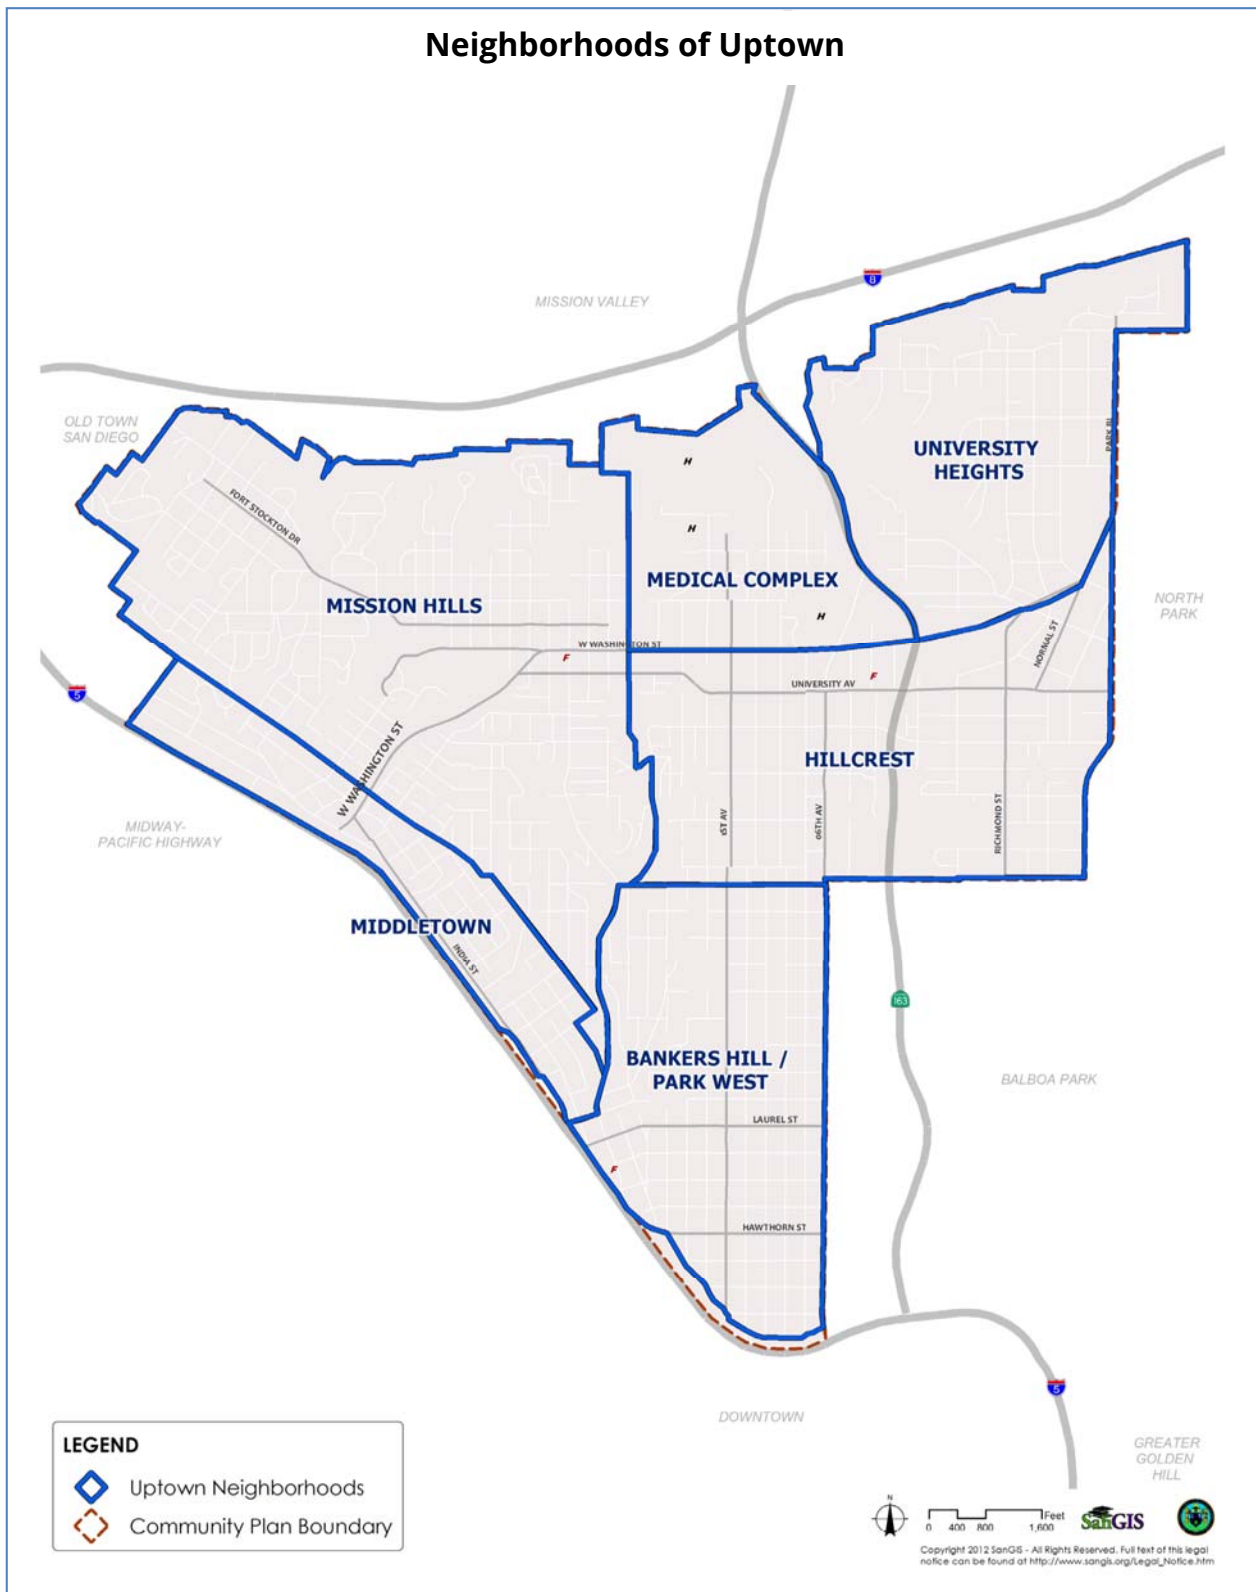

The community's topography generally consists of a level mesa that is broken by heavily vegetated canyons and borders two major parks, Presidio Park and Balboa Park.

Uptown boundary

Uptown includes the neighborhoods of Mission Hills, University Heights, Hillcrest, Bankers Hill/Park West, Medical Complex, and Middletown.

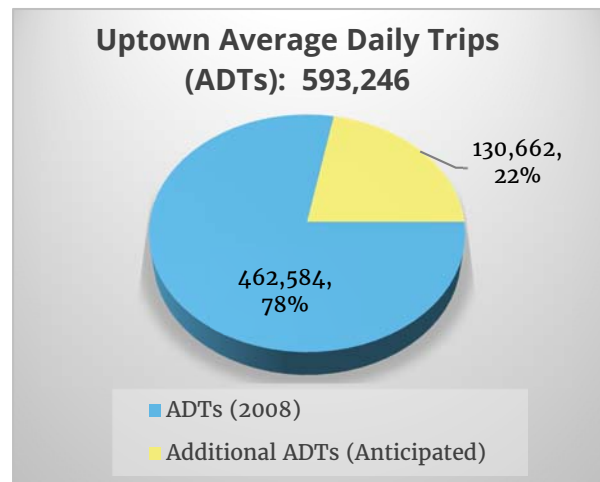

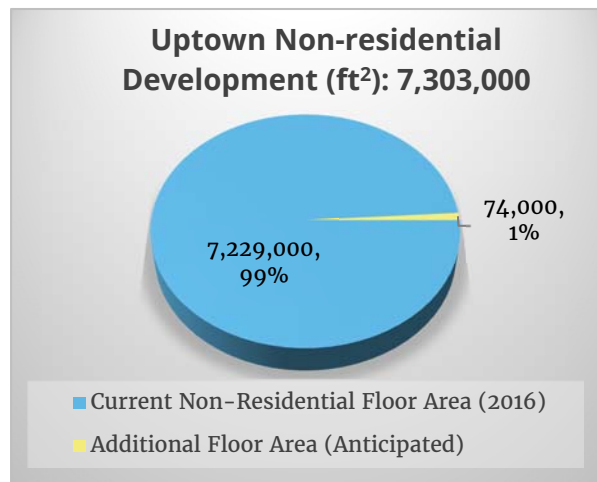

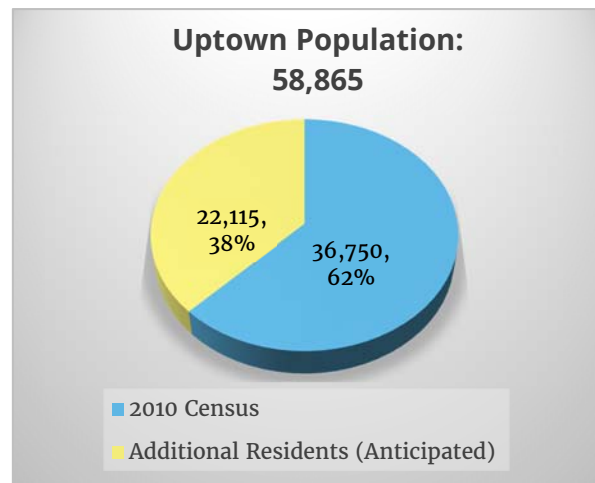

## Development Forecast

Uptown had a population in the 2010 Census, of approximately 36,750 with 23,000 dwelling units (DU). The Community Plan projects full community development with an estimated 34,597 residential dwelling units and a population of 58,865.

In 2016, Uptown has approximately 7,229,000 square feet (ft<sup>2</sup>) of non-residential floor area of development. The Community Plan anticipates 7,303,000 ft<sup>2</sup> of non-residential development at full community development.

Traffic models show that in 2008 (most recent data available), Uptown development had generated 462,584 Average Daily Trips (ADTs) within the community. The Community Plan Environmental Impact Report estimates that Uptown will generate a total of 593,246 ADTs.

## Existing Public Facilities and Future Needs

### Mobility Facilities

Uptown is served by an existing mobility network of automobile and public transportation systems, as well as bicycle and pedestrian circulation systems.

As Uptown increases in population there is a need to achieve a balance with a multi-modal and integrated transportation network that serves all categories of users while making more efficient use of the network within the existing right-of-way. The future mobility facilities in this Study include improvements for streets, traffic signals, Intelligent Transportation Systems (ITS), transit priority measures, active transportation projects, accessibility compliance projects, and storm drains.

Mobility projects include facilities for active transportation.

### Parks and Recreation Facilities

The General Plan provides [guidelines](#) for both population-based parks and recreation facilities. The standard for population-based parks is 2.8 acres of usable parkland per 1,000 residents. At full community development approximately 164.82 acres of population-based parks are needed for Uptown.

Recreation facilities include recreation centers and aquatic complexes. A recreation center, typically 17,000 ft<sup>2</sup> in size, should be provided for every 25,000 residents and an aquatic complex should be provided for every 50,000 residents. At full community development approximately 40,028 ft<sup>2</sup> of a recreation center and one aquatic complex is needed for Uptown.

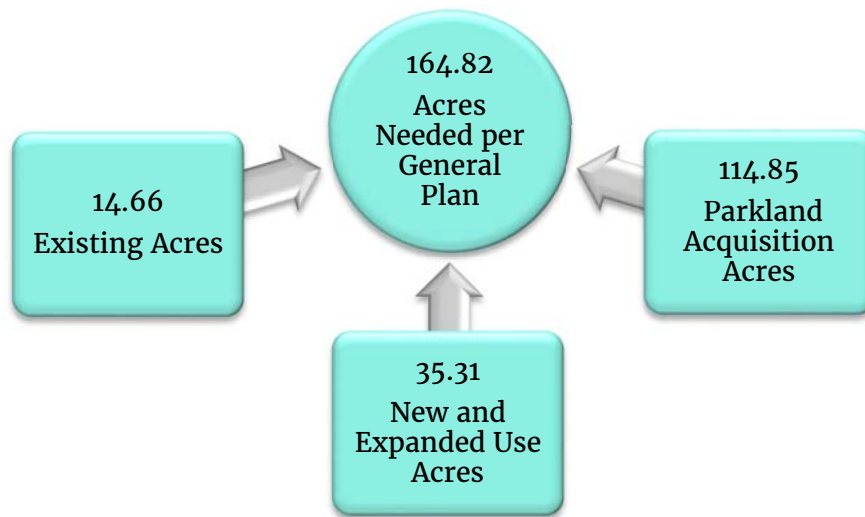

### General Plan Guidelines

Parks	Recreation Center	Aquatic Complex
<ul style="list-style-type: none"> <li>• 2.8 acres per 1,000 population</li> <li>• <math>(58,865 \text{ population} \div 1,000) \times 2.8 \text{ acres} = 164.82 \text{ acres of population-based parks}</math></li> <li>• 164.82 acres</li> </ul>	<ul style="list-style-type: none"> <li>• One 17,000 ft<sup>2</sup> recreation center to serve 25,000 population</li> <li>• <math>58,865 \text{ population} \div 25,000 = 2.35 \text{ recreation centers or } 40,028 \text{ ft}^2</math></li> <li>• 40,028 ft<sup>2</sup></li> </ul>	<ul style="list-style-type: none"> <li>• One Aquatic Complex to serve 50,000 population</li> <li>• <math>58,865 \text{ population} \div 50,000 = 1.18 \text{ aquatic complexes}</math></li> <li>• 1.18 aquatic complexes</li> </ul>

Mission Hills/Pioneer Memorial Park, Old Trolley Barn Park, West Lewis Street Pocket Park, Birney Elementary School Joint-use, and Roosevelt Middle School Joint-use are population-based parks currently serving Uptown with 14.66 acres of existing parkland.

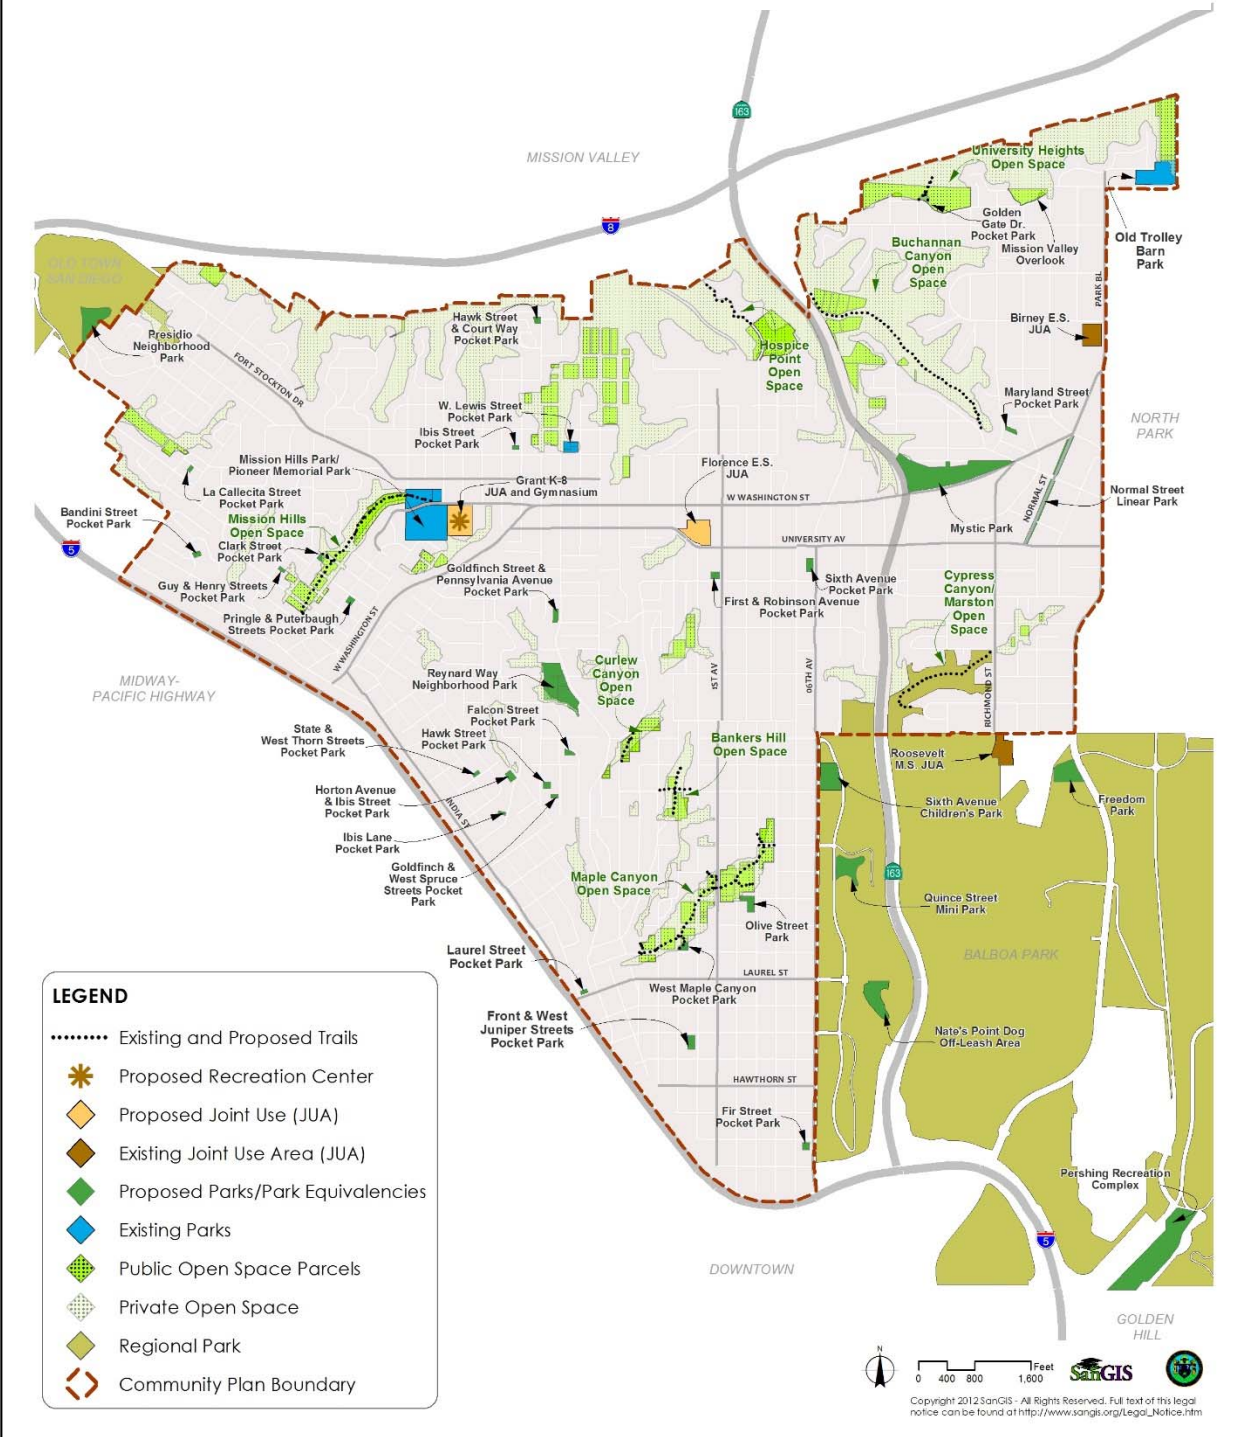

Future parks projects analyzed in this Study include 35.31 acres of new and expanded use of parkland within Uptown, leaving a park deficit of 114.85 acres. Community members and City staff have identified 8.85 acres of public and privately-owned, potential acquisition sites for new population-based parkland, which if acquired would reduce the deficit to 106 acres.

### Current Status of Uptown Parks

Future recreation facilities include two new recreation centers, a joint-use gymnasium at the Grant K-8 School, and one new aquatic complex at sites to be determined within the Uptown.

# Uptown Parks, Recreation Facilities, and Open Space

## Police Facilities

Uptown is served by the Central and Western Neighborhood Divisions of the Police Department. The Central area station is located at 2501 Imperial Avenue in Centre City and the Western area station is located at 5215 Gaines Street within the Mission Valley community planning area.

At this time the Central and Western Neighborhood Divisions are adequate to serve the future needs of Uptown.

## Fire-Rescue Facilities

Uptown is currently served by three fire stations: Station 3, located at 725 West Kalmia Street; Station 5, located at 3902 Ninth Avenue in Hillcrest; and Station 8, located at 3974 Goldfinch Street in Mission Hills.

Future needs for fire stations include improvements at Station 5 in Hillcrest, improvements and expansion of Station 8 in Mission Hills, and an expansion of Station 3.

## Library Facilities

Uptown is served by two library facilities: the Mission Hills and the University Heights Libraries.

Future library needs include an expanded and relocated Mission Hills Branch Library at the corner of Washington and Front Streets.

## Facility List and Costs

This Study identifies the estimated costs associated with the acquisition, design, and construction of community-serving infrastructure projects for Uptown. The portion of those costs that are used to calculate the Uptown DIF is referred to as the *DIF-basis*. For most projects included in this Study, 100% of the estimated project costs are included in the DIF-basis. However, in certain instances some costs are excluded from the DIF-basis. Examples involve multiple communities sharing in the total project cost, when known funding sources other than DIF have been identified, or where limitations have been placed on costs that are included in the DIF-basis due to policy considerations such as generic parkland acquisition of unidentified sites.

Categories of facilities included in this Study are: Mobility, Parks and Recreation, Fire-Rescue, and Library. The listed facilities are consistent with the goals of the City's General Plan and the Uptown Community Plan, and are needed to serve the public at full community development.

Depending on priorities and availability of resources, substantial changes to individual projects are possible from year to year. The facilities projects included and described in this Study are also subject to revision in conjunction with City Council adoption of the annual Capital Improvement Program (CIP) Budget.

### Mobility Facilities

#### M-1 Streets, Ramps, and Corridor Improvements

**DIF-basis: \$12,480,000**

Up to the amount identified above as the M-1 DIF-basis, DIF revenue may provide funding for eligible improvements to major streets, freeway ramps, and corridor improvements. Projects may include, but are not limited to, the following facilities:

- **Streets, Curbs, Gutters, and Storm Drains**  
This project would expand the capacity of the roadway through the installation or upgrading of street pavement, restriping, curbs, gutters, and storm drains at various locations throughout the community. It also provides for the initial study needed to specifically identify and estimate costs at all locations. The cost of the study is estimated at \$200,000.

CIP: TBD

Cost Estimate: \$3,857,000

- **First Avenue from Laurel Street to Hawthorn Street**  
This project would expand capacity through restriping of the roadway to a two-lane collector with a continuous left-turn lane.

CIP: TBD

Cost Estimate: \$66,000

First Avenue from Laurel Street to Hawthorn Street

- **Richmond Street from Cleveland Avenue to Robinson Avenue**

This project would expand capacity through restriping of the roadway to a two-lane collector with a continuous left-turn lane.

Richmond Street from Cleveland Avenue to Robinson Avenue

CIP: TBD

Cost Estimate: \$51,000

- **State Street from Laurel Street to Juniper Street**

This project would expand capacity through restriping of the roadway to a two-lane collector with a continuous left-turn lane.

State Street from Laurel Street to Juniper Street

CIP: TBD

Cost Estimate: \$31,000

- **Front Street Widening from Lewis St. to Arbor Dr.**

This project would widen Front Street 12 feet from Lewis Street to Arbor Drive to provide for a 3-lane, one-way collector. The project costs are for construction, only. Environmental and right-of-way are not included in the cost estimate, as these costs are not currently available.

Front Street from Lewis Street to Arbor Drive

CIP: TBD

Cost Estimate: \$762,000

- Robinson Avenue Bridge over SR-163 between 8<sup>th</sup> Avenue and 10<sup>th</sup> Avenue

The project would provide for the widening of Robinson Avenue over State Route-163 by 10 feet to improve active transportation facilities along the bridge.

CIP: TBD  
 Cost Estimate:  
 \$7,713,000

Total M-1 Project Cost Estimate: \$12,480,000

Robinson Avenue Bridge over State Route 163

**M-2 Modern Roundabouts**

**DIF-basis: \$5,074,000**

Up to the amount identified above as the M-2 DIF-basis, DIF revenue may provide funding for eligible improvements, including the installation of modern roundabouts at various locations within the community for increasing capacity with intersection control, reducing speeds, improving safety while reducing vehicle fuel consumption and greenhouse gas emissions.

A modern roundabout

CIP: TBD  
 Total Cost Estimate: \$5,074,000

**M-3 Traffic Signals**

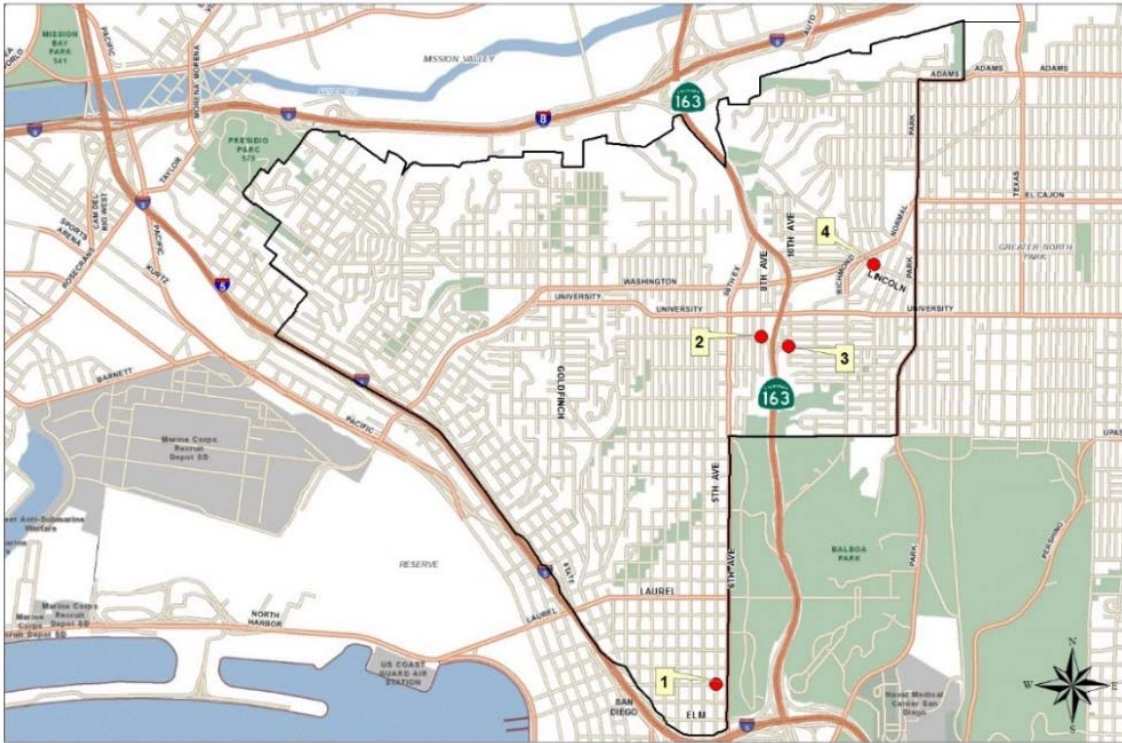

**DIF-basis: \$2,691,000**

Up to the amount identified above as the M-3 DIF-basis, DIF revenue may provide funding for eligible improvements including new traffic signals, improvements to traffic signals, signal interconnects, and the signal communication network. Facilities may include, but are not limited to, the following projects:

- New Traffic Signals  
 This project would provide for new traffic signals within the community to include but not limited to the following locations:  
 1) Fifth Avenue and Grape Street

- 2) Eighth Avenue and Robinson Avenue
- 3) Tenth Avenue and Robinson Avenue
- 4) Cleveland Avenue and Lincoln Avenue

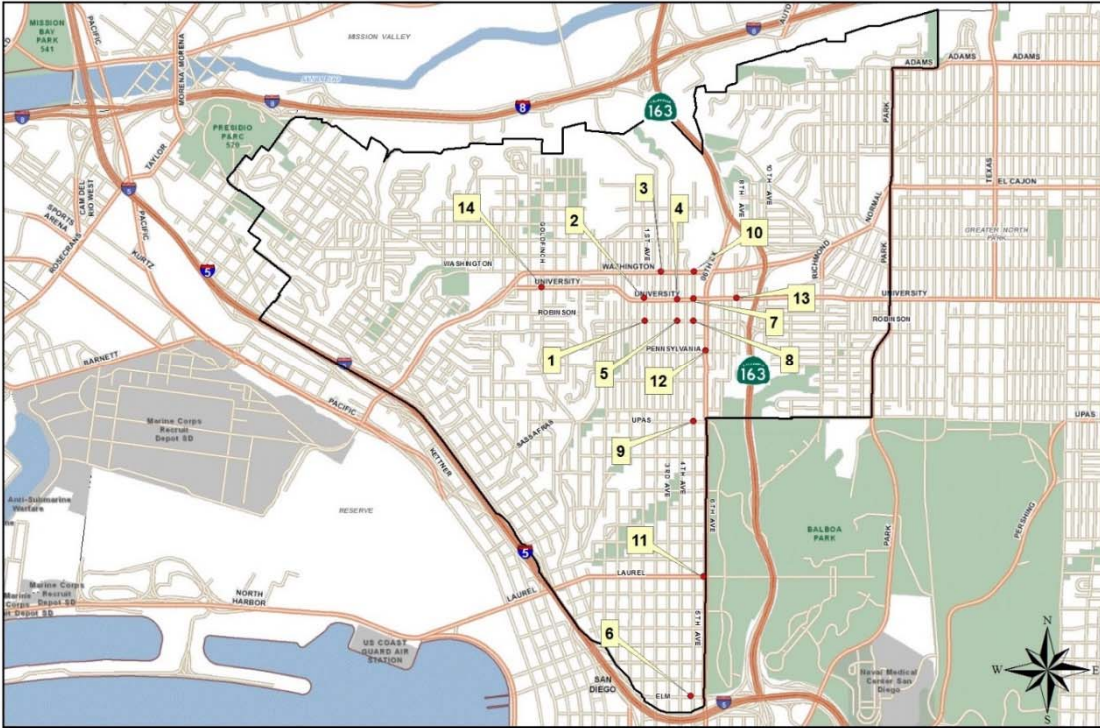

New Traffic Signals in Uptown

CIP: TBD

Cost Estimate: \$1,716,000

- **Traffic Signal Improvements**  
 The project provides for traffic signal improvements at various locations throughout the community. The improvements will include emergency vehicle detectors, pole mounted signal heads, pedestrian push buttons, and additional mast arms. TransNet funding of \$435,000 is not included in the DIF-basis. Improvements include, but are not limited to, the following locations:
  - 1) First Avenue and Robinson Avenue
  - 2) First Avenue and University Avenue
  - 3) Third Avenue & Washington Street (B-14062)
  - 4) Fourth Avenue and University Avenue (B-14010)
  - 5) Fourth Avenue and Robinson Avenue
  - 6) Fifth Avenue and Elm Street
  - 7) Fifth Avenue and University Avenue
  - 8) Fifth Avenue and Robinson Avenue
  - 9) Fifth Avenue and Upas Street
  - 10) Fifth Avenue and Washington Street
  - 11) Sixth Avenue and Laurel Street
  - 12) Sixth Avenue and Pennsylvania Avenue
  - 13) Eighth Avenue and University Avenue

## 14) Goldfinch Street and University Avenue

Traffic Signal improvements in Uptown

CIP: TBD

Cost Estimate: \$1,004,000

- Traffic Signal Interconnects  
This project would provide for traffic signals interconnect systems throughout the community including, but not limited to, the following locations:
  - 1) Upas Street: Fifth Avenue to Sixth Avenue
  - 2) Sixth Avenue: Upas Street to Laurel Street
  - 3) Sassafras Street: Kettner Boulevard to India Street
  - 4) India Street: Sassafras Street to Washington Street

CIP: TBD

Cost Estimate: \$406,000

Traffic Signal interconnects in Uptown

Total M-3 Project Cost Estimate: \$3,126,000

**M-4 Intelligent Transportation Systems (ITS)**

**DIF-basis: \$1,421,000**

Up to the amount identified above as the M-4 DIF-basis, DIF revenue may provide funding for eligible facilities to implement ITS improvements to enhance capacity and operation of the transportation network within the community including, but not limited to: 1) expanding the communication network; 2) expanding signal coordination on the major roadway corridors; 3) updating the timing of traffic signals to meet shifting travel patterns; 4) using traffic responsive or adaptive traffic control in areas with variable traffic patterns; and 5) using variable message signs to direct motorists to available parking and to alert them of street closures.

CIP: TBD

Total Project Cost Estimate: \$1,421,000

**M-5 Transit Priority Measures**

**DIF-basis: \$1,421,000**

Up to the amount identified above as the M-5 DIF-basis, DIF revenue may provide funding for eligible facilities which implement transit signal priority treatments at signalized intersections serving rapid bus routes and transit queue jumps at severely congested intersections.

CIP: TBD

Total Project Cost Estimate: \$1,421,000

**M-6 Active Transportation**

**DIF-basis: \$6,165,000**

Up to the amount identified above as the M-6 DIF-basis, DIF revenue may provide funding for eligible facilities and facilities improvements necessary to enhance alternative transportation modalities and to promote and improve bicycle use and safety, overall vehicular traffic circulation and flow, and pedestrian safety. Facilities may include, but are not limited to, the projects listed below:

- **Bicycle Facilities**

This project would increase bicycle lanes and improve safety throughout the community. The project would add up to 14 miles of bike lanes and approximately 8 miles of bike routes within the community. SANDAG is funding portions of the project estimated to cost approximately \$4,354,000, which is not included in the DIF-basis.

CIP: TBD

Cost Estimate: \$7,880,000

## Planned Uptown Bike Facilities

Street Name	Facility Type	Limit 1	Limit 2
San Diego Avenue	Bike lanes (Class II) <sup>1*</sup>	<i>Hortensia Street</i>	<i>California Street</i>
	Cycle track (Class IV) <sup>1</sup>	<i>California Street</i>	<i>Washington Street</i>
India Street	Bike lanes (Class II) <sup>*</sup>	<i>Washington Street</i>	<i>Olive Street</i>
Washington Street	Cycle track (Class IV) <sup>1</sup>	<i>San Diego Avenue</i>	<i>University Avenue</i>
	Bike lanes (Class II) <sup>*</sup>	<i>University Avenue</i>	<i>Normal Street</i>
	Bike blvd (Class III) <sup>1**</sup>	<i>Third Avenue</i>	<i>Fifth Avenue</i>
University Avenue	Bike blvd (Class III) <sup>1**</sup>	<i>Washington Street</i>	<i>First Avenue</i>
	Bike lanes (Class II) <sup>*</sup>	<i>First Avenue</i>	<i>CA-163</i>
	Cycle track (Class IV) <sup>1</sup>	<i>CA-163</i>	<i>Park Boulevard</i>
Robinson Avenue	Bike route (Class III) <sup>**</sup>	<i>Curlew Street</i>	<i>Fourth Avenue</i>
	Bike lanes (Class II) <sup>*</sup>	<i>Herbert Street</i>	<i>Park Boulevard</i>
Upas Street	Bike blvd (Class III) <sup>**</sup>	<i>Third Avenue</i>	<i>Fourth Avenue</i>
Laurel Street	Bike route (Class III) <sup>**</sup>	<i>State Street</i>	<i>Fourth Avenue</i>
Juniper Street	Bike route (Class III) <sup>**</sup>	<i>State Street</i>	<i>Fifth Avenue</i>
Hawthorn Street	Bike route (Class III) <sup>**</sup>	<i>First Avenue</i>	<i>Sixth Avenue</i>
Grape Street	Bike route (Class III) <sup>**</sup>	<i>First Avenue</i>	<i>Sixth Avenue</i>
Reynard Way	Bike route (Class III) <sup>**</sup>	<i>Laurel Street</i>	<i>Washington Street</i>
Goldfinch Street	Bike route (Class III) <sup>**</sup>	<i>Washington Street</i>	<i>Pennsylvania Avenue</i>
State Street	Bike route (Class III) <sup>**</sup>	<i>Maple Street</i>	<i>Laurel Street</i>
Curlew Street	Bike route (Class III) <sup>**</sup>	<i>Reynard Way</i>	<i>Robinson Avenue</i>
First Avenue	Bike route (Class III) <sup>**</sup>	<i>Cedar Street</i>	<i>Lewis Street</i>
Third Avenue	Bike lanes (Class II) <sup>*</sup>	<i>Downtown</i>	<i>Laurel Street</i>
	Bike blvd (Class III) <sup>**</sup>	<i>Upas Street</i>	<i>Lewis Street</i>
Fourth Avenue	Cycle track (Class IV) <sup>1</sup>	<i>Downtown</i>	<i>Washington Street</i>
Fifth Avenue	Cycle track (Class IV) <sup>1</sup>	<i>Downtown</i>	<i>Washington Street</i>
Sixth Avenue	Bike lanes (Class II) <sup>*</sup>	<i>Downtown</i>	<i>Upas Street</i>
Normal Street	Cycle track (Class IV) <sup>1</sup>	<i>University Avenue</i>	<i>Lincoln Avenue</i>
	Bike lanes (Class II) <sup>*</sup>	<i>Washington Street</i>	<i>Park Boulevard</i>
Richmond Street	Bike lanes (Class II) <sup>*</sup>	<i>Upas Street</i>	<i>Cleveland Avenue</i>
Lincoln Street	Bike blvd (Class III) <sup>1**</sup>	<i>Normal Street</i>	<i>Park Boulevard</i>
Herbert Street	Bike blvd (Class III) <sup>1**</sup>	<i>Robinson Avenue</i>	<i>University Avenue</i>
Park Boulevard	Cycle track (Class IV) <sup>1</sup>	<i>Village Place</i>	<i>Robinson Avenue</i>
	Bike lanes (Class II) <sup>*</sup>	<i>El Cajon Boulevard</i>	<i>Adams Avenue</i>
Bachman Place	Hybrid Facility <sup>1</sup> : Bike lanes (Class II) <sup>*</sup> uphill, Bike route (Class III) <sup>**</sup> downhill	<i>Lewis Street</i>	<i>Hotel Circle South</i>

- <sup>1</sup> Facility is anticipated to be funded through SANDAG and is not included in the DIF-basis.
- \* Bike lane (Class II) facilities shall include a buffer, unless otherwise approved by the City Engineer.
- \*\* Bike route (Class III) facilities shall provide bicycle sharrows, unless otherwise approved by the City Engineer.

- **Pedestrian Facilities**

This project would provide for pedestrian facilities throughout the community. Potential pedestrian improvement types that should be considered for implementation include:

- Adding sidewalks where currently there are none along streets with heavy pedestrian activity
- Widening sidewalks where needed along streets with heavy pedestrian activity
- Corner bulb-outs
- Pedestrian phasing at signals including pedestrian countdown timers and/or accessible pedestrian push buttons.

Locations for pedestrian facilities include but are not limited to:

- 1) University Avenue between Washington Street and Park Boulevard
- 2) Normal Street between Lincoln Avenue and Park Boulevard
- 3) Campus Avenue/Polk Avenue between Tyler Street and Park Boulevard
- 4) Robinson Avenue between Third Avenue and Sixth Avenue
- 5) Elm Street between First Avenue and Sixth Avenue
- 6) Fourth Avenue between Interstate 5 and Robinson Avenue
- 7) Fifth Avenue between Interstate 5 and Robinson Avenue
- 8) Sixth Avenue between Interstate 5 and Robinson Avenue
- 9) Park Boulevard between Upas Street and Meade Avenue

Pedestrian facilities in Uptown

CIP: TBD

Cost Estimate: \$2,639,000

Total M-6 Project Cost Estimate: \$10,519,000

### **M-7 Accessibility Compliance**

**DIF-basis: \$2,030,000**

Up to the amount identified above as the M-7 DIF-basis, DIF revenue may provide funding for facilities improvements for Americans with Disabilities Act (ADA) barrier removal in mobility facilities and in the public right-of-way as required by the federally mandated ADA transition plan for disability related complaints from citizens. Examples include but are not limited to the construction of curb ramps, sidewalks, and audible pedestrian signals. Facilities may include, but are not limited to, the projects listed below:

CIP: ABE-00001

CIP: AII-00001

CIP: B-13055

CIP: B-13114

CIP: B-15186

Total Project Cost Estimate: \$2,030,000

### **M-8 Storm Drain Facilities**

**DIF-basis: \$47,688,000**

Up to the amount identified above as the M-8 DIF-basis, DIF revenue may provide funding for design and construction of improvements to storm drain facilities. This project would provide for the installation of upsized storm drain pipes at various locations throughout the community which may be located within streets or easements within canyons. Facilities may include, but are not limited to, the projects listed below:

- **Uptown Storm Drains**

This project would upsize storm drain pipes at up to 9 storm drains throughout the community. Other funding sources total approximately \$4,040,000, which is not included in the DIF-basis. Facilities may include but are not limited to:

- Hunter Street  
12” corrugated metal pipe to be upsized to 18” reinforced concrete pipe.
- Tenth Avenue  
14” wood pipe to be upsized to 18” reinforced concrete pipe.

CIP: B-14108

Cost Estimate: \$4,800,000

- **Adams Avenue Storm Drain**

This project would upsize the storm drain pipe on Adams Avenue just west of North Avenue. Other funding sources total approximately \$154,000, which is not included in the DIF-basis.

CIP: B-13102

Cost Estimate: \$400,000

- **University Heights Storm Drains**

This project would upsize storm drain pipes at up to 11 storm drains throughout the University Heights neighborhood to at least 18” or larger reinforced concrete pipe depending on the needed capacity. Facilities may include but are not limited to:

- One 16” corrugated metal pipe
- One 14” corrugated metal pipe
- Five 12” corrugated metal pipes
- One 10” corrugated metal pipe
- Three 8” corrugated metal pipes

CIP: TBD

Cost Estimate: \$5,074,000

- Hillcrest Storm Drains

This project would upsize storm drain pipes at up to 21 storm drains throughout the Hillcrest neighborhood to at least 18” or larger reinforced concrete pipe depending on the needed capacity. Facilities may include but are not limited to:

- Three 15” corrugated metal pipes
- One 15” cast-in-place concrete pipe
- Fourteen 12” corrugated metal pipes
- One 10” corrugated metal pipe
- Two 8” corrugated metal pipes

CIP: TBD

Cost Estimate: \$13,193,000

- Mission Hills Storm Drains

This project would upsize storm drain pipes at up to 20 storm drains throughout the Mission Hills neighborhood to at least 18” or larger reinforced concrete pipe depending on the needed capacity. Facilities may include but are not limited to:

- Four 15” corrugated metal pipes
- Two 15” cast-in-place concrete pipes
- One 12” cast-in-place concrete pipe
- Twelve 12” corrugated metal pipes
- One 8” corrugated metal pipe

CIP: TBD

Cost Estimate: \$13,193,000

- Middletown Storm Drains

This project would upsize storm drain pipes at up to 9 storm drains throughout the Middletown neighborhood to at least 18” or larger reinforced concrete pipe depending on the needed capacity. Facilities may include but are not limited to:

- Four 15” corrugated metal pipes
- Four 12” corrugated metal pipes
- One 10” corrugated metal pipe

CIP: TBD

Cost Estimate: \$5,074,000

- Park West Storm Drains

This project would upsize storm drain pipes at up to 18 storm drains throughout the Park West neighborhood to at least 18” or larger reinforced concrete pipe depending on the needed capacity. Facilities may include but are not limited to:

- Three 16” corrugated metal pipes
- Seven 15” corrugated metal pipes
- Three 12” corrugated metal pipes
- One 12” cast-in-place concrete pipe
- Four 8” corrugated metal pipes

CIP: TBD

Cost Estimate: \$10,148,000

Total M-8 Project Cost Estimate: \$51,882,000

## **Parks and Recreation Facilities**

### **P-1 Uptown Recreation Center (North) – Development DIF-basis: \$6,401,000**

Up to the amount identified above as the P-1 DIF-basis, DIF revenue may provide funding for the design and construction of a recreation center, approximately 10,456 square feet, which may include: community meeting and multi-purpose rooms, arts & crafts rooms, and fitness rooms. The future facility is to be located within the community when a site is identified. The cost for land acquisition for this project is included in P-23, Parkland Acquisition.

CIP: TBD

Total Project Cost Estimate: \$6,401,000

### **P-2 Uptown Aquatic Complex – Development DIF-basis: \$7,634,000**

Up to the amount identified above as the P-2 DIF-basis, DIF revenue may provide funding for the design and construction of an aquatic complex, which may include: pools for specialized uses, children’s pool, therapeutic pool facilities, pool house including locker rooms, staff offices, storage area, and parking. This future project is to be located within the community when a site is identified. The cost for land acquisition for this project is included in P-23, Parkland Acquisition.

CIP: TBD

Total Project Cost Estimate: \$7,634,000

### **P-3 Uptown Recreation Center (South) – Development DIF-basis: \$10,402,000**

Up to the amount identified above as the P-3 DIF-basis, DIF revenue may provide funding for the design and construction of a recreation center, approximately 17,000 ft<sup>2</sup>, which may include a gymnasium, indoor courts, multi-purpose rooms, and other community serving facilities. The future facility is to be located within the community when a site is identified. The cost for land acquisition for this project is included in P-23, Parkland Acquisition.

CIP: TBD

Total Project Cost Estimate: \$10,402,000

**P-4 Olive Street Pocket Park – Development**

**DIF-basis: \$2,570,000**

Up to the amount identified above as the P-4 DIF-basis, DIF revenue may provide funding for the design and construction of a pocket park, approximately 0.60 usable acres, which may include a children’s play area, picnic areas, walkways, fencing, security lighting, drinking fountains, trash receptacles, benches, and landscaping. This project is located at the intersection of Third Avenue and Olive Street.

Funding includes a state grant for approximately \$119,000, which is not included in the DIF-basis.

Google Maps: Olive Street at Third Avenue

CIP: S-10051

Total Project Cost Estimate: \$2,689,000

**P-5 Normal Street Linear Park – Development**

**DIF-basis: \$2,066,000**

Up to the amount identified above as the P-5 DIF-basis, DIF revenue may provide funding for the design and construction of a linear park, approximately 1.6 usable acres, which may include an area for weekly farmer’s market events, a children’s play area, signage, walkways, fencing, security lighting, drinking fountains, trash receptacles, benches, and landscaping. This project is located within the right-of-way of Normal Street between Harvey Milk Street and Polk Avenue.

Google Maps: Normal Street

CIP: TBD

Total Project Cost Estimate:  
\$2,066,000

**P-6 Golden Gate Drive Pocket Park – Development**

**DIF-basis: \$564,000**

Up to the amount identified above as the P-6 DIF-basis, DIF revenue may provide funding for design and construction of a pocket park, approximately 0.33 usable acres, which may include passive recreation park amenities such as a trailhead, interpretive signage, and improved trails and overlook seating, and landscaping. This project is located at the northeast corner of Golden Gate Drive and Rhode Island Street with a trail that continues to the terminus of New York Street.

Google Maps: Golden Gate Drive

CIP: TBD

Total Project Cost Estimate: \$564,000

**P-7 Laurel Street Pocket Park – Development**

**DIF-basis: \$970,000**

Up to the amount identified above as the P-7 DIF-basis, DIF revenue may provide funding for design and construction of a pocket park, approximately 0.11 usable acres, which may include a children’s play area, seating, picnic areas, walkways, trash receptacles, and landscaping. This project is located on the northeast corner of Columbia Street and Laurel Street.

Google Maps: Laurel Street at Columbia Street

CIP: TBD

Total Project Cost Estimate: \$970,000

**P-8 Grant K-8 School Gymnasium – Development**

**DIF-basis: \$7,196,000**

Up to the amount identified above as the P-8 DIF-basis, DIF revenue may provide funding for design and construction of a gymnasium of approximately 10,454 ft<sup>2</sup>. The project is located within the Grant K-8 School site on San Diego Unified School District land and would be designed and constructed by the school district. The project would require a reimbursement agreement and joint-use agreement with the San Diego Unified School District.

Google Maps: Grant Elementary (K-8) School is located adjacent to Pioneer Park.

CIP: TBD

Total Project Cost Estimate: \$7,196,000

**P-9 Freedom Park - Improvements**

**DIF-basis: \$913,000**

Up to the amount identified above as the P-9 DIF-basis, DIF revenue may provide funding for design and construction for the expanded use of Freedom park min-park, approximately 2.29 usable acres, which may include walkways, fencing, security lighting, drinking fountains, benches, picnic tables and trash receptacles. The project is located in Balboa Park at the southwest corner of Park Boulevard and Zoo Drive.

Google Maps: Freedom Park.

CIP: TBD  
Total Project Cost Estimate: \$913,000

**P-10 Nate's Point Off-Leash Dog Area - Improvements**

**DIF-basis: \$1,054,000**

Up to the amount identified above as the P-10 DIF-basis, DIF revenue may provide funding for the design and construction for the expanded use of Nate Point Off-Leash Dog Area, approximately 2.75 usable acres, which may include landscaping, walkways, drinking fountains, benches, picnic tables, and trash receptacles. The site is located at the southeast corner of the intersection of El Prado Drive and Balboa Drive within Balboa Park.

Google Maps: Nate's Point Dog Park

CIP: TBD  
Total Project Cost Estimate: \$1,054,000

**P-11 Pershing Recreational Complex - Development**

**DIF-basis: \$4,089,000**

Up to the amount identified above as the P-11 DIF-basis, DIF revenue may provide funding for fair share cost (24%) of the design and construction of a recreational complex approximately 15 useable acres, located within Balboa Park and bounded on the northwest by Pershing Drive, on the east by the slopes of the Golden Hill area, and to the south by Russ Boulevard in what is currently occupied by the City Operations Station. The cost of the facility is shared between the Downtown (36%), Golden Hill (10%), North Park (30%), and Uptown (23%) based on population at full development for each of the communities.

Google Maps: City of San Diego Operations Station will vacate the proposed park area.

The estimated cost of the facility attributed to the communities that share in the total cost, \$12,945,000, is not included in the Uptown DIF-basis but would be included (proportionately) in the DIF-basis for those communities.

CIP: TBD  
Total Project cost estimate: \$17,034,000.

**P-12 Quince Street Mini-park - Improvements**

**DIF-basis: \$913,000**

Up to the amount identified above as the P-12 DIF-basis, DIF revenue may provide funding for design and construction of a mini-park, approximately 2.3 usable acres, which may include landscaping, walkways, security lighting, benches, picnic tables and trash receptacles. The project site is located in Balboa Park at the southeast corner of Balboa Drive and Quince Street/SR-163 northbound exit ramp.

Google Maps: Quince Street Mini-park

CIP: TBD  
Total Project Cost Estimate: \$913,000

**P-13 West Maple Canyon Pocket Park - Development**

**DIF-basis: \$1,123,000**

Up to the amount identified above as the P-13 DIF-basis, DIF revenue may provide funding for design and construction of a pocket park, approximately 0.25 usable acres, which may include passive recreation park amenities such as a trailhead, interpretive signage, seating, and landscaping. The project site is located at the intersection of West Maple Street and Albatross Street adjacent to the West Maple Canyon Open Space.

Google Maps: West Maple Canyon Pocket Park

CIP: S-00760

Total Project Cost Estimate:  
\$1,123,000

**P-14 Mystic Park - Development**

**DIF-basis: \$6,431,000**

Up to the amount identified above as the P-14 DIF-basis, DIF revenue may provide funding for design and construction of a neighborhood park, approximately 7.58 usable acres, which may include multi-purpose turf areas, children’s play areas, seating, picnic tables, exercise areas, off-leash dog area, and landscaping. The project site is proposed to be east of SR-163, north of Washington Street, and south of Pascoe Street on City and Caltrans rights-of-way.

Phase I of the project would provide a feasibility study to determine if a neighborhood park of approximately 7.58 usable acres could be constructed on Caltrans’ scenic highway land and public right-of-way.

Phase II of the project would provide for the design and construction of a neighborhood park of approximately 7.58 usable acres in size at the location identified above.

Google Maps: Mystic Park

CIP: TBD

Total Project Cost Estimate:  
\$6,431,000

**P-15 West Lewis Street Pocket Park - Development**

**DIF-basis: \$259,000**

Up to the amount identified above as the P-15 DIF-basis, DIF revenue may provide funding for design and construction of Phase II improvements, approximately 0.03 usable acres, which may include the trail connection with the existing Phase I project, a new pedestrian bridge, and in accordance with the approved General Development Plan. The project is located adjacent to the West Lewis Street Pocket Park, located at the northeast corner of West Lewis Street and Goldfinch Street.

Google Maps: West Lewis Street at Goldfinch Street

CIP: TBD

Total Project Cost Estimate:  
\$259,000

**P-16 Goldfinch and West Spruce Streets Pocket Park – Development DIF-basis: \$747,000**

Up to the amount identified above as the P-16 DIF-basis, DIF revenue may provide funding for design and construction of approximately 0.12 usable acres, which may include a children’s play area, picnic areas, pathways, and landscaping. The project is located on the west side of Goldfinch Street, south of the West Spruce Street right-of-way (a paper street) and West Thorn Street.

Google Maps: Goldfinch and West Spruce Street

CIP: TBD

Total Project Cost Estimate: \$747,000

**P-17 Mission Valley Overlook Pocket Park - Development**

**DIF-basis: \$249,000**

Up to the amount identified above as the P-17 DIF-basis, DIF revenue may provide funding for design and construction of approximately 0.10 usable acres, which may include interpretive signage, seating, pathways, and landscaping. The project is located on the north side of Golden Gate Drive east of Cleveland Avenue.

Google Maps: Mission Valley Overlook on Golden Gate Drive

CIP: TBD

Total Project Cost Estimate: \$249,000

**P-18 Presidio Neighborhood Park - Improvements**

**DIF-basis: \$1,464,000**

Up to the amount identified above as the P-18 DIF-basis, DIF revenue may provide funding for design and construction of a neighborhood park, approximately 3.84 usable acres, which may include picnic areas, interpretive signage, walkways, fencing, security lighting, drinking fountains, benches, trash receptacles, and landscaping. The project is located within Presidio Park on Cosoy Way and Presidio Drive.

Google Maps: Presidio Park at Cosoy Way and Presidio Drive

CIP: TBD

Total Project Cost Estimate:  
\$1,464,000

**P-19 Sixth Avenue Children’s Park - Expansion**

**DIF-basis: \$3,973,000**

Google Maps: Sixth Avenue Children’s Park

Up to the amount identified above as the P-19 DIF-basis, DIF revenue may provide funding for design and construction of a children’s park, approximately 3.55 usable acres, which may include children’s play equipment and associated amenities consistent with the approved General Development Plan for the Sixth Avenue Children’s Playground, landscaping, walkways, security lighting, benches, and trash receptacles. The project is located within Balboa Park east of Sixth Avenue, between Thorn Street and Spruce Street.

CIP: TBD

Total Project Cost Estimate: \$3,973,000

**P-20 Open Space and Trails**

**DIF-basis: \$2,091,000**

Up to the amount identified above as the P-20 DIF-basis, DIF revenue may provide funding for eligible improvements to canyon open space and trails including new kiosks, overlooks, interpretive signs, benches, protective fencing, trash receptacles, and native landscaping. Projects may include, but are not limited to, the parks projects listed below:

- Bankers Hill Open Space Trail – Improvements

Approximately 1,400 linear feet in two sections: north-south from West Thorn Street to North Arroyo Drive and east-west from West Spruce Street connecting under the Spruce Street Suspension Bridge.

Google Maps: Bankers Hill Open Space Trail

CIP: TBD

Cost Estimate: \$240,000

- **Buchanan Canyon Open Space Trail – Improvements**  
Approximately 1,500 linear feet located along the base of Buchanan Canyon and connecting to Mission Valley between the western terminus of Camino Del Rio South to the intersection of Hayes Avenue and Johnson Avenue.

CIP: TBD

Cost Estimate: \$245,000

- **Curlew Canyon Open Space Trail – Improvements**  
Approximately 500 linear feet located near the western terminus of Curlew Street and running southwest to connect to the northern terminus of Dove Street.

CIP: TBD

Cost Estimate: \$187,000

- **Cypress Canyon/Marston Open Space Trail – Improvements**  
Approximately 4,200 linear feet located at the western terminus of Myrtle Way to Richmond Street through the bottom of Cypress Canyon.

CIP: TBD

Cost Estimate: \$375,000

- **Hospice Point Open Space Trail – Improvements**  
Approximately 1,100 linear feet located at the northern terminus of Third Avenue westward to the northern edge of City-owned Open Space.

CIP: TBD

Cost Estimate: \$221,000

- **Maple Canyon Open Space Trail – Improvements**

Approximately 4,820 linear feet located at the eastern terminus of West Maple Street westward to the intersection of Redwood Street and Third Avenue. The project includes new trail amenities along 2,800 linear feet of existing trails and 2,020 linear feet of new trails to be designed and constructed.

Google Maps: Maple Canyon trailhead at Third Avenue

CIP: TBD

Cost Estimate: \$404,000

- **University Heights Open Space Trail – Improvements**

Approximately 300 linear feet located at the intersection of Golden Gate Drive and Rhode Island Street extending north to the edge of City-owned Open Space.

CIP: TBD

Cost Estimate: \$174,000

- **Mission Hills Open Space Trail – Improvements**

Approximately 1,480 linear feet connecting Pioneer Park to Titus Street. The project will require the acquisition of a trail easement over private property.

CIP: TBD

Cost Estimate: \$245,000

Total P-20 Project Cost Estimate: \$2,091,000

**P-21 Joint-Use Facilities - Development**

**DIF-basis: \$1,677,000**

Up to the amount identified above as the P-21 DIF-basis, DIF revenue may provide funding for design and construction of joint-use facilities, which may include multi-purpose, turf fields, walkways, fencing, and landscape as needed at the following locations:

- **Grant Elementary School**

Approximately 1.0 acres and requires a joint-use agreement with the San Diego Unified School District and the City of San Diego.

CIP: TBD

Cost Estimate: \$763,000

- Florence Elementary School  
Approximately 1.2 acres and requires a joint-use agreement with the San Diego Unified School District and the City of San Diego.

Google Maps: Florence Elementary School

CIP: TBD

Cost Estimate: \$914,000

Total P-21 Project Cost Estimate: \$1,677,000

**P-22 ADA Improvements – Parks and Recreation**

**DIF-basis: \$3,773,000**

Up to the amount identified above as the P-22 DIF-basis, DIF revenue may provide funding for design and construction of Americans with Disabilities Act (ADA) barrier removal in public facilities as required by the federally mandated ADA transition plan for disability related complaints from citizens. Examples include construction of curb ramps, sidewalks, parking, doors, doorways, walls, drinking fountains, restroom modifications, path of travel modifications, and children’s play areas. Projects may include, but are not limited to, the projects listed below:

- Old Trolley Barn Park (and other locations)  
Provides for the design and construction of ADA accessibility improvements for Old Trolley Barn Park. The improvements may include children’s play area, path of travel, and other areas of the park to be in compliance with local, state, and federal requirements.

Google Maps: Old Trolley Barn Park

CIP: TBD

Cost Estimate: \$3,748,000

- Mission Hills/Pioneer Park & Comfort Stations  
Provides for the design and construction of ADA accessibility improvements for Old Trolley Barn Park. The improvements may include children’s play area, path of travel, and other areas of the park to be in compliance with local, state, and federal requirements.

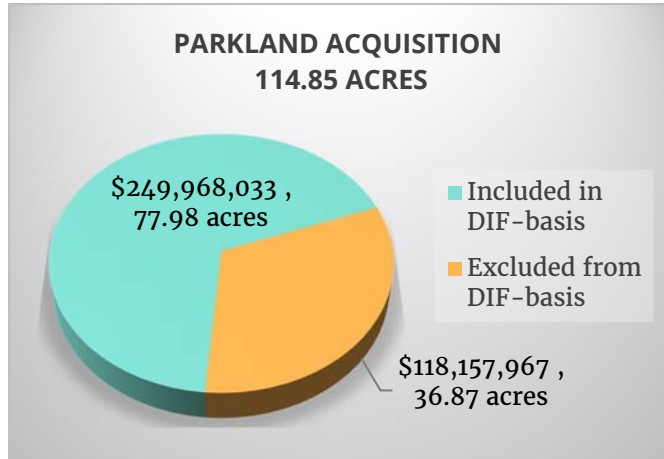

CIP: B-12005

Cost Estimate: \$25,000

CIP: ABE00001 (other CIP projects will be added, as necessary)  
 Total P-22 Project Cost Estimate: \$3,773,000

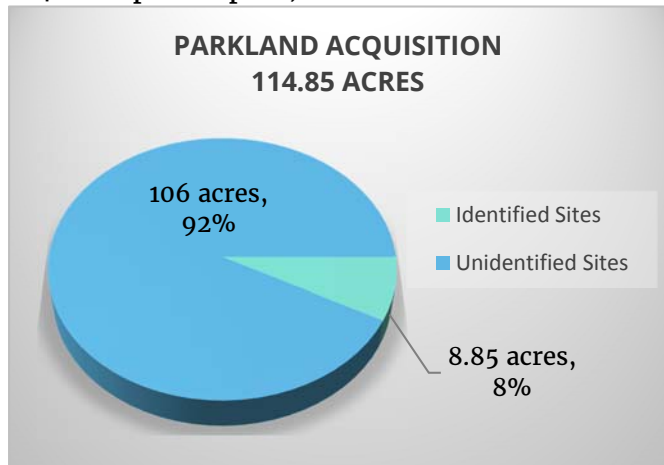

**P-23 Parkland Acquisition and Development (114.85 acres) DIF-basis: \$249,968,033**

Up to the amount identified above as the P-23 DIF-basis, DIF revenue may provide funding for the acquisition, design, and construction of parkland, approximately 77.98 useable acres to be located at various sites within the community. Park amenities could include multi-purpose fields, children’s play areas, multi-purpose courts, security lighting, comfort stations, walkways, parking, and landscaping. Funding for 36.87 acres, totaling \$118,157,967, is not included in the DIF-basis.

Future projects may include but are not limited to:

- Reynard Way Neighborhood Park (proposed 4.72-acre park)
- Bandini Street Pocket Park (proposed 0.18-acre pocket park)
- Fir Street Pocket Park (proposed 0.23-acre pocket park)
- First and Robinson Avenue Pocket Park (proposed 0.28-acre pocket park)
- Sixth Avenue Pocket Park (proposed 0.45-acre pocket park)
- Clark Street Pocket Park (proposed 0.24-acre pocket park)
- Falcon Street Pocket Park (proposed 0.19-acre pocket park)
- Front Street and West Juniper Street Pocket Park (proposed 0.46-acre pocket park)
- Goldfinch Street and Pennsylvania Ave. Pocket Park (proposed 0.32-acre pocket park)
- Guy and Henry Streets Pocket Park (proposed 0.12-acre pocket park)
- Hawk Street Pocket Park (proposed 0.24-acre pocket park)
- Hawk Street and Court Way Pocket Park (proposed 0.19-acre pocket park)
- Horton Avenue and Ibis Street Pocket Park (proposed 0.33-acre pocket park)
- Ibis Lane Pocket Park (proposed 0.10-acre pocket park)
- Ibis Street Pocket Park (proposed 0.12-acre pocket park)
- La Callecita Street Pocket Park (proposed 0.11-acre pocket park)
- Maryland Street Pocket Park (proposed 0.21-acre pocket park)
- Pringle and Puterbaugh Streets Pocket Park (proposed 0.24-acre pocket park)
- State and West Thorn Street Pocket Park (proposed 0.12-acre pocket park)

CIP: TBD  
 Total P-23 Project Cost Estimate: \$368,126,000

## Fire-Rescue Facilities

### F-1 Fire Station 5 (Hillcrest) - Improvements

**DIF-basis: \$550,500**

Up to the amount identified above as the F-1 DIF-basis, DIF revenue may provide funding for improvements at Fire Station 5 (Hillcrest). Improvements may include an expansion of the facility to approximately 10,500 ft<sup>2</sup>.

Funding from other sources, totaling \$9,111,423, is not included in the DIF-basis.

CIP: S-00788

Total Project Cost: \$9,661,923

Google Maps: Fire Station 5 in Hillcrest

### F-2 Fire Station 8 (Mission Hills) - Improvements

**DIF-basis: \$2,081,500**

Google Maps: Fire Station 8 in Mission Hills

Up to the amount identified above as the F-2 DIF-basis, DIF revenue may provide funding for improvements at Fire Station 8 (Mission Hills). Improvements may include design and construction of the facility's working areas and an expansion of the facility.

CIP: S-10029

Total Project Cost: \$2,081,500

### F-3 Fire Station 3 - Expansion

**DIF-basis: \$1,218,000**

Up to the amount identified above as the F-3 DIF-basis, DIF revenue may provide funding for improvements at Fire Station 3. Improvements may include an expansion of the facility.

CIP: TBD

Total Project Cost: \$1,218,000

Google Maps: Fire Station 3

## Library Facilities

### L-1 New Mission Hills/Hillcrest Branch Library

**DIF-basis: \$7,876,000**

Up to the amount identified above as the L-1 DIF-basis, DIF revenue may provide funding for a new library of up to 15,000 ft<sup>2</sup> at a site adjacent to the Florence Elementary School on the block bounded by Front Street, Washington Street, First Avenue, and University Avenue.

A private donation of \$10,000,000 is not included in the DIF-basis.

Google Maps: New Mission Hills Branch Library

CIP: S-13022

Total Project Cost: 17,876,000

## DIF Expenditures on Completed Projects

The amount of DIF expended on completed projects is included in the DIF-basis as identified below:

- First Avenue Bridge over Maple Canyon – Rehabilitation (S-00862) \$811,000  
Total project cost was \$13,767,953 of which \$12,956,953 is from other funding sources and is not included in the DIF-basis.
- University Avenue and Front Street Pop-out (S-00909) \$160,308
- Normal Street Median between University and Blaine (S-00918) \$104,000
- Park Boulevard Bicycle Facility (S-11035) \$39,091
- Congress Street/San Diego Avenue Bicycle Facility (S-11038) \$4,242

**Completed Projects**

**DIF-basis: \$1,118,641**

## Facilities Summary

### Mobility Facilities

		Cost Estimate	DIF-basis
M-1	Streets, Ramps and Corridor Improvements	\$12,480,000	\$12,480,000
M-2	Modern Roundabouts	\$5,074,000	\$5,074,000
M-3	Traffic Signals	\$3,126,000	\$2,691,000
M-4	Intelligent Transportation Systems (ITS)	\$1,421,000	\$1,421,000
M-5	Transit Priority Measures	\$1,421,000	\$1,421,000
M-6	Active Transportation	\$10,519,000	\$6,165,000
M-7	Accessibility Compliance	\$2,030,000	\$2,030,000
M-8	Storm Drain Facilities	\$51,882,000	\$47,688,000
	Current/Future Mobility Facilities	\$87,953,000	\$78,970,000
	Completed Mobility Facilities	\$14,075,594	\$1,118,641
	<b>Total Mobility Cost</b>	<b>\$102,028,594</b>	<b>\$80,088,641</b>

### Parks and Recreation Facilities

		Cost Estimate	DIF-basis
P-1	Redwood Recreation Center - Development	\$6,401,000	\$6,401,000
P-2	Uptown Aquatic Complex - Development	\$7,634,000	\$7,634,000
P-3	Uptown Recreation Center - Development	\$10,402,000	\$10,402,000
P-4	Olive Street Park - Development	\$2,689,000	\$2,570,000
P-5	Normal Street Linear Park - Development	\$2,066,000	\$2,066,000
P-6	Golden Gate Drive Pocket Park - Development	\$564,000	\$564,000
P-7	Laurel Street Pocket Park - Development	\$970,000	\$970,000
P-8	Grant K-8 School Gymnasium - Development	\$7,196,000	\$7,196,000
P-9	Freedom Park - Expansion	\$913,000	\$913,000
P-10	Nate's Point Off-Leash Dog Area - Expansion	\$1,054,000	\$1,054,000
P-11	Pershing Recreational Complex - Development	\$17,034,000	\$4,089,000
P-12	Quince Street Mini-Park - Expansion	\$913,000	\$913,000
P-13	West Maple Canyon Pocket Park - Development	\$1,123,000	\$1,123,000
P-14	Mystic Park - Development	\$6,431,000	\$6,431,000
P-15	West Lewis Street Pocket Park - Phase II	\$259,000	\$259,000
P-16	Goldfinch and West Spruce Streets Pocket Park	\$747,000	\$747,000
P-17	Mission Valley Overlook Pocket Park	\$249,000	\$249,000
P-18	Presidio Neighborhood Park - Expansion	\$1,464,000	\$1,464,000
P-19	Sixth Avenue Children's Park - Expansion	\$3,973,000	\$3,973,000
P-20	Open Space and Trails	\$2,091,000	\$2,091,000
P-21	Joint-Use Facilities - Development	\$1,677,000	\$1,677,000
P-22	ADA Improvements - Parks and Recreation	\$3,773,000	\$3,773,000
P-23	Parkland Acquisition & Development (114.85 ac.)	\$368,126,000	\$249,968,033
	Current/Future Parks and Recreation Facilities	\$447,749,000	\$316,356,033
	Completed Parks and Recreation Facilities	\$0	\$0
	<b>Total Parks and Recreation Cost</b>	<b>\$447,749,000</b>	<b>\$316,356,033</b>

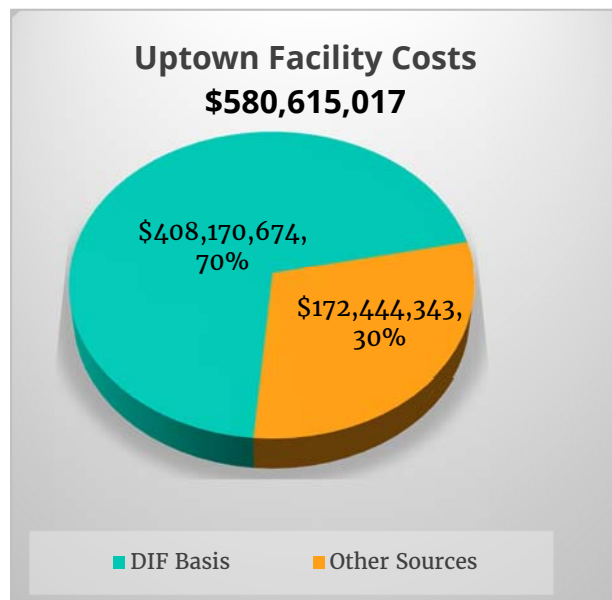

## Fire-Rescue Facilities

		Cost Estimate	DIF-basis
F-1	Fire Station 5 (Hillcrest) – Improvements	\$9,661,923	\$550,500
F-2	Fire Station 8 (Mission Hills) – Improvements	\$2,081,500	\$2,081,500
F-3	Fire Station 3 – Expansion	\$1,218,000	\$1,218,000
	Current/Future Fire-Rescue Facilities	\$12,961,423	\$3,850,000
	Completed Fire-Rescue Facilities	\$0	\$0
	<b>Total Fire-Rescue Cost</b>	<b>\$12,961,423</b>	<b>\$3,850,000</b>

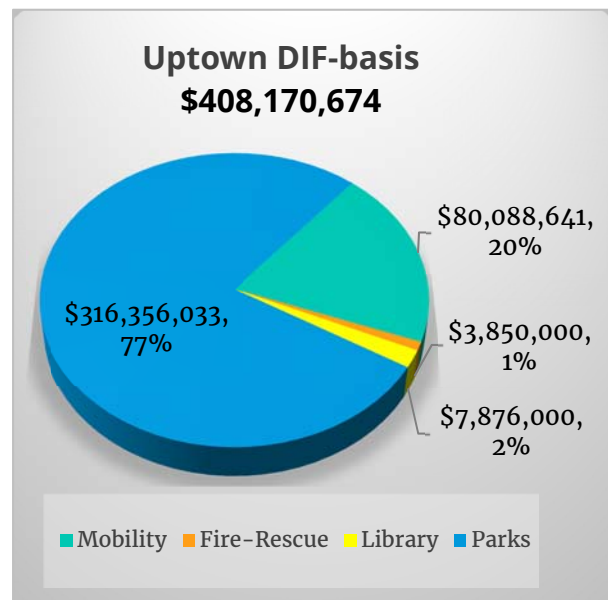

## Library Facilities

		Cost Estimate	DIF-basis
L-1	Mission Hills/Hillcrest Library – Relocation/Expansion	\$17,876,000	\$7,876,000
	Current/Future Library Facilities	\$17,876,000	\$7,876,000
	Completed Library Facilities	\$0	\$0
	<b>Total Library Cost</b>	<b>\$17,876,000</b>	<b>\$7,876,000</b>

<b>Total Facility Cost Estimates</b>	<b>\$580,615,017</b>
<b>Total DIF-basis Cost Estimates</b>	<b>\$408,170,674</b>

70% of the total estimated facility cost in Uptown is included in the DIF-basis.

Park costs make up 77% of the total DIF-basis in Uptown.

## Development Impact Fee (DIF) Calculation

The DIF calculation methodology utilized in this Study is described below. Other fee calculation methodologies exist, which could result in a higher DIF than the fee schedule presented in this Study. As part of future updates to this IFS, the City of San Diego will evaluate alternative methodologies for calculation of the DIF.

The Uptown DIF is comprised of a component fee for each category: Mobility, Parks and Recreation, Fire-Rescue, and Library. The fee for each component is derived by apportioning the DIF-basis costs to the various land uses based on the type of land use and/or the type of public facility for each component. Costs included in the DIF-basis costs are apportioned to multiple land use types based on the type of the land use and/or the type of facility. For example, residential development generates a demand for parks and recreation and library facilities while, for the purpose of this Study, non-residential development is assumed to not generate that demand. Therefore, the DIF for new residential development will include the cost of parks and recreation facilities as well as library facility needs, while non-residential development will not include those costs.

The portion of the component cost that is eligible to receive DIF funding is determined and included in the DIF-basis. The amount of the DIF-basis for each component are totaled; 8% is added to cover the City's administrative costs; then apportioned over the total anticipated development for the community at full community development. While the DIF components are calculated separately, each component as summed by residential or non-residential and combined to form the DIF Schedule.

The amount of DIF imposed on new development is based on the extent or degree to which each type of development generates a demand for, or receives benefit from, the various planned public facilities, referred to as the *nexus*.

Uptown is near full community development. Future DIF funds collected will contribute only a small portion of the cost of the public facilities included in this Study. The remaining portion of costs must be provided through funding mechanisms other than DIF.

### Mobility Component of DIF

Mobility facilities are dictated by traffic volumes. Both residential and non-residential development generate demand for mobility facilities. Residential development impact fees are based on an Average Daily Trip (ADT) rate of 7 ADTs per DU.

Non-residential development impact fees are based on gross building area (GBA) and the number of ADTs generated by the development. The ADT rate applied to each

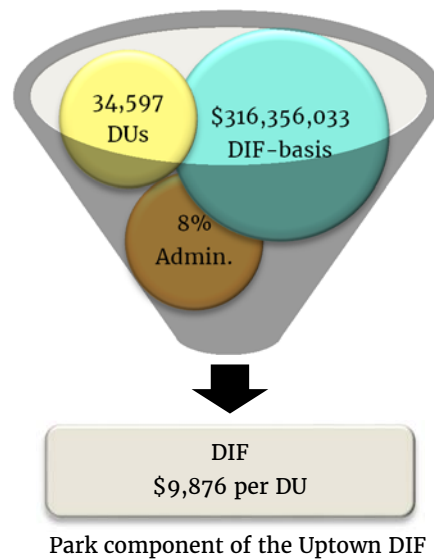

building permit fee calculation will be that as listed in the most current version of the San Diego Municipal Code, Land Development Code, [Trip Generation Manual](#), Table 7 (Trip Generation Rates for Facilities Financing Purposes) on the date the fee is paid.

At full community development, Uptown is anticipated to generate 593,246 ADTs. The FY 2017 DIF-basis for Mobility projects is \$80,088,641. This cost, plus 8% for administration, divided by 593,246 ADTs results in a DIF of \$146 per ADT and \$1,020 per DU.

### Parks and Recreation Component of DIF

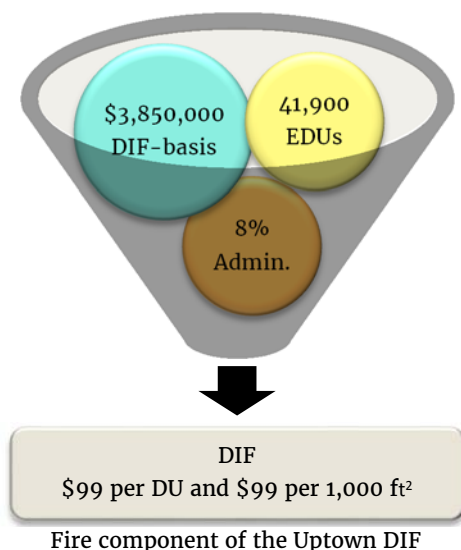

Parks and Recreation facilities benefit residential development, and residential impact fees are based on an average cost per residential DU.

At full community development Uptown is anticipated to have 34,597 DUs. The FY 2017 DIF-basis for park and recreation projects is \$316,356,033. This cost, plus 8% for administration, divided by 34,597 DUs result in a DIF of \$9,876 per DU.

### Fire-Rescue Component of DIF

Fire-Rescue facilities benefit both residential and non-residential development. Non-residential development impact fees are based on an average cost per 1,000 ft<sup>2</sup> of gross building area. Residential impact fees are based on an average cost per DU.

For purposes of fee calculation, all development is counted in terms of Equivalent Dwelling Units (EDUs). One residential unit equals one EDU, therefore at full community development the community

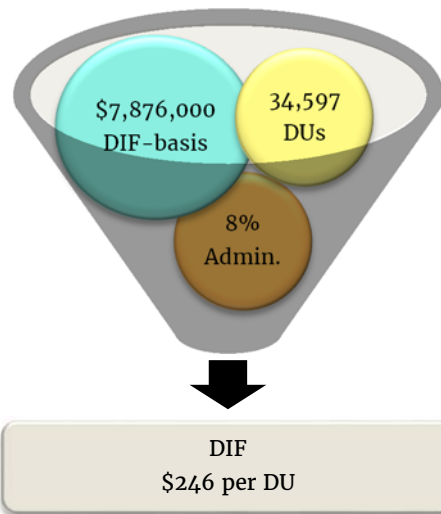

is anticipated to have 34,597 DUs, or 34,597 EDUs of residential development. Similarly, the community is anticipated to have 7,303,000 ft<sup>2</sup> or 7,303 EDUs of non-residential development.

Residential and non-residential development, when combined, is anticipated to generate 41,900 EDUs at full community development.

The FY 2017 DIF-basis for Fire-Rescue projects is \$3,850,000. This cost, plus 8% for administration, divided by 41,900 EDUs results in a DIF for Fire-Rescue of \$99 per residential unit and \$99 per 1,000 ft<sup>2</sup> of non-residential development.

### Library Component of DIF

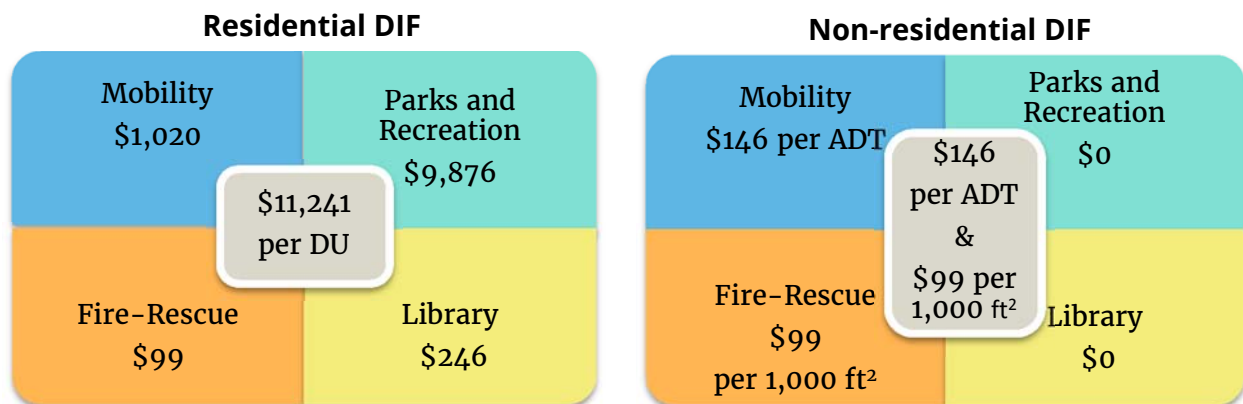

Library facilities benefit residential development, and residential impact fees are based on an average cost per residential DU. At full community development, Uptown is anticipated to have 34,597 DUs. The FY 2017 DIF-basis for library projects is \$7,876,000. This cost, plus 8% for administration, divided by 34,597 DUs result in a DIF of \$246 per DU.

Library component of the Uptown DIF

### DIF Schedule

By combining all impact fee components, a DIF fee schedule is created. For residential development, the FY 2017 fee is \$11,241 per dwelling unit. For non-residential development the FY 2017 fee is \$146 per ADT for mobility plus \$99 per 1,000 ft<sup>2</sup>.

The actual dollar amount for an individual building permit will be based on the DIF Schedule and Trip Generation Manual in effect on the date of building permit issuance.

### Annual Increase to DIF Schedule

Chapter 14, Article 2, Division 6 of the Municipal Code provides that automatic annual increases to the DIF Schedule shall occur every July 1<sup>st</sup> based on the annual Construction Cost Index for Los Angeles as published in the Engineering News-Record for the period ending in March.

## Los Angeles Construction Cost Index Annual Percentage Increase

Source: Engineering News-Record

### Collection and Expenditure of DIF

DIF is collected at the time of construction permit (usually a building permit) issuance. New development will be assessed a DIF, upon building permit issuance, based on the number of DUs (residential) or the amount of floor area in ft<sup>2</sup> (non-residential) being added to the community. A tenant improvement that adds floor area or a change in use will be assessed a DIF based on the change in associated traffic (ADTs).

DIF credit for previous use (and/or demolished structures on the same parcel) may be applied towards the calculation of impact fees for a new permitted use and/or new building structure with proof of type and amount of prior land use, and/or provision of demolition permit or demolition sheet within a permit submittal package.

DIF revenue may be expended on projects identified in the Study up to the amount identified as the DIF-basis for each project or project type.

## Appendix B

### Uptown Planners Priority List

The Uptown Planners may establish and update a priority list for projects listed in this IFS. The projects described in the FY 2017 Uptown IFS are derived from the updated FY 2017 Community Plan and have been ranked low medium, or high by the Uptown Planners for informational purposes. The Uptown Planners may review this priority list regularly and transmit changes in the ranking results to the Facilities Financing section of the Planning Department. The Facilities Financing Project Manager will maintain the current priority lists and will post them on the Planning Department's website. Please contact the Facilities Financing Project Manager to view the most recent priority list from the Uptown Planners. The updated priority lists will be considered in determining priority for implementation of CIP projects.

#### High Priority Park Projects

Project	IFS Project No.
Acquisition and development of Olive Street Park	P-4
Development of a Joint Use Facility at Pioneer Park / Grant K-8 School	P-21
Normal Street Linear Park	P-5
Open Space and Trails	P-20
Maryland Street Pocket Park	P-23
Reynard Way Neighborhood Park	P-23

#### High Priority Library Projects

Project	IFS Project No.
Acquisition and renovation of Teachers Training Annex # 1 at San Diego Unified School District site for use as a new University Heights Branch Library	--
Completion of the Mission Hills / Hillcrest Branch Library	L-1

#### High Priority Fire Projects

Project	IFS Project No.
Renovation of the Hillcrest Fire Station # 5	F-1

### High Priority Mobility Projects

Project	IFS Project No.
Impact Fee Study Project M-6, including an east-west separated bicycle track to be placed at an appropriate location along the Robinson Avenue / University Avenue / Washington Street east-west corridor that would link the eastern and western segments of the Uptown bicycle corridor	M-6

### Lowest Priority Projects

Project	IFS Project No.
Freedom Park Improvements	P-9
Nate's Point Off-Leash Dog Area Improvements	P-10
Quince Street Mini-park Improvements	P-12
Sixth Avenue Children's Park - Development	P-19
Modern Roundabouts	M-2

### Policy Recommendations

The Uptown DIF should be used as much as possible in the communities in which it is generated, so that it mitigates the impacts of the new development that generated the payment of the DIF.

Development Impact Fees collected for projects within the Uptown Community Planning Area should be used within the boundaries of the area and the allocation of the DIF should be decided through an open, public process.

It is intended that DIF funds be spent on project categories in rough proportion to the manner in which the DIFs were assessed in the Impact Fee Study. As an example, if 80% of the DIF revenues were based on planned Park and Recreation projects, then approximately 80% of the DIF revenues should be spend on Park and Recreation projects.

**Appendix C**  
**City Council Resolution**

#332  
12/6/16  
(R-2017-210)

RESOLUTION NUMBER R- 310861

DATE OF FINAL PASSAGE DEC 16 2016

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN DIEGO APPROVING THE UPTOWN IMPACT FEE STUDY, FISCAL YEAR 2017, AND THE DEVELOPMENT IMPACT FEE SCHEDULE FOR PROPERTIES WITHIN UPTOWN, AUTHORIZING THE CHIEF FINANCIAL OFFICER TO ESTABLISH AND MODIFY INDIVIDUAL CAPITAL IMPROVEMENT PROGRAM PROJECT BUDGETS TO REFLECT THE STUDY, AND TAKING RELATED ACTIONS.

WHEREAS, the purpose of Development Impact Fees (DIFs) is to ensure that each new development project pays its proportionate share of the funding needed for public facilities necessary to serve new development; and

WHEREAS, the Council of the City of San Diego has reviewed and considered the methodology set forth in the Uptown Impact Fee Study, Fiscal Year 2017 (Study), on file in the Office of the City Clerk as Document No. RR- 310861 ; NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego (City Council), that it approves the Uptown Impact Fee Study, Fiscal Year 2017 (Study).

BE IT FURTHER RESOLVED, that the Chief Financial Officer is authorized to establish and modify individual Capital Improvement Program project budgets to reflect the Study, provided funding is available for such action.

BE IT FURTHER RESOLVED, as follows:

1. That the fee schedule contained in the Study is the appropriate and applicable Development Impact Fee (DIF) schedule for all development within the Uptown area.
2. Effective sixty days from the date of final passage of this resolution, that all DIFs due under the Study shall be those fees in effect at the time the project's building permits or

construction permits are issued, in accordance with San Diego Municipal Code section 142.0640(b).

3. That the DIFs due shall automatically increase in accordance with San Diego Municipal Code section 142.0640(c).

4. That the Study is incorporated by reference into this Resolution as support and justification for satisfaction of findings required pursuant to the Mitigation Fee Act, as set forth in California Government Code section 66025, for imposition of development impact fees. Specifically, it is determined and found that this documentation:

a. Identifies the purpose of the DIF, which is to ensure that each development project pays its proportionate share of funding needed for the public facilities projects necessary to serve new development;

b. Identifies the use to which the DIF is to be put, which includes but is not limited to the funding of public facilities projects to serve the community at full community development as identified in the Uptown Community Plan and General Plan. A list of the public facilities projects is shown in the Study;

c. Demonstrates how there is a reasonable relationship between the DIFs' use and the type of development project on which the DIF is imposed, which includes the following: The DIF will be used to provide for a proportionate fair share contribution for community infrastructure projects needed to serve both residential and non-residential development based on the increased intensity of the development permitted in accordance with the DIF schedule in effect at the time a building permit is issued. Credit will be given for any existing development;

d. Demonstrates how there is a reasonable relationship between the need for the public facility and the type of development project on which the DIF is imposed, which includes the following:

(i) Mobility/Transportation Projects: Both residential development and non-residential development utilize the community's transportation system, which requires various street and bridge projects, traffic signal interconnect systems, and medians.

(ii) Park and Recreation Projects: Residential development utilizes the community's parks, and improvements are necessary based on the projected population at full community development and General Plan standards.

(iii) Library Projects: Residential development utilizes the community libraries, and improvements are necessary based on the projected population at full community development and General Plan standards.

(iv) Fire/Rescue Projects: Residential and non-residential development will be served by community fire/rescue facilities, and additional facilities are necessary based on the projected population at full community development, General Plan standards, and established emergency response times.

5. That the Chief Financial Officer is authorized to establish an interest-bearing fund for the Uptown Development Impact Fee, if so requested by the Planning Department.

BE IT FURTHER RESOLVED, that this resolution shall become effective no earlier than the date of final passage of the resolution by which the City Council approves the Uptown Community Plan Update, which is being considered concurrently with this action.
