- ▲ Fire Stations
- ▲ Lifeguard Stations
- ▲ Street Improvements
- ▲ Street Lights
- ▲ Traffic Signals
- ▲ Utilities Undergrounding
- ▲ Water Facilities
- ▲ Sewer Facilities
- ▲ Water Pipelines
- ▲ Sewer Pipelines

Background

The City of San Diego will be constructing numerous capital improvement projects to maintain, upgrade or replace public infrastructure and public service providing facilities within the communities of Uptown, North Park, Hillcrest, and Balboa Park in San Diego. These projects will be in construction simultaneously between early 2013 and mid-2018.

Combined, the Uptown-North Park construction projects include sewer and water replacement; facility upgrades; street striping and signal modifications; bridge reconstruction; curb ramp installation to facilitate access for persons with disabilities where required; bike lane; utilities undergrounding; and street resurfacing projects.

Project Overview

This Capital Improvement Project is managed by the Transportation and Storm Water Department. This project will remove and replace damaged concrete street panels in multiple Council Districts.

The area of work within the Mission Hills Community is on Kite Street between Upas Street and Sutter Street.

New pedestrian curb ramps that facilitate access for people with disabilities will be updated to current City standards.

Existing striping will be matched after the street panels are removed and replaced, and all street pavement disturbed will be resurfaced.

Project Schedule

Construction: January 2014 through April 2014*

*All dates are approximate and subject to change.

Project Budget

The project's planning, design, and construction budget is \$1,798,800.

January 2014
