

Infrastructure Projects:

- Airports
- Bikeways
- Bridges
- Drainage Control Facilities
- Flood Control Facilities
- Libraries
- Parks
- Recreation Centers
- Police Stations
- Fire Stations
- Lifeguard Stations
- Street Improvements
- Street Lights
- Traffic Signals
- Utilities Undergrounding
- Water Facilities
- Sewer Facilities
- Water Pipelines
- Sewer Pipelines

# COASTAL RAIL TRAIL PROJECT

## Background

The Coastal Rail Trail (CRT) is a regional project that will establish a multi-use trail for connectivity of the coastal cities of Oceanside, Del Mar, Carlsbad, Encinitas, Solana Beach and San Diego. Each city has entered into a Memorandum of Understanding to provide a cooperative arrangement to plan, design, and construct segments within each jurisdictional boundary on the Coastal Rail Trail project. The 2050 SANDAG Regional Transportation Plan has estimates of \$3.4 billion for bicycle and pedestrians facilities by 2050 and is promoting sustainable bicycle transportation for every day travel to increase mobility, reduce greenhouse gases, improve public health, and improve quality of life. In addition to providing a bicycle route for commuters, multi-use trails provide a great community asset as attractions for walkers, joggers, and recreational cyclists.

## Project Overview

The project includes Phase 1 services for the Coastal Rail Trail between Gilman Drive on the south to Carmel Valley Road on the north (approximately 10 miles). This segment of the trail links regional employment centers in Sorrento Valley, UCSD, and University Town Center for residential communities to the north and south along with connections to Coaster stations and future Light Rail Transit (LRT) stations. Phase 1 services include base site mapping, planning services, alternative analysis, preliminary environmental assessments and community outreach.

## Project Schedule

Anticipated date to completion of Phase I: Fall 2013  
 Anticipated to begin design: Spring 2014  
 Construction start date: TBD  
 \*All dates are approximate and subject to change.

## Project Budget

The project's planning, design, and construction budget is \$21 million.

Month 2012
