**AGREEMENT BETWEEN
THE CITY OF SAN DIEGO
AND RBF CONSULTING A COMPANY OF THE MICHAEL BAKER
CORPORATION
FOR CONSULTANT SERVICES**

THIS Agreement is made and entered into between the City of San Diego, a municipal corporation [City], and RBF Consulting a Company of the Michael Baker Corporation [Consultant] for the Consultant to provide Services to the City for Traffic Engineering Services.

RECITALS

The City wants to retain the services of a Traffic Engineering firm to provide Traffic Engineering services [the Services].

The Consultant has the expertise, experience and personnel necessary to provide the Services. The City and the Consultant [Parties] want to enter into an Agreement whereby the City will retain the Consultant to provide, and the Consultant shall provide, the Services.

In consideration of the above recitals and the mutual covenants and conditions set forth, herein, and for good and valuable consideration, the sufficiency of which are hereby acknowledged, the Parties hereby set forth their mutual covenants and understandings as follows:

**ARTICLE I
CONSULTANT SERVICES**

The above-listed recitals are true and correct and are hereby incorporated by reference.

1.1 Scope of Services. The Consultant shall perform the Services as set forth in the written Scope of Services [Exhibit A] at the direction of the City

1.2 Contract Administrator. The Planning, Neighborhoods, and Economic Development Department is the contract administrator for this Agreement. The Consultant shall provide the Services under the direction of a designated representative of the Planning, Neighborhoods, and Economic Development Department. The City's designated representative will communicate with the Consultant on all matters related to the administration of this Agreement and the Consultant's performance of the Services rendered hereunder. When this Agreement refers to communications to or with the City, those communications will be with the designated representative, unless the designated representative or the Agreement specifies otherwise. However, when this Agreement refers to an act or approval to be performed by City, that act or approval shall be performed by the Mayor or his designee, unless the Agreement specifies otherwise.

1.3 City Modification of Scope of Services. The City may, without invalidating this Agreement, order changes in the Scope of Services by altering, adding to or deducting from the Professional Services to be performed. All such changes shall be in writing and shall be

performed in accordance with the provisions of this Agreement. If any such changes cause an increase or decrease in the Consultant's cost of, or the time required for, the performance of any of the Professional Services, the Consultant shall immediately notify the City. If the City deems it appropriate, an equitable adjustment to the Consultant's compensation or time for performance may be made, provided that any adjustment must be approved by both Parties in writing in accordance with Section 9.1 of this Agreement.

1.4 Written Authorization. Prior to performing any Services, the Consultant shall obtain from the City a written authorization to proceed. Further, throughout the term of this Agreement, the Consultant shall immediately advise the City in writing of any anticipated change in the Scope of Services (Exhibit A), Compensation and Fee Schedule [Exhibit B], or Time Schedule [Exhibit C], and shall obtain the City's written consent to the change prior to making any changes. In no event shall the City's consent be construed to relieve the Consultant from its duty to render all Services in accordance with applicable laws and accepted industry standards.

1.5 Confidentiality of Services. All Services performed by the Consultant, including but not limited to all drafts, data, correspondence, proposals, reports, and estimates compiled or composed by the Consultant, pursuant to this Agreement, are for the sole use of the City, its agents and employees. Neither the documents nor their contents shall be released to any third party without the prior written consent of the City. This provision does not apply to information that (a) was publicly known, or otherwise known to the Consultant, at the time that it was disclosed to the Consultant by the City, (b) subsequently becomes publicly known through no act or omission of the Consultant, or (c) otherwise becomes known to the Consultant other than through disclosure by the City. Except for Subcontractors covered by Section 4.4, neither the documents nor their contents shall be released to any third party without the prior written consent of the City.

1.6 Competitive Bidding. If applicable, the Consultant shall comply with the following: Consultant shall ensure that any plans, specifications, studies, or reports prepared, required, or recommended under this Agreement allow for competitive bidding. The Consultant shall prepare such plans, specifications, studies, or reports so that procurement of services, labor or materials are not available from only one source, and shall not prepare plans, specifications, studies, or reports around a single or specific product, piece of major equipment or machinery, a specific patented design, or a proprietary process, unless required by principles of sound engineering practice and supported by a written justification that has been approved in writing by the City. The Consultant shall submit this written justification to the City prior to beginning work on such plans, specifications, studies, or reports. Whenever the Consultant recommends a specific product or equipment for competitive procurement, such recommendation shall include at least two brand names of products that are capable of meeting the functional requirements applicable to the Project.

ARTICLE II DURATION OF AGREEMENT

2.1 Term of Agreement. This Agreement shall be effective on the date it is executed by the last Party to sign the Agreement, and approved by the City Attorney in accordance with San Diego Charter Section 40. Unless otherwise terminated, it shall be effective until completion

of the Scope of Services or January 1, 2017 whichever is the earliest but not to exceed five years unless approved by City ordinance.

2.2 Time of Essence. Time is of the essence for each provision of this Agreement, unless otherwise specified in this Agreement. The time for performance of the Scope of Services (Exhibit A) is set forth in the Time Schedule (Exhibit C).

2.3 Notification of Delay. The Consultant shall immediately notify the City in writing if the Consultant experiences or anticipates experiencing a delay in performing the Services within the time frames set forth in the Time Schedule (Exhibit C). The written notice shall include an explanation of the cause for, and a reasonable estimate of the length of the delay. If in the opinion of the City, the delay affects a material part of the City's requirements for the Services, the City may exercise its rights under Sections 2.5-2.7 of this Agreement.

2.4 Delay. If delays in the performance of the Services are caused by unforeseen events beyond the control of the Parties, such delay may entitle the Consultant to a reasonable extension of time, but such delay shall not entitle the Consultant to damages or additional compensation. Any such extension of time must be approved in writing by the City. The following conditions may constitute such a delay: war; changes in law or government regulation; labor disputes; strikes; fires, floods, adverse weather or other similar condition of the elements necessitating cessation of the Consultant's work; inability to obtain materials, equipment, or labor; required additional Services; or other specific reasons agreed to between the City and the Consultant; provided, however, that: (a) this provision shall not apply to, and the Consultant shall not be entitled to an extension of time for, a delay caused by the acts or omissions of the Consultant; and (b) a delay caused by the inability to obtain materials, equipment, or labor shall not entitle the Consultant to an extension of time unless the Consultant furnishes the City, in a timely manner, documentary proof satisfactory to City of the Consultant's inability to obtain materials, equipment, or labor.

2.5 City's Right to Suspend for Convenience. The City may, at its sole option and for its convenience, suspend all or any portion of the Consultant's performance of the Services, for a reasonable period of time not to exceed six months. In accordance with the provisions of this Agreement, the City will give written notice to the Consultant of such suspension. In the event of such a suspension, in accordance with the provisions of Article III of this Agreement, the City shall pay to the Consultant a sum equivalent to the reasonable value of the Services the Consultant has satisfactorily performed up to the date of suspension. Thereafter, the City may rescind such suspension by giving written notice of rescission to the Consultant. The City may then require the Consultant to resume performance of the Services in compliance with the terms and conditions of this Agreement; provided, however, that the Consultant shall be entitled to an extension of time equal to the length of the suspension, unless otherwise agreed to in writing by the Parties.

2.6 City's Right to Terminate for Convenience. The City may, at its sole option and for its convenience, terminate all or any portion of the Services agreed to pursuant to this Agreement by giving written notice of such termination to the Consultant. Such notice shall be delivered by certified mail with return receipt for delivery to the City. The termination of the Services shall be effective upon receipt of the notice by the Consultant. After termination of this Agreement, the Consultant shall complete any and all additional work necessary for the orderly

filing of documents and closing of the Consultant's Services under this Agreement. For services satisfactorily rendered in completing the work, the Consultant shall be entitled to fair and reasonable compensation for the Services performed by the Consultant before the effective date of termination. After filing of documents and completion of performance, the Consultant shall deliver to the City all documents or records related to the Consultant's Services. By accepting payment for completion, filing and delivering documents as called for in this paragraph, the Consultant discharges the City of all of the City's payment obligations and liabilities under this Agreement.

2.7 City's Right to Terminate for Default. If the Consultant fails to satisfactorily perform any obligation required by this Agreement, the Consultant's failure constitutes a Default. A Default includes the Consultant's failure to adhere to the Time Schedule. If the Consultant fails to satisfactorily cure a Default within ten calendar days of receiving written notice from the City specifying the nature of the Default, the City may immediately cancel and/or terminate this Agreement, and terminate each and every right of the Consultant, and any person claiming any rights by or through the Consultant under this Agreement. The rights and remedies of the City enumerated in this Section are cumulative and shall not limit, waive, or deny any of the City's rights under any other provision of this Agreement. Nor does this Section otherwise waive or deny any right or remedy, at law or in equity, existing as of the date of this Agreement or hereinafter enacted or established, that may be available to the City against the Consultant.

ARTICLE III COMPENSATION

3.1 Amount of Compensation. The City shall pay the Consultant for performance of all Professional Services rendered in accordance with this Agreement, including reasonably related expenses, for a total contract amount not exceeding \$275,245. The compensation for the Scope of Services shall not exceed \$275,245, and the compensation for Additional Services (described in Section 3.2), if any, shall not exceed \$0.

3.2 Additional Services. The City may require that the Consultant perform additional Services [Additional Services] beyond those described in the Scope of Services [Exhibit A]. Prior to the Consultant's performance of Additional Services, the City and the Consultant must agree in writing upon a fee for the Additional Services, including reasonably related expenses, in accordance with the Compensation and Fee Schedule (Exhibit B). The City will pay the Consultant for the performance of Additional Services in accordance with Section 3.3.

3.3 Manner of Payment. The City shall pay the Consultant in accordance with the Compensation and Fee Schedule (Exhibit B). For the duration of this Agreement, the Consultant shall not be entitled to fees, including fees for expenses, that exceed the amounts specified in the Compensation and Fee Schedule. The Consultant shall submit one invoice per calendar month in a form acceptable to City in accordance with the Compensation and Fee Schedule. The Consultant shall include with each invoice a description of completed Services, reasonably related expenses, if any, and all other information, including but not limited to: the progress percentage of the Scope of Services and/or deliverables completed prior to the invoice date, as required by the City. The City will pay undisputed portions of invoices within thirty calendar days of receipt.

3.4 Additional Costs. Additional Costs are those costs that can be reasonably determined to be related to the Consultant's errors or omissions, and may include Consultant, City, or Subcontractor overhead, construction, materials, demolition, and related costs. The Consultant shall not be paid for the Services required due to the Consultant's errors or omissions, and the Consultant shall be responsible for any Additional Costs associated with such errors or omissions. These Additional Costs may be deducted from monies due, or that become due, the Consultant. Whether or not there are any monies due, or becoming due, the Consultant shall reimburse the City for Additional Costs due to the Consultant's errors or omissions.

3.5 Eighty Percent Notification. The Consultant shall promptly notify the City in writing of any potential cost overruns. Cost overruns include, but are not limited to the following: (1) where anticipated costs to be incurred in the next sixty calendar days, when added to all costs previously incurred, will exceed 80 percent of the maximum compensation for this Agreement; or (2) where the total cost for performance of the Scope of Services appears that it may be greater than the maximum compensation for this Agreement.

ARTICLE IV CONSULTANT'S OBLIGATIONS

4.1 Industry Standards. The Consultant agrees that the Services rendered under this Agreement shall be performed in accordance with the standards customarily adhered to by an experienced and competent traffic engineering firm using the degree of care and skill ordinarily exercised by reputable professionals practicing in the same field of service in the State of California. Where approval by the City, the Mayor or his designee, or other representatives of the City is required, it is understood to be general approval only and does not relieve the Consultant of responsibility for complying with all applicable laws, codes, and good consulting practices.

4.2 Right to Audit.

4.2.1 Access. The City retains the right to review and audit, and the reasonable right of access to Consultant's and any Subcontractor's premises to review and audit the Consultant's or Subcontractor's compliance with the provisions of this Agreement [City's Right]. The City's Right includes the right to inspect and photocopy same, and to retain copies, outside of the Consultant's premises, of any and all records related to the Services provided hereunder with appropriate safeguards, if such retention is deemed necessary by the City in its sole discretion. This information shall be kept by the City in the strictest confidence allowed by law.

4.2.2 Audit. The City's Right includes the right to examine any and all books, records, documents and any other evidence of procedures and practices that the City determines are necessary to discover and verify that the Consultant or Subcontractor is in compliance with all requirements under this Agreement.

4.2.2.1 Cost Audit. If there is a claim for additional compensation or for Additional Services, the City's Right includes the right to examine books, records, documents, and any and all other evidence and accounting procedures and practices that the City determines are necessary to discover and verify all direct and indirect costs, of whatever nature, which are claimed to have been incurred, or anticipated to be incurred.

4.2.2.1.1 Accounting Records. The Consultant and all subcontractors shall maintain complete and accurate records in accordance with generally accepted accounting practices in the industry. The Consultant and Subcontractors shall make available to the City for review and audit, all Service related accounting records and documents, and any other financial data. Upon the City's request, the Consultant and Subcontractors shall submit exact duplicates of originals of all requested records to the City.

4.2.3 City's Right Binding on Subcontractors. The Consultant shall include the City's Right as described in Section 4.2, in any and all of their subcontracts, and shall ensure that these sections are binding upon all Subcontractors.

4.2.4 Compliance Required before Mediation or Litigation. A condition precedent to proceeding with mandatory mediation and further litigation provided for in Article VII is the Consultant's and Subcontractors full compliance with the provisions of this Section 4.2 within sixty days of the date on which the City mailed a written request to review and audit compliance.

4.3 Insurance. The Consultant shall not begin the Services under this Agreement until it has: (a) obtained, and provided to the City, insurance certificates reflecting evidence of all insurance as set forth herein; however, the City reserves the right to request, and the Consultant shall submit, copies of any policy upon reasonable request by the City; (b) obtained City approval of each company or companies as required in Section 4.3.3 of this Agreement; and (c) confirmed that all policies contain the specific provisions required in Section 4.3.4 of this Agreement. Consultant's liabilities, including but not limited to Consultant's indemnity obligations, under this Agreement, shall not be deemed limited in any way to the insurance coverage required herein. Except as provided for under California law, all policies of insurance required hereunder must provide that the City is entitled to thirty (30) days prior written notice (10 days for cancellation due to non-payment of premium) of cancellation or non-renewal of the policy or policies. Maintenance of specified insurance coverage is a material element of this Agreement and Consultant's failure to maintain or renew coverage or to provide evidence of renewal during the term of this Agreement may be treated as a material breach of contract by the City.

Further, the Consultant shall not modify any policy or endorsement thereto which increases the City's exposure to loss for the duration of this Agreement.

4.3.1 Types of Insurance. At all times during the term of this Agreement, the Consultant shall maintain insurance coverage as follows:

4.3.1.1 Commercial General Liability. Commercial General Liability (CGL) Insurance written on an ISO Occurrence form CG 00 01 07 98 or an equivalent form providing coverage at least as broad which shall cover liability arising from any and all personal injury or property damage in the amount of \$1 million per occurrence and subject to an annual aggregate of \$2 million. There shall be no endorsement or modification of the CGL limiting the scope of coverage for either insured vs. insured claims or contractual liability. All defense costs shall be outside the limits of the policy.

4.3.1.2 Commercial Automobile Liability. For all of the Consultant's automobiles including owned, hired and non-owned automobiles, the Consultant shall keep in full force and effect, automobile insurance written on an ISO form CA 00 01 12 90 or a later version of this form or an equivalent form providing coverage at least as broad for bodily injury and property damage for a combined single limit of \$1 million per occurrence. Insurance certificate shall reflect coverage for any automobile (any auto).

4.3.1.3 Workers' Compensation. For all of the Consultant's employees who are subject to this Agreement and to the extent required by the applicable state or federal law, the Consultant shall keep in full force and effect, a Workers' Compensation policy. That policy shall provide a minimum of \$1 million of employers' liability coverage, and the Consultant shall provide an endorsement that the insurer waives the right of subrogation against the City and its respective elected officials, officers, employees, agents and representatives.

4.3.1.4 Professional Liability. For all of the Consultant's employees who are subject to this Agreement, the Consultant shall keep in full force and effect, Professional Liability coverage for professional liability with a limit of \$1 million per claim and \$2 million annual aggregate. The Consultant shall ensure both that: (1) the policy retroactive date is on or before the date of commencement of the Project; and (2) the policy will be maintained in force for a period of three years after substantial completion of the Project or termination of this Agreement whichever occurs last. The Consultant agrees that for the time period defined above, there will be no changes or endorsements to the policy that increase the City's exposure to loss.

4.3.2 Deductibles. All deductibles on any policy shall be the responsibility of the Consultant and shall be disclosed to the City at the time the evidence of insurance is provided.

4.3.3 Acceptability of Insurers.

4.3.3.1 Except for the State Compensation Insurance Fund, all insurance required by this Contract or in the Special General Conditions shall only be carried by insurance companies with a rating of at least "A-, VI" by A.M. Best Company, that are authorized by the California Insurance Commissioner to do business in the State of California, and that have been approved by the City.

4.3.3.2 The City will accept insurance provided by non-admitted, "surplus lines" carriers only if the carrier is authorized to do business in the State of California and is included on the List of Eligible Surplus Lines Insurers (LESLI list). All policies of insurance carried by non-admitted carriers are subject to all of the requirements for policies of insurance provided by admitted carriers described herein.

4.3.4 Required Endorsements

The following endorsements to the policies of insurance are required to be provided to the City before any work is initiated under this Agreement.

4.3.4.1 Commercial General Liability Insurance Endorsements

ADDITIONAL INSURED. To the fullest extent allowed by law including but not limited to California Insurance Code Section 11580.04, the policy or policies must be endorsed to include as an Additional Insured the City of San Diego and its respective elected officials, officers, employees, agents and representatives with respect to liability arising out of (a) ongoing operations performed by you or on your behalf, (b) your products, (c) your work, including but not limited to your completed operations performed by you or on your behalf, or (d) premises owned, leased, controlled or used by you.

PRIMARY AND NON-CONTRIBUTORY COVERAGE. The policy or policies must be endorsed to provide that the insurance afforded by the Commercial General Liability policy or policies is primary to any insurance or self-insurance of the City of San Diego and its elected officials, officers, employees, agents and representatives as respects operations of the Named Insured. Any insurance maintained by the City of San Diego and its elected officials, officers, employees, agents and representatives shall be in excess of Consultant's insurance and shall not contribute to it.

4.3.4.2 Automobile Liability Insurance Endorsements

ADDITIONAL INSURED. To the fullest extent allowed by law including but not limited to California Insurance Code Section 11580.04, the policy or policies must be endorsed to include as an Additional Insured the City of San Diego and its respective elected officials, officers, employees, agents and representatives with respect to liability arising out of automobile owned, leased, hired or borrowed by or on behalf of the Consultant.

4.3.4.3 Worker's Compensation and Employer's Liability Insurance Endorsements

WAIVER OF SUBROGATION. The Worker's Compensation policy or policies must be endorsed to provide that the insurer will waive all rights of subrogation against the City and its respective elected officials, officers, employees, agents and representatives for losses paid under the terms of this policy or these policies which arise from work performed by the Named Insured for the City.

4.3.5 Reservation of Rights. The City reserves the right, from time to time, to review the Consultant's insurance coverage, limits, deductible and self-insured retentions to determine if they are acceptable to the City. The City will reimburse the Consultant for the cost of the additional premium for any coverage requested by the City in excess of that required by this Agreement without overhead, profit, or any other markup.

4.3.6 Additional Insurance. The Consultant may obtain additional insurance not required by this Agreement.

4.3.7 Excess Insurance. All policies providing excess coverage to the City shall follow the form of the primary policy or policies including but not limited to all endorsements.

4.4 Subcontractors. The Consultant's hiring or retaining of any third parties [Subcontractors] to perform Services [Subcontractor Services] is subject to prior approval by the

City. The Consultant shall list on the Subcontractor List [Exhibit D Attachment BB] all Subcontractors known to the Consultant at the time this Agreement is entered. If at any time after this Agreement is entered into the Consultant identifies a need for additional Subcontractor Services, the Consultant shall give written notice to the City of the need, at least forty-five days before entering into a contract for such Subcontractor Services. The Consultant's notice shall include a justification, a description of the Scope of Services, and an estimate of all costs for the Subcontractor Services. The Consultant may request that the City reduce the forty-five day notice period. The City agrees to consider such requests in good faith.

4.4.1 Subcontractor Contract. All contracts entered into between the Consultant and any Subcontractor shall contain the information as described in Sections 4.6 and 4.7, and shall also provide as follows:

4.4.1.1 The Consultant shall require the Subcontractor to obtain insurance policies, as described in Section 4.3.1, and those policies shall be kept in full force and effect during any and all work on this Project and for the duration of this Agreement. Furthermore, Subcontractor policy limits, and required endorsements shall be determined by the Consultant proportionate to the services performed by the Subcontractor.

4.4.1.2 The Consultant is obligated to pay the Subcontractor, for Consultant and City-approved invoice amounts, out of amounts paid by the City to the Consultant, not later than fourteen working days from the Consultant's receipt of payment from the City. Nothing in this paragraph shall be construed to impair the right of the Consultant and any Subcontractor to negotiate fair and reasonable pricing and payment provisions among themselves.

4.4.1.3 In the case of a deficiency in the performance of Subcontractor Services, the Consultant shall notify the City in writing of any withholding of payment to the Subcontractor, specifying: (a) the amount withheld; (b) the specific cause under the terms of the subcontract for withholding payment; (c) the connection between the cause for withholding payment and the amount withheld; and (d) the remedial action the Subcontractor must take in order to receive the amount withheld. Once the Subcontractor corrects the deficiency, the Consultant shall pay the Subcontractor the amount withheld within fourteen working days of the Consultant's receipt of the City's next payment.

4.4.1.4 In any dispute between the Consultant and Subcontractor, the City shall not be made a party to any judicial or administrative proceeding to resolve the dispute. The Consultant agrees to defend and indemnify the City as described in Article VI of this Agreement in any dispute between the Consultant and Subcontractor should the City be made a party to any judicial or administrative proceeding to resolve the dispute in violation of this position.

4.4.1.5 The Subcontractor is bound to the City's Equal Opportunity Contracting Program covenants set forth in Article IV, Section 4.6 and Exhibit D of this Agreement.

4.4.1.6 The City is an intended beneficiary of any work performed by the Subcontractor for purposes of establishing a duty of care between the Subcontractor and the City.

4.5 Contract Activity Report. The Consultant shall submit statistical information to the City as requested in the City's Contract Activity Report [Exhibit D Attachment CC]. The statistical information shall include the amount of subcontracting provided by firms during the period covered by the Contract Activity Report. With the Contract Activity Report, the Consultant shall provide an invoice from each Subcontractor listed in the report. The Consultant agrees to issue payment to each firm listed in the Report within fourteen working days of receiving payment from the City for Subcontractor Services as described in Section 4.4.1.

4.6 Non-Discrimination Requirements.

4.6.1 Compliance with the City's Equal Opportunity Contracting Program. The Consultant shall comply with the City's Equal Opportunity Contracting Program Consultant Requirements [Exhibit D]. The Consultant shall not discriminate against any employee or applicant for employment on any basis prohibited by law. The Consultant shall provide equal opportunity in all employment practices. The Consultant shall ensure that its Subcontractors comply with the City's Equal Opportunity Contracting Program Consultant Requirements. Nothing in this Section shall be interpreted to hold the Consultant liable for any discriminatory practice of its Subcontractors.

4.6.2 Non-Discrimination Ordinance. The Consultant shall not discriminate on the basis of race, gender, religion, national origin, ethnicity, sexual orientation, age, or disability in the solicitation, selection, hiring or treatment of Subcontractors, vendors or suppliers. The Consultant shall provide equal opportunity for Subcontractors to participate in subcontracting opportunities. The Consultant understands and agrees that violation of this clause shall be considered a material breach of the contract and may result in contract termination, debarment, or other sanctions. This language shall be in contracts between the Consultant and any Subcontractors, vendors and suppliers.

4.6.3 Compliance Investigations. Upon the City's request, the Consultant agrees to provide to the City, within sixty calendar days, a truthful and complete list of the names of all Subcontractors, vendors, and suppliers that the Consultant has used in the past five years on any of its contracts that were undertaken within San Diego County, including the total dollar amount paid by the Consultant for each subcontract or supply contract. The Consultant further agrees to fully cooperate in any investigation conducted by the City pursuant to the City's Nondiscrimination in Contracting Ordinance [San Diego Municipal Code sections 22.3501-22.3517.] The Consultant understands and agrees that violation of this clause shall be considered a material breach of the contract and may result in remedies being ordered against the Consultant up to and including contract termination, debarment, and other sanctions for violation of the provisions of the Nondiscrimination in Contracting Ordinance. The Consultant further understands and agrees that the procedures, remedies and sanctions provided for in the Nondiscrimination Ordinance apply only to violations of said Nondiscrimination Ordinance.

4.7 Drug-Free Workplace. The Consultant agrees to comply with the City's Drug-Free Workplace requirements set forth in Council Policy 100-17, adopted by San Diego Resolution R-277952 and incorporated into this Agreement by this reference. The Consultant shall certify to the City that it will provide a drug-free workplace by submitting a Consultant Certification for a Drug-Free Workplace form [Exhibit E].

4.7.1 Consultant's Notice to Employees. Further, the violation subjects the Consultant to liability to the City for attorneys fees and all damages sustained as a result of the violation.

If the published wage rate refers to a predetermined wage rate to become effective upon expiration of the published wage rate and the predetermined wage rate is on file with the Department of Industrial Relations, such predetermined wage rate shall become effective on the date following the expiration date and shall apply to this contract in the same manner as if it had been published in said publication. If the predetermined wage rate refers to one or more additional expiration dates with additional predetermined wage rates, which expiration dates occur during the life of this contract, each successive predetermined wage rate shall apply to this contract on the date following the expiration date of the previous wage rate. If the last of such

predetermined wage rates expires during the life of this contract, such wage rate shall apply to the balance of the contract.

The successful Consultant intending to use a craft or classification not shown on the prevailing rate determinations may be required to pay the rate of the craft or classification most closely related to it.

If the Mediator is selected from a list provided by AAA, the initiating Party shall concurrently file with

AAA a "Request for Mediation" along with the appropriate fees, a list of three requested Mediators marked in preference order, and a preference for available dates.

7.3.1 If AAA is selected to coordinate the mediation [Administrator], within ten working days from the receipt of the initiating Party's Request for Mediation, the opposing Party shall file the following: a list of preferred Mediators listed in preference order after striking any Mediators to which they have any factual objection, and a preference for available dates. Initiating Party shall file a list of preferred Mediators listed in preference order, after striking any Mediator to which they have any factual objection. This process shall continue until both sides have agreed upon a Mediator.

7.3.2 The Administrator will appoint or the Parties shall agree upon the highest, mutually preferred Mediator from the individual Parties' lists who is available to serve within the designated time frame.

7.3.3 If the Parties agree not to use AAA, then a Mediator, date and place for the mediation shall be mutually agreed upon.

Either Party may have attorney(s) or expert(s) present. Upon reasonable demand, either Party may request and receive a list of witnesses and notification whether attorney(s) will be present.

7.4.2 Any agreements resulting from mediation shall be documented in writing. All mediation results and documentation, by themselves, shall be "non-binding" and inadmissible for any purpose in any legal proceeding, unless such admission is otherwise agreed upon, in writing, by both Parties. The Linda Vista Planning Group (LVPG) will be the primary contact for this effort as the established planning group for the area. Consultant will be responsible for contacting the LVPG chair prior to initiating the public outreach process and discuss the most effective methods to use. The Outreach Plan will address key methods to reach underrepresented groups and clearly define the goals and objectives of the outreach process.

The Outreach Plan will also identify means by which stakeholders and advocacy groups will be integrated into the project process including Walk San Diego, Bayside Community Center, University of San Diego, the San Diego Bike Coalition, Move San Diego, Metropolitan Transit System and SANDAG.

The following activities will also be included in the Outreach Plan:

- Community Workshops
- MetroQuest On-Line Survey
- Stakeholder/Small Group Meetings Presentations
- Presentations to the Community Group
- Project Website

2.2 PUBLIC WORKSHOPS/WALK & RIDE AUDIT

Consultant will prepare material for and facilitate up to two public workshops. The public workshops will be for the purpose of gathering information from the community and stakeholders and will be interactive and engaging. Consultant will be responsible for preparing flyers that will be emailed and provided at key community centers within the Linda Vista community. Flyers for the event will be distributed to key stakeholders as well such as LVPG, Walk San Diego, San Diego Bicycle Coalitions, SANDAG and MTS. Consultant will be responsible for maintaining a comprehensive email list to distribute information prior to the public workshops throughout the project.

Consultant will be responsible for facilitation at the workshops, which will include engaging the community in small group discussions, charting issues, and notes taking. Consultant will be responsible for preparing all presentation materials include maps, handouts, surveys, PowerPoint presentations, and displays. Following the workshops, Consultant will provide a summary report to the City detailing the activities, level of participation, findings and recommendations. Details of the two workshops that will be conducted are provided in the following tasks.

Workshop 1: Strategy Initiation / Information Gathering

During the first workshop, the Consultant will focus on information gathering. Consultant will develop small group discussions, Post-It Note Exercises and interactive mapping activities to gather ideas, listen to concerns, and share thoughts regarding the comprehensive transportation strategy. Consultant will express to the community how the CATS program provides an opportunity to create a safer, organized network of linkages throughout the community of Linda Vista for all modes of transportation. Consultant will describe how people are currently moving through the community and list any pedestrian/bicyclist safety issues that may be present. Consultant will also work with the community to understand priority projects or areas that residents would like addressed.

Walk & Ride Audit

Consultant will schedule and facilitate two (2) Walk & Ride Audits in the community. In order to reach the broadest audience, Walk & Ride Audits will be scheduled on a weekday and on a weekend day. During the Walk & Ride Audit, Consultant will travel through the community either on foot or on bicycle, stopping at key locations to discuss the constraints and challenges of traveling through the community. Consultant will prepare handouts for the event that map the route, provide audit worksheets and

will facilitate interactive discussions in the field. Consultant will summarize the results of the Walk & Ride Audits at the conclusion of the event.

Workshop 2: Review Draft Suggested Routes for the Active Transportation Strategy

During the second workshop Consultant will present the recommended project concepts to the Community. The goal of this workshop is to receive feedback on the Draft CATS. Large plots of the proposed projects will be displayed throughout the room and staff will be on hand to aid participants in understanding the methodology and criteria established for developing the concepts and prioritizing the projects.

Community members will identify additional projects. Consultant will evaluate the projects based on the prioritization and selection criteria used and recommend integration, as appropriate, into the DRAFT CATS.

Consultant will provide comment worksheets during the Open House that will allow participants to record ideas, concerns and suggestions. Consultant will also be on hand to discuss concerns and ideas regarding the strategy and/or to discuss the proposed projects. Input received during the second workshop will be used to refine the proposed strategy and in the development of the FINAL DRAFT CATS.

2.3 METROQUEST ON-LINE SURVEY

To supplement the Public Workshops, Consultant will work directly with MetroQuest in developing an interactive on-line survey tool. MetroQuest will provide an on-line tool for collecting information from the community including walking and cycling concerns, obstacles or ideas.

2.4 STAKEHOLDER AND SMALL GROUP MEETINGS

Consultant will meet with key stakeholders in small group settings to discuss community needs and to present the DRAFT strategy. Consultant will make presentations to the WalkSanDiego Board, SANDAG Active Transportation Group and MTS, as appropriate. Small group meetings will also be conducted with USD, Community Groups and local elementary schools, as appropriate. A maximum of ten (10) small group meetings or presentation will be made as part of this task.

2.5 PRESENTATION TO COMMUNITY PLANNING GROUP

Consultant will present information to the Community Planning Group on three (3) occasions. During the first meeting, Consultant will present the project, provide links to the project website and invite Community Members to a Walk & Ride Audit. Consultant will provide maps which Community Planning Group members can use to provide input on key areas of concern and ideas for the strategy. During the second meeting, Consultant will present the key improvement or Focus Areas developed in the community. Consultant will present the findings of the first community workshop and seek input on refining the priority areas. At the final meeting with the Planning Group, Consultant will present the Concept Sheets and the prioritization of projects. Based on input from the community Group, Consultant will refine the

recommendations. It is anticipated this final meeting with the LVPG will occur prior to the final Workshop.

Consultant will be available to attend a fourth meeting with the LVPG, if determined to be necessary, following the final Workshop with the community to present any revisions to the CATS.

2.6 ADDITIONAL OUTREACH MATERIALS

In addition to the workshop, audit and planning group materials, Consultant will provide additional community outreach support throughout the duration of the project.

Website. Consultant will be responsible for preparing the materials needed to integrate the project into the City's website. Consultant will be responsible for preparing "email ready" requests to submit to the City Public Information Officer. The project website will be updated on a regular basis and will include material relating to workshops, concept development and draft reports.

Sketches and Visual Simulations. Consultant will develop sketches and visual simulations to easily convey proposed project concepts to members of the community. Visual simulations will be prepared in Sketch Up or other equivalent software programs.

Translation Services. Workshop flyers and printed outreach material will be multi-lingual (up to two languages in addition to English). Consultant will work directly with the Language Network to provide translation services. For additional language services, Consultant will work with community organizations to provide translation support. Consultant will work closely with these community organizations, by including them in stakeholder meetings and coordination prior to workshop events, in order to encourage participation of traditionally underrepresented minority groups in the outreach events.

3.0 EXISTING CONDITIONS, DATA COLLECTION AND ANALYSES

3.1 REVIEW OF EXISTING CONDITIONS DATA

Consultant will use the information developed for the Pedestrian Master Plan Phase 2&3 and Phase 4 including refinements to the Pedestrian Priority Model (PPM), sidewalk inventory Geographic Information system (GIS) files, curb ramp inventory GIS files, recent City aerial photos graphs of the Linda Vista community and the project prioritization process. Consultant will take the information gathered for the prior phases of the Pedestrian Master Plan and for the City Bicycle Master Plan in order to create a combined model for use in the Linda Vista Community.

Built into the Pedestrian Priority Model (PPM) are the pedestrian attractors, detractors, and generators, which will be used to determine the "hot spots" of pedestrian activity in the community. In addition, the Consultant Team will overlay the Bicycle Master Plan GIS modeling to gain a composite needs map for Linda Vista. The overlay of the two data bases will provide the team with an extensive list of priority areas, and priority corridors that will be used to develop key Focus Areas in the community.

Consultant will be responsible for overlaying the models and working with the team to develop priority criteria. Factors that will be integrated into the analysis include the current needs and barriers related to walking and bicycling within the Linda Vista community. In addition, Consultant will lead efforts in developing priority corridors link the Linda Vista community with adjacent communities including access to transit, pedestrian paths and trails and bicycle linkages.

Consultant will provide a detailed technical document clearly outlining the process for developing priority corridors so that the City can apply this methodology to CATS projects in future phases of the city-wide planning process.

3.2 PEDESTRIAN NETWORK INVENTORY

Using the GIS map of the existing conditions (sidewalk inventory, curb ramp inventory and bicycle facility inventory), Consultant will conduct a detailed field review of the existing conditions along the priority corridors identified in Phase 3.1 of this scope of work. Field investigation will focus on issues associated with Safety, Connectivity, Accessibility and Walkability. Field notes will be taken over aerial photos and recorded in field books as well as on the GIS maps prepared for this project. Consultant will use a coding system to streamline the review and recording process.

3.3 BICYCLE NETWORK INVENTORY

Consultant will conduct a detailed review of the existing bicycle network within the study area building upon the data compiled as part of the City of San Diego Bicycle Master Plan. Consultant will identify all existing Class I, Class II and Class III facilities in the community. Consultant will also review all transit station/stop information and determine the availability of bicycle storage or racks at such facilities. During the field inventory, Consultant will identify locations where high bicycle activity or storage demand existing. A photo log of existing conditions will be maintained to illustrate key bicycle issues.

3.4 PEDESTRIAN AND BICYCLE CRASH DATA

Bicycle and pedestrian crash data will be provided by City staff. Consultant will review the data to determine high crash locations and crash patterns for bicycles and pedestrians. As appropriate, the crash data will be integrated into the GIS mapping efforts.

3.5 TRANSIT DATA AND MAPPING

The Consultant will determine all existing and proposed future transit routes within the Linda Vista community. Routes and station locations will be integrated into the GIS database. In addition, the Consultant will inventory all transit stops within the community to identify the existing amenities including bus pad, signage, shelter, bench and trash receptacles. Each stop will also be evaluated for existing ADA compliance. Transit stop data will be maintained in tabular form and integrated into the existing conditions section of the CATS.

3.6 FUTURE FORECAST DAILY TRAFFIC VOLUMES

Consultant will review the Series 12 SANDAG traffic model future forecast 2035 volumes. The volumes will be compared to the existing conditions ADT volumes (collected for the calibration of the model) and the previously calibrated SANDAG Series 11 model. The Consultant will provide a comparison of future forecast volume and forecast growth throughout the community as it relates to Series 12 model. As appropriate, the Consultant will recommend modifications to SANDAG (adjustment factors) to improve the forecast ADT within the Linda Vista community.

The Consultant will work with SANDAG to re-run the model. Refined model volumes will be integrated into the Pedestrian Priority Model and into the GIS database for use in this study. The Consultant will rely on traffic count data provided by the City. No new traffic count data will be collected by the Consultant in this effort.

3.7 GIS MAPPING

The Consultant team will translate the information collected in the field into GIS maps, which will be overlaid on the Focus Area maps and on the "hot spot" maps to identify possible pedestrian, transit, bicycle, and school routes issues including network gaps, land use connectivity issues and potential safe routes to school or traffic calming project areas. The goal is to identify improvement areas necessary to create a comprehensive multimodal network for the community. Maps will also be used to display data both for staff and community members and be used to create the CATS.

TASK 3.0 DELIVERABLES:

- ✓ Existing Plans and Report Review
- ✓ Combined Pedestrian and Bicycle Overlap Map
- ✓ Pedestrian Network Inventory Map
- ✓ Bicycle Network Inventory Map
- ✓ Transit Network Inventory Map
- ✓ Refined Series 12 Forecast Volumes and Integration into PPM
- ✓ GIS Maps of Existing Conditions

4.0 DEFICIENCY, OPPORTUNITY AND CONSTRAINT ANALYSIS

Using the information collected in Task 3.0 and input from the community during workshop #1, the Consultant will identify and evaluate the existing deficiencies in the pedestrian and bicycle network within the Linda Vista Community Planning Area. An opportunity and constraint analysis will be conducted to develop recommendations to address existing deficiencies. The City of San Diego Capital Improvement Project (CIP) list and unfunded projects list associated with the study area shall be reviewed and evaluated to identify additional projects for the subject area.

TASK 4.1 DEVELOP STREET TYPOLOGY

After reviewing the existing conditions GIS Maps illustrating the pedestrian, bicycle and transit facilities in the community, the Consultant will work collaboratively with the City to develop a refined street typology network. The street typology network will assign mode priority for each street in the community. Typologies may include, but not be limited to:

- Boulevard
- Main Street
- Green Street
- Bicycle Corridor
- Residential Street
- Multi-function Street

Street typology descriptions will be provided identifying the recommended mode priority, levels of service and operational characteristics of the corridor. The corridors will then be mapped in GIS and overlaid on a map of existing public amenities such as transit stations/stop, parks, libraries, post offices, schools, and community centers.

TASK 4.2 IDENTIFY POTENTIAL PROJECT AREAS

The Consultant will review the existing conditions analysis, street typology community input and field investigations to identify improvement areas aimed at enhancing pedestrian walkability, safety, accessibility and connectivity to schools, and transit stations such as Morena Station. Improvements will focus on connecting community attractions such as parks, libraries and community commercial areas. The Consultant will focus on providing Safe Routes to Schools project opportunities and Safe Routes to Transit connections. This includes conducting detailed field walks and investigations in the immediate vicinity of the local schools and transit stations to determine specific needs and connectivity issues.

In addition, the Consultant will identify improvement areas aimed at improving bike safety and connectivity to schools, transit stations, community attractions and regional bicycle network consistent with Bicycle Master Plan.

Consultant will compile a list of up to 5 multimodal corridors and 10 improvement areas within the community. For each improvement area, benefits or challenges by mode will be clearly identified.

TASK 4.3 IDENTIFY POTENTIAL MULTIMODAL CORRIDOR OPPORTUNITIES

Using the volume and capacity ratios calculated using the ADT volumes integrated into the GIS database, the Consultant will identify locations where sufficient capacity is available to implement road diets in the community. Overlaying the road diet opportunity areas with the connectivity needs, the Consultant will identify up to five (5) multimodal corridors that will be evaluated for Complete Street design and implementation. For up to five (5) corridors, the Consultant will conduct multi-modal level of service (MMLOS) analysis providing quantitative assessment of bicycle, pedestrian, transit and auto facilities. MMLOS will focus on corridors where significant changes in operating conditions for vehicles, bicycle, transit and pedestrians are forecast to occur. The Consultant will summarize the recommendations and operating conditions in the Improvement Area summary sheets.

For each of the up to five (5) Complete Street corridors, the Consultant will assess the potential parking loss/gain associated with the proposed changes to the corridor.

Consultant will compile a list of all potential improvements in the community. For each improvement area, the benefits or challenges by mode will be clearly identified.

TASK 4.0 DELIVERABLES:

- ✓ Deficiency, Opportunity and Constraint Analysis.
- ✓ Map illustrating all Improvement Areas
- ✓ Detailed List of All Potential Projects.
- ✓ Benefits And Challenges Matrix For All Recommended Projects

5.0 DEVELOP A CRITERIA FOR PROJECT PRIORTIZATION

The Consultant will build upon the prioritization criteria developed in Phase 4 of the Pedestrian Master Plan and in the Bicycle Master Plan to develop refined criteria that will be used to prioritize proposed multimodal projects and improvements. Evaluating the benefits of multimodal network throughout the community will be the key to the ranking criteria in this task.

The criteria will be used to provide a priority score within the completed strategy in order of importance based on key project goals such as multimodal network completion, connectivity, accessibility, walkability, bike ability, and safety. Each improvement project identified in the strategy will receive a score that can be used to determine the phasing and implementation of improvements within the community

TASK 5.0 DELIVERABLES:

- ✓ Project Priority Score for each Recommended Improvement/Project
- ✓ Prioritized List of Projects

6.0 CREATE DETAILED PROJECT CONCEPT SHEETS

6.1 FIELD ASSESSMENT OF IMPROVEMENT AREAS

For each of the up to five multimodal corridors and 10 improvement areas recommended in Tasks 4.2 and 4.3, the Consultant will conduct a detailed field assessment to determine the existing physical conditions. Data collected for the Improvement Area will depend upon the needs assessment, however an example of information to be recorded during field reviews may include the following:

- Roadway width,
- Lane configuration and posted speeds'
- Traffic control,
- Transit ridership and service frequencies,
- Reliability of transit service,
- Transit stop amenities,
- Location of on-street parking and street furniture,
- Pedestrian deficiencies such as missing curb ramps, obstructions, and sidewalk gaps,
- Pavement conditions,
- Existing bicycle facilities, and
- Barrier/obstructions to cyclists and pedestrians.

The field conditions will be annotated over an aerial photograph (to be provided by the City of San Diego).

6.2 PROJECT ENGINEERING FEASIBILITY ASSESSMENT AND CONCEPT SHEETS

Up to 15 project concept sheets will be prepared by a Civil Engineer and Traffic Engineer for the up to five multimodal corridors and 10 improvement areas resulting from the recommendations in Tasks 4.2 and 4.3 and from the project prioritization established in Task 5. The detailed concepts sheets will include a description, need, and a detailed project scope. Field investigation shall be conducted in order to get an understanding of what would be involved in implementing each particular project including but not limited to, an understanding right-of-way (ROW) property lines, land acquisition, and drainage, and any other information needed to estimate the cost and next steps in implementing improvements that result from the CATS.

Engineering feasibility assessment plans will be prepared at an appropriate scale to illustrate the feasibility of the recommended changes and will be prepared over an aerial photograph. Detail on the Feasibility Assessment Plans will illustrate the existing ROW, existing and proposed curb locations, sidewalk, parkways or planting strips, transit stop locations and features, parking, pavement striping including bicycle facility design, traffic signal or other traffic control devices, and recommended public space areas. Plans will not include design of stormdrain facilities, grading, retaining wall design, landscape or other details.

6.3 PROBABLE COST ESTIMATE WORKSHEETS

Consultant will use the City of San Diego Preliminary Opinion of Probable Cost Summary Sheet to develop cost estimates for each of the Concepts developed in the

community. If improvements recommended as part of this project are not included in the Opinion of Probable Cost, such improvements shall be discussed with City staff prior to inclusion and integration into the City's cost estimating worksheet. Costs will be integrated into the Project Concept Sheets and cost worksheets will be included as an appendix to the overall Strategy.

6.4 REVIEW CHARETTES

Consultant will work with City staff to determine the appropriate review team for the Concept Sheets. A total of three, half day small group charettes will be conducted. During the first charette, Consultant will present the recommended Focus Areas to the review team and discuss any planned projects that may affect the recommendations in those Focus Areas. During this meeting, Consultant will summarize the results of the field visits, walk and ride audits and the first community workshop.

During the second charette, Consultant will present draft concept sheets and discuss potential recommendations for the project areas. This meeting is intended to be interactive with staff participating in the refinements to the recommended improvements. During the final charette, Consultant will walk through the final recommendations, concept sheets and cost estimates as well as all final feedback received from the community.

The report will provide detailed descriptions of the pedestrian and bicycle attractors, detractors, and generators as determined by mode in the GIS modeling process. Each project recommended will be summarized graphically and in text form and will be listed in priority order within the document. Concept sheets will be developed both at 11x17 and at 8.5 x11 in order to make the document fully reproducible. The implementation plan will also be included in the document listing the steps needed to complete the improvements. It is anticipated that multiple departments may be involved in the review process. Therefore the PDF of the document will be a manageable size, capable of being emailed or posted to the project website. Consultant will initiate the revisions to the DRAFT strategy once all comments are compiled.

Consultant will submit the DRAFT strategy in electronic format (PDF) via email or FTP. Consultant will meet with the City to review comments on the DRAFT strategy.

Following revisions to the DRAFT, Consultant will submit to the City three (3) hard copies and one (1) PDF of the FINAL DRAFT CATS. The City will complete the review of the FINAL DRAFT within 30 days.

Consultant will revise the FINAL DRAFT per City comments and submit the FINAL CATS within 20 business days of receipt of comments. CITY OF SAN DIEGO WORK FORCE REPORT – ADMINISTRATIVE

HISTORY

The Work Force Report (WFR) is the document that allows the City of San Diego to analyze the work forces of all firms wishing to do business with the City. We are able to compare the firm’s work force data to County Labor Force Availability (CLFA) data derived from the United States Census. CLFA data is a compilation of lists of occupations and includes the percentage of each ethnicity we track (Black, Hispanic, Asian, American Indian, Filipino) for each occupation. Currently, our CLFA data is taken from the 2000 Census. In order to compare one firm to another, it is important that the data we receive from the consultant firm is accurate and organized in the manner that allows for this fair comparison.

WORK FORCE & BRANCH WORK FORCE REPORTS

When submitting a WFR, especially if the WFR is for a specific project or activity, we would like to have information about the firm’s work force that is actually participating in the project or activity. That is, if the project is in San Diego and the work force is from San Diego, we want a San Diego County Work Force Report.¹ By the same token, if the project is in San Diego, but the work force is from another county, such as Orange or Riverside County, we want a Work Force Report from that county.² For example, if participation in a San Diego project is by work forces from San Diego County, Los Angeles County and Sacramento County, we will ask for separate Work Force Reports representing the work forces of

your firm from each of the three counties.^{1,2} On the other hand, if the project will be accomplished completely outside of San Diego, we ask for a Work Force Report from the county or counties where the work will be accomplished.²

MANAGING OFFICE WORK FORCE

Equal Opportunity Contracting may occasionally ask for a Managing Office Work Force (MOWF) Report. This may occur in an instance where the firm involved is a large national or international firm but the San Diego or other local work force is very small. In this case, we may ask for both a local and a MOWF Report.^{1,3} In another case, when work is done only by the Managing Office, only the MOWF Report may be necessary.³

TYPES OF WORK FORCE REPORTS

Please note, throughout the preceding text of this page, the superscript numbers one ¹, two ² & three ³. These numbers coincide with the types of work force report required in the example. See below:

- ¹ One San Diego County (or Most Local County) Work Force – Mandatory in most cases
- ² Branch Work Force*
- ³ Managing Office Work Force

**Submit a separate Work Force Report for all participating branches. Combine WFRs if more than one branch per county*

CONTRACTOR STANDARDS
Pledge of Compliance

Effective December 24, 2008, the Council of the City of San Diego adopted Ordinance No. O-19808 to extend the Contractor Standards Ordinance to all contracts greater than \$50,000. The intent of the Contractor Standards clause of San Diego Municipal Code §22.3224 is to ensure the City of San Diego conducts business with firms that have the necessary quality, fitness and capacity to perform the work set forth in the contract.

To assist the Purchasing Agent in making this determination and to fulfill the requirements of §22.3224(d), each bidder/proposer must complete and submit this *Pledge of Compliance* with the bid/proposal. If a non-competitive process is used to procure the contract, the proposed contractor must submit this completed *Pledge of Compliance* prior to execution of the contract. A submitted *Pledge of Compliance* is a public record and information contained within will be available for public review for at least ten (10) calendar days, except to the extent that such information is exempt from disclosure pursuant to applicable law.

All responses must be typewritten or printed in ink. If an explanation is requested or additional space is required, respondents must use the *Pledge of Compliance Attachment "A"* and sign each page. The signatory guarantees the truth and accuracy of all responses and statements. Failure to submit this completed *Pledge of Compliance* may make the bid/proposal non-responsive and disqualified from the bidding process. If a change occurs which would modify any response, Contractor must provide the Purchasing Agent an updated response within thirty (30) calendar days.

DEFINITION OF "CONSULTANT"

2 California Code of Regulations defines a "consultant" as an individual who, pursuant to a contract with a state or local government agency:

- (A) Makes a governmental decision whether to:
 - 1. Approve a rate, rule or regulation;
 - 2. Adopt or enforce a law;
 - 3. Issue, deny, suspend, or revoke any permit, license, application, certificate, approval, order, or similar authorization or entitlement;
 - 4. Authorize the City to enter into, modify, or renew a contract provided it is the type of contract that requires City approval;
 - 5. Grant City approval to a contract that requires City approval and to which the City is a party, or to the specifications for such a contract;
 - 6. Grant City approval to a plan, design, report, study, or similar item;
 - 7. Adopt, or grant City approval of, policies, standards, or guidelines for the City, or for any subdivision thereof; or

- (B) Serves in a staff capacity with the City and in that capacity participates in making a governmental decision as defined in Regulation 18702.2 or performs the same or substantially all the same duties for the City that would otherwise be performed by an individual holding a position specified in the City's Conflict of Interest Code.

An individual "serves in a staff capacity" if he or she performs substantially all the same tasks that normally would be performed by staff member of a governmental entity. In most cases, individuals who work on only one project or a limited range of projects for an agency are not considered to be working in a "staff capacity." The length of the individual's service to the agency is relevant. Also, the tasks over the relevant period of time must be substantially the same as a position that is or should be specified in the City's conflict of interest code.

An individual "participates in making a governmental decision" if he or she: (1) negotiates, without substantive review, with a governmental entity or private person regarding the decision; or (2) advises or makes recommendations to the decision-maker, by conducting research or an investigation, preparing or presenting a report, analysis or opinion which requires the exercise of judgment on the part of the individual and the individual is attempting to influence the decision.
