Feb 15, 2014

City Clerk

Dear Clerk,

I was sickened to learn that seal families are being harassed by beachgoers as these highly sensitive animals seek a safe haven on Casa Beach during pupping season. Last year, despite protective barriers, residents were caught on video viciously harassing the animals--some of whom were apparently pregnant. These animals are just trying to survive and raise their families! Humans have razed wild coastal habitats and there are plenty of recreational beach areas available, so seal rookeries should be protected.

Please vote in support of the proposed resolution to prohibit public access to Casa Beach annually from December 15 to May 15. Banning these events would be good for animals as well as California's fragile ecosystems, and I respectfully ask you to implement a ban.

Sincerely,

Nizami Abasow

Feb 15, 2014

City Clerk

Dear Clerk,

I was sickened to learn that seal families are being harassed by beachgoers as these highly sensitive animals seek a safe haven on Casa Beach during pupping season. Last year, despite protective barriers, residents were caught on video viciously harassing the animals--some of whom were apparently pregnant. These animals are just trying to survive and raise their families! Humans have razed wild coastal habitats and there are plenty of recreational beach areas available, so seal rookeries should be protected.

Please vote in support of the proposed resolution to prohibit public access to Casa Beach annually from December 15 to May 15. Banning these events would be good for animals as well as California's fragile ecosystems, and I respectfully ask you to implement a ban.

Sincerely,

taylor.mann

Feb 15, 2014

City Clerk

Dear Clerk,

I was sickened to learn that seal families are being harassed by beachgoers as these highly sensitive animals seek a safe haven on Casa Beach during pupping season. Last year, despite protective barriers, residents were caught on video viciously harassing the animals--some of whom were apparently pregnant. These animals are just trying to survive and raise their families! Humans have razed wild coastal habitats and there are plenty of recreational beach areas available, so seal rookeries should be protected.

Please vote in support of the proposed resolution to prohibit public access to Casa Beach annually from December 15 to May 15. Banning these events would be good for animals as well as California's fragile ecosystems, and I respectfully ask you to implement a ban.

Sincerely,

Laus Jacques

Feb 15, 2014

City Clerk

Dear Clerk,

I was sickened to learn that seal families are being harassed by beachgoers as these highly sensitive animals seek a safe haven on Casa Beach during pupping season. Last year, despite protective barriers, residents were caught on video viciously harassing the animals--some of whom were apparently pregnant. These animals are just trying to survive and raise their families! Humans have razed wild coastal habitats and there are plenty of recreational beach areas available, so seal rookeries should be protected.

Please vote in support of the proposed resolution to prohibit public access to Casa Beach annually from December 15 to May 15. Banning these events would be good for animals as well as California's fragile ecosystems, and I respectfully ask you to implement a ban.

Sincerely,

Magorzata Domaradzka

Feb 15, 2014

City Clerk

Dear Clerk,

I was sickened to learn that seal families are being harassed by beachgoers as these highly sensitive animals seek a safe haven on Casa Beach during pupping season. Last year, despite protective barriers, residents were caught on video viciously harassing the animals--some of whom were apparently pregnant. These animals are just trying to survive and raise their families! Humans have razed wild coastal habitats and there are plenty of recreational beach areas available, so seal rookeries should be protected.

Please vote in support of the proposed resolution to prohibit public access to Casa Beach annually from December 15 to May 15. Banning these events would be good for animals as well as California's fragile ecosystems, and I respectfully ask you to implement a ban.

Sincerely,

Patrick Brennan
