ARGUMENT IN FAVOR OF PROPOSITION C

The Salk Institute is working on solutions to some of the most complex medical problems. Your yes vote on Proposition C can help continue that work. This measure already has the unanimous support of the City Council, the Park and Recreation Board and the board's Coastal Committee.

Since the early 1960s, medical researchers at the Institute have been working to solve the most fundamental medical mysteries known to humankind, including studies on the brain and nervous system, cancer, birth defects, stress and diabetes.

To keep this work at the forefront of scientific research, the Institute and its supporters ask your support for Proposition C.

Proposition C authorizes a land exchange between the City and The Salk Institute.

With approval of this measure, Salk will transfer to the City 2.57 acres of Salk-owned land, which will be dedicated as part of Torrey Pines City Park. Additionally, because of a difference in appraised value between the Salk property and the city-owned land, the Institute will also pay the City \$350,000 to be used for acquiring and improving parks.

The City will transfer to Salk 2.3 acres of land, property which has been occupied by Salk for many years under a permit from the City. The City can no longer allow use of the property under such a permit. The Salk Institute built expensive temporary research facilities on the site and those buildings are needed until new permanent research buildings can be built.

This land exchange, which will ensure uninterrupted medical research at The Salk Institute, has the unanimous support of the City Council, the Park and Recreation Board and its Coastal Committee. Proposition C makes good sense for San Diegans.

The proposed exchange is in the best land use, health and economic interests of the City of San Diego.

BILL MITCHELL

**CITY OF SAN DIEGO
Proposition D**

(This proposition will appear on the ballot in the following form.)

D **ADVISORY VOTE ONLY**
Shall the name of the City's stadium be changed back from "SAN DIEGO JACK MURPHY STADIUM" to "SAN DIEGO STADIUM"?

ARGUMENT IN FAVOR OF PROPOSITION D

The issue here is the right of San Diego taxpayers to name their own stadium. The issue is NOT Jack Murphy or his family.

In October 1966, the people of San Diego named their stadium SAN DIEGO STADIUM.

In 1981, a local newspaperman approached the San Diego Stadium Authority requesting the name be changed to Jack Murphy Stadium. The Stadium Authority voted unanimously against the Change.

In spite of this the former Mayor and City Council, on request of the same individual, changed the name to San Diego Jack Murphy Stadium which is usually shortened to Jack Murphy Stadium.

No public hearings were ever held nor was any notice ever given that this move was being contemplated!

Because of enormous outcries from the people of San Diego, the Mayor and the City Council, in July, 1984, have recognized the public's right and the democratic process in placing this measure on the ballot by an overwhelming 8-1 vote.

Busch, Wrigley, et. al., built, owned, and named their stadia. The public names their stadia.

In deciding this issue, San Diego will not "be embarrassed" nor "a laughing stock of the nation", as a few people would wish you to believe, any more than Cape Canaveral was when it restored its name after two years of Cape Kennedy or Seattle and Tacoma with their International Airport were after five months as Henry M. Jackson International Airport. The families of the late President and Senator accepted restoration of the original names with grace, dignity, and understanding, just as one would expect of Jack Murphy's family.

The City budgets over \$3,000,000 to promote San Diego. With the national attention television and radio give our sports events, what better way to publicize San Diego but with our greatest asset - SAN DIEGO STADIUM.

We urge you to vote YES on this measure.
