LOCATION: 3458 Bayside Walk

APPLICANT: Ms. Susan Mayer, Tamale Partners, Ltd., Owner (ATTACHMENT 10) /

SUMMARY

Issue: Should the Hearing Officer approve an Extension of Time to previously approved Coastal Development Permit No. 560189 to demolish four dwelling units and construct two residential dwelling units within the Mission Beach Community Plan area?

Staff Recommendation – APPROVE Extension of Time No. 1117834.

Community Planning Group Recommendation – On November 20, 2012, the Mission Beach Precise Planning Board voted 7-0-1 to recommend approval of this proposed Extension of Time.

Environmental Review: The Extension of Time would allow the permittee an additional three years in which to act upon the previously approved Coastal Development Permit No. 560189. Pursuant to CEQA Section 15378(c) the term project refers to the activity which is being approved and which may be subject to several discretionary approvals by governmental agencies. The project does not mean each separate governmental approval; therefore, this action would not constitute a separate project under CEQA. The previous action was the approve the demolition of four dwelling unit complex and construction of a new 3-story, residential duplex which was determined to be categorically exempt from the California Environmental Quality Act CEQA pursuant to Article 19 Section 15302 on August 10, 2009.
BACKGROUND

On September 16, 2009, the Hearing Officer approved Coastal Development Permit No. 560189, Project No. 157136, known as the “Mayer Duplex”. The permit was set to expire January 19, 2013. On September 14, 2012, the applicant applied for an Extension of Time. The project site is located 3458 Bayside Walk, in the R-S Zone of the Mission Beach Planned District, Coastal Overlay Zone (appealable), Coastal Height Limitation, Parking Impact, First Public Roadway, Residential Tandem Parking and Transit Area Overlay Zones and within the Mission Beach Community Plan area.

DISCUSSION

The present application is requesting an Extension of Time to the previously approved Mayer Duplex project. The time allowed in the original development permit to construct the Mayer Duplex project has expired. No changes to the originally approved project are proposed.

The project proposes to demolish the existing four unit residential complex and construct a three-story, 2,929 square foot residential duplex with a carport and a three car garage on a 2,766 square-foot property. The proposed development will consist of two residential units containing three-bedroom units in each. The subject property is an interior lot surrounded by multi-leveled single and multi-family residential developments.

The subject site is developed with a two, two story structures with a garage on one interior lot totaling approximately 2,766 square feet. The new three-story duplex is a permitted use of the RS Zone of the Mission Beach Planned District. The existing structures are being replaced with a new structure designed to be physically suitable with the existing land use with no proposed deviations from the Development Regulations. Bayside Walk is located along the eastern property line, which is a 10-foot wide dedicated right-of-way for the primary use of pedestrians, with no motorized vehicular access, and provides a public access link to the ocean and bay side beaches. The western property line abuts Bayside Lane. The proposed development will take place entirely within private property and will not encroach onto or impact any existing or proposed physical public access ways as identified in the Mission Beach Precise Plan and Local Coastal Program Land Use Plan.

The project proposes the construction of a new three-story residential duplex. This development must conform to the regulations regarding inclusionary housing adopted by the City Council. The project is subject to this regulation and has chosen to pay an In-Lieu Fee which will be paid at the time of Building Permit Issuance. No additional Inclusionary Housing fees are required.

CONCLUSION

Staff has reviewed the proposed Extension of time and determined the project would not place adjacent residents of the proposed development, or immediate community, in a condition
dangerous to their health or safety. In addition, the project would comply with all state and federal laws without any new conditions being added to the approval. Staff has provided draft findings supporting EOT approval (Attachment 6). Staff recommends the Hearing Officer approve the proposed Extension of Time permit as proposed (Attachment 7).

**ALTERNATIVE**

1. Approve Extension of Time No. 1117834, with modifications.

2. Deny Extension of Time No. 1117834, if the findings required to approve the project cannot be affirmed.

Respectfully submitted,

Glenn R. Gargas, Development Project Manager

HEARING OFFICER RESOLUTION NO.
EXTENSION OF TIME NO. 1117834
EXTENSION OF TIME TO COASTAL DEVELOPMENT PERMIT NO. 560189
EOT MAYER DUPLEX - PROJECT NO. 295461

WHEREAS, Ms. Susan Mayer, Tamale Partners, Ltd., Owner/Permittee, filed an application with the City of San Diego for a three-year Extension of Time to Coastal Development Permit No. 560189, for the demolition of four dwelling units and construct a residential duplex with a three-car garage and carport. The project site is located at 3458 Bayside Walk, in the R-S Zone of the Mission Beach Planned District, Coastal Zone (non-appealable), Coastal Height Limitation Overlay Zone and within the Mission Beach Community Planning area. The property is legally described as Lot C, Block 137, Mission Beach, Map No. 1651; and

WHEREAS, all associated permits shall conform to the previously approved Exhibit “A” and conditions on file with the Development Services Department pursuant to Coastal Development Permit No. 560189, Project No. 157136, with the exception of the expiration date; and

BE IT FURTHER RESOLVED, by the Hearing Officer of the City of San Diego, that it adopts the following findings with respect to Extension of Time No. 1117834, for Coastal Development Permit No. 560189:

1. The project as originally approved would not place the occupants of the proposed development or the immediate community in a condition dangerous to their health and safety.

The project proposes no changes to the approved Coastal Development Permit for development of this site to demolish four dwelling units and construct two residential dwelling units. The proposed new duplex is to be located within the disturbed portion of the existing development. The Environmental Analysis Section of the City of San Diego, as lead agency, determined that the proposed project was categorically exempt from CEQA pursuant to Section 15302 (Replacement or Reconstruction) of the State CEQA Guidelines. This environmental analysis did consider potential negative impacts to public health, safety and welfare with no negative impacts found or identified. The demolition of the existing four dwelling units and the construction of two residential dwelling units would therefore not place the occupants or the immediate community in a condition dangerous to their health and safety.

2. There are no changed circumstances which would affect the project’s consistency with the Local Coastal Program.

The proposed development to demolish four dwelling units and construct two residential dwelling units located on a site which has a Medium Density Residential land use designation, which allows for residential development at a density of up to 36 dwelling units per net acre. The Environmental Analysis Section of the City of San Diego, as lead agency, determined that the proposed project was categorically exempt from CEQA pursuant to Section 15302 (Replacement or Reconstruction) of the State CEQA Guidelines. The project design was also determined to be in compliance with all of the applicable development regulations, primarily those of the R-S Zone of the Mission Beach Planned District and Coastal Overlay Zone. The project site is not located on or adjacent to any public views as identified within the Mission Beach Community Plan and Local Coastal Program Land Use Plan. Due to these factors the proposed re-development
of this site for a residential duplex was found to be consistent and in compliance with the City of San Diego adopted Mission Beach Community Plan and the certified Local Coastal Program Land Use Plan.

3. No new condition is required to comply with state or federal law.

The project proposes no changes to the approved Coastal Development Permit for redevelopment of this site for a new residential duplex. The project proposes to demolish existing four dwelling units and construction of an approximate 2,929 square foot, three-story, residential duplex with a carport and three car garage on an 2,766 square foot property. No new conditions were required to comply with state or federal law.

The above findings are supported by the minutes and exhibits, all of which are herein incorporated by reference; and

BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Hearing Officer, Extension of Time No. 1117834 is hereby GRANTED by the Hearing Officer to the referenced Owner/Permittee, in the form, exhibits, terms and conditions as set forth in Extension of Time No. 1117834, a copy of which is attached hereto and made a part hereof.

BUILDING PLAN REVIEWS

Action Items:

- 3458 Bayside Walk – Project No. 295461 (EOT Mayer Duplex): Approve 3-year extension of time for Coastal Development Permit to demolish existing four units and construct two residential for-rent units

Architect Chad Beaver of Golba Architecture, Inc. represented Property Owner and presented the project plans for Ricardo Torres; Architect Sara Horton assisted.

Chair Watkins and Architect Beaver pointed out there are three (3) conditions to consider when granting an extension of time pursuant to Section 126.0111 as follows:

1. The project as originally approved would not place the occupants of the proposed development or the immediate community in a condition dangerous to their health and safety;

2. There are no changed circumstances which would affect the project’s consistency with the local coastal program; and

3. No new condition is required to comply with state of federal law

Plan Reviewer Dennis Lynch reviewed the plans on behalf of the Board for compliance with the newly revised Planned District Ordinance, effective August 9, 2012. He presented his review and pointed out several areas in the project plans that do not conform to the new PDO as follows:

1. Tandem parking space must be 36 feet in length, not 35 feet as shown on project plans [See: PDO, effective August 9, 2012, Section 1513.0403 (b) (4) (A)];

2. Roof structure encroaches into interior side yards on North and South sides of building. Construction is too tall to be considered as eaves. Roof drains are allowed if they do not encroach more than 6 inches into the required interior side yards;

Plan Reviewer Lynch stated landscaping appears okay. There are no trees in the front yard that would require placement within 4 to 5 feet from building structure, and no man-made objects in the front yard setback greater than 36 inches in height.

Board Member Cantalupo pointed out the Board is being asked to approve an extension of time and not whether the plans conform to the new PDO. The Board agreed but wants the minutes to reflect the project plans do not adhere to the new PDO requirements. After further discussion, the following motion was duly made:
Motion 3 was made by Dennis Lynch and seconded by Mary Willmont TO APPROVE the three-year extension of time for the Coastal Development Permit to demolish four units and construct two residential for-rent units.

VOTE For: 7 Against: 0 Abstain: 1

Motion passes.
[Abstain: J. Vallas: needed more information regarding the definition of eaves]

- **729 Devon Court – Project No. 296192 (Nelson Duplex): Sustainable Expedite Program Coastal Development Permit to demo Single Family Residence and construct a 2,648 sq. ft. Duplex with attached 496 sq. ft. garage on a 0.05 acre site**

Architect Chad Beaver of Golba Architecture, Inc. represented Property Owner and presented the project plans.

Plan Reviewer Dennis Lynch reviewed the plans on behalf of the Board for compliance with the newly revised Planned District Ordinance, effective August 9, 2012. He presented his review and pointed out several areas in the project plans that do not conform to the new PDO as follows:

1. Tandem parking space on the Eastern portion of the lot must be 8 ½ feet wide [See: PDO, effective August 9, 2012, Section 1513.0403 (b) (4) (A)];
2. Roof eaves can not encroach into interior side yards more than 6 inches. Exact measurements of eaves are not noted on the plans; and
3. The tree located in the front yard setback must be planted within 4 to 5 feet of the primary structure [See: PDO, effective August 9, 2012, Section 1513.0402 (a) (1)]. No man-made objects greater than 36 inches shall be located in the required front yard setback.

Plan Reviewer Lynch pointed out the revised PDO makes trees optional unlike the General City Code. After further discussion, the following motion was duly made to deny the project plans for the above-mentioned reasons:

Motion 4 was made by Dennis Lynch and seconded by Mary Willmont TO DENY the Coastal Development Permit to demo Single Family Residence and construct a 3-story 2,646 sq. ft. Duplex with attached 496 sq. ft. garage at 729 Devon Court for the above-mentioned reasons.
