REPORT TO THE HEARING OFFICER

HEARING DATE: July 10, 2013
REPORT NO. HO-13-055

ATTENTION: Hearing Officer

SUBJECT: T-MOBILE MARANATHA; PROJECT NO. 294132

LOCATION: 6065 Skyline Drive

OWNER/ APPLICANT: Southeastern California Conference of Seventh-Day Adventists/ T-Mobile West Corporation

SUMMARY

Requested Action - Should the Hearing Officer approve an application to continue operating a Wireless Communication Facility located at 6065 Skyline Drive within the Encanto Neighborhoods of the Southeastern San Diego Community Plan?

Staff Recommendation - Approve Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434.

Community Planning Group Recommendation - On April 15, 2013, the Encanto Neighborhoods Community Planning Group voted 8-3-0 to recommend approval of the project with no conditions (Attachment 12).

Environmental Review - This project is exempt from environmental review pursuant to Article 19, Section 15302, Replacement or Reconstruction, of the California Environmental Quality Act (CEQA). This project is not pending an appeal of the environmental determination. The environmental exemption determination for this project was made on March 21, 2013, and the Notice of Right to Appeal (NORA) was posted on March 26, 2013 and the opportunity to appeal that determination ended April 17, 2013 (Attachment 13).

BACKGROUND

The project site is located at 6065 Skyline Drive (Attachment 1), on the southwest corner of Skyline Drive and 61st Street (Attachment 2). The site is located in the SF-5000 Zone of Southeastern San Diego Planned District (Attachment 3) within the Encanto Neighborhoods of the Southeastern San Diego Community Plan (Attachment 4). The zoning designation is for
single family residential and the community plan designates the site for Residential, Low-Density (5-10 dwelling units/acre).

The site is currently developed with a church, the "Maranatha 7th Day Adventist Church," pursuant to Conditional Use Permit (CUP)/Southeastern San Diego Development Permit No. 91-0340 approved on May 6, 1992, and Building Permit No. B-003786-93 issued on December 22, 1993. The site contains three existing wireless communication facilities (WCFs), which includes T-Mobile (formally Cingular Wireless facility), Sprint Nextel, and AT&T. On April 17, 2003, Cingular Wireless was approved for the installation of a WCF pursuant to Neighborhood Use Permit (NUP) No. 95-0395-217, which consisted of the installation of roof mounted Fiberglass Reinforced Panels (FRP) shrouds/boxes at the base of the existing church steeple on the roof and expired on April 17, 2013.

On December 8, 2011, AT&T Mobility was approved to replace the existing 37-foot 6-inch high church steeple with a new 37-foot 6-inch high FRP church steeple that would conceal all three WCFs, and remove the existing FRP boxes at the base of the steeple. This AT&T WCF was approved by the Planning Commission pursuant to CUP No. 821541, Site Development Permit (SDP) No. 922405 and Planned Development Permit (PDP) No. 922406. The building plans for the facility (Project No. 274464) have been reviewed and signed off by all City disciplines, but the building permit has not been issued to date.

DISCUSSION

Project Description:

T-Mobile is requesting a new permit to continue operating at this location. The application includes the request for the replacement and re-location of the existing antennas. The facility shall support six antennas within the base of the new AT&T FRP church steeple, remove the existing roof mounted coax tray and relocate the cables through the existing attic, and with equipment located within a 229-square foot enclosure located along the interior yard at the western property line. The WCF proposes no deviations to the development regulations.

The building plans for the FRP church steeple that conceals all three WCFs, including the proposed T-Mobile antennas, has not been issued to date and the existing T-Mobile permit expired on April 17, 2013. Therefore, to allow for the existing facility to continue operation until the FRP church steeple is permitted, this Permit includes a condition (Condition No. 2) to allow for the continued operation of the existing antennas and facility until the building permit for the church steeple has been issued or by the utilization date of July 24, 2016, whichever comes first.

Under the current WCF regulations pursuant to SDMC Section 141.0420(e)(1), a Process 3 CUP is required for all WCFs on premises containing a non-residential use within a Residential Zone. In addition, the proposed amendment would require a Process 3 Site Development Permit (SDP) for development within the Southeastern San Diego Planned District (SESDPD) that requires a CUP, pursuant to Land Development Code (LDC) Section 1519.0202(a)(5).
Community Plan Analysis:

The project site is designated for Residential Use, Low-Density (5-10 dwelling units/acre) within the Southeastern SESDCP. The community plan does not contain specific policies on wireless communication facility development; therefore, there are no community plan land use issues associated with the location of the proposed WCF.

General Plan:

The General Plan, Section UD-A.15, states that WCFs should be concealed in existing structures when possible, or otherwise use camouflage and screening techniques to hide or blend the facilities into the surrounding area. The design of the facility is to be aesthetically pleasing and respectful of the neighborhood context. The proposed T-Mobile antennas shall be located within the base of the AT&T FRP church steeple. The design of the AT&T church steeple was determined to meet the goals and objects of the community plan regarding bulk and scale, and by architecturally integrating the steeple into the building. The transition and visual relationship between the new and older building was achieved by setbacks, façade variations and architectural features that serve to break the steeple facades into smaller scale visual components. The new steeple incorporates the lines, surface treatment, and color of the existing building and the gradual transition of the height and bulk does not visually overwhelm the existing structure.

Council Policy 600-43:

The guidelines establish a hierarchy from the most preferred location (Preference 1) to the least preferred location (Preference 4) for WCFs. The project is proposed in a Preference 2 location according to Council Policy 600-43, which categorizes WCF according to the land use in which it is located. The project is located on a premise containing a non-residential use within a residential zone and is permitted with a CUP. The applicant submitted a site justification letter explaining why a Preference 2 site was selected over lower Preference 1 sites, and submitted existing and proposed wireless communication service coverage maps (Attachment 7). The proposed T-Mobile antennas shall be located within the base of the AT&T FRP church steeple and will provide wireless coverage for the surrounding area.

Conclusion:

The project meets all applicable regulations and policy documents, and the project is consistent with the recommended land use, the purpose and intent of the design guidelines, and development standards in effect for this site per the WCF regulations, the LDC, and the General Plan. Staff recommends that the Hearing Officer approve the project as presented.

ALTERNATIVE

1. **APPROVE** Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434, with modifications.
2. DENY Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434, if the Hearing Officer makes written findings based on substantial evidence that the approval is not authorized by state or local zoning law.

Respectfully submitted,

[Signature]

## DEVIATIONS OR VARIANCES REQUESTED:

None with this action.

## COMMUNITY PLANNING GROUP RECOMMENDATION:

On April 15, 2013, the Encanto Neighborhoods Community Planning Group voted 8-3-0 to recommend approval of the project with no conditions.
This Neighborhood Use Permit 95-0350-217, is granted by the City Manager of the City of San Diego to SEVENTH DAY ADVENTIST CHURCH, Owner and CINGULAR WIRELESS, Permittee pursuant to Land Development Code section 141.0405 of the City of San Diego. The 1.57 acre site is located at 6065 Skyline Dr in the SF-5000 zone of the Southeastern San Diego Community Plan. The project site is legally described as lot 11 of Map No. 159 of Mc Matton’s Subdivision.

Subject to the terms and conditions set forth in this permit, permission is granted to Owner AND/OR Permittee to install a wireless communication facility described as, and identified by size, dimension, quantity, type and location on the approved Exhibits "A," dated April 17, 2003 on file in the Office of the Development Services Department.

a. The project consists of three Cingular panel antennas, located within the base of the existing steeple screened by RF compliant shrouds similar in color and design to the existing elements of the existing steeple. The associated 276-square-foot equipment cabinets will be located on the west side of the building on the ground and screened to match the church.

b. Accessory improvements determined by the City Manager to be consistent with the land use and development standards in effect for this site per the adopted Community Plan, California Environmental Quality Act guidelines, public and private improvement requirements of the City Engineer, the underlying zone(s), conditions of this permit, and any other applicable regulations of the Land Development Code in effect for this site.

1. Construction, grading or demolition must commence and be pursued in a diligent manner within 36 months after the effective date of final approval by the City, following all appeals. Failure to utilize the permit within 36 months will automatically void the permit unless an Extension of Time has been granted. Any such Extension of Time must meet all the Municipal/Land Development Code requirements and applicable guidelines in effect at the time the extension is considered by the appropriate decision maker.
2. No permit for the construction, occupancy or operation of any facility or improvement described herein shall be granted, nor shall any activity authorized by this permit be conducted on the premises until:

a. The Permittee signs and returns the Permit to the Development Services Department; and

b. The Permit is recorded in the Office of the San Diego County Recorder.

3. Unless this permit has been revoked by the City of San Diego the property included by reference within this permit shall be used only for the purposes and under the terms and conditions set forth in this permit unless otherwise authorized by the City Manager.

4. This permit is a covenant running with the subject property and shall be binding upon the Permittee and any successor or successors, and the interests of any successor shall be subject to each and every condition set out in this permit and all referenced documents.

5. The utilization and continued use of this permit shall be subject to the regulations of this and any other applicable governmental agencies.

6. Issuance of this permit by the City of San Diego does not authorize the applicant for said permit to violate any Federal, State or City laws, ordinances, regulations or policies including, but not limited to, the Federal Endangered Species Act of 1973 and any amendments thereto (16 U.S.C. Section 1531 et seq.)

7. The Owner/Permittee shall secure all necessary building permits. The applicant is informed that to secure these permits, substantial modifications to the building and/or site improvements to comply with applicable building, fire, mechanical and plumbing codes and State law requiring access for disabled people may be required.

8. Before issuance of any building or grading permits, complete grading and working drawings shall be submitted to the City Manager for approval. Plans shall be in substantial conformity to Exhibit "A," dated April 17, 2003, on file in the Office of the Development Services Department. No change, modifications or alterations shall be made unless appropriate applications or amendment of this permit shall have been granted.

9. All of the conditions contained in this Permit have been considered and have been determined to be necessary in order to make the findings required for this discretionary permit. It is the intent of the City that the holder of this Permit be required to comply with each and every condition in order to be afforded special rights which the holder of the Permit is obtaining as a result of this Permit. It is the intent of the City that the Owner of the property which is the subject of this Permit either utilize the property for any use allowed under the zoning and other restrictions which apply to the property or, in the alternative, that the Owner of the property be allowed the special and extraordinary rights conveyed by this Permit, but only if the Owner complies with all the conditions of the Permit.

In the event that any condition of this Permit, on a legal challenge by the Owner/Permittee of this Permit, is found or held by a court of competent jurisdiction to be invalid, unenforceable or unreasonable, this Permit shall be void. However, in such an event, the Owner/Permittee shall have the right, by paying applicable processing fees, to bring a request for a new Permit without the "invalid" conditions(s) back to the discretionary body which approved the Permit for a
determination by that body as to whether all of the findings necessary for the issuance of the Permit can still be made in the absence of the "invalid" condition(s). Such hearing shall be a hearing de novo and the discretionary body shall have the absolute right to approve, disapprove or modify the proposed Permit and the condition(s) contained therein.

10. This Neighborhood Use Permit and corresponding use of this site shall expire on April 17, 2013. Upon expiration of this permit, the facilities and improvements described herein shall be removed from this site and the property shall be restored to its original condition preceding approval of this permit.

11. Prior to the expiration date of this Neighborhood Use Permit, the Permittee may submit a new Neighborhood Use Permit application or whatever permit is required at that time, to the City Manager for consideration with review and a decision by the appropriate decision maker at that time.

12. Upon termination of use of this site, Sprint and or the current owner of the property shall be responsible for removing the antennas and equipment from the site and restoring the property to it's original condition.

PLANNING/DESIGN REQUIREMENTS:

13. Prior to issuance of the final building permit, the applicant should provide certification describing evidence that the cumulative field measurements of radio frequency power densities for all antenna installed on the premises are below federal standards set by FCC. Radio Frequency measurements shall be taken from each property line, at various lengths, and from the premises at various locations.

14. There shall be compliance with the regulations of the underlying zone(s) unless a deviation or variance to a specific regulation(s) is approved or granted as condition of approval of this permit. Where there is a conflict between a condition (including exhibits) of this permit and a regulation of the underlying zone, the regulation shall prevail unless the condition provides for a deviation or variance from the regulations. Where a condition (including exhibits) of this permit establishes a provision which is more restrictive than the corresponding regulation of the underlying zone, then the condition shall prevail.

15. The height(s) of the building(s) or structure(s) shall not exceed those heights set forth in the conditions and the exhibits (including, but not limited to, elevations and cross sections) or the maximum permitted building height of the underlying zone, whichever is lower, unless a deviation or variance to the height limit has been granted as a specific condition of this permit.

16. A topographical survey conforming to the provisions of the Municipal/Land Development Code may be required if it is determined, during construction, that there may be a conflict between the building(s) under construction and a condition of this permit or a regulations of the underlying zone. The cost of any such survey shall be borne by the permittee.

17. Any future requested amendment to this permit shall be reviewed for compliance with the regulations of the underlying zone(s) which are in effect on the date of the submittal of the requested amendment.

OTHER PLANNING CONDITIONS HERE
18. All private outdoor lighting shall be shaded and adjusted to fall on the same premises where such lights are located.

19. All uses, except storage and loading, shall be conducted entirely within an enclosed building. Outdoor storage of merchandise, material and equipment is permitted in any required interior side or rear yard, provided the storage area is completely enclosed by walls, fences or a combination thereof. Walls or fences shall be solid and not less than six feet in height and, provided further, that no merchandise, material or equipment stored not higher than any adjacent wall.

20. The subject property and associated common areas on site shall be maintained in a neat and orderly fashion at all times.

21. No mechanical equipment, tank, duct, elevator enclosure, cooling tower or mechanical ventilator or air conditioner shall be erected, constructed, converted, established, altered, or enlarged on the roof of any building, unless all such equipment and appurtenances are contained within a completely enclosed structure whose top and sides may include grillwork, louvers and latticework.

22. No merchandise, material or equipment shall be stored on the roof of any building.

23. No mechanical equipment shall be erected, constructed, or enlarged on the roof of any building on this site, unless all such equipment is contained within a completely enclosed architecturally integrated structure.

INFORMATION ONLY

Any party on whom fees, dedications, reservations, or other exactions have been imposed as conditions of approval of this development permit/tentative map (SELECT), may protest the imposition within 90 days of the approval of this development permit/tentative map (SELECT) by filing a written protest with the City Clerk pursuant to California Government Code 66020.

APPROVED by the City Manager of the City of San Diego on April 17, 2003.

Prod. No. 5907
Reorder: Call Toll-Free 1-800-876-6827
WHEREAS, SEVENTH DAY ADVENTIST CHURCH, Owner and Cingular Wireless, Permittee, filed an application for a Neighborhood Use Permit with the City of San Diego to locate a wireless communication facility to consisting of three roof mounted antennas and associated ground mounted equipment (as described in and by reference to the approved Exhibits "A" and corresponding conditions of approval for the associated Permit No. NUP 95-0350-217), on portions of a 1.57 acre property and;

WHEREAS, the project site is located at 6065 Skyline Drive in the SF-5000 Zone of South Eastern San Diego Planned District and;

WHEREAS, the project site is legally described as lot 11 of Map No. 159 of Cave and McMatton’s Subdivision, and;

WHEREAS, on April 17, 2003, the Project Manager of the City of San Diego considered Neighborhood Use Permit No. 95-0350-217 pursuant to the Land Development Code of the City of San Diego; NOW, THEREFORE,

BE IT RESOLVED by the Project Manager of the City of San Diego as follows:

That the Project Manager adopts the following written Findings, dated April 17, 2003.

FINDINGS:
A. The proposed development will not adversely affect the applicable land use plan;

The Encanto Community Plan does not specifically address communication antennas in the land use element; however, the City of San Diego Communication Antenna Regulations allow communication facilities within all zones with the appropriate permit process. The proposed Cingular project consists of three antennas, concealed within architectural details that are mounted to the base of the existing steeple. The proposed antenna will be completely integrated into the steeple and will not have any visual impact. Additionally the design of the equipment enclosure mimics the church in color and texture.

Section 107.1703. (a) of the Southeastern San Diego Planned District Ordinance requires the recognized Community Planning Group to review discretionary permits and provide recommendation to the City Manager. On March 17, 2003 the project was presented to the Encanto Neighborhood Community Group who denied the project. Discussions during the meeting consisted mainly of an exchange about the health effects of the RF radiation emitted by these antennas. The City has no authority to base their decision on the environmental effects of the RF radiation.
Additionally the group was not satisfied with the notification provided to the community, which was based on the LDC requirement of public notice to property owners and tenants within 300 feet of the church property.

B. The proposed development will not be detrimental to the public health, safety, and welfare; and

Section 704 of the Telecommunication Act of 1996 states: “No state or local government or instrumentality thereof may regulate the placement, construction and modification of personal wireless service facilities on the basis of the environmental effects of radio frequency emissions to the extent that such facilities comply with the commission regulations concerning such omissions.” The proposed project will be consistent with the FCC’s regulations for wireless facilities. For public disclosure purposes, conditions have been added to the permit requiring Cingular to perform radio frequency testing and to submit the findings in a report to the City of San Diego prior to final inspection of the property.

C. The proposed development will comply with the applicable regulations of the applicable Land Use Code.

The proposed antenna installation is consistent with Municipal Code Section 141.0405 (Communication Antenna Regulations) and the development standards and regulations of the underlying SF-5000 zone. The proposed location of the wireless communication facility on this site (a non-residential use within a residential zone) is permitted through a Neighborhood Use Permit, Process Two decision level. The antennas have been designed to minimize visual impacts through creative design features that enhance the appearance of the steeple. The antennas are basically camouflaged within the angular poles that embody the steeple structure.

The location of this facility on a nonresidential property has traditionally been favored by the City in lieu of locating wireless communications on a residentially used property. Nonresidential properties are normally larger than residential properties and can more readily accommodate a wireless facility by providing more features that permit incorporating stealth designs. This project is well integrated into the church property and will not have visual or land use impacts.

BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Project Manager, Neighborhood Use Permit 95-0350-217 is hereby GRANTED by the Project Manager to the referenced Owner/Permittee, in the form, exhibits, terms and conditions as set forth in Permit No. 95-0350-217, a copy of which is attached hereto and made a part hereof.

RE:      Site Justification Report
         T-Mobile Site SD06675A Maranatha 7th Day Adventist
         APN: 549-650-45

The existing T-Mobile wireless communication facility located at 6065 Skyline Dr., San Diego, CA 92114 (the "Subject Property") is needed for following reasons:

As depicted on the following coverage maps, the existing wireless communication facility located at the Subject Property provides essential communication and improved service to the surrounding area. The facility ensures uninterrupted wireless service in the area. Without the facility at the current location, there would be a significant gap in coverage that would negatively impact the surrounding community.

The visual impact to the surrounding community is minimized because all antennas are screened behind fiberglass covers at the base of the decorative architectural feature on top of the church building. In addition, the equipment is located next to the church behind a wrought iron gate.

If you have any additional questions, I can be reached by phone at (858) 650-3130 or by e-mail at lynnea.barrett@mitchellj.com.

Sincerely,

Lynnea Barrett

CONDITIONAL USE PERMIT NO. 1144437
SITE DEVELOPMENT PERMIT NO. 1144434
T-MOBILE MARANATHA – PROJECT NO. 294132
HEARING OFFICER

This Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434 is granted by the Hearing Officer of the City of San Diego to SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS, a California Corporation, Owner and T-MOBILE WEST CORPORATION, Permittee, pursuant to San Diego Municipal Code [SDMC] Section 141.0420, 126.0305, 126.0504 and 1519.0202. The site is located at 6065 Skyline Drive, on the southwest corner of Skyline Drive and 61st Street, in the SF-5000 Zone of Southeastern San Diego Planned District within the Encanto Neighborhoods of the Southeastern San Diego Community Plan Area. The project site is legally described as all of the East 1/2 of Lot 11 in Cave & McWatson’s Subdivision of Lot 14 and a part of Lot 16 of Ex Mission Partn., in the City of San Diego, County of San Diego, State of California, according to Map thereof No. 159, filed in the Office of the County Recorder of San Diego County on March 30, 1887.

Subject to the terms and conditions set forth in this Permit, permission is granted to Owner and Permittee for a Wireless Communication Facility (WCF) described and identified by size, dimension, quantity, type, and location on the approved exhibits [Exhibit "A"] dated July 10, 2013, on file in the Development Services Department.

The project shall include:

a. A Wireless Communication Facility (WCF) containing a total of six panel antennas (56” x 12” x 7.9") behind Fiberglass Reinforced Panels (FRP) church steeple on the roof (steeple by other carrier) and a 229-square foot equipment enclosure that contains four equipment cabinets and associated equipment.

b. Public and private accessory improvements determined by the Development Services Department to be consistent with the land use and development standards for this site in
accordance with the adopted community plan, the California Environmental Quality Act [CEQA] and the CEQA Guidelines, the City Engineer’s requirements, zoning regulations, conditions of this Permit, and any other applicable regulations of the SDMC.

STANDARD REQUIREMENTS:

1. This Permit must be utilized within thirty-six (36) months after the date on which all rights of appeal have expired. If this permit is not utilized in accordance with Chapter 12, Article 6, Division 1 of the SDMC within the 36 month period, this permit shall be void unless an Extension of Time has been granted. Any such Extension of Time must meet all SDMC requirements and applicable guidelines in effect at the time the extension is considered by the appropriate decision maker. This permit must be utilized by July 24, 2016.

2. No permit for the construction, occupancy, or operation of any new facility or improvement described herein shall be granted by this Permit be conducted on the premises until a building permit is issued by the Development Services Department for the construction of the Fiberglass Reinforced Panels (FRP) church steeple on the roof (steeple by other carrier). The existing antennas and facility may continue to operate until the building permit for the church steeple has been issued or by the utilization date of July 24, 2016, whichever comes first.

3. Upon utilization of this Permit, corresponding use of this site shall expire on July 10, 2023. Upon expiration of this Permit, the facilities and improvements described herein shall be removed from this site and the property shall be restored to its original condition preceding approval of this Permit.

4. No later than ninety (90) days prior to the expiration of this permit, the Owner/Permittee may submit a new application to the City Manager for consideration with review and a decision by the appropriate decision maker at that time. Failure to submit prior to the deadline will be cause for enforcement for noncompliance, which may include penalties and fines.

5. Under no circumstances, does approval of this permit authorize Owner/Permittee to utilize this site for wireless communication purposes beyond the permit expiration date. Use of this permit beyond the expiration date of this permit is prohibited.

6. No permit for the construction, occupancy, or operation of any facility or improvement described herein shall be granted, nor shall any activity authorized by this Permit be conducted on the premises until:

   a. The Owner/Permittee signs and returns the Permit to the Development Services Department; and

   b. The Permit is recorded in the Office of the San Diego County Recorder.
7. While this Permit is in effect, the subject property shall be used only for the purposes and under the terms and conditions set forth in this Permit unless otherwise authorized by the appropriate City decision maker.

8. This Permit is a covenant running with the subject property and all of the requirements and conditions of this Permit and related documents shall be binding upon the Owner/Permittee and any successor(s) in interest.

9. The continued use of this Permit shall be subject to the regulations of this and any other applicable governmental agency.

10. Issuance of this Permit by the City of San Diego does not authorize the Owner/Permittee for this Permit to violate any Federal, State or City laws, ordinances, regulations or policies including, but not limited to, the Endangered Species Act of 1973 [ESA] and any amendments thereto (16 U.S.C. § 1531 et seq.).

11. The Owner/Permittee shall secure all necessary building permits. The Owner/Permittee is informed that to secure these permits, substantial building modifications and site improvements may be required to comply with applicable building, fire, mechanical, and plumbing codes, and State and Federal disability access laws.

12. Construction plans shall be in substantial conformity to Exhibit “A.” Changes, modifications, or alterations to the construction plans are prohibited unless appropriate application(s) or amendment(s) to this Permit have been granted.

13. All of the conditions contained in this Permit have been considered and were determined necessary to make the findings required for approval of this Permit. The Permit holder is required to comply with each and every condition in order to maintain the entitlements that are granted by this Permit.

If any condition of this Permit, on a legal challenge by the Owner/Permittee of this Permit, is found or held by a court of competent jurisdiction to be invalid, unenforceable, or unreasonable, this Permit shall be void. However, in such an event, the Owner/Permittee shall have the right, by paying applicable processing fees, to bring a request for a new permit without the "invalid" conditions(s) back to the discretionary body which approved the Permit for a determination by that body as to whether all of the findings necessary for the issuance of the proposed permit can still be made in the absence of the "invalid" condition(s). Such hearing shall be a hearing de novo, and the discretionary body shall have the absolute right to approve, disapprove, or modify the proposed permit and the condition(s) contained therein.

14. The Owner/Permittee shall defend, indemnify, and hold harmless the City, its agents, officers, and employees from any and all claims, actions, proceedings, damages, judgments, or costs, including attorney’s fees, against the City or its agents, officers, or employees, relating to the issuance of this permit including, but not limited to, any action to attack, set aside, void, challenge, or annul this development approval and any environmental document or decision. The City will promptly notify Owner/Permittee of any claim, action, or proceeding and, if the
City should fail to cooperate fully in the defense, the Owner/Permittee shall not thereafter be responsible to defend, indemnify, and hold harmless the City or its agents, officers, and employees. The City may elect to conduct its own defense, participate in its own defense, or obtain independent legal counsel in defense of any claim related to this indemnification. In the event of such election, Owner/Permittee shall pay all of the costs related thereto, including without limitation reasonable attorney’s fees and costs. In the event of a disagreement between the City and Owner/Permittee regarding litigation issues, the City shall have the authority to control the litigation and make litigation related decisions, including, but not limited to, settlement or other disposition of the matter. However, the Owner/Permittee shall not be required to pay or perform any settlement unless such settlement is approved by Owner/Permittee.

ENGINEERING REQUIREMENTS:

15. Prior to the issuance of any construction permit, the Permittee shall incorporate any construction Best Management Practices necessary to comply with Chapter 14, Article 2, Division 1 (Grading Regulations) of the San Diego Municipal Code, into the construction plans or specifications.

16. Prior to the issuance of any construction permit, the Permittee shall submit a Water Pollution Control Plan (WPCP). The WPCP shall be prepared in accordance with the guidelines in Appendix E of the City’s Storm Water Standards.

PLANNING/DESIGN REQUIREMENTS:

17. T-Mobile West Corporation’s Neighborhood Use Permit (NUP) No. 95-0395-217 shall be null and void.

18. No overhead cabling is permitted.

19. All coaxial conduits shall be routed up through vertical coax tray on the side of the building and the existing coax tray on the roof shall be removed and all coaxial conduits shall be routed through the roof attic to the WCF within the existing steeple.

20. All antennas associated with this project shall not extend beyond the FRP enclosure.

21. Use of or replacement of any building facade or mechanical screen with FRP material for purposes of concealing antennas shall not result in any noticeable lines or edges in the transition to the original building. All FRP shall be painted and textured to match the original building.

22. At no point in time, shall the approved antennas with this project be different in sizes (length, width, or height) other than the ones shown on the stamped approved plans.

23. The Owner/Permittee shall place appropriate signage on the WCF as required by CAL-OSHA/FCC to the satisfaction of the Development Services Department. The Owner/Permittee shall be responsible for complying with all State and Federal regulations, as applicable.
24. The photo simulation(s) for the proposed project must be printed (not stapled) on the building plans. This is to ensure the construction team building the project is in compliant with approved the ‘Exhibit A.’

25. All equipment, including transformers, emergency generators and air conditioners belonging to the Permittee shall be designed and operated consistent with the City noise ordinance. Ventilation openings shall be baffled and directed away from residential areas. Vibration resonance of operating equipment in the equipment enclosures shall be eliminated.

26. All facilities and related equipment shall be: maintained in good working order; free from trash, debris, graffiti; and designed to discourage vandalism. Any damaged equipment shall be repaired or replaced within thirty (30) calendar days of notification by the City of San Diego.

27. All private outdoor lighting shall be shaded and adjusted to fall on the same premises where such lights are located and in accordance with the applicable regulations in the SDMC.

28. The WCF shall conform to Exhibit “A” (consisting of the stamped approved plans and approved photosimulations) prior to receiving final inspection approval.

29. The Owner/Permittee shall notify the City within 30 days of the sale or transfer of this site to any other provider or if the site is no longer operational requiring the removal and the restoration of this site to its original condition.

30. A topographical survey conforming to the provisions of the SDMC may be required if it is determined, during construction, that there may be a conflict between the building(s) under construction and a condition of this Permit or a regulation of the underlying zone. The cost of any such survey shall be borne by the Owner/Permittee.

INFORMATION ONLY:

• Any party on whom fees, dedications, reservations, or other exactions have been imposed as conditions of approval of this Permit, may protest the imposition within ninety days of the approval of this development permit by filing a written protest with the City Clerk pursuant to California Government Code-section 66020.

• This development may be subject to impact fees at the time of construction permit issuance.

APPROVED by the Hearing Officer of the City of San Diego on July 10, 2013 and Resolution Number ____________.

WHEREAS, SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS, a California Corporation, Owner and T-MOBILE WEST CORPORATION, Permittee, filed an application with the City of San Diego for a Conditional Use Permit and Site Development Permit for a wireless communication facility (WCF) on an existing church. The WCF shall contain a total of six (6) six panel antennas behind Fiberglass Reinforced Panels (FRP) church steeple on the roof (steeple by other carrier) and a 229-square foot equipment enclosure that contains four equipment cabinets and associated equipment (as described in and by reference to the approved Exhibits "A" and corresponding conditions of approval for the associated Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434);

WHEREAS, the project site is located at 6065 Skyline Drive, on the southwest corner of Skyline Drive and 61st Street, in the SF-5000 Zone of Southeastern San Diego Planned District within the Encanto Neighborhoods of the Southeastern San Diego Community Plan Area;

WHEREAS, the project site is legally described as all of the East 1/2 of Lot II in Cave & McWatson's Subdivision of Lot 14 and a part of Lot 16 of Ex Mission Partn., in the City of San Diego, County of San Diego, State of California, according to Map thereof No. 159, filed in the Office of the County Recorder of San Diego County on March 30, 1887;

WHEREAS, on March 21, 2013, the City of San Diego, as Lead Agency, through the Development Services Department, made and issued an Environmental Determination that the project is exempt from the California Environmental Quality Act (CEQA) (Public Resources Code section 21000 et. seq.) under CEQA Guideline Section 15302 (Replacement or Reconstruction) and there was no appeal of the Environmental Determination filed within the time period provided by San Diego Municipal Code Section 112.0520;

WHEREAS, on July 10, 2013, the Hearing Officer of the City of San Diego considered Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434 pursuant to the Land Development Code of the City of San Diego;

BE IT RESOLVED by the Hearing Officer of the City of San Diego as follows:

That the Hearing Officer adopts the following written Findings, dated July 10, 2013.

FINDINGS:

I. **Conditional Use Permit - Section 126.0305**

1. The proposed development will not adversely affect the applicable land use plan;
The project site is located at 6065 Skyline Drive in the SF-5000 Zone of Southeastern San Diego Planned District (SESDPD) within the Encanto Neighborhoods of the Southeastern San Diego Community Plan (SESDCP) and is currently developed with a church and multiple wireless communication facilities (WCFs). T-Mobile is requesting a new permit to continue operating at this location. The antennas are proposed to be located within the base of a new Fiberglass Reinforced Panels (FRP) church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the building, not visible from the public perspective. The church steeple is being constructed by another carrier.

WCFs are allowed on a premises containing a non-residential use within a residential zone with a Conditional Use Permit (CUP) pursuant to Land Development Code (LDC) Section 141.0420(e)(1). In addition, the proposed project would require a Site Development Permit (SDP) for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). The project site is located within the SESDCP, which designates the site for Residential Use, Low-Density (5-10 dwelling units/acre). The SESDCP does not contain specific policies on WCF development.

The project meets all applicable regulations and policy documents, and is consistent with the recommended land use, design guidelines, and development standards in effect for this site per the WCF Regulations, the Communication Antenna Regulations, the LDC, SESDPD, and the General Plan. Therefore, the proposed development would not adversely affect the applicable land use plan.

2. The proposed development will not be detrimental to the public health, safety, and welfare;

The Telecommunications Act of 1996 preempts local governments from regulating the "placement, construction and modification of wireless communication facilities on the basis of the environmental effects of Radio Frequency (RF) emissions to the extent that such facilities comply with the Federal Communication Commission’s (FCC) standards for such emissions.” T-Mobile submitted an RF Report, which concluded that the project complies with FCC RF Standards. Therefore, based on the above, the project would not result in any significant health or safety risks to the surrounding area within the jurisdiction of the City.

3. The proposed development will comply to the maximum extent feasible with the regulations of the Land Development Code, including any allowable deviations pursuant to the Land Development Code; and

The project complies with all applicable development regulations of the LDC and the City of San Diego WCFs Regulations (LDC Section 141.0420). This section of the Code requires all wireless communication facilities to be minimally visible through the use of architecture, landscape architecture and siting solutions. The antennas are proposed to be located within the base of a new church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the
building, not visible from the public perspective. The project is located on a non-residential use within a residential zone and as such, requires a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). No deviations from the development regulations or variances are requested with this application. Therefore, the project is in full compliance with the applicable regulations of the LDC.

4. The proposed use is appropriate at the proposed location.

The City of San Diego encourages wireless carriers to locate on non-residential properties. As designed, the project is located on a non-residential use within a residential zone and as such, requires a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). The project meets all applicable regulations and policy documents, and is consistent with the recommended land use, design guidelines, and development standards in effect for this site per the WCF Regulations, the Communication Antenna Regulations, the LDC, SESDPD, and the General Plan. No deviations from the development regulations or variances are requested with this application. Additionally, the proposed facility would continue to provide wireless communication services at this location, which are essential to network operations. Therefore, the proposed use is appropriate for this site.

II. Site Development Permit - Section 126.0504(A)

1. The proposed development will not adversely affect the applicable land use plan;

The project site is located at 6065 Skyline Drive in the SF-5000 Zone of SESDPD within the Encanto Neighborhoods of the SESDCP and is currently developed with a church and multiple WCFs. T-Mobile is requesting a new permit to continue operating at this location. The antennas are proposed to be located within the base of a new church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the building, not visible from the public perspective. The church steeple is being constructed by another carrier.

WCFs are allowed on a premises containing a non-residential use within a residential zone with a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). The project site is located within the SESDCP, which designates the site for Residential Use, Low-Density (5-10 dwelling units/acre). The SESDCP does not contain specific policies on WCF development.

The project meets all applicable regulations and policy documents, and is consistent with the recommended land use, design guidelines, and development standards in effect for this site per the WCF Regulations, the Communication Antenna Regulations, the LDC, SESDPD, and the
General Plan. Therefore, the proposed development would not adversely affect the applicable land use plan.

2. The proposed development will not be detrimental to the public health, safety, and welfare; and

The Telecommunications Act of 1996 preempts local governments from regulating the “placement, construction and modification of wireless communication facilities on the basis of the environmental effects of RF emissions to the extent that such facilities comply with the FCC’s standards for such emissions.” T-Mobile submitted an RF Report, which concluded that the project complies with FCC RF Standards. Therefore, based on the above, the project would not result in any significant health or safety risks to the surrounding area within the jurisdiction of the City.

3. The proposed development will comply with the applicable regulations of the Land Development Code, including any allowable deviations pursuant to the Land Development Code.

The project complies with all applicable development regulations of the LDC and the City of San Diego WCFs Regulations (LDC Section 141.0420). This section of the Code requires all wireless communication facilities to be minimally visible through the use of architecture, landscape architecture and siting solutions. The antennas are proposed to be located within the base of a new church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the building, not visible from the public perspective. The project is located on a non-residential use within a residential zone and as such, requires a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). No deviations from the development regulations or variances are requested with this application. Therefore, the project is in full compliance with the applicable regulations of the LDC.

III. Southeastern San Diego (PDO) - Section 1519.0202(c)

1. The proposed use and project design meet the purpose and intent of the Southeastern San Diego Planned District Ordinance, comply with the recommendations of the Southeastern San Diego Community Plan, and will not adversely affect the General Plan or other applicable plans adopted by the City Council;

The project site is located at 6065 Skyline Drive in the SF-5000 Zone of SESDPD within the Encanto Neighborhoods of the SESDCP and is currently developed with a church and multiple WCFs. WCFs are allowed on a premises containing a non-residential use within a Residential Zone with the a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). The project site is located within the SESDCP, which designates the site for Residential Use, Low-Density (5-10 dwelling units/acre).
The project meets all applicable regulations and policy documents, and is consistent with the recommended land use, design guidelines, and development standards in effect for this site per the WCF Regulations, the LDC, SESDPD, and the General Plan. No deviations from the development regulations or variances are requested with this application. Additionally, the proposed facility would continue to provide wireless communication services at this location, which are essential to network operations. Therefore, the proposed use will not adversely affect the General Plan or other applicable plans adopted by the City Council and complies with the SESDPD.

2. The proposed development shall be compatible with existing and planned land use on adjoining properties and shall not constitute a disruptive element to the neighborhood and community. In addition, architectural harmony with the surrounding neighborhood and community shall be achieved as far as practicable;

The project site is located at 6065 Skyline Drive in the SF-5000 Zone of SESDPD within the Encanto Neighborhoods of the SESDCP and is currently developed with a church and multiple WCFs. The surrounding property is zoned SF-5000 Zone and are developed with single family residences. T-Mobile is requesting a new permit to continue operating at this location. The antennas are proposed to be located within the base of a new church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the building, not visible from the public perspective. The church steeple is being constructed by another carrier.

The project meets all applicable regulations and policy documents, and is consistent with the recommended land use, design guidelines, and development standards in effect for this site per the WCF Regulations, the LDC, SESDPD, and the General Plan. Therefore, the proposed development would be in architectural harmony with the surrounding neighborhood and community shall be achieved as far as practicable.

3. The proposed use, because of conditions that have been applied to it, will not be detrimental to the health, safety and general welfare of persons residing or working in the area, and will not adversely affect other property in the vicinity; and

The Telecommunications Act of 1996 preempts local governments from regulating the “placement, construction and modification of wireless communication facilities on the basis of the environmental effects of RF emissions to the extent that such facilities comply with the FCC’s standards for such emissions.” T-Mobile submitted an RF Report, which concluded that the project complies with FCC RF Standards. Therefore, based on the above, the project would not result in any significant health or safety risks to the surrounding area within the jurisdiction of the City and will not adversely affect other property in the vicinity.

4. The proposed use will comply with the relevant regulations of the Municipal Code.

The project complies with all applicable development regulations of the Municipal Code (MC) and LDC. Section 141.0420 of the Code requires all WCFs to be minimally visible through the use of architecture, landscape architecture and siting solutions. The antennas are proposed to be
located within the base of a new church steeple on the roof, concealing the mounting brackets and the wires. The associated equipment will be located within an existing enclosure along the western side of the building, not visible from the public perspective. The church steeple is being constructed by another carrier. The project is located on a non-residential use within a residential zone and as such, requires a CUP pursuant to LDC Section 141.0420(e)(1). In addition, the proposed project would require an SDP for development within the SESDPD that requires a CUP pursuant to LDC Section 1519.0202(a)(5). No deviations from the development regulations or variances are requested with this application. Therefore, the project is in full compliance with the applicable regulations of the MC and LDC.

BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Hearing Officer, Conditional Use Permit No. 1144437 and Site Development Permit No. 1144434 is hereby GRANTED by the Hearing Officer to the referenced Owner/Permittee, in the form, exhibits, terms and conditions as set forth in Permit No. 1144437 and No. 1144434, a copy of which is attached hereto and made a part hereof.

REASONS WHY PROJECT IS EXEMPT: The City of San Diego conducted an environmental review that determined the project would not have the potential for causing a significant effect on the environment. The project, a CUP and SDP to allow for a WCF consisting of the removal and replacement of antennas behind an RF Screen, and associated equipment cabinets meets the criteria set forth in CEQA Section 15302 which addresses the replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. Additionally, none of the exceptions described in CEQA Guidelines Section 15300.2 apply.

NOTICE OF RIGHT TO APPEAL
ENVIRONMENTAL DETERMINATION
DEVELOPMENT SERVICES DEPARTMENT
SAP No. 24003211

PROJECT NAME/NUMBER: T-Mobile Maranatha/294132
COMMUNITY PLAN AREA: Encanto Neighborhood of Southeastern San Diego Community Planning Area
COUNCIL DISTRICT: 4
LOCATION: 6065 Skyline Drive, San Diego, California 92114

PROJECT DESCRIPTION: Conditional Use Permit (CUP) and Site Development Permit (SDP) to allow for a Wireless Communication Facility (WCF) consisting of the removal and replacement of antennas behind a Reinforced Fiberglass (RF) screen located at the base steeple on the roof of an existing building. Associated equipment cabinets would remain in an approximately 229 square-foot enclosure.

ENTITY CONSIDERING PROJECT APPROVAL: City of San Diego Hearing Officer

ENVIRONMENTAL DETERMINATION: CEQA Exemption 15302-(Replacement or Reconstruction)

ENTITY MAKING ENVIRONMENTAL DETERMINATION: City of San Diego

STATEMENT SUPPORTING REASON FOR ENVIRONMENTAL DETERMINATION: The City of San Diego conducted an environmental review that determined the project would not have the potential for causing a significant effect on the environment. The project, a CUP and SDP to allow for a WCF consisting of the removal and replacement of antennas behind an RF Screen, and associated equipment cabinets meets the criteria set forth in CEQA Section 15302 which addresses the replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. Additionally, none of the exceptions described in CEQA Guidelines Section 15300.2 apply.

DEVELOPMENT PROJECT MANAGER: Jeff Peterson
MAILING ADDRESS: 1222 First Avenue, MS 501
San Diego, CA 92101
PHONE NUMBER: (619) 446-5237
On March 21, 2013, the City of San Diego made the above-referenced environmental determination pursuant to the California Environmental Quality Act (CEQA). This determination is appealable to the City Council. If you have any questions about this determination, contact the City Development Project Manager listed above.

Applications to appeal CEQA determination made by staff (including the City Manager) to the City Council must be filed in the office of the City Clerk within 10 business days from the date of the posting of this Notice. The appeal application can be obtained from the City Clerk, 202 'C' Street, Second Floor, San Diego, CA 92101.

This information will be made available in alternative formats upon request.
### Project Title:
**T-Mobile Maranatha 7th Day Adventist Church**

#### Part II - To be completed when property is held by a corporation or partnership

**Legal Status (please check):**
- Corporation
- Limited Liability -or-
- General

- Partnership

**By signing the Ownership Disclosure Statement, the owner(s) acknowledge that an application for a permit, map or other manner, as identified above, will be filed with the City of San Diego on the subject property with the intent to record an encumbrance against the property. Please list below the names, titles and addresses of all persons who have an interest in the property, recorded or otherwise, and state the type of property interest (e.g., tenants who will benefit from the permit, all corporate officers, and all partners in a partnership who own the property). A signature is required of at least one of the corporate officers or partners who own the property.**
