HEARING DATE: December 3, 2014
REPORT NO. HO-14-070

ATTENTION: Hearing Officer

SUBJECT: 833 JAMAICA DUPLEX
PTS PROJECT NUMBER: 351408

LOCATION: 833 and 835 Jamaica Court

APPLICANT: Scot Frontis, Frontis Studio

SUMMARY

Issue: Should the Hearing Officer approve a Coastal Development Permit to demolish the existing a 2-unit residential building and construct a three-story, 2,639 square foot duplex located at 833 Jamaica Court in the Mission Beach Precise Plan area?

Staff Recommendation:

APPROVE Coastal Development Permit No. 1229301

Community Planning Group Recommendation: On January 21, 2014, the Mission Beach Precise Planning Board voted 7-0-0 to recommend approval of the project with one condition (Attachment 9). The one condition is that tree needs to be 4 to 5 feet from the building under PDO.

Environmental Review:
The project was determined to be exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15303 (New Construction). This project is not pending an appeal of the environmental determination. The environmental exemption determination for this project was made on October 20, 2014, the Notice of Right to Appeal (NORA) was prepared and the opportunity to appeal the determination ended November 3, 2014 (Attachment 7).

BACKGROUND

The 2,400 square foot project site is currently developed with a one-story residential building containing 2 units. The residential building was constructed in 1927 and is proposed to be demolished as part of the proposed development.
The property is located at 833-835 Jamaica Court, on the south side of Jamaica Court, north of Isthmus Court west of Mission Boulevard and west of Bayside Lane, within the Mission Beach Precise Plan. The Mission Beach Precise Plan designates the site for residential development, with a maximum density of 36 dwelling unit per acre (du/acre). The proposed project is consistent with the designated use and density within the Mission Beach Precise Plan. The site is located within the MBPD-R-S zone of the Mission Beach Planned District, FAA Part 77 Notification Area, Coastal Height Limitation Overlay Zone, Coastal Overlay Zone (Appealable Area), Parking Impact Overlay Zone (Beach Impact Area), Residential Tandem Parking Overlay Zone, Transit Area Overlay Zone, and the Mission Beach Precise Plan and Local Coastal Program Area. (Attachments 1-3). The site is bordered by existing residential development on all sides. A Coastal Development Permit is required for the proposed demolition of the existing structure and construction of the new three-story, 2-unit duplex building, with improvements.

A historic review of the existing site was conducted by staff during the review of the project. Staff determined that the property located at 833 Jamaica Court, is not an individually designated resource. The property is not located within a Historical District. The property does not meet local designation criteria as an individually significant resource under any adopted Historical Resources Board (HRB) Criteria.

DISCUSSION

A Coastal Development Permit (CDP) is required to demolish the existing 2-unit residential building and construct a new three-story, 2,639 square foot duplex located on a 2,400 square foot site. The site is east of the Pacific Ocean, on the south side of Jamaica Court, north of Isthmus Court west of Mission Boulevard and west of Bayside Lane.

The proposed duplex would consist of the following: a two car garage for Unit 2, a two car tandem carport for Unit 1, a two bedroom unit on the first and second floors (Unit 1) and a three bedroom unit on all floors, including an elevator and a roof deck (Unit 2). Unit One is proposed to be approximately 1,161 square feet and Unit Two is proposed to be approximately 1,478 square feet.

The first floor consists of a bathroom, kitchen and living room for Unit 1 and the entry way for Unit 2. The garage and tandem carport will also be located on the first floor of the building, at grade. The two car garage will be assigned to unit 2 and the two car tandem carport will be assigned to Unit 1.

The second floor consists of two bedrooms, 2 bathrooms and a studio area for Unit 1. The second floor also consists of two bedrooms, one bathroom, a laundry room, and exterior deck space for Unit 2.

The third floor consists of a bedroom, a bathroom, kitchen, living room and exterior deck space for Unit 2. The roof deck would be accessed from the stair well that starts on the first floor of the building for Unit 2. There are approximately 300 square feet of solar panels proposed on the flat roof as well.
The proposed project indicate the use beige and blue grey colored stucco, tile veneer and charcoal colored shingles, along with stainless steel fascia, glass windows, railings, and sliding door systems associated with proposed exterior spaces throughout the building. The proposed project would be consistent with the bulk and scale of the surrounding developed residential community. The three-story building would have a height not greater than 30'-0" as defined, which would comply with the Coastal Height Limitation Overlay Zone's maximum allowable height of 30 feet (Attachments 5 and 6). Landscaping would conform to the Mission Beach Planned District minimum percentage and the City's Landscape Technical Manual.

CONCLUSION

Staff has reviewed the application for the Coastal Development Permit and determined the project is consistent with the applicable Coastal Development Regulations, the Mission Beach Precise Plan and the City of San Diego Land Development Code. Staff recommends that the Hearing Officer approve the requested permit.

ALTERNATIVES

1. Approve Coastal Development Permit No. 1229301, with modifications.

2. Deny Coastal Development Permit No. 1229301, if the findings required to approve the project cannot be affirmed.

WHEREAS, Bill and Carol Frontis, Owners/Permittees, filed an application with the City of San Diego for a permit to demolish the existing 2-unit residential building and construct a three-story, 2,639 square foot duplex (as described in and by reference to the approved Exhibits "A" and corresponding conditions of approval for the associated Permit No. 1229301), on portions of a 2,400 square foot site;

WHEREAS, the project site is located at 833 Jamaica Court within the MBPD-R-S zone of the Mission Beach Planned District, FAA Part 77 Notification Area, Coastal Height Limitation Overlay Zone, Coastal Overlay Zone (Appealable Area), Parking Impact Overlay Zone (Beach Impact Area), Residential Tandem Parking Overlay Zone, Transit Area Overlay Zone, and the Mission Beach Precise Plan and Local Coastal Program Area;

WHEREAS, the project site is legally described as Lot D in Block 104 of Mission Beach, in the City of San Diego, County of San Diego, according to Map No. 1651;

WHEREAS, on December 3, 2014, the Hearing Officer of the City of San Diego considered Coastal Development Permit No. 1229301 pursuant to the Land Development Code of the City of San Diego;

WHEREAS, on December 3, 2014, the City of San Diego, as Lead Agency, through the Development Services Department, made and issued an Environmental Determination that the project is exempt from the California Environmental Quality Act (CEQA) (Public Resources Code section 21000 et. seq.) under CEQA Guideline Section 15303 (New Construction); and there was no appeal of the Environmental Determination filed within the time period provided by San Diego Municipal Code Section 112.0520.

BE IT RESOLVED by the Hearing Officer of the City of San Diego as follows:

That the Hearing Officer adopts the following written Findings, dated December 3, 2014.

FINDINGS:

Coastal Development Permit - Section 126.0708

A. Findings for all Coastal Development Permits

1. The proposed coastal development will not encroach upon any existing physical accessway that is legally used by the public or any proposed public accessway identified in a Local Coastal Program land use plan; and the proposed coastal development will enhance and protect public views to and along the ocean and other scenic coastal areas as specified in the Local Coastal Program land use plan;

The proposed project is located at 833 Jamaica Court, approximately 212 feet from Mission Bay and approximately 700 feet from the Pacific Ocean, within an urbanized and fully developed service district.
residential neighborhood in the Mission Beach Precise Plan and the Local Coastal Program. The site is not located on the ocean and does not include any existing physical access way or proposed access way to the coast. The project site is not located within any identified view corridor, public vantage point or physical access route in the Mission Beach Precise Plan. Furthermore, no see-through or public views to the ocean exist through the site and the proposed development is provided consistent setbacks within this infill area to allow for possible views adjacent to the site. Additionally, the project is not requesting any deviations to the San Diego Municipal Code. Therefore, the proposed project would not encroach upon any existing physical accessway and would not impact the Mission Beach Precise Plan or Local Coastal Program.

2. The proposed coastal development will not adversely affect environmentally sensitive lands.

The proposed project is located at 833 Jamaica Court, approximately 212 feet from Mission Bay and approximately 700 feet from the Pacific Ocean, within an urbanized and fully developed residential neighborhood in the Mission Beach Precise Plan and the Local Coastal Program. The existing developed site is relatively flat with an overall grade differential of approximately 2.0 feet. The site is surrounded by development and there are no environmentally sensitive lands located on the project site, nor on the adjacent properties; therefore, the proposed project would not have an adverse affect on environmentally sensitive lands.

3. The proposed coastal development is in conformity with the certified Local Coastal Program land use plan and complies with all regulations of the certified Implementation Program.

The proposed project is located at 833 Jamaica Court, approximately 212 feet from Mission Bay and approximately 700 feet from the Pacific Ocean, within an urbanized and fully developed residential neighborhood in the Mission Beach Precise Plan and the Local Coastal Program. The proposed development is designated for residential development, with a maximum density of 36 dwelling units per acre (du/acre) as identified in the Mission Beach Precise Plan. The project proposes 2 dwelling units on a 2,400 square foot lot for a density of approximately 36 dwelling units per acre. The project is consistent with the designated use and density in the plan. Therefore, the proposed residential project conforms to the identified land use in the Mission Beach Precise Plan, the Local Coastal Program and the certified Implementation Program.

4. For every Coastal Development Permit issued for any coastal development between the nearest public road and the sea or the shoreline of any body of water located within the Coastal Overlay Zone the coastal development is in conformity with the public access and public recreation policies of Chapter 3 of the California Coastal Act.

The proposed project is located at 833 Jamaica Court, approximately 212 feet from Mission Bay and approximately 700 feet from the Pacific Ocean, within an urbanized and fully developed residential neighborhood in the Mission Beach Precise Plan and the Local Coastal Program. The project is not located between the nearest public road and the sea or shoreline.
BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Hearing Officer, Coastal Development Permit No. 1229301 is hereby GRANTED by the Hearing Officer to the referenced Owner/Permittee, in the form, exhibits, terms and conditions as set forth in Permit No. 1229301, a copy of which is attached hereto and made a part hereof.
