Purpose and Expectation

- Program Purpose - To provide a general awareness of the Refuse Disposal Division's Environmental Management Program(s).
- Our Expectation - For all Refuse Disposal Personnel to be able to understand the concepts of ISO 14001 and RDD's EMS in relation to their jobs.

**THIS IS
ISO 14001**

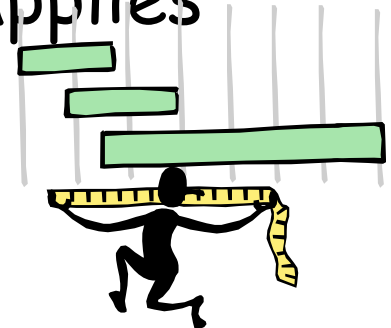

Environmental Programs

- Environmental Programs are structured programs developed by the RDD for ensuring that responsibilities are assigned, resources allocated and timeframes are identified to attain the organization's objectives and targets.

Environmental Programs

- Section Managers are responsible for establishing and maintaining EMS environmental programs (within their section).
- If a project relates to new developments and new or modified activities, products or services, then relevant environmental programs shall be amended to ensure that environmental management applies to such projects.

Environmental Management Programs (EMPs)

- EMP(s) are developed on an annual basis. They may exceed a twelve month period or conclude under twelve months depending on the objective and target being met.
- EMP(s) progress is reported on a monthly basis at Senior Staff meetings, during Management Reviews and are updated monthly on the EMS Internet Website at <http://www.sandiego.gov/environmental-services/ems/index.shtml>

Ask your Supervisor...

- What are the Environmental Programs associated with my section?
- What are our Objectives and Targets?
