Certified Compost | Amendment

Ingredients

Yard trimmings
Food scraps

Product Uses & Specifications
Certified Compost is a reliable, cost-effect soil amendment to improve soil structure, porosity, and water holding capacity. It is made from source-separated yard trimmings and food scraps. Certified Compost is ideal for mixing into soil and planting mixes to supply organic matter and beneficial organisms to assist nutrient uptake. (See reverse for analytical test results.)

Manufacturing Description
- Certified by the U.S. Composting Council’s Seal of Testing Assurance Program (STA): http://compostingcouncil.org/seal-of-testing-assurance/
- Processed for 70 days in a composting windrow and aged before screening
- Standard sizing is 1/2” and under
