21-847.0 Balboa Park Golf Course - Comfort Station Renovation

Council District: 3

Community Plan: Balboa Park

Description: This project provides for the construction of a new concession building on the Balboa Park Golf Course to include: kitchen facilities, restrooms, and storage. 29-671.0 Kumeyaay Lake Berm Replacement

Council District: 7

Community Plan: Mission Trails Regional Park

Description: This project provides for the design and reconstruction of a berm on the Kumeyaay Lake at the Mission Trails Regional Park. The lake provides habitat for a variety of resident and migratory waterfowl as well as other riparian birds.

Justification: The berm was breached during the 1995-1996 rainy season. Since that time, the San Diego River has been flowing through the Kumeyaay Lake accumulating sediment in the lakes and lowering the water table of the adjacent CalTrans State Route 52 wetlands mitigation to detrimental levels. This has caused an increase in invasive water hyacinth within the lakes. The hyacinths are washed down the river from upstream areas. This plant is foreign to this area and spreads quickly in the slow moving flows. Water hyacinth can choke a lake with its prodigious rhizomatous reproduction if unchecked. It can consume the available waterborne oxygen, which can lead to fish kills.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Master Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: Planning began in Fiscal Year 2003. Design and construction will be scheduled contingent upon identification of funding.
