Maintenance Assessment District

Preamble

Pursuant to the provisions of the "San Diego Maintenance Assessment District Ordinance" (being Division 2, Article 5, Chapter VI beginning at Section 65.0201 of the San Diego Municipal Code), provisions of the "Landscaping and Lighting Act of 1972" (being Part 2 of Division 15 of the California Streets and Highways Code), applicable provisions of "Proposition 218" (being Article XIID of the California Constitution), and provisions of the "Proposition 218 Omnibus Implementation Act" (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "Assessment Law"), in connection with the proceedings for the CAMINO SANTA FE MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as "District"), EFS ENGINEERING, INC., as Assessment Engineer to the City of San Diego for these proceedings, submits herewith this report for the District as required by California Streets and Highways Code Section 22565.

FINAL APPROVAL, BY RESOLUTION NO. _____ ,
ADOPTED BY THE CITY COUNCIL OF THE CITY OF SAN
DIEGO, COUNTY OF SAN DIEGO, CALIFORNIA, ON THE
_____ DAY OF _____, 2010.

Elizabeth Maland, CITY CLERK
CITY OF SAN DIEGO
STATE OF CALIFORNIA

Executive Summary

Project: Camino Santa Fe
Maintenance Assessment District

Apportionment Method: Equivalent Benefit Unit (EBU)

	FY 2010	FY 2011 ⁽¹⁾	Maximum ⁽²⁾ Authorized
Total Parcels Assessed:	277	280	--
Total Estimated Assessment:	\$0.00	\$0.00	--
Total Number of EBUs:	1,239.88	1,323.43	--
<i>Zone 1</i>	772.67	806.51	--
<i>Zone 2</i>	467.21	516.92	--
Assessment per EBU: ⁽³⁾			
<i>Zone 1</i>	\$0.00	\$0.00	\$353.11 ⁽⁴⁾
<i>Zone 2</i>	\$0.00	\$0.00	\$353.11 ⁽⁴⁾

⁽¹⁾ FY 2011 is the City's Fiscal Year 2011, which begins July 1, 2010 and ends June 30, 2011. Total Parcels Assessed, Total Estimated Assessment, and Total Number of EBUs may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

⁽²⁾ Maximum authorized annual amounts subject to cost-indexing provisions as set forth in this Assessment Engineer's Report.

⁽³⁾ Although the Unit Assessment per EBU is the same for Zones 1 and 2, the difference in the Location Factor for each zone results in a tenfold difference in total assessment for equivalent parcels in Zone 1 versus Zone 2.

⁽⁴⁾ Prior fiscal year's maximum authorized annual assessment increased by cost-indexing factor of 3.61%.

Annual Cost-Indexing: The maximum authorized assessment rate has been increased based on the approved annual cost-indexing provisions.

Bonds: No bonds will be issued in connection with this District.

Background

The Camino Santa Fe Maintenance Assessment District (District) is generally located along Camino Santa Fe and future Carroll Canyon Road. The District improvements were installed by the H.G. Fenton Company when the Camino Santa Fe extension was completed between Miramar Road and Mira Mesa Boulevard in 2004. To ensure long-term maintenance of these improvements above City standards, the developer funded the formation of a Maintenance Assessment District.

District Proceedings for Fiscal Year 2011

This District is authorized and administered under the provisions of the "San Diego Maintenance Assessment District Ordinance" (being Division 2, Article 5, Chapter VI beginning at Section 65.0201 of the San Diego Municipal Code), provisions of the "Landscaping and Lighting Act of 1972" (being Part 2 of Division 15 of the California Streets and Highways Code), applicable provisions of "Proposition 218" (being Article XIID of the California Constitution), and provisions of the "Proposition 218 Omnibus Implementation Act" (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "Assessment Law"). This report has been prepared in compliance with Assessment Law.

The purpose of the proposed proceedings and this Assessment Engineer's Report is to update the District budget and assessments for Fiscal Year 2011. The Fiscal Year 2011 assessments proposed within this Assessment Engineer's Report are equal to or less than the maximum authorized assessment. Therefore, the vote requirements of Section 4 of Article XIID do not apply to these proceedings.

A public hearing will be scheduled where public testimony will be heard by the Council, and the Council may, at its discretion, adopt a resolution ordering the levying of the proposed assessments.

Bond Declaration

No bonds will be issued in connection with this District.

District Boundary

The District is generally located along Camino Santa Fe and Carroll Canyon Road, bounded by the Mira Mesa Maintenance Assessment District to the north, El Camino Cemetery to the west, Miramar Road to the south, and Carroll Canyon to the east. The District includes those parcels that receive access from the improved stretches of Camino Santa Fe and future Carroll Canyon Road.

The Boundary Map and Assessment Diagram for the District are on file in the Maintenance Assessment Districts section of the Park and Recreation Department of the City of San Diego and by reference are made a part of this report. The Boundary Map and Assessment Diagram for the District are available for public inspection during normal business hours. A reduced copy of the Boundary Map is included as Exhibit A.

Project Description

The project to be funded by the proposed assessments is the maintenance of landscaped and hardscaped improvements and streetscape features including, but not limited to medians, sidewalks, curb and gutter, slopes adjacent to rights-of-way, and brow ditches. Assessment funds may also be used for minor capital improvements consistent with the current apportionment methodology.

Maintenance activities may include but are not limited to irrigation, weed control, litter control, tree trimming, pruning, edging, pest control, fertilizing, other maintenance necessary for plant health and appearance; hardscape and streetscape cleaning; maintenance of irrigation system components; incidental traffic control; and security.

The maintenance areas are generally adjacent to Camino Santa Fe. These areas include landscaped medians, hardscaped medians, landscaped rights-of-way, and slopes adjacent to rights-of-way. The engineering drawings and specifications for the areas to be maintained by the District are on file at the City's Development Services Center Records Counter and are incorporated herein by reference.

Future development is planned that will extend Carroll Canyon Road through the District. Future improvements along Carroll Canyon Road will be included within this District.

The improvements and services provided by the District will be maintained in accordance with specifications and contracts on file with the Park and Recreation Department. These documents are available for public inspection during normal business hours.

Separation of General and Special Benefits

The proceeds from the assessment will be used to fund enhanced improvements, services and activities within the District that, in absence of the assessment, otherwise would not be provided at an enhanced level or frequency of service. The District will continue to receive the same level of general services provided to the public at large under City-funded and administered programs, as determined annually, for maintenance of public facilities and improvements (e.g., street trees, sidewalks, street lights, etc.), including street sweeping and graffiti removal on public property.

Consistent with City policy for the public at large, the City will provide the District with annual contributions from the Gas Tax Fund for median maintenance (32.20¢ per square foot of landscaped median and 12.84¢ per square foot of hardscaped median). These cost allocations, reviewed and adjusted annually by the City, are considered to be “general benefits” administered by the District. All other maintenance, operations, and administration costs associated with the District, which exceed the City’s contribution to the public at large, are accordingly considered to be “special benefits” funded by the District.

Cost Estimate

Estimated Costs

Estimated Fiscal Year 2011 annual expenses, revenues, reserves, and assessments (provided by the City) are included as Exhibit B hereto.

Annual Cost-Indexing

With the passage of Proposition 218, any proposed increase in assessments must be placed for approval before the property owners by a mail ballot and a public hearing process, similar to these proceedings. A majority of ballots received must be affirmative for the

City Council to confirm and levy the increased assessments. For small assessment districts or districts with relatively low dollar assessments, the cost of an engineer's report, balloting, and the public hearing process can potentially exceed the total cost of the increase. These incidental costs of the proceedings can be added to the assessments, resulting in even higher assessments.

Indexing assessments annually to the San Diego Consumer Price Index for Urban Consumers (SDCPI-U) plus 3%, as approved by the District property owners in Fiscal Year 2007, allows for minor increases for normal maintenance and operating cost escalation without incurring the costs of the Proposition 218 ballot proceedings. Any significant change in the assessment initiated by an increase in service provided or other significant changes to the District would still require the Proposition 218 proceedings and property owner approval.

The maximum authorized assessment established in the Fiscal Year 2007 proceedings are authorized to be indexed (increased or decreased) annually by the factor published in the SDCPI-U plus 3%. The annual change in second half SDCPI-U values, as compiled by the U.S. Bureau of Labor Statistics (see www.bls.gov), for the prior year period was from 242.185 to 243.655 (a 0.61% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rates contained within this Assessment Engineer's Report have been increased by 3.61%.

Method of Apportionment

Estimated Benefit of the Improvements

The improvements maintained by the District are primarily located along the major north-south arterial transportation corridor in the area. The Transportation Element and the Carroll Canyon Master Plan Element of the Mira Mesa Community Plan, and the general policy recommendations found in the City's General Plan establish several goals and guidelines for the planned development of the community. The improvements to be maintained by the District are consistent with these goals.

The major and arterial streets within the District are the backbone of the street network within the community. These streets serve as the

primary access routes for inter-community and intra-community trips and thus serve all parcels within the District. All parcels within the District benefit from the enhanced Camino Santa Fe transit corridor through increased community aesthetics and greater public safety.

As indicated on Exhibit A, the District has been divided into two zones for benefit apportionment purposes. The two zones are generally described as follows:

- ◆ **Zone 1** includes that portion of the District immediately adjacent to the recently improved section of Camino Santa Fe as well as those parcels along Miratech Drive and Summers Ridge Road.
- ◆ **Zone 2** includes all of the remaining parcels within the District boundaries.

Apportionment Methodology

The total cost of the maintenance of District improvements will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all the parcels in the District.

EBUs for each parcel have been determined as a function of three factors – a Land Use Factor, a Benefit Factor and a Location Factor – related as shown in the following equation:

$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$
--

Each of these factors is discussed below. Parcels determined to receive no benefit from the District improvements have been assigned zero EBUs.

Land Use Factor

Since the proposed District improvements are primarily associated with the Transportation Element of the General and Community Plans, trip generation rates for various land use categories (as previously established by the City's Transportation Planning Section) have been used as the primary basis for the development of Land Use Factors. While these trip generation rates address vehicular trips, they are also considered to approximately reflect

relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

Trip generation rates provide the required nexus and basis for assigning relative proportionality of potential benefit to the various land use/zoning classifications (as defined by the City's Municipal Code) within the District. Land use/zoning classifications have been grouped with averaged trip generation rates assigned to establish the Land Use Factors as shown in Table 1.

TABLE 1: Land Use Factors

Land Use/Zoning	Land Use Factor ⁽¹⁾
Commercial – Office & Retail	45.0 per acre
Mining	7.5 per acre
Open Space (designated)	0 per acre
Small Commercial	30.0 per acre
Vacant	0 per acre

⁽¹⁾ Proportional to trip generation rates contained in the City of San Diego *Trip Generation Manual* dated May 2003.

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is often permitted, these activities are allowed only to the extent they are consistent with the primary purpose of natural preservation. Since this land is essentially “unused” in the customary terms of land use (which relate to human use and development), the trip generation rate is zero. Therefore, the designated Open Space itself receives no benefit from the District improvements and has been assigned a Land Use Factor of zero.

Benefit Factor

The Land Use Factor described above establishes a proportionality of relative intensity of use (or potential use) for the various parcels of land within the District. It does not address the relationship of this use to the specific improvements to be maintained by the District. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the

subcomponents of the benefits of District improvements may include some or all of the following: public safety, view corridors and aesthetics, enhancement of commercial identity, drainage corridors, and recreational potential. The components used for this District are public safety and aesthetics.

As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific improvements maintained by the district, Benefit Factors will generally vary from one district to another, based on the specific character and nature of the applicable land uses and improvements being maintained.

For a given land use, the overall Benefit Factor is equal to the sum of the subcomponent values. If a land use category receives no benefit from a subcomponent, then a value of zero is assigned to that subcomponent. A composite Benefit Factor of 1.0 indicates that full benefit is received. A value less than 1.0 indicates that less than full benefit is received.

The applicable benefit subcomponents and resultant composite Benefit Factors determined for the various Land Use/Zoning categories within this District are as shown in Table 2.

TABLE 2: Benefit Factors by Land Use

Land Use/Zoning	Public Safety (Max. 0.3)	Aesthetics (Max. 0.7)	Benefit Factor (Max. 1.0)
Commercial – Office & Retail	0.3	0.3	0.6
Mining	0.3	0	0.3
Open Space (designated)	0.3	0	0.3
Small Commercial	0.3	0.3	0.6
Vacant	0.3	0	0.3

Public Safety. All land uses are considered to receive the maximum available benefit from the public safety aspect of the District improvements. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

Aesthetics. The degree of benefit received from the aesthetic

qualities of landscaped and hardscaped roadway medians, rights-of-ways, vegetated sloped, and open space maintained by the District varies among land use categories. Generally, by nature of their use, residential lands receives the greatest benefit from the reduced traffic congestion, reduced noise levels, greater separation from traffic and generally more tranquil environment provided by landscaped and hardscaped roadway medians and rights-of-way. Commercial and institutional uses, on the other hand, often thrive on higher densities, greater traffic access, and a higher level of activity within the vicinity of their enterprises. These uses, accordingly, receive a lesser degree of benefit from the general insulation and separation provided by the aesthetic elements of District improvements.

Lands in the Open Space, Vacant, and Mining categories are considered to receive no significant benefit from the aesthetic elements of District improvements, as enhanced aesthetic quality of other lands in their vicinity does not affect their function, use, or value.

Location Factor

The Location Factor accounts for the fact that not all parcels within the District receive the same benefit due to the location of the improvements or extent of the services provided. Location Factors may vary between zero (no benefit) and one (full benefit) as shown in Table 3.

TABLE 3: Location Factor by Zone

Land Use/Zoning	Location Factor
Zone 1	1.0
Zone 2	0.1

Zone 1 is established as the base zone and is assigned a Location Factor of 1.0. Zone 2 parcels receive a lesser degree of benefit in proportion to the parcels in Zone 1. Accordingly, Zone 2 has been assigned a Location Factor of 0.1.

Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Shown below are sample EBU calculations for several common land uses found in the District.

- **10-acre Mining Property in Zone 1**

$$\text{EBUs} = 10.00 \text{ acres} \times 7.50 \times 0.30 \times 1.00 = 22.50 \text{ EBUs}$$

- **5-acre Commercial Property in Zone 2**

$$\text{EBUs} = 5.00 \text{ acres} \times 45.00 \times 0.60 \times 0.10 = 13.50 \text{ EBUs}$$

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$$

Based on the above formula, the EBUs calculated for each property, can be found in the Assessment Roll (Exhibit C).

Summary Results

The District Boundary is presented in Exhibit A.

An estimate of the costs of the improvements provided by the District is included as Exhibit B to this report.

The assessment methodology utilized is as described in the text of this report. Based on this methodology, the EBUs and Fiscal Year 2011 District assessment for each parcel were calculated and are shown in the Assessment Roll (Exhibit C).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number on the Assessment Roll and the Boundary Map and Assessment Diagram referenced herein. The net assessment for each parcel for Fiscal Year 2011 can be found on the Assessment Roll.

ASSESSMENT ENGINEER'S REPORT ASSESSMENT ROLL

The undersigned, pursuant to the "Maintenance Assessment Districts Ordinance" (Division 2, Article 5, Chapter VI beginning at Section 65.0201 of the San Diego Municipal Code), the "Landscaping and Lighting Act of 1972" (Part 2, Division 15 of the California Streets and Highways Code), applicable provisions of "Proposition 218" (Article XIID of the California Constitution), and the "Proposition 218 Omnibus Implementation Act" (California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as "Assessment Law"), does hereby submit the following:

1. Pursuant to the provisions of Assessment Law and the Resolution of Intention, we have assessed the costs and expenses of the works of improvement (maintenance) to be performed in the Assessment District upon the parcels of land in the Assessment District benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Boundary Map & Assessment Diagram on file in the Maintenance Assessment Districts Section of the Park and Recreation Department of the City of San Diego. A copy of the Boundary Map is included in the Assessment Engineer's Report as Exhibit A.
2. The Assessment Diagram included in this report shows the Assessment District, as well as the boundaries and dimensions of the respective parcels and subdivisions of land within the Assessment District, the same as existed at the time of the passage of the Resolution of Intention, each of which subdivisions of land or parcels or lots respectively have been given a separate number upon the Assessment Diagram and in the Assessment Roll (Exhibit C).
3. By virtue of the authority contained in said Assessment Law, and by further direction and order of the legislative body, we hereby make the following assessment to cover the costs and expenses of the works of improvement (maintenance) for the Assessment District based on the costs and expenses as set forth in the Assessment Engineer's Report.

For particulars as to the individual assessments and their descriptions, reference is made to the Assessment Roll (Exhibit C) attached hereto.
