

THE CITY OF SAN DIEGO

## REPORT TO THE PLANNING COMMISSION

**DATE ISSUED:** July 10, 2008 **REPORT NO. PC-08-094**

**ATTENTION:** Planning Commission, Agenda of July 17, 2008

**SUBJECT:** 4611 OHIO STREET TENTATIVE MAP – PROJECT NO. 83623  
PROCESS FOUR

**OWNERS:** Ohio 4611 L.P., Matthew Browar, Sole Partner (Attachment 8)

**APPLICANT:** Sterling Land Services

### SUMMARY

**Issue(s):** Should the Planning Commission approve a Tentative Map for the conversion of 36 existing residential units to condominiums at 4611 Ohio Street, within the Greater North Park Community Plan Area?

#### Staff Recommendation:

1. **Approve** Tentative Map No. 263258; and
2. **Approve** waiver to the requirement to underground existing overhead utilities.

**Community Planning Group Recommendation:** On January 17, 2006, the Greater North Park Planning Committee voted 11-0-1 to recommend denial of the project as detailed on Page Three of this report (Attachment 7).

**Environmental Review:** This project is exempt from environmental review pursuant to Article 19, Section 15301(k), Existing Facilities, of the California Environmental Quality Act (CEQA). This project is not pending an appeal of the environmental determination. The environmental exemption determination for this project was made on September 22, 2005, and the opportunity to appeal that determination ended October 14, 2005.

**Fiscal Impact Statement:** None with this action. All costs associated with the processing of this project are paid by the applicant.

**Code Enforcement Impact:** None with this action.

**Housing Impact Statement:** With the proposed conversion of 36 existing apartments to condominiums there would be a loss of 36 rental units and a gain of 36 for-sale units. The project is subject to the current inclusionary housing and tenant relocation regulations. This project is required to set aside at least 10 percent of the units as affordable housing.

## **BACKGROUND**

This Tentative Map project is subject to the condominium conversion regulations that became effective June 13, 2006, with the exception of the parking regulations, based on the City Council's specific adoption language for the "new" condominium conversion regulations. At the June 13, 2006, hearing, the City Council adopted regulations for additional requirements for landscaping, a building conditions report, onsite inclusionary housing, noticing and parking. Based on the adopted language and project timing, all of these new regulations apply to this project, with the exception of the parking regulations. Accordingly, this project has been reviewed against the new regulations and this project can proceed to its discretionary hearing.

The 0.75-acre site is located at 4611 Ohio Street in the MR-800B Zone of Mid-City Communities Planned District, the Transit Area Overlay Zone, the FAA Park 77 Noticing area, and the North Park Redevelopment Project area, within the Greater North Park Community Plan area (Attachment 3). The site is bounded on all sides by multi-family residential development.

The site is presently developed with one, two-story, 36-unit, multi-family structure consisting of 3 studio units, 19 one-bedroom units and 14 two-bedroom units. When the existing improvements were constructed in 1972, the site was zoned R-4 and would have allowed for 82 dwelling units. The project conforms with the current MR-800B density requirement of one unit per 600 square feet (lots over 15,000 sq/ft) which would allow for 54 units on the project site.

There are 36 off-street parking spaces provided onsite, 14 of which are accessed from Ohio Street, nine of which are accessed from Madison Avenue and 12 of which are accessed from the alley. The 36 spaces provided conforms with the requirement of one space per unit that was in effect at the time of construction. The project also conforms with the new condominium conversion parking regulations, which would require 31 spaces, although as discussed above these new parking regulations do not apply to this project.

The development complies with the zoning and development regulations in effect at the time of construction and no Building or Zoning code violations have been recorded against the property. The project has previously-conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1, of the Land Development Code.

## **DISCUSSION**

### **Project Description:**

The project proposes a Tentative Map for the subdivision of a 0.75-acre site into one lot to convert 36 existing dwelling units into condominiums (Attachment 5). Section 125.0410 of the San Diego Municipal Code (SDMC) requires that a Tentative Map be processed for the subdivision of land.

According to SDMC Sections 125.0440 and 125.0444, *Findings for Tentative Maps and for Condominium Conversions*, the decisionmaker may approve a Tentative Map or a Vesting Tentative Map for the purposes of the conversion of residential property into a condominium project if the decision maker finds that the proposed conversion complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and determined that it complies with both the Subdivision Map Act and the San Diego Municipal Code.

**Community Planning Group and Neighborhood Recommendations:**

On January 17, 2006, the Greater North Park Planning Committee voted 11-0-1 to recommend denial of the project (on consent) for the following reasons (Attachment 7):

1. There were no renderings presented at the meeting. *Although it is recognized that the Community Planning Group requested renderings, it is not a requirement of the City's Tentative Map Process.*
2. The building does not conform with the Greater North Park Community Plan. *The project has previously-conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1, of the Land Development Code and the development complies with the zoning and development regulations in effect at the time of construction.*
3. There is tandem parking in the front. *There are 36 legal spaces on the site as required, with the front spaces counted as single spaces, not tandem spaces.*

**Project-Related Issues:**

All condominium conversion projects not yet heard by July 25, 2006, must conform with the current regulations regarding: inclusionary housing, tenant relocation benefits, the provision of a building conditions report, conformance with landscape regulations, and conformance with noticing requirements. This project is not required to conform with the new parking regulations for condominium conversions, based on specific language adopted by the City Council.

The requested conversion of these residential units to condominiums represents primarily a change in ownership. The applicant has certified that the required 60-day Notices of Intent to Convert to Condominiums were provided to the tenants on May 6, 2005 (Attachment 11).

**Undergrounding of Existing Utilities**

San Diego Municipal Code Section 144.0240 allows the subdivider to apply for a waiver from the requirement to underground the existing overhead utilities within the boundary of the subdivision or within the abutting public rights of way. City staff has determined the undergrounding waiver request qualifies under the guidelines of Council Policy 600-25, *Underground Conversion of Utility Lines at the Developer's Expense*, Expense in that the conversion involves a short span of overhead facility (less than 600 feet in length), it has been determined that such conversion is not a part of a continuing effort to accomplish a total

undergrounding within a specific street or area, the conversion would represent an isolated undergrounding with a minimum probability of extension in the future, and the conversion is a requirement of a condominium conversion of an existing development and the conversion would not represent a logical extension to an underground facility.

The applicant will be required to underground all existing service to the site per Condition No. 17 of the draft Tentative Map resolution (Attachment 6). The applicant would also be required to underground any new service run to any new or proposed structures within the subdivision per Condition No. 16 of the draft Tentative Map resolution.

The neighborhood currently contains power poles and overhead utilities lines on the alley. The utility lines to these poles extend to adjacent properties along the alley right-of-way. The waiver is being requested for the requirement to underground adjacent utilities serving the surrounding properties. The City's Undergrounding Master Plan for Fiscal Year 2006 designates the site within Block 3GG, and the date for undergrounding has been established for the year 2017 (Attachment 10).

#### Inclusionary Housing Ordinance and Tenant Relocation Benefits Conformance

The project has been conditioned to require the Subdivider conform with the City's Inclusionary Housing Ordinance (Chapter 14, Article 2, Division 13 of the Land Development Code) and demonstrate conformance with the Municipal Code provisions for Tenant Relocation Benefits (Chapter 14, Article 4, Division 5) to the satisfaction of the City Manager and the Housing Commission, prior to the recordation of the Final Map.

Condominium conversion projects of twenty or more units are required to satisfy the inclusionary housing requirements on-site in accordance with Section 142.1306 of the San Diego Municipal Code. Prior to the recordation of the Final Map, the Subdivider must enter into an agreement with the San Diego Housing Commission to assure that the 10% of the affordable units are sold at restricted prices to eligible households.

#### Building Conditions Report and Landscape Requirements

In accordance with the current regulations, the applicant provided a Building Conditions Report and Landscape Concept Plan. Both of these documents have been reviewed for conformance with the applicable regulations within Land Development Code (Chapter 14, Article 4, Division 5) and have been accepted by staff as conforming with the regulations.

#### Noticing

The proposed project has been conditioned to conform with all new noticing requirements for condominium conversions.

**Conclusion:**

Staff has reviewed the request for a Tentative Map for the conversion of 36 residential units into condominiums and has found the project to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps. Staff believes the requirement findings can be supported and recommends the Planning Commission approve the project as proposed.

**ALTERNATIVES:**

1. **Approve** Tentative Map No. 263258, with modifications.
2. **Deny** Tentative Map No. 263258, if the findings required to approve the project cannot be affirmed.

Respectfully submitted,

---

Mike Westlake  
Program Manager  
Development Services Department
