

**CITY OF SAN DIEGO
M E M O R A N D U M**

DATE: March 30, 2006

TO: Planning Commission

FROM: Vena Lewis, Development Project Manager, Development Services
Department

SUBJECT: Miramar Trunk Sewer, Project No. 33120 - Planning Commission Report
No. PC-06-055

At the March 16, 2006, Planning Commission public hearing the City Attorney requested a continuance due to concerns that the proposed project mitigation measures relating to the archeological resources were inconsistent with the City's Historical Resources Guidelines and State law. The City Attorney stated that additional time was needed to evaluate the proposed mitigation measures in light of those guidelines and State law. Commissioner Chase also motioned to continue the project in order to receive additional information for review. The project was continued to the March 30, 2006 Planning Commission docket.

The additional information requested by Commissioner Chase has been provided and distributed to all of the Commissioners. However, staff is requesting the project be continued again from the March 30th agenda to the Planning Commission April 6th agenda, in order to give staff additional time to respond to the City Attorney's evaluation.

Sincerely,

Vena Lewis
