

**CITY OF SAN DIEGO  
M E M O R A N D U M**

DATE: December 2, 2005

TO: Members of the Planning Commission

FROM: Paul Godwin Development Project Manager

SUBJECT: PROJECT NO. 70445 – 4075 IDAHO TENTATIVE MAP

---

The above referenced project, the 4075 Idaho Tentative Map, was originally scheduled for a public hearing before the Planning Commission on November 10, 2005.

This item was continued indefinitely after the City Attorney's opinion regarding use of categorical exemptions from CEQA for condominium conversions was provided during the course of the Planning Commission Meeting.

At the November 17, 2005, hearing, after a discussion and public testimony, the Planning Commissioners indicated their agreement that requests for Tentative Maps for condominium conversions which were not pending appeal of the environmental determination could proceed through the Planning Commission hearing process.

Based on the above information, the 4075 Idaho Tentative Map project has been rescheduled for the December 8, 2005, Planning Commission hearing. Accordingly, a Revised Notice of Public Hearing was distributed as required on November 23, 2005.

There has been no appeal of the environmental determination filed for this project. The environmental exemption determination for this project was made on May 17, 2005, and the opportunity to appeal that determination ended May 31, 2005.

Paul Godwin  
Development Project Manager  
Development Services Department

**DATE ISSUED:** November 3, 2005 **REPORT NO. PC-05-310**

**ATTENTION:** **Planning Commission, Agenda of November 10, 2005**

**SUBJECT:** **4075 IDAHO TENTATIVE MAP - PROJECT NO. 70445, PROCESS FOUR**

**OWNER:** Idaho 4075, LLC, Mark Stuart, John Carl and John Scott, Members

**APPLICANT:** Burkett and Wong Engineers

**SUMMARY**

**Issue(s):** Should the Planning Commission approve a Tentative Map for the conversion of six (6) existing residential apartment units into condominiums and waive the requirement to underground existing overhead utilities at 4075 Idaho Street, in the MR-1250B zone of the Mid-City Communities Planned District, within the Greater North Park Community Plan area?

**Staff Recommendation:**

1. **Approve** Tentative Map No. 213916 and
2. **Approve** waiver to the requirement for the undergrounding of existing overhead utilities.

**Community Planning Group Recommendation:** On July 19, 2005, the Greater North Park Community Planning Committee voted 11-0-0 to recommend approval of the project with their five standard conditions (Attachment 7).

**Environmental Review:** This project is exempt from environmental review pursuant to Article 19, Section 15301(k), Existing Facilities, of the California Environmental Quality Act (CEQA).

**Fiscal Impact:** None associated with this action. All costs associated with the processing of this project are paid by the applicant.

**Code Enforcement Impact:** None with this project.

**Housing Impact Statement:** With the proposed conversion of six existing apartments to condominiums, there would be a loss of six rental units and a gain of six for-sale units. This condominium conversion project was deemed complete on May 11, 2005, and is therefore subject to the new regulations regarding inclusionary housing and tenant relocation assistance. The project has been conditioned to require the subdivider to pay an Inclusionary Affordable Housing In-Lieu Fee of \$10,924 based on a \$1.75 fee per residential square foot, pursuant to the Affordable Housing Requirements of the City's Inclusionary Housing Ordinance.

## **BACKGROUND**

The 0.16-acre site is located at 4075 Idaho Street (Attachment 1), between Lincoln Avenue and Polk Avenue, in the MR-1250B zone of the Mid-City Communities Planned District, within the Greater North Park Community Plan (Attachment 3). The MR-1250B zone is intended to provide for multi-family development compatible with the development pattern of the existing neighborhood. The Greater North Park Community Plan designates the site for medium-high density residential development at 30-35 dwelling units per acre. The site is presently developed with a two story multi-family structure which was constructed in 1968. The building contains four two bedroom units and two three-bedroom units, for a total of six units. The site is currently developed with six surface parking spaces and a pool located at the rear of the property. The pool would be removed and three additional parking spaces and a landscape planter area would be provided. Of the nine parking spaces to be provided, four would be located at the front of the building along the Idaho Street and five spaces would be located at the rear of the property along the alley frontage. The parking provided complies with the requirement of one space per unit that was in effect when the project was constructed in 1968. Utilizing current development standards, eleven parking spaces would be required. The project is surrounded by multi-family residential development on the north, south and east and a school to the west.

The site was incorporated into the MR-1250B zone of the Mid-City Communities Planned District in November 1987. The site was zoned R-4 when the project was constructed in 1968, which allowed the construction of the six units onsite. Under current development standards, five units could be built on the subject property. Although the existing six units exceeds this amount, the project has previously conforming rights, to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code. The development complies with the zoning and development regulations in effect at the time of construction and there are no active Building or Zoning Code violations for the subject property.

## **DISCUSSION**

### **Project Description:**

The project proposes a Tentative Map for the subdivision of a 016 -acre site to convert six existing dwelling units into condominiums (Attachment 5). The applicant is also requesting that the requirement for the undergrounding of the existing overhead utilities be waived. Section 125.040

of the San Diego Municipal Code (SDMC) requires that a Tentative Map be processed for the subdivision of land. According to SDMC Sections 125.0440 and 125.0444, *Findings for Tentative Maps and for Condominium Conversions*, the decisionmaker may approve a Tentative Map for the purposes of the conversion of residential property into a condominium project if the decisionmaker finds that the proposed conversion complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and determined that it complies with both the Subdivision Map Act and the San Diego Municipal Code.

#### Undergrounding Waiver Request

San Diego Municipal Code Section 144.0240 allows the subdivider to apply for a waiver from the requirement to underground the existing overhead utilities within the boundary of the subdivision or within the abutting public rights of way. City staff has determined the undergrounding waiver request qualifies under the guidelines of Council Policy 600-25, *Underground Conversion of Utility Lines at the Developer's Expense*, in that the conversion is a requirement of a condominium conversion of an existing development and the conversion involves a short span of overhead facilities less than a full block in length and the conversion would not represent a logical extension to an undergrounding facility. The applicant would be required to underground any new service run to any new or proposed structures within the subdivision per Condition No. 4 of the draft Tentative Map resolution (Attachment 6).

The site is served by existing overhead utility lines which are connected to power poles located along the alley right-of-way at the rear of the property. One power pole, which serves multiple properties, is located at the northeast corner of the site. The City's Undergrounding Master Plan for Fiscal Year 2006 designates the site within Block 3R, which is scheduled for funding in fiscal year 2016 (Attachment 10).

#### **COMMUNITY PLANNING GROUP RECOMMENDATION**

On July 19, 2005, the Greater North Park Community Planning Committee voted 11-0-0 to approve the project with five conditions, which are listed below (Attachment 7).

1. *Provide New and Appropriate Landscaping as Needed:* The project would retain the existing planter area located at the front of the site along Idaho Street and would add an additional planter at the rear of the property in a portion of the area to be created by the removal of the pool.
2. *Maximize On-Site Parking:* The existing project provides six surface parking spaces, which complies with the requirement of one space per unit that was in effect when the project was constructed in 1968. The project would remove the pool area and provide an additional three spaces in its place, increasing the off-street parking to nine spaces
3. *Right of First Refusal:* This is a standard condominium conversion Tentative Map condition. Please see Condition No. 8 of the Resolution (Attachment 6).

4. *Save Historic sidewalk stamps and scoring:* The Land Development Code requires the preservation of historic sidewalk markers and has been included as part of Condition No. 14 of the Resolution (Attachment 6).
5. *Deny request to waive undergrounding of utilities:* The applicant's request to waive the requirement to underground existing overhead utilities was reviewed by Engineering staff, who determined that the waiver request meets the requirements of City Council Policy 600-25.

### **PROJECT-RELATED ISSUES**

The requested conversion of these residential units to condominiums represents primarily a change in ownership. The applicant has certified that the required 60-day Notice of Intent to Convert to Condominiums was provided to the tenants on December 21, 2004 (Attachment 11). All condominium conversion projects Deemed Complete on or after February 7, 2004 must conform with the new regulations regarding inclusionary housing and tenant relocation benefits adopted by the City Council on March 15, 2004. This proposed project was Deemed Complete on May 11, 2006, and is therefore subject to these new regulations.

With their application submittal, the applicant has indicated their decision to pay the in-lieu fee to satisfy these requirements as allowed by these regulations. The project has been conditioned to require the subdivider pay an Inclusionary Affordable Housing In-Lieu Fee of \$10,924, based on a \$1.75 fee per residential square footage, pursuant to the Affordable Housing Requirements of the City's Inclusionary Housing Ordinance (Chapter 14, Article 2, Division 13 of the Land Development Code), and demonstrate conformance with the Municipal Code provisions for Tenant Relocation Benefits (Chapter 14, Article 4, Division 5), to the satisfaction of the City Manager and the Housing Commission, prior to the recordation of the Final Map.

### **CONCLUSION**

Staff has reviewed the request for a Tentative Map for the conversion of six residential units into condominiums and the request to waive the requirements of the undergrounding of existing overhead utilities, and has found the project to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps and Council Policy 600-25 regulating undergrounding of existing overhead utilities. Staff believes the required findings can be supported and recommends the Planning Commission approve the project as proposed.

### **ALTERNATIVES**

1. **Approve Tentative Map No. 213916 with modifications.**
2. **Deny Tentative Map No. 213916 if the findings required to approve the project cannot be affirmed.**

**Respectfully submitted,**
