

DATE ISSUED: May 12, 2006

REPORT NO. PC-06-065

ATTENTION: **Planning Commission, Agenda of May 18, 2006**

SUBJECT: 3812 KEATING TENTATIVE MAP – PROJECT NO. 76069
PROCESS FOUR

OWNERS: JJ GALT, INC. (Attachment 8)

APPLICANT: Burkett & Wong Engineers

SUMMARY

Issue: Should the Planning Commission approve a Tentative Map for the conversion of 13 existing residential units to condominiums at 3812 Keating Street, within the Uptown Community Plan Area?

Staff Recommendation:

1. **Approve** Tentative Map No. 234392and
2. **Approve** waiver to the requirement to underground existing overhead utilities.

Community Planning Group Recommendation: The Uptown Planning Committee voted 8-3-1 to recommend approval of the project on November 1, 2005, with their standard recommendations as detailed within this report (Attachment 7).

Environmental Review: This project is exempt from environmental review pursuant to Article 19, Section 15301(k), Existing Facilities, of the California Environmental Quality Act (CEQA). This project is not pending an appeal of the environmental determination. The environmental exemption determination for this project was made on July 22, 2005, and the opportunity to appeal that determination ended August 12, 2005.

Fiscal Impact Statement: None with this action. All costs associated with the processing of this project are paid by the applicant.

Code Enforcement Impact: None with this action.

Housing Impact Statement: With the proposed conversion of 13 existing apartments to condominiums, there would be a loss of 13 rental units and a gain of 13 for-sale units. This condominium conversion project was deemed complete on July 11, 2005, and is therefore subject to the new regulations regarding Inclusionary housing and tenant relocation assistance.

BACKGROUND

The 0.46-acre site is located at 3812 Keating Street in the MR-1500 Zone of the Mid City Communities Planned District, within the Uptown Community Plan Area (Attachment 3). The site is presently developed with one, two-story structure containing 4, two-bedroom units and 9, one-bedroom units. Thirteen off-street parking spaces are provided on the site: all are accessed from Sutter Street. The site is bounded on all sides by multi-family residential uses.

The existing improvements were constructed in 1960. At the time the site was zoned R-3 and would have allowed for 20 dwelling units. Parking requirements effective in 1960 required 13 parking spaces to be provided for the 13 dwelling units. The development complied with the zoning and development regulations in effect at the time of construction and no Building or Zoning code violations have been recorded against the property.

The project does conform with the current density requirement of one unit per 1500 square feet in the MR-1500 Zone which would allow for 13 units. Under current criteria, 21 off-street parking spaces would be required. The project has previously-conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.

DISCUSSION

Project Description:

The project proposes a Tentative Map for the subdivision of a 0.46-acre site to convert 13 existing dwelling units into condominiums on two existing lots (Attachment 5). The applicant is also requesting that the requirement for the undergrounding of existing overhead utilities be waived.

Section 125.0410 of the San Diego Municipal Code (SDMC) requires that a Tentative Map be processed for the subdivision of land. According to SDMC Sections 125.0440 and 125.0444, *Findings for Tentative Maps and for Condominium Conversions*, the decisionmaker may approve a Tentative Map for the purposes of the conversion of residential property into a condominium project if the decisionmaker finds that the proposed conversion complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and determined that it complies with both the Subdivision Map Act and the San Diego Municipal Code.

Undergrounding of Existing Utilities

San Diego Municipal Code Section 144.0240 allows the subdivider to apply for a waiver from the requirement to underground the existing overhead utilities within the boundary of the subdivision or within the abutting public rights of way. City staff has determined the undergrounding waiver request qualifies under the guidelines of Council Policy 600-25, *Underground Conversion of Utility Lines at the Developer's Expense*, the conversion involves a short span of overhead facility (less than 600 feet in length) and the conversion would not represent a logical extension to an underground facility.

The applicant will be required to underground all existing service to the site per Condition No. 25 of the draft Tentative Map resolution (Attachment 6). The applicant would also be required to underground any new service run to any new or proposed structures within the subdivision per Condition No. 4 of the draft Tentative Map resolution (Attachment 6).

The neighborhood currently contains power poles and overhead utilities lines along Neale Street. The pole closest to this property, which carries the line serving this site, is on the south side of Neale Street about 200' west of this property. As indicated above, all utilities serving this property will be required to be undergrounded. The waiver is being requested for the requirement to underground adjacent utilities serving the surrounding properties. The City's Undergrounding Master Plan for Fiscal Year 2006 designates the site within Block 3U, and the date for undergrounding has been established for the year 2013 (Attachment 10).

Community Planning Group and Neighborhood Recommendations:

The Uptown Planning Committee voted 8-3-1 to recommend approval of the project on November 1, 2005, with their standard recommendations as detailed within this report (Attachment 7):

1. No waiver or exemption from state and local requirements that existing utility services for this property be placed underground be granted. Placing of all overhead utility services underground is a critical infrastructure need in our community, and is typically paid for by the developer. Exceptions may be made for alleyway above ground utilities, or any above ground utilities that are firmly scheduled to be placed underground in the next five years. *Based on the preceding information regarding the undergrounding of the existing utilities, staff continues to support the undergrounding waiver request.*
2. The first right of refusal to purchase a unit be given to current tenants. *The Tentative Map Resolution has been conditioned to provide the right of first refusal to the existing tenants, as required by the State Map Act, which is a standard condition for all conversion projects.*
3. Historic sidewalk stamps and scoring of existing sidewalks be preserved, and any replacement or new sidewalks be constructed so that the scoring matches the existing sidewalk scoring, color, texture and type of contractor date stamp. *The Land*

Development Code already requires the preservation of historic sidewalk stamps and scoring.

4. Landscaping shall be brought into conformance with the current Land Develop Code regulations for the City of San Diego, including the placing of street trees at required locations as indicated in the San Diego Street Design Manual. *There is no construction proposed with this project, therefore no additional landscaping is required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.*
5. Current on street parking will be preserved, and where feasible, the provision of new parking should be provided both onsite and offsite. The latter goal can be accomplished by minimizing curb cuts, and other innovative measures. *There is no construction proposed with this project, therefore no additional parking is required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the LandDevelopment Code.*
6. Reworking of driveway to make crossbar conform to ADA. *There is no construction proposed with this project, therefore parking modifications are required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.*
7. Minimize driveway angle. *There is no construction proposed with this project, therefore parking modifications are required. As indicated above, the project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code.*

Project-Related Issues:

The requested conversion of these residential units to condominiums represents primarily a change in ownership. The applicant has certified that the required 60-day Notices of Intent to Convert to Condominiums were provided to the tenants July 25, 2005 (Attachment 11).

All condominium conversion projects Deemed Complete on or after February 7, 2004, must conform with the new regulations regarding Inclusionary housing and tenant relocation benefits adopted by the City Council on March 15, 2004. This proposed project was Deemed Complete on July 7, 2005, and is therefore subject to these new regulations. The project has been conditioned to require the subdivider conform with the City's Inclusionary Housing Ordinance (Chapter 14, Article 2, Division 13 of the Land Development Code) and demonstrate conformance with the Municipal Code provisions for Tenant Relocation Benefits (Chapter 14, Article 4, Division 5) to the satisfaction of the City Manager and the Housing Commission, prior to the recordation of the Final Map. The applicant has elected to pay the Inclusionary Affordable Housing In-Lieu Fee of \$18,162.50 (7,265 square feet x \$2.50) pursuant to the Affordable Housing Requirements of the City's Inclusionary Housing Ordinance (Chapter 14, Article 2, Division 13 of the Land Development Code).

Conclusion:

Staff has reviewed the request for a Tentative Map for the conversion of 13 residential units into condominiums and has found the project to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps. Staff believes the requirement findings can be supported and recommends the Planning Commission approve the project as proposed.

ALTERNATIVES

1. **Approve Tentative Map No. 234392with modifications.**
2. **Deny Tentative Map No. 234392if the findings required to approve the project cannot be affirmed.**

Respectfully submitted,

Mike Westlake
