

DATE ISSUED: January 4, 2007 REPORT NO. PC-07-005

ATTENTION: Planning Commission, Agenda of January 11, 2007

SUBJECT: 1327 PACIFIC BEACH DRIVE TENTATIVE MAP - PROJECT NO.
78142 PROCESS 4

**OWNER/
APPLICANT:** M. S. Browar Family Trust

SUMMARY

Issue(s): Should the Planning Commission approve a Coastal Development Permit and Tentative Map to convert thirty-two existing apartment units into residential condominiums located at 1327-1335 Pacific Beach Drive, with a request to waive the requirement to underground existing overhead utilities?

Staff Recommendation:

1. APPROVE Coastal Development Permit No. 245571; and
2. APPROVE Tentative Map No. 242528 and the request to waive the requirement to underground existing overhead utilities.

Community Planning Group Recommendation: On January 3, 2006, the Pacific Beach Community Planning Committee voted 7-6-0 to recommend approval of the proposed project. There was some concern regarding the off-street parking requirement.

Environmental Review: The project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, 15301 (k), as "Existing Facilities". This project is not pending an appeal of the environmental determination. The exemption determination for this project was made on August 24, 2005; and the opportunity to appeal that determination ended on September 7, 2005.

Fiscal Impact Statement: All costs associated with processing of this application are paid for by the applicant.

Code Enforcement Impact: None.

Housing Impact Statement: The proposed project is the conversion of thirty-two existing apartment units into condominiums. There would be a loss of thirty-two rental units and a gain of thirty-two for-sale units. This Tentative Map project is required to comply with the inclusionary housing requirements and tenant relocation assistance program, which are conditions of the proposed Tentative Map (Attachment 8).

BACKGROUND

The 24,989 square foot site is located at 1327-1335 Pacific Beach Drive in the RM-2-4 Zone, Coastal Overlay Zone (non-appealable), Beach Parking Impact Overlay Zone and Coastal Height Overlay Zone. The development is located on three parcels and designated Multi-Family Residential by, and located within, the Pacific Beach Community Plan area (Attachment 2). The surrounding area is developed with multi-family residential and some intermittent single family development. The proposed subdivision constitutes, by definition, Coastal Development, which pursuant to the Land Development Code (Section 126.0702) requires a Coastal Development Permit. A Tentative Map is required, by the Land Development Code (Section 125.0410), for the proposed division of the property into thirty-two residential condominium dwelling units.

The existing development is a two -story, thirty-two dwelling unit apartment complex that was constructed in 1960. At the time the property was developed, the approved construction met all then current regulations. The apartment building includes four, one-bedroom units; eight, two bedroom units and twenty, studio units, ranging in size from approximately 450 square feet to 750 square feet each. The original development provided thirty-two parking spaces.

No Building or Zoning Code violations are recorded against the property. The project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code. If this property were vacant today, under the current RM-2-4 Zone development regulations, up to fourteen residential dwelling units could be developed.

DISCUSSION

Project Description:

The project proposes to convert the existing residential complex, made up of thirty-two residential apartments, into thirty-two residential condominium dwelling units. Utilities are located above ground in the right-of-way of the street at the front of the property, along Pacific Beach Drive. The apartment complex was constructed in 1960 and consists of two, two-story, concrete and concrete block buildings. No physical changes to the development site are proposed or will occur should the Planning Commission action be to approve the application. The project has a total of thirty-two parking spaces, eleven located off the street and the other twenty-one between the complex and La Palma Street to the south. During the project's review, City Staff determined that the existing structure was in conformance with the development codes in effect at the time.

Undergrounding Waiver Request:

The project site is located in Block 2-U of the City's Undergrounding Master Plan and is yet to be scheduled for undergrounding by City Council at this time (Attachment 13). San Diego Municipal Code Section 144.0240, allows the subdivider to apply for a waiver of the requirement to underground the existing overhead utilities within the boundary of the subdivision, or within the abutting public rights-of-way. City staff has determined the undergrounding waiver request qualifies under the Guidelines of Council Policy 600-25, *Undergrounding Conversion of Utility Lines at the Developers Expense*, in that it involves a short span of under 600-feet, would not represent a logical extension to an undergrounding facility and is a condominium conversion application. The applicant would be required to underground any new service run to any new or proposed structures within the subdivision and all onsite utilities serving the subdivision will be undergrounded as a condition of the Tentative Map (Attachment 8). If the requested waiver of undergrounding is not approved, the applicant would have to relocate one power pole further west along Pacific Beach Drive and the power pole to the east would remain as is.

Project-Related Issues:

All condominium conversion projects deemed complete on or after February 7, 2004, must conform to the regulations regarding Inclusionary Housing, Coastal Affordable Housing and Tenant Relocation Benefits adopted by the City Council on March 15, 2004. Conditions Nos. 11, and 12 of the draft Tentative Map Resolution (Attachment 8) require compliance with this ordinance. In order to meet this requirement the applicant has elected to pay the in-lieu fee for Coastal Affordable Housing, which is calculated to be \$114 000.00.

Conclusion:

A Coastal Development Permit, Tentative Map and Waiver of Undergrounding for a Condominium Conversion is a Process Four, Planning Commission decision pursuant to San Diego Municipal Code Sections 126.045 and 125.0430. A Tentative Map for Condominium Conversion may be approved if the decision maker finds that the proposed division of land complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and found it to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps and land use policies. Staff has determined that the required findings can be made as the project meets the applicable San Diego Municipal Code regulations and requirements. Staff recommends approval of the project as proposed.

The project site is located within the Coastal Overlay Zone and not subject to new condominium conversion regulations adopted by the City Council on June 13, 2006, until certified by the California Coastal Commission.

ALTERNATIVES

1. Approve Coastal Development Permit No. 245571 and Tentative Map with Waiver of Undergrounding No. 242528, with modifications.
2. Deny Coastal Development Permit No. 245571 and Tentative Map with Waiver of Undergrounding No. 242528, if the findings required to approve the project cannot be affirmed.

Respectfully submitted,

Mike Westlake
