

**DATE ISSUED:** January 4, 2007                      REPORT NO. PC-07-006

**ATTENTION:** Planning Commission, Agenda of January 11, 2007

**SUBJECT:** 123 HORNBLEND STREET TENTATIVE MAP - PROJECT NO. 80555. PROCESS 4

**OWNER/  
APPLICANT:** M. S. Browar Family Trust

**SUMMARY**

**Issue(s):** Should the Planning Commission approve a Coastal Development Permit and Tentative Map to convert eleven existing apartment units into residential condominiums located at 1237-1239 Hornblend Street, with a request to waive the requirement to underground existing overhead utilities?

**Staff Recommendation:**

1. APPROVE Coastal Development Permit No. 25528 ; and
2. APPROVE Tentative Map No. 251703 and the request to waive the requirement to underground existing overhead utilities.

**Community Planning Group Recommendation:** On January 3, 2006, the Pacific Beach Community Planning Committee voted 13-0-0 to recommend denial of the proposed project. They stated a concern regarding a storage shed located at the rear of the property that encroaches approximately one foot into the public alley.

**Environmental Review:** The project is exempt from the California Environmental Quality Act (CEQA) pursuant to Article 19, 15301 (k), as "Existing Facilities". This project is not pending an appeal of the environmental determination. The exemption determination for this project was made on September 1, 2005; and the opportunity to appeal that determination ended on September 19, 2005.

**Fiscal Impact Statement:** All costs associated with processing of this application are

paid for by the applicant.

**Code Enforcement Impact:** None.

**Housing Impact Statement:** The proposed project is the conversion of eleven existing apartment units into condominiums. There would be a loss of eleven rental units and a gain of eleven for-sale units. This Tentative Map project is required to comply with the inclusionary housing requirements and tenant relocation assistance program, which are conditions of the proposed Tentative Map (Attachment 8).

## **BACKGROUND**

The 6,214 square foot site is located at 123- 1239 Hornblend Street in the RM-2-5 Zone, Coastal Overlay Zone (non-appealable), Coastal Parking Impact Overlay Zone and Coastal Height Overlay Zone. The development is located on two parcels and designated Multi-Family Residential by, and located within, the Pacific Beach Community Plan area (Attachment 2). The surrounding area is developed with a mix of predominately multi-family and some intermittent single family development to the east, south and west, and with commercial to the north. The proposed subdivision constitutes, by definition, Coastal Development, which pursuant to the Land Development Code (Section 126.0702) requires a Coastal Development Permit. A Tentative Map is required, by the Land Development Code (Section 125.0410), for the proposed division of the property into eleven residential condominium dwelling units.

The existing development consist of two structures. A one story, single unit located in the rear portion of the property that was constructed in 1952, and a two-story, ten studio unit structure located on the front portion that was constructed in 1959. At the time the property was developed, the approved construction met all regulations. The apartment complex includes one, two bedroom unit and ten, studio units, ranging in size from approximately 30 square feet to 700 square feet each. The original development provided five parking spaces. The Community Planning Group had an issue with the location of a storage shed that currently encroaches into the public alley at the rear of the property. The draft Tentative Map Resolution (ATTACHMENT 8, Condition No. 16) contains a condition for the shed to be re-located out of the public right-of-way prior to the recordation of the Final Map.

No Building or Zoning Code violations are recorded against the property. The project has previously conforming rights to be maintained as outlined in Chapter 12, Article 7, Division 1 of the Land Development Code. If this property were vacant today, under the current RM-2-5 Zone development regulations, up to four residential dwelling units could be developed.

## **DISCUSSION**

### **Project Description:**

The project proposes to convert the existing residential complex, made up of eleven residential apartments into eleven residential condominium dwelling units. Utilities are located above ground in the right-of-way of the alley at the rear of the property, south of Hornblend Street. The

multi-family design was constructed in 1959 and consists of a two-story, concrete and stucco building at the front and a wood sided building at the rear. No physical changes to the development site are proposed or will occur should the Planning Commission action be to approve the application. The project has a total of five parking spaces located off the street. During the project's review, City Staff determined that the existing structures were in conformance with the development codes in effect at the time.

**Undergrounding Waiver Request:**

The project site is located in Block 2-U of the City's Undergrounding Master Plan and is yet to be scheduled for undergrounding by City Council at this time (Attachment 13). San Diego Municipal Code Section 144.0240, allows the subdivider to apply for a waiver of the requirement to underground the existing overhead utilities within the boundary of the subdivision, or within the abutting public rights-of-way. City staff has determined the undergrounding waiver request qualifies under the Guidelines of Council Policy 600-25, *Undergrounding Conversion of Utility Lines at the Developers Expense*, in that it involves a short span of under 600-feet, would not represent a logical extension to an undergrounding facility and is a condominium conversion application. The applicant would be required to underground any new service run to any new or proposed structures within the subdivision and all onsite utilities serving the subdivision will be undergrounded as a condition of the Tentative Map (Attachment 8). If the requested waiver of undergrounding is not approved, the applicant would have to add two power poles at the rear corners of the property off the alley.

**Project-Related Issues:**

All condominium conversion projects deemed complete on or after February 7, 2004, must conform to the regulations regarding Inclusionary Housing, Coastal Affordable Housing and Tenant Relocation Benefits adopted by the City Council on March 15, 2004. Conditions Nos. 11, and 12 of the draft Tentative Map Resolution (Attachment 8) require compliance with this ordinance. In order to meet this requirement the applicant has elected to pay the in-lieu fee for Coastal Affordable Housing, which is calculated to be \$62,200.00.

**Conclusion:**

A Coastal Development Permit, Tentative Map and Waiver of Undergrounding for a Condominium Conversion is a Process Four, Planning Commission decision pursuant to San Diego Municipal Code Sections 126.045 and 125.0430. A Tentative Map for Condominium Conversion may be approved if the decision maker finds that the proposed division of land complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. Staff has reviewed the proposed condominium conversion and found it to be in conformance with the applicable sections of the San Diego Municipal Code regulating Tentative Maps and land use policies. Staff has determined that the required findings can be made as the project meets the applicable San Diego Municipal Code regulations and requirements. Staff recommends approval of the project as proposed.

The project site is located within the Coastal Overlay Zone and not subject to new condominium

conversion regulations adopted by the City Council on June 13, 2006, until certified by the California Coastal Commission.

**ALTERNATIVES**

1. Approve Coastal Development Permit No. 255428 and Tentative Map with Waiver of Undergrounding No. 251703, with modifications.
2. Deny Coastal Development Permit No. 255428 and Tentative Map with Waiver of Undergrounding No. 251703, if the findings required to approve the project cannot be affirmed.

**Respectfully submitted,**
