

**City of San Diego
Water Department
Water Reuse Study 2005**

Informal Public Opinion Survey

We are interested in your thoughts about recycled water, how it can and should be used in San Diego and its role in our future water supplies.

The information collected from these surveys will not be considered a scientifically valid poll and the information collected will be used only by the Water Reuse Study team. A summary of the information will be included in the final Water Reuse Study report submitted to the San Diego City Council in 2005.

This survey is also available in electronic format on the Water Reuse Study's website at www.sandiego.gov/water/waterreusestudy. Please submit only one, either a paper version or an on-line version. Surveys may not be submitted by persons younger than age eighteen.

1. Why are you interested in this Study? (Select all that apply)

- Water reliability
- Health and science
- Cost of recycled water
- Environmental protection
- Other (please specify) _____

2. How did you hear about this Study? (Select all that apply)

- Newspaper
- E-mail message
- T.V.
- Word of mouth
- Organization (Please specify) _____
- City of San Diego publication or website
- Other (please specify) _____

3. Do you believe that we have enough water to meet our City's needs today?

- Yes
 - No
- Please explain: _____
- _____

4. Do you believe that we will have enough water to meet our City's needs in the future?

- Yes
 - No
- Please explain: _____
- _____

(Survey continued on back)

5. Based on your knowledge or experience, what do you think are the most significant water issues facing San Diego?

6. Based on your current knowledge about recycled water (reclaimed water), do you

believe recycled water should be used for: (Select all that apply)

- watering landscaping along freeways?
- watering golf courses?
- industrial processing?
- agricultural irrigation?
- electronics manufacturing?
- creating recreational lakes?
- watering sports fields and parks?
- watering playgrounds at schools?
- watering in residential common landscape areas?
- residential use that does not include drinking?

7. Recycled water can receive additional advanced treatment beyond the level required for the uses in the previous question. It can then be added to a surface

water reservoir that supplies water directly to a drinking water treatment facility. In general, do you favor using advanced treated recycled water (also known as repurified water) as a source of water for household use, including drinking?

- Yes No

Please explain: _____
