Councilmember Gloria:

I am writing to you today on behalf of Point Loma Nazarene University in regards to the City of San Diego's Medical Marijuana Task Force recommendations. On February 22, 2010, the Linda Vista Planning Group approved the recommendations of the task force with the suggestion that collectives and cooperative dispensaries not be located within a 1,000-foot radius of "colleges and universities" along with schools and other youth facilities.

This addition is necessary to truly accomplish the aims within the task force recommendations. PLNU is not only a campus for 18-22 year old college students. We are often host to junior high and high school camps, visiting perspective college students, church youth groups, musical and theatrical events as well as local elementary school field trips.

We feel that the addition of "colleges and universities" to the 1000-foot buffer around medical marijuana dispensaries is a logical and appropriate zoning requirement, and we ask that you support this addition when the task force recommendations are brought before the City Council.

Please don't hesitate to contact me for additional information.

Positively,

Bob Brower, Ph.D.
President
