

# A Dangerous Intersection Near CDM

*INTERSECTION AT SANTA NELLA PLACE &  
CARMEL PARK DRIVE/WORSCH DRIVE*

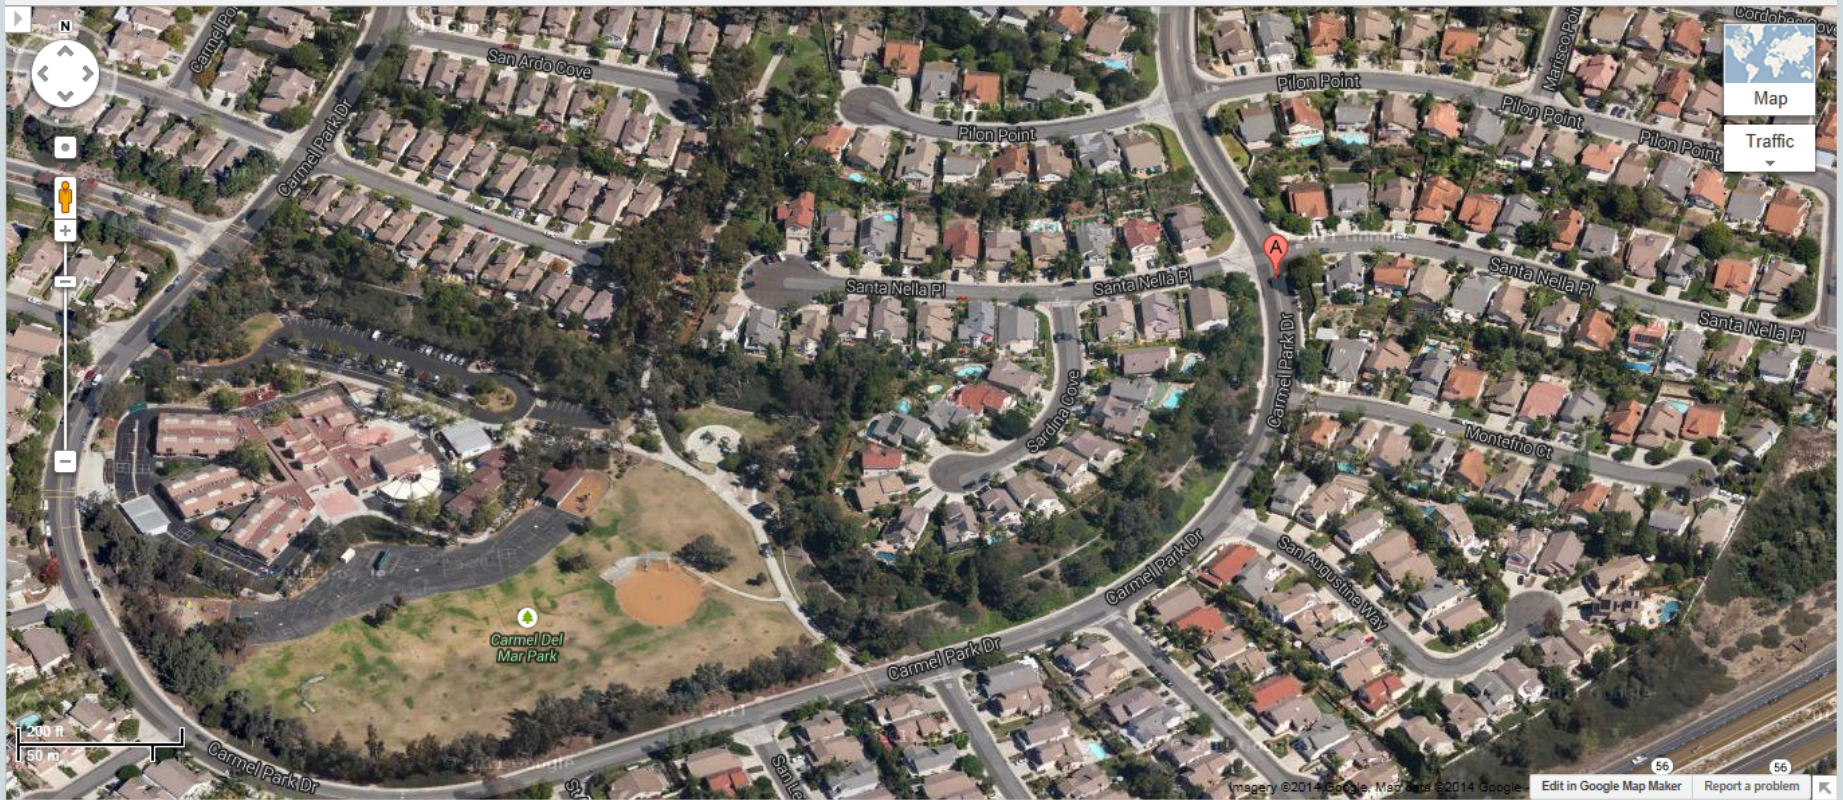

By: Joe Rossettie  
[rossettie@lawevo.com](mailto:rossettie@lawevo.com)

# Main Issues

- **Excessive Speed** on Carmel Park Drive/Worsch Way
  - Speed Limit was raised to 30MPH, drivers are probably averaging at 40-45MPH.
- Drivers **Ignore Crosswalk** and Do **NOT** Stop
- **Passing with yellow line & crosswalk** on the left and right as vehicles turn west onto Santa Nella Place to drop kids off to CDM.
  - Accident in December nearly striking children
- Curve creates an **Unsafe Zone for Crossing**
  - 30 MPH = 44 Feet per Second
  - 45 MPH = 66 Feet per Second
  - ***14-22 Yards per Second***

# Overview of Problem Intersection

# Street Level (South and North from East Side)

# Street Level (From West Side/South Corner)

# Other Considerations

- Stop Sign at the intersection of Worsch Way & Del Mar Trails Road was met with enthusiasm and mitigated excessive speed.
- The traffic is going up due to the construction project of townhomes on the corner of Worsch and Del Mar Trails

# Thank you!

- On behalf of myself, my neighbors and the CDM family, we appreciate your support and attention to the very important issue, which I believe will avert disaster in the near future.
- If you have any other questions, please contact me at [rossettie@lawevo.com](mailto:rossettie@lawevo.com)
