

Some Ideas

Commercial Streets

Canyon Streets

Residential Streets

Table #
4

Key Questions:

1. Where would you place green streets and/or complete streets?
2. How would you integrate cars/ pedestrians/bicycles?
3. Are there connections that don't exist today that should be made to complete the community, or ones that do exist that should be severed?
4. Are there other uses that could be made of the street right-of-way, either permanently or temporarily?

Key Questions:

1. What are the opportunities presented by Balboa Park?
2. What opportunities are there for natural open space and/or small (pocket) parks/green plazas?
3. What are the community activities in GGH that require facilities?
4. How does/can recreation and open space define the community?
