Questions and Answers

Question 1:

Does our proposed program need to contain all components listed in Section II.A.2, Community Outreach, Meeting Facilitation, and Public Participation? Or, can we propose a program consisting of a combination of some of these components as well as other components to best achieve the project objectives established by the City?

Answer 1:

Section II, paragraph A, item 2 of this RFP specifies the minimum requirements, and therefore Proposers must submit their proposal in accordance with this section. However, Proposers may also submit alternative proposals in accordance with Section C.6, "Alternative Proposals" within the City of San Diego General Provisions for Proposals dated 01/18/2005 (which are incorporated by reference in Section VI, paragraph E of this RFP).

Question 2:

Has the City procured public outreach/facilitation services in the past for community planning efforts? If so, can the City provide the names of the firms?

Answer 2:

The City has procured public outreach/facilitation services in the past for community planning efforts. You may submit a Public Records Act request for more details directly to the City Planning and Community Investment Department.

Question 3:

Will Spanish translation be required for all materials and workshop sessions?

Answer 3:

The Specifications have been changed to address this question. Please refer to Section II, paragraph B, item 2.k and paragraph C, item 15 of this Addendum.

Question 4:

Can the City provide direction on the estimated budget for the services described in the RFP?
Have funds been appropriated for the length of the project?

Answer 4:

This information is not being provided during this RFP process. Proposers must submit price proposals based upon the requirements and deliverables specified in this RFP. Funds have been appropriated for the length of this project.

Question 5:

Who has the City hired for the Urban Design, Transportation, Historic Resources, EIR, and Economic Consultants?

Answer 5:

Consultants for Urban Design, Transportation, Historic Resources, EIR, and Economics have not been selected for this Update Cluster at this time.

Question 6:

Has there been any outreach to the general communities and community planning groups about this effort that will be underway? If so, what kind of awareness or outreach has been done to date? What has been the general sentiment about the effort to create a clustered community plan update?

Answer 6:

Yes. There have been several staff announcements and reports to each of the three communities involved in this particular Update Cluster, as well as discussions with non-community planning group organizations and individuals from the communities about the general scope of the plan update. A general sentiment about the clustered approach to the update has not been formerly expressed by the community planning groups, community-related organizations, or members of the public.
