MSCP Roadkill Monitoring

Pursuant to section four of the *Biological Monitoring Plan for the Multiple Species Conservation Program* (1996), the City collects roadkill data in plan-specified habitat linkage roadway areas that are within its jurisdiction.

All information was collected by the City of San Diego's Environmental Services Department (ESD) and is included in the attached list. The species from ESD's list were mapped by the City's Open Space Division. All maps and collection information are attached and serve as the City's MSCP roadkill monitoring report.

Acknowledgments

The following staff assisted in the preparation of this report:

Betsy Miller, Biologist III

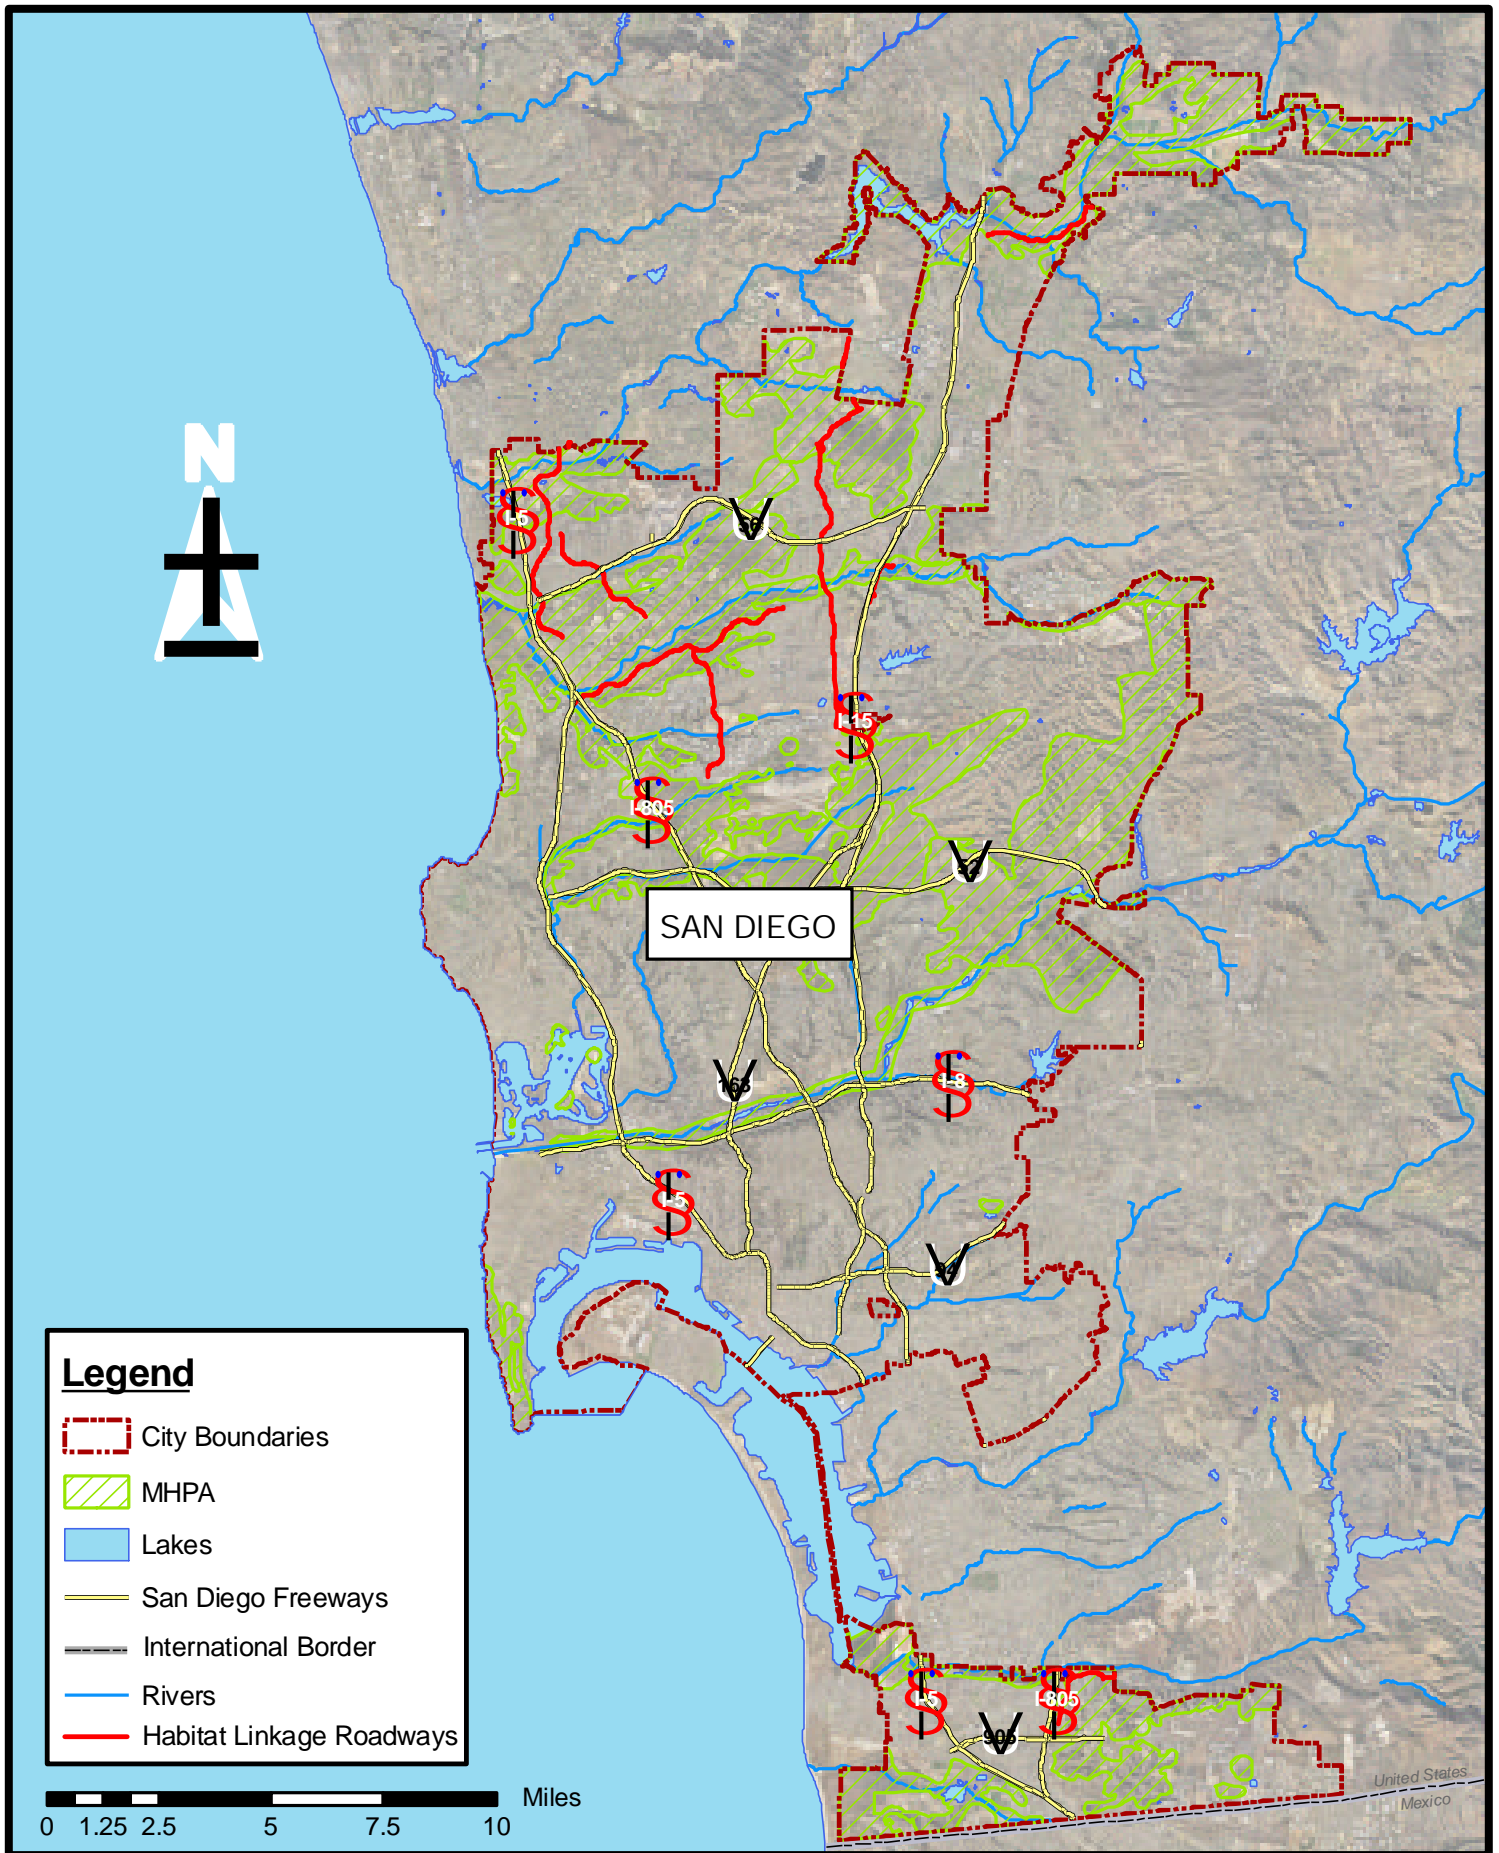

Roger Wammack, General Utility Supervisor, Environmental Services Department Waste
Reduction & Enforcement

Robert Minet, Public Works Supervisor, Environmental Services Department WRAD / Field
Operations

Tyler Friesen, Open Space Intern

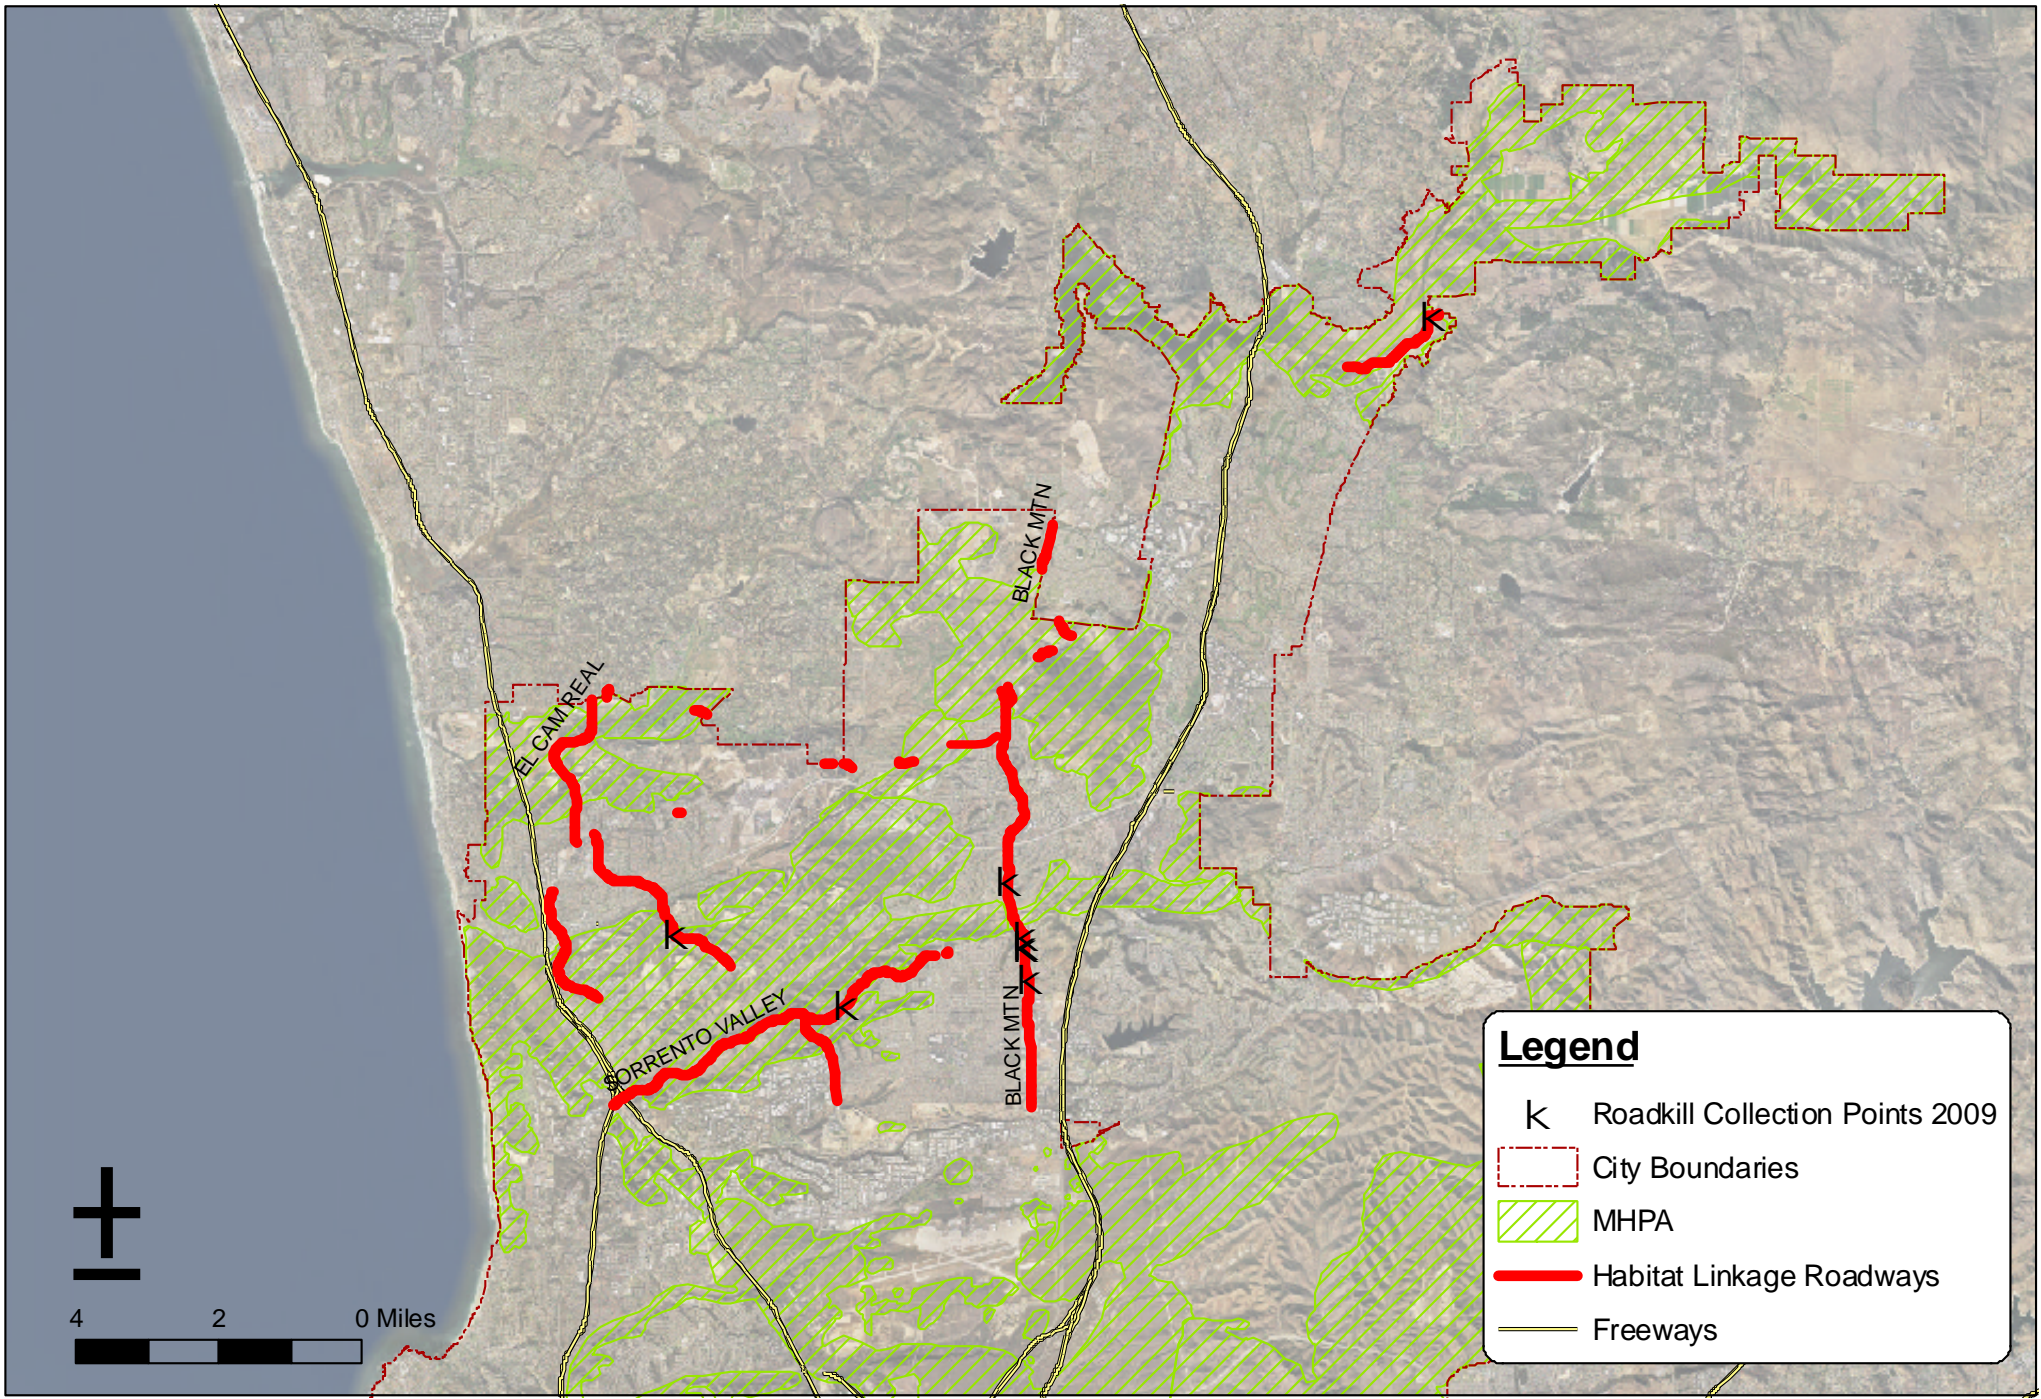

Roadkill Records from Environmental Services Department, January 1, 2009, through December 31, 2009
