### **DUI Checkpoint Planned for Thanksgiving Weekend**

The San Diego Police Department Traffic Unit will be conducting a DUI checkpoint on Friday, November 26, 2010, from 9:00 p.m. to 4:00 a.m. DUI checkpoints are an enforcement tool that has proven effective in reducing the number of persons killed and injured in alcohol-related crashes, as well as being a valuable means for heightening awareness of the dangers of impaired driving.

Officers will be checking drivers for signs of alcohol and/or drug impairment. Officers will also check for proper licensing and will strive to impact motorists only momentarily. If officers suspect that a driver has been drinking or is impaired, they will conduct a field sobriety test. If arrested, drivers can expect to be booked into jail, vehicle impound and storage fees, license suspension, insurance rate increases, as well as fines, fees, educational classes, and other expenses that can exceed \$10,000.

Statewide, overall traffic deaths declined by 23%, from 3,995 in 2007 to 3,081 in 2009. Total traffic fatalities are at their lowest levels in six decades, since the federal government began compiling statistical data. According to federal statistics, DUI-related deaths declined by 16%, from 1,132 in 2007 to 950 in 2009. Alcohol-impaired deaths still account for the largest category of overall vehicle fatalities. In 2009, 31% of all deaths were caused by a drunk or impaired driver.

“Everyone in California should be heartened with these figures,” said Christopher J. Murphy, Director of the California Office of Traffic Safety (OTS). “But as encouraging as this is, we can’t let up on the efforts to encourage and support traffic safety. You can help make your community safe; if you see a Drunk Driver – Call 9-1-1.”

Funding for this and other DUI checkpoints is provided to the San Diego Police Department by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration, targeting those who still don’t heed the message to utilize a sober driver.
