

Capital Improvement Program

Fiscal Year 2019 Proposed Budget Summary

The Fiscal Year 2019 Proposed Capital Improvements Program (CIP) Budget is \$553.2 million. This Proposed Budget allocates existing funds and anticipated revenues to both new and continuing projects in the City's multi-year CIP. The Proposed allocation of funds is based upon an analysis of available funding sources as well as a review of project needs and priorities. The City's CIP needs often outweigh available resources; therefore, the Proposed Budget is constrained by the availability of funds. The Fiscal Year 2019 Proposed CIP Budget, as summarized in **Table 1** below, is funded by a variety of sources, including, but not limited to, water and sewer enterprise funds, TransNet, development impact fees (DIF), and park improvement funds. Further details on all funding sources and the specific projects included in the Fiscal Year 2019 Proposed CIP Budget can be found later in this section, beginning on page 8.

Table 1: Fiscal Year 2019 Proposed CIP Budget

Funding Source	FY 2019 Proposed	Percent of Total CIP Budget
Developer Funding	\$ 2,081,000	0.38 %
Enhanced Infrastructure Financing District Fund	369,048	0.07 %
Fleet Services Internal Service Fund	250,000	0.05 %
Gas Tax Fund	12,510,879	2.26 %
General Fund	1,336,800	0.24 %
Infrastructure Fund	16,156,068	2.92 %
Maintenance Assessment Districts	170,000	0.03 %
Mission Bay Park Improvement Fund	6,591,611	1.19 %
OneSD/ERP Funding	299,679	0.05 %
Other Funding	2,578,580	0.47 %
Recycling Fund	55,200	0.01 %
Redevelopment Funding	2,500,000	0.45 %
Refuse Disposal Fund	4,076,800	0.74 %
San Diego Regional Parks Improvement Fund	3,549,329	0.64 %
Sewer Funds	212,452,242	38.40 %
TransNet Funds	19,786,554	3.58 %
Trench Cut/Excavation Fee Fund	2,000,000	0.36 %
Utilities Undergrounding Program Fund	5,100,000	0.92 %
Water Fund	261,358,994	47.24 %
Grand Total	\$ 553,222,784	

An additional \$376.1 million of funding is anticipated to be received during Fiscal Year 2019. This anticipated funding is not included in the Proposed Budget because the funding sources either

Capital Improvement Program Fiscal Year 2019 Proposed Budget Summary

require additional City Council approval, such as Facilities Benefit Assessments (FBA), bonds, Commercial Paper, and grants, or the funding sources are more tentative and staff will request City Council approval to appropriate when the funds have been received. Anticipated funding includes a variety of sources such as donations, grants, debt financing, developer funding, and FBA.

The Fiscal Year 2019 Proposed CIP Budget will support various types of projects, as displayed in **Figure 1**, such as water and sewer facilities, buildings, and transportation projects. Because the allocation of resources is primarily driven by the availability of funds, the distribution of the Proposed CIP Budget is concentrated on those project types with dedicated funding sources. The Water and Sewer Funds account for the majority of the Proposed CIP Budget and support water and wastewater project types. In addition, 96.2 percent of the Proposed CIP Budget allocation for City buildings is for buildings that are maintained and operated by the Public Utilities Department and are funded by the Water and Sewer Funds. Transportation projects are primarily funded by TransNet and gas taxes, which may also fund transportation components of other project types in the right-of-way. Landfills, airports, and golf project types are funded by enterprise funds. Parks, and other building projects such as police, fire, and library buildings, compete for scarce resources, including development impact fees and the City's General Fund.

Figure 1: Fiscal Year 2019 Proposed Budget by Project Type

Capital Improvement Program Fiscal Year 2019 Proposed Budget Summary

The City's multi-year CIP includes assets which are maintained and operated by a variety of City departments, as shown below in **Table 2**. The largest funding allocation in the Fiscal Year 2019 Proposed CIP Budget is for the Public Utilities Department's projects, receiving \$471.3 million, or 85.2 percent, of the Proposed CIP Budget. The next largest portion is for the Transportation & Storm Water Department's projects, with \$59.1 million, or 10.7 percent, of the Proposed CIP Budget. This distribution of funding for each department's projects is primarily dependent upon the availability of funding for the types of assets maintained by each department, combined with the amount, size and condition of those assets. Project pages for each asset managing department can be found later in this volume, beginning on page 85.

Table 2: Multi-Year CIP

Department	Prior Year	FY2019 Proposed	Future Years	Total
Airports	\$ 26,279,067	\$ -	\$ -	\$ 26,279,067
Citywide	63,651,736	3,590,800	681,640,478	748,883,014

Grand Total	\$ 3,317,874,367	\$ 553,222,784	\$ 5,168,999,830	\$ 9,040,096,981

The Fiscal Year 2019 Proposed CIP Budget will add \$553.2 million to the City's \$9.04 billion multi-year CIP, as reflected in **Table 2**. City Council previously approved \$3.32 billion towards projects that are continuing from previous fiscal years. An estimated \$5.17 billion of additional funding will be needed in future years to complete the projects currently in the City's CIP and to fund annual ongoing capital expenses, such as road resurfacing and pipe replacements. The City's CIP does not include all of the City's unfunded CIP needs or new projects which may be added in future years. For more information about the City's multi-year CIP, please refer to the Profile of the City of San Diego's CIP section, beginning on page 27.

Capital Improvement Program

Fiscal Year 2019 Proposed Budget Summary

Funding Sources for the Fiscal Year 2019 Proposed CIP Budget

The Fiscal Year 2019 Proposed CIP Budget of \$553.2 million was developed by evaluating available funding sources for new and continuing CIP projects. The following discussion identifies the funding sources which have been allocated to projects for Fiscal Year 2019 and describes each funding source's purpose and constraints. Some funding sources are very flexible and can be used for a variety of projects while other funding sources are restricted, in some cases to certain types of projects or areas of the community. Further, funds to support capital projects are limited, requiring that project needs and priorities be evaluated within the requirements of the funding source. For more information on common funding sources used in the CIP, refer to the Funding Sources section of this volume beginning on page 65. While projects are prioritized within project types, funding sources may be constrained by other factors, such as geographic region or specific contractual agreements. Therefore, projects with low priority scores may be proposed to receive funding because they are the highest scoring projects that meet the requirements of a particular funding source.

The Fiscal Year 2019 Proposed CIP Budget includes funding for 88 CIP projects, of which twelve are included in the CIP publication for the first time, five of which require City Council authorization. Most of the projects are standalones, limited to a single asset or set of assets with a clear scope for project completion, while others are annual allocation projects which receive funding each year to provide for ongoing repair and replacement of a certain asset type.

Included with the description of each funding source is a list of the projects that will receive funding in Fiscal Year 2019. Projects are listed in alphabetical order along with the project's page number, an indication of whether the project is new for Fiscal Year 2019 or continuing from a prior year, the project's priority score and category, and the Fiscal Year 2019 Proposed Budget amount. Annual allocation projects are not scored. Refer to the Project Prioritization section on page 47 for more information on the scoring process.

Developer Funding

Contributions may be received from developers to support City CIP projects. These funds are provided in order to satisfy conditions placed on development and are usually restricted to certain projects, or types of projects, in specific areas. For Fiscal Year 2019, \$2.1 million of developer funding has been added to the CIP budget in two continuing projects, Table 3.

Table 3: Developer Funding

Total					\$ 2,081,000

Capital Improvement Program Fiscal Year 2019 Proposed Budget Summary

Enhanced Infrastructure Financing District Fund

Enhanced Infrastructure Financing District (EIFD) are authorized under California Government Code section 53398 to establish enhanced infrastructure financing districts and use specified property tax increment revenue generated within such districts to finance certain infrastructure and community benefit projects. In 2017, City Council set up an EIFD in the Otay Mesa Community Planning Area. For Fiscal Year 2019, \$369,048 of Enhanced Infrastructure Financing District Fund has been added to the CIP budget, Table 4.

Table 4: Enhanced Infrastructure Financing District Fund

Project	Page No	Project Status	Priority Score	Priority Category	FY 2019
La Media Road Improvements / S15018	468	Continuing	85	High	\$ 369,048
Total					\$ 369,048

Fleet Services Internal Service Fund

The Fleet Services Internal Service Fund provides all City Departments with motive equipment and comprehensive fleet management services. As an internal service fund, the Fleet Operations Internal Service Fund is funded by other City departments on a cost-reimbursement basis. A total of \$250,000 has been added to the Fiscal Year 2019 Proposed Budget as shown in Table 5.

Table 5: Fleet Operations Internal Service Fund

Project	Page No	Project Status	Priority Score	Priority Category	FY 2019
Fleet Management Software Upgrade / P19000	99	New	N/A	N/A	\$ 250,000
Total					\$ 250,000

Gas Tax Fund

The Gas Tax Fund collects revenue resulting from a tax on the sale of gasoline. The City's share of gas tax revenue is based on a formula that takes into account vehicle registration, assessed property valuation, and population. The funding generated is used to perform citywide repairs and restoration to existing roadways, reduce congestion, improve safety, and provide for the construction of assets within the public right of-way in both the CIP and Operating Budget. A total of \$12.5 million has been added to the Fiscal Year 2019 Proposed Budget as shown in Table 6.

Street Resurfacing and Reconstruction / AID00005	502	Continuing	Annual	Annual	\$ 12,510,879
Total					\$ 12,510,879

General Fund

The City's General Fund supports core community services, such as public safety, parks, libraries, refuse collection, roadway maintenance, and infrastructure projects. The largest funding sources for the General Fund are taxes, such as property, sales, and transient occupancy taxes, and franchise fees. Because the General Fund is the primary funding source for basic City services and those funds are limited, General Fund monies are only used for the most urgent capital projects that do not have any other available funding sources. The use of General Fund monies for CIP impacts the operational budgets of the departments requesting these funds. The General Fund CIP budget for Fiscal Year 2019 is \$1.3 million as shown in Table 7.

Table 7: General Fund

I AM Enhancements / T19001	108	New	N/A	N/A	50,000
Total					\$ 1,336,800

Infrastructure Fund

The Infrastructure Fund was established by Section 77.1 of Article VII of the City Charter to be a dedicated source of revenue to fund General Fund infrastructure projects. This amendment to the charter was passed by San Diego voters in June 2016. These funds are used exclusively for the acquisition of real property, construction, reconstruction, rehabilitation, repair and maintenance of infrastructure, including the associated financing and personnel costs. The amount of revenue received by the fund is determined based on a formula that accounts for growth in major General Fund revenues and reductions in pension costs. For Fiscal Year 2019, a total amount of \$16.2 million has been allocated to twelve projects, as shown in Table 8.

Maintenance Assessment Districts

Property owners in Maintenance Assessment Districts (MADs) assess themselves in order to pay for enhanced improvements, maintenance, services, and activities in their community. If those improvements are capital in nature, they are included in the CIP budget. Listed below in Table 13 are the \$170,000 of MAD-funded projects requested by the respective districts for inclusion in the Fiscal Year 2019 Proposed CIP Budget.

Capital Improvement Program

Fiscal Year 2019 Proposed Budget Summary

Mission Bay Park Improvement Fund

The Mission Bay Park Improvements Fund receives revenue from Mission Bay rents and concessions in accordance with San Diego City Charter Article V, Section 55.2. These funds may only be spent in the Mission Bay Park for capital improvements. The Fiscal Year 2019 Proposed CIP budget of \$6.6 million is based on current projections of the revenue to be received by the end of Fiscal Year 2019. Once the revenue is received, the Park & Recreation Department will work with the Mission Bay Park Improvement Fund Oversight Committee to identify specific sub-projects per the City Charter and based on the actual amount of available revenue. For Fiscal Year 2019, \$6.6 million has been allocated in the Mission Bay Improvements annual allocation, as shown in Table 10.

Table 10: Mission Bay Park Improvement Fund

Project	Page No	Project Status	Priority Score	Priority Category	FY 2019
Mission Bay Improvements / AGF00004	251	Continuing	Annual	Annual	\$ 6,591,611
Total					\$ 6,591,611

OneSD/ERP Funding

The OneSD Support Fund is a special revenue fund which receives revenue from other City departments in order to manage and maintain the City's Enterprise Resource Planning (ERP) system. While most of the funding is used to maintain the existing system, efforts are also underway to implement and/or integrate additional modules into the ERP system. The Fiscal Year 2019 Proposed CIP Budget includes \$299,679 of OneSD Support Funds, as shown in Table 11, to establish a new project to implement the Infrastructure Asset Management (IAM) system.

Other Funding

The East Village Pedestrian Bridge Fund is a restricted funding source that must be used for improvements inside the Park Boulevard and Harbor Drive Pedestrian Bridge Area. The Fiscal Year 2019 Proposed CIP Budget includes \$2.6 million of East Village-Pedestrian Bridge funding.

Total					\$ 55,200

Redevelopment Funding

The Redevelopment Agency of the City of San Diego was created by the City Council in 1958 to alleviate conditions of urban blight in designated areas of the City and was dissolved by the State in 2012. These funds were transferred to the City as the Successor Agency. A total of \$2.5 million has been added to the Fiscal Year 2019 Proposed Budget as shown in Table 14.

Table 14: Redevelopment Funding

Refuse Disposal Fund

The Refuse Disposal Fund is an enterprise fund that is used to operate the City's Miramar Landfill and maintain the City's inactive landfills. Most of the capital projects supported by this Fund are focused on ensuring regulatory compliance at these landfills. Projects are funded and prioritized based on deferred capital and regulatory requirements. For Fiscal Year 2019, \$4.1 million has been allocated, as shown in Table 15.

San Diego Regional Parks Improvement Fund

The San Diego Regional Parks Improvement Fund receives revenue from Mission Bay rents and concessions in accordance with San Diego City Charter Article V, Section 55.2. These funds may only be spent on capital improvements in the City's regional parks, including Balboa Park, Chollas Lake Park, Mission Trails Regional Park, Otay River Valley Park, Presidio Park, San Diego River Park, open space parks, and coastal beaches and contiguous coastal parks. Once the revenue is received, the Park & Recreation Department works with the San Diego Regional Parks Improvement Fund Oversight Committee to identify specific sub-projects based on the actual amount of available revenue. For Fiscal Year 2019, \$3.5 million has been allocated to six projects, which includes one annual allocation, as shown in Table 16.

Capital Improvement Program

Fiscal Year 2019 Proposed Budget Summary

Sewer Funds

The Sewer Funds are enterprise funds that support the Municipal and Metropolitan Sewer Systems. Funding for sewer capital projects is provided by sewer rates and grants. Projects utilize a variety of financing strategies, including pay-as-you-go cash financing, bond financing, and state revolving fund loans. A total of \$212.5 million in Sewer Funds is added to the CIP budget for Fiscal Year 2019, as shown in Table 17. This funding will support projects to meet the requirements of the Clean Water Act, projects to replace and/or rehabilitate the aging sewer system infrastructure, and the Pure Water program.

TransNet Funds

TransNet is a one-half cent local sales tax that can only be used for projects in the City's right-of-way. The primary goal of TransNet funding is to reduce traffic congestion. In addition to roadway improvements, the funds can be used for bicycle facilities, bridges, pedestrian facilities and traffic signals. Transnet also includes funding that is used in the Operating Budget. The City's transportation needs greatly outweigh the availability of funds. Projects are considered for inclusion in the budget based on community needs and the individual project's priority score. Efforts are made to distribute funding among all transportation assets types, such as roadways, traffic signals and calming, and bike facilities. Priority scores vary among the transportation asset types which results in funding some projects that are scored lower within the overall transportation category but highest within the individual asset type. The Fiscal Year 2019 Proposed CIP Budget of \$19.8 million, as shown in Table 18, adds funding to 18 projects, which includes 10 annual allocations.

Trench Cut/Excavation Fee Fund

Pavement deterioration studies show that pavement excavations significantly degrade and shorten pavement life. Street Damage Fees are collected from excavators to recover the increased repaving and reconstruction costs incurred by the City as a result of trenching. In conjunction with the Streets Preservation Ordinance adopted in January 2013, Council approved a graduated increase in fees towards full cost recovery. Fees depend on the size of the trench, the age of the pavement, and the type of utility. For Fiscal Year 2019, \$2.0 million has been allocated to one annual allocation, as shown in Table 19.

Table 19: Trench Cut/Excavation Fee Fund

Total					\$ 2,000,000

Utilities Undergrounding Program Fund

This fund provides for the undergrounding of City utilities. San Diego Gas & Electric (SDG&E) includes a surcharge for the undergrounding of utilities on electric bills. This amount is deposited with the City to be used solely for the undergrounding of electrical lines and associated activities. For Fiscal Year 2019, \$100,000 has been added in the Governmental Funded Information Technology Projects annual allocation and \$5.0 million has been allocated in the Utilities Undergrounding Program annual allocation for undergrounding managed by the City, as shown in Table 20.

Water Fund

The Water Fund is an enterprise fund that supports the City's Water System. Funding for water capital projects is provided by water rates and grants. Projects utilize a variety of financing strategies, including pay-as-you-go cash financing, bond financing, commercial paper, and state revolving fund loans. The Fiscal Year 2019 Proposed CIP Budget of \$261.4 million from the Water Fund, as shown in Table 21, includes projects contained in the Compliance Order from the California Department of Public Health as well as projects to meet the requirements of the federal Safe Drinking Act, projects to replace and/or rehabilitate the aging water system infrastructure, and the PURE Water Program.

Developer Credits

Pursuant to the Municipal Code and City of San Diego Regional Transportation Congestion Improvement Program (RTCIP) Funding Program, the City may accept public facilities improvements as consideration in lieu of the FBA, DIF, or RTCIP. In these cases a developer provides capital improvements as credit against current and future fees. The amount of the credit is based on the final cost of the capital improvements as verified by the City. A credit is only available based upon an executed reimbursement agreement which has been approved by City Council and pursuant to the RTCIP Credit Policy. Because the City does not receive cash as reimbursement for capital improvements provided by the developer, FBA credits are not included as a funding source in the department's CIP project pages. Therefore, in order to show the contribution of FBA credits to the

Note: The Credit listings above are exclusive to those projects which are being funded through FBA, DIF, and RTCIP credits and is not inclusive of the entire funding program.

1. PFFP stands for Public Facilities Financing Plan.
2. A full description of each project is contained in the respective Public Facilities Financing Plan.
3. This is a completed project with remaining FBA credits scheduled for future years.
4. It is anticipated that final credits will be awarded for this project and used in Fiscal Year 2018.
5. A full description of each project is contained in the Quarry Falls Transportation Phasing Plan Project No. 49068.

Planned Construction Contracts

In Fiscal Year 2012, City Council approved increases in the Mayor's CIP contract execution thresholds. As a result, most CIP projects are able to proceed with awarding construction contracts without returning to City Council for additional authorization, as long as City Council has approved the project's budget and the contract is under \$30 million. This is estimated to reduce project execution timelines by three to 12 months. Since the individual contracts are no longer brought before City Council prior to award, they are provided here. The list of projects anticipated to move forward to bid and award construction contracts during Fiscal Year 2019 is shown in Table 23, and

Capital Improvement Program Fiscal Year 2019 Proposed Budget Summary

includes contracts over \$30 million that will need additional City Council approval; any changes to the list (i.e., added/deleted projects or contracting method) throughout the fiscal year will be communicated to the City Council. The list is organized by department and then alphabetically by project. The table includes the construction contract delivery method and estimated amount of the contract.

Conclusion

The Fiscal Year 2019 Proposed CIP Budget provides a \$553.2 million increase to the City's multi-year CIP. This budget will establish five new projects and add funding to 292 continuing projects spanning a variety of departments and project types. The Fiscal Year 2019 Proposed CIP Budget also includes a list of projects which are anticipated to be entering into construction contracts during the fiscal year
