The Department of Real Estate and Airport Management's (DREAM) Airport Management team manages and operates Brown Field Municipal Airport and Montgomery-Gibbs Executive Airport with a combined 1,330 acres of real estate property. These two general aviation airports contain nearly eight miles of runways and taxiways, which safely accommodate approximately 400,000 annual aircraft operations, including those of the military, U.S. Customs and Border Protection, San Diego Police, San Diego Fire-Rescue, Cal-Fire, Sheriff, Medi-Evacs, as well as business and recreation sectors. The most critical factor associated with airport management is maintaining safety. To that end, the Capital Improvements Program plays an important role by rehabilitating and repairing the pavement and lighting of runways, taxiways, and aircraft ramp areas. These capital improvements are largely funded by the Federal Aviation Administration (FAA) with Caltrans matching grants, as well as DREAM - Airport Management Enterprise Fund. Additionally, DREAM - Airport Management oversees several other Capital Improvement and Infrastructure needs to accommodate and serve more than 200 aviation and commercial tenants.
