BACKGROUND

This project provides for the design and construction of a new 3.4 acre Neighborhood Park. The proposed park is located in the Scripps Miramar Ranch community, within Council District 5, and may include the following: Children's play area, turf and landscaping, walkways, fencing,

lighting, drinking fountains, site furnishings, identification signage, multi-purpose field, multi-purpose court, picnic facility, bio-swale and detention basin, and ADA parking along Rue Fontenay Court.

DISCUSSION

Public Works Department staff and the Developer conducted three public workshops with the community. The initial workshop was focused on a survey of amenities for community input and vision for this future site. During these community workshops, staff and the consultant provided concepts of proposed amenities.

The proposed GDP before the Board is a product of consensus achieved through those meetings as well as substantial design development undertaken by staff, the community, and project designers.

The proposed General Development Plan improvements (Attachment 1) are listed below.

- Shade structure with picnic tables
- Children's play area
- Sports court plaza
- Comfort Station
- Hi-low drinking fountain with Dog Bowl
- Benches
- Security lighting

The primary issues raised during community input meetings was the need for a comfort station and a shade structure in the park. In response to this, a comfort station and a shade structure have been included in the general development plan.
