Show Us Some Love

Just in time for Valentine's Day, we have a new feature on our website where you can "show your love" for Pure Water San Diego, the City of San Diego's 20-year program to provide a local, reliable and drought-proof drinking water supply. The Pure Water program will use proven water purification technology to clean recycled water further so it is safe to drink.

Visit www.purewatersd.org/isupportpurewater or go to www.purewatersd.org and click on the "Show Your Support" button to add your name to our official list of supporters. Your support is important to the continued success of Pure Water San Diego.

Initial phase 2023

15 MGD
Wastewater will be purified at North City Plant and delivered to San Vicente Reservoir

The Pure Water program will divert approximately 100 million gallons per day (mgd) from the Point Loma Wastewater Treatment Plant to three future water purification facilities located at the North City Water Reclamation Plant, the South Bay Water Reclamation Plant and a future Harbor Drive facility.

Long-term 2035

83 MGD
Wastewater will be purified at Harbor Drive Treatment Facility and South Bay Plant and delivered to San Vicente and Otay Reservoirs

An initial 15-mgd water purification facility is planned to be in operation by 2023. The long-term goal of producing 83 mgd of purified water (one-third of San Diego's future drinking water supply) is planned to be reached by 2035.

This local supply of water will enable San Diego to reduce its reliance on imported water and increase its water independence.

Happy Valentine's Day! We appreciate your support. Learn more about Pure Water San Diego at www.purewatersd.org.

Get Involved

Now is a great time to learn about Pure Water San Diego through tours, presentations and educational events!

During tours, the water purification process is explained in detail and participants get an up-close look at the technology used to turn recycled water into pure water that can be added to our drinking water supply. Sign up for a tour at purewatersd.org/tours.

We also have an active speakers bureau and give presentations to community groups throughout the City. Request a presentation for your community group or organization at purewatersd.org/presentations.

You can also find us at the following upcoming events:
